Dr. Niles, of Jacksonville, does not understand his well. It is 300 feet above the high-water mark of the Florida coast, is but sixteen feet deep, yields a full supply of pure, cold, fresh water, and yet it rises and falls with the ocean tides. He wants it explained.

"I am happy to say," writes W. C. Morrill, 170 Tremont St., Boston, Mass., "that Ellis's Spavin cure is the best in the market. It cured my horse of a large bone spavin, after other liniments, &c., had failed."

Ernest Pellerin, a Frenchman in the employ of the Whittenton, Mass., Manufacturing Co., lost his right hand in one of their mills in February, 1882, and brought suit for $1,500 damages. After four days trial in the superior court there the jury brought in a verdict for $2,750.

The ringing of the curfew bell was resumed at Stratford-on-Avon on the night of September 11th. One of the interesting features of this revival of an ancient custom is the fact that the curfew is rung upon the bell which was tolled at Shakespeare's funeral.

A GOOD INVESTMENT. — One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass.

The discovery of a remedy for the phylloxera is reported at Barcelona by *Et Dia*, and 200 vines in the eastern Pyrenees are said to have been successfully treated by the new cure, which is credited with the power to kill the insect and restore the root at the same time. Fame and riches await the man who shall exterminate the worst pest with which the vineyards of France and Spain and Italy have ever had to contend; but it is to be feared that this latest discoverer claims too much.

WASHINGTON, D. C., May 15th, 1880. GENTLEMEN—Having been a sufferer for a great length of time from nervous prostration and general debility, I was advised to try Hop Bitters. I have taken one bottle, and I have been rapidly getting better ever since, and I think it the best medicine I ever used. I am now gaining strength and appetite, which was all gone, and I was in despair until I tried your Bitters. I am now well, able to go about and do my own work. Before taking it, I was completely prostrated. Mrs. Mary Stuart.

One evening recently, at Grafton, W. Va., Mr. B. G. Mountz heard a noise in his yard, opened the door, and looking out saw a man, at whom he fired. The man was his own son, and dropped dead with a bullet through his head.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it, in all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women; the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster-General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1868, to present date:

Paid to Southern Express Co., New Orleans, J. M. Wescott, Manager	$1,366,306
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to Louisiana State National Bank, S. H. Kennedy, President	122,108
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Charlaron, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Palfrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	13,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$2,253,659
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,627,410
Total paid by all	$4,881,069

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

Hay Fever.

I was severely afflicted for eleven years with Hay Fever after trying almost everything without avail, I gave up all hopes of being cured, when I purchased a bottle of Ely's Cream Balm. To my surprise, after a few applications, I was entirely relieved. R. Watson Harris, Letter Carrier, Newark, N. J.

I recommend to those suffering as I have with Hay Fever, Ely's Cream Balm. I have tried nearly all the remedies, and give this a decided preference over them all. It has given me immediate relief. C. T. Stephens, Hardware merchant, Ithaca, N. Y. Price 50 cents.

Hon. James N. Buffum of Lynn, Mass., while a passenger to Wolfeborough a few days ago lost his pocketbook, containing checks, notes and money, said to amount to between $4,000 and $5,000. The wallet was found in the cars and returned to Mr. Buffum by Miss Mary Dorr, who refused to accept a reward, but an appropriate gift was sent her.

The republicans of Boston opened the campaign by a ratification meeting in Tremont temple on Wednesday, Sept. 26th. There was a great crowd in attendance, and a large number of ladies were in the audience. Music was furnished by a band, and enthusiasm ran high. There was such a large crowd that it was found impossible to accommodate them all in Tremont temple, and a gathering, which was termed an "overflow meeting," was held in the Meionaon, over which Hon. Alanson W. Beard presided. The meeting in Tremont temple was called to order by Dr. George B. Harriman, vice president of the republican city committee, who introduced as chairman of the meeting Hon. John D. Long, who was greeted with a perfect ovation, and it was some time before he could proceed with his speech. The republican apathy which last year elected Butler governor is not anywhere apparent this year.

A year ago Benjamin F. Butler told the Massachusetts greenbackers in plain terms that they were dead, 'played out, as a party. This year the same greenbackers meet again, and nominate Butler as their candidate for governor! No richer specimen of fawning and toadyism has been developed of late years.

Robert B. Roosevelt of New York says Samuel J. Tilden has told him that he (Tilden) is not a candidate for the democratic nomination for president, and would not accept it if tendered him: and that he requested Roosevelt to publicly announce this.

Edward Bates, a plumber of Cambridge, Mass., was to have been married Sept. 26th to a Miss Houdlett of Catskill, N. Y., but disappeared on the 22d, and has not since been heard from.

Capt. Pande, of the Norwegian barque Lizzy, says that when his vessel was sinking, with a signal of distress up, he was passed by five European steamers, which kept on their course and left him and his crew to their fate. The barque went down, and all hands took to her boats, in which they remained thirty hours before they were rescued. No doubt the steamers were racing, and would not spare an hour or two even to save life.

A little girl fell from the bridge across the Yantic river near Norwich, Conn., and would inevitably have drowned if Mrs. McMahon, a woman seventy years of age, had not sprung in after her. They both sank after a struggle, but as they rose again the heroic old woman succeeded in grasping a rock with one hand while with the other she still held the child, and thus kept both their heads above water until they were rescued. The child was then unconscious but she was soon resuscitated.

The wife of Henry Platt of Watertown, Conn., attempted to elope with a young Irishman employed by her husband as a farm hand. She put all her clothes in her husband's carriage, took $250 of his money, and drove off while the family were at a fair, leaving two young children; but her lover was arrested, and she was caught at Waterbury the next day. Her husband has taken her back, she promising reform.

Ella Hill, aged fourteen years, daughter of George Hill of Seymour, Conn., disagreed with her stepmother, and told her playmates that she intended to kill herself. On Wednesday, Sept. 26th, she had a dispute with the stepmother, and went to her room, where she placed the muzzle of a double-barrelled shotgun to her left breast, fired the gun with one of her feet, and shot herself dead.

Mrs. Parnell, the mother of the Irish home-rule leader, left home at Ironsides, N. J., recently, to take a train for Bordentown, N. J., intending to go to New York. She was on the railroad track, and hearing the train coming, became bewildered, and stood on the track. Switchman Flynn, who knew her by sight, saw her danger, and rushing down the track threw her off, and barely escaped being killed himself, although the engineer had reversed his lever and applied the brakes.

Capital is notoriously timid. Investors of to-day are not anxious for high rates as for ample security. It is to convince investors of the undoubted solidity of the five per cent bonds of the Vermont & Massachusetts Railroad company that the Maverick Bank of Boston has taken so much pains to set forth in a neat pamphlet the condition of the road, the terms of its lease to the Fitchburg railroad, which guarantees these bonds, *principal and interest*, and the condition of the latter road. Vermont & Massachusetts railroad stock sold the other day at 133 1-2; Fitchburg stock sold at 127. With stock at these prices at a time when all stocks are believed to be near bed-rock, is it too much to urge the absolute security of the V. & M.'s five per cent bonds? It would seem not. And for these reasons these bonds appear to be available not only for individuals, but also for savings banks, institutions, trustees; in fact, for any one desiring a first class investment.—*Commercial Bulletin.*

GOSSIPS SAY

That the Aqueduct Co.'s workmen were on Thursday engaged in mending some very bad leaks in the water pipes about town, the principal ones being on Bridge street and at Ward's distillery.

That the recent rain raised the water in the springs at Fountain Head more than four inches.

That during September, 1882, ten and one-half inches of rain fell, while during the present month, up to noon on Monday, the 24th, there had been only nineteen-hundredths of an inch of rain-fall.

That a well driven for the Aqueduct Co. on the Haven Scott farm, Gosling road, has struck an abundance of water at a depth of forty-seven feet.

That some of the finest pieces of carved work in the city have been turned out by Mr. E. A. Tilton at his music rooms in Franklin block.

That Gov. Hale's staff was much criticised at the Veterans' Reunion and at the brigade muster in Concord, for appearing in fatigue uniform instead of full dress, as was proper.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, Sept. 27th, Ald. Hackett in the chair.

Present the full board.

The records of the last meeting were read and approved.

Bills of fire department to Oct. 1st, amounting to $1556.52, and $50 salaries, were ordered paid.

City clerk announced that the appropriation for printing was exhausted.

A. K. Brown's bill for sprinkling streets, $250, was ordered paid.

Henry A. Yeaton was granted leave to encumber State street, for repairing building; his request to enter sewer on same street, was referred to com. on sewers, with power.

Anderson & Junkins were granted leave to encumber Market street, for repairing building of John H. Wells.

Petition of Mrs. C. E. Dixon and others, for a public sewer on School street, was referred to the com. on sewers, to report.

Petition of John A. Goss and others, of the Good Templars' society, for the removal of a sign of True M. Priest, "Eldredge's lager on draught," was referred to the com. on streets.

An order was passed that F. W. Rogers be paid $25 in full for the use of the reservoir on his premises on Vaughan street, and that the use of the reservoir be discontinued.

The condition of the city horses was brought before the board by Ald. Sampson; and Aldermen Caswell, Martin and Sampson were appointed a committee to investigate the matter, and report.

Ald. Anderson reported the destruction of city property, probably by boys, in the breaking of glass, locks, doors, etc., and the defacing of fences. Referred to Ald. Caswell, Anderson and Stavers, to report.

Charles H. Hayes was appointed special police at the Plains, and John Morgan at the Portsmouth Brewing Co.'s premises.

Ald. Stavers, Janvrin and Martin were appointed a committee to report upon the advisability of selling the Spring market.

Adjourned for one week.

BODY FOUND.

The body of Frank Foster, one of the young men drowned by a boat accident on the morning of Saturday, Sept. 15th, was found on Thursday, the 27th, near the old wharf on Marvin's island below the second Newcastle bridge, and not far from where the boat capsized. The body was in a very bad condition.

FIRES IN KITTERY.

There were two fires in Kittery on Wednesday night of this week. The house of James D. Plaisted, near Spruce creek, took fire from a defective chimney, as is supposed, and was burned, with the outbuildings, and most of their contents. The loss is placed at about $3500, with $1800 insurance.

Mrs. Bowman's house at Kittery Point, near the Christian church, was also burned. Mrs. Bowman during the night went into the attic for some purpose, and was returning when she dropped a lamp she was carrying, which broke and set fire to the house. Mrs. Bowman fainted before she could get out of the house, and was taken out by neighbors, who saw the light of the fire. The loss was about $3000, with only a few hundred dollars of insurance.

INFORMATION WANTED.

A gentleman who "paid a contribution to the fund for carrying on the Firemen's Muster, would like to see published a report of the treasurer of the committee, properly vouched for. If there be a surplus, it should be seen to what uses it shall be appropriated. If there is a deficiency, properly proved, it is believed the firemen, aided by the friends of the department, will make it up. In either case it is due to the parties who so generously contributed in aid of the muster fund, that a proper statement should be made as to what was done with the money."

"Morris' Warblers and Trip Around the World Combination," a reorganization of the famous Morris Brothers' minstrels, under the management of Mr. Chas. A. Morris, will give one of their highly entertaining and interesting performances at Music hall on Wednesday evening, Oct. 3d, introducing their new and magnificent panorama, in which are required and are engaged specialty artists of acknowledged reputation, among whom are the unequalled American (male) quartette. Their entertainment is refined, introducing new features in minstrelsy, entirely devoid of all vulgarity and coarseness. See advertisement in another column.

The United States tug Pinta arrived at the navy yard on the 27th inst., from New York. She is a fourth rate screw steamer of 306 tons, (the same size as the Leyden, Speedwell and Mayflower,) built of iron, and carries a battery of two howitzers. She is intended for service on the coast of Alaska, if it is finally decided that she is fit to go around the Horn or through the straits of Magellan.

The ladies of the 2d Methodist Episcopal church of Kittery gave a novel variety fair in their vestry not long since, when a good number of people attended, and many useful articles were disposed of, including potatoes by the peck or bushel, beets, turnips, carrots, cabbages, onions, etc. A bantam rooster presented by a young lady was sold at a good price. A beautiful upholstered chair and a spring bed were contributed by Sheldon Brothers, the extensive furniture dealers of Portsmouth; the proceeds amounted to over $30.

The directors' car of the Eastern railroad on Monday of this week brought to this city a number of the road's officials, for the purpose, it is said, of examining the site of the proposed new coal-pockets on Noble's island. The car passed through the city again on Thursday, on the way from Boston to Portland.

Frank P. McIntire, the recently-deceased son of Mr. Daniel McIntire, toll-gatherer of the Portsmouth bridge, was a youth of more than ordinary intelligence and promise, and his loss is deeply regretted by many persons outside of his immediate circle of relatives. He has within a few years furnished many little items of river news to this paper, particularly as to the vessels passing through the draw of the bridge, and we invariably found his information correct.

It has been stated that Moses H. Goodrich engine company, No. 4, intended attending the fireman's muster at Haverhill, Mass.; but a prominent member of the fire department informs us that on Thursday evening, Sept. 20th, a vote *not* to attend was passed by the company.

Mr. John H. Wells is having the floor lowered and a new iron front put into his store in Merchants' Row, Market street.

The heaviest dealers in molasses in New Hampshire are said to be William Ward & Sons of this city, who have now in store about 300 hhds.

The steamer Clara Batemen on Thursday got up steam for the first time since the fire which came so near destroying her; her engines went to work all right, and it was announced that she would be ready for towing this morning. Her services as a towboat have been seriously missed since the accident which laid her up.

Two large schooners arrived at this port Sept. 27th with coal to J. Albert Walker, one of them with 778 tons and the other with 985.

Rev. Wm. E. Gaskin will preach in the Court street Christian church Sunday forenoon, and Rev. John A. Goss will preach in the Universalist church Sunday forenoon.

The lecture in the Methodist church at Kittery on Monday evening, the 24th inst., was not so well attended as it would have been but for the rain, yet about a hundred persons were present, and were well entertained. By request Rev. Dr. Bolton repeated the lecture on Tuesday evening, to a good house; Mrs. Bolton was present and assisted in the singing, and Mr. Tilton of Portsmouth played some selections on the organ. There were present at the reunion of pastors on Monday evening Rev. C. E. Clarke, presiding elder of the Portland district, and Rev. W. W. Baldwin and Rev. E. F. P. Dearborn, former pastors of this church. S. R.

Mr. William F. Grant, foreman of the bridge carpenters of the Portsmouth bridge, was on Thursday reported as being not expected to survive, having been very ill for a week with an acute bowel complaint.

The down trains over the Conway branch of the Eastern road, yesterday, were well filled with passengers from among the White mountain excursionists.

Only three vessels of any size were at the north end wharves Thursday afternoon—a three-masted schooner at the Concord railroad wharf, and a schooner and a barkentine at the wharves below.

At Portland Me., Sept. 26th, an employe of the Boston & Maine railroad, named Daniel Shackley, while at work in the freight yard sat down on the track and fell asleep, and was fatally injured by a shifting engine, dying in a few hours.

How Watch Cases are Made.

In buying a silver watch case great care should be taken to secure one that is solid silver throughout. The cap of most cheap silver cases is made of a composition known as albata, which is a very poor substitute for silver, as it turns black in a short time. The backs of such cases are made much thinner than those of an all silver case, being robbed in order to make the cap thicker and get in as much as possible of the cheap metal. Another important point in a silver case is the joints or hinges, which should be made of gold. Those of most cheap cases are made of silver, which is not a suitable metal for that purpose. In a brief period it warps, bends and spreads apart, allowing the backs to become loose upon the case and admitting the dust and dirt that accumulate in the pocket. The Keystone Silver Watch Cases are only made with silver caps and gold joints.

ST. LOUIS, Mo., Feb. 17, 1883.

In our long and varied experience in handling watches, we cannot but acknowledge and gives our testimony that the Keystone Solid Silver Watch Cases are the best made to our knowledge. Having a soldering iron we made hot impressions, for use and other than they would be were they heated for soldering, and have more resisting power against pressure than any other cases in the market. MERMOD & JACCARD JEWELRY CO.

Send 2 cent stamp to Keystone Watch Case Factories, Philadelphia, Pa., for handsome illustrated Pamphlet showing how James Boss' and Keystone Watch Cases are made. 5

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1846 my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be renewed and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

New Hampshire GAZETTE!

Established 1756.

THE GAZETTE IS PUBLISHED EVERY THURSDAY AND SENT TO SUBSCRIBERS AT THE LOW PRICE OF $1.50 PER YEAR, PAID IN ADVANCE, OR $2 AT THE END OF THE YEAR.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or offered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires at their native city, and is

Dennis Dwyer, a young man, was accidentally shot through the right arm and lung, Sept. 26th, at Waterbury, Conn., while gunning with a companion; he will die.

The Steinberg elevator at Buffalo, N. Y., was burned Sept. 26th. The grain in the building was valued at $102,000, and the total loss is placed at $175,000. The elevator cost $1,000,000 to erect.

A fire occurred in a refrigerator which was being put into the Cunard steamer Cephalonia at Boston, Sept. 26th, damaging the refrigerator to the extent of $3000, and the steamer $150. W. P. Pierce, a carpenter employed on the refrigerator, escaped in safety when the fire broke out, but returned for his tools, and was suffocated.

The Boston base ball club beat the Buffalos at Boston by a score of seven to five, Sept. 26th, apparently settling the contest for the championship in favor of the Bostons, for should they lose every remaining game, and their only competitors, the Providence club, win every one of theirs, the result would only be a tie.

Did She Die?

"No; she lingered and suffered along, pining away all the time for years, the doctors doing her no good; and at last was cured by this Hop Bitters the papers say so much about. Indeed! indeed! how thankful we should be for that medicine."

Lieut. J. C. Cresap is detached from the experimental battery, and ordered to the naval academy.

"Ellis's Spavin Cure is an invaluable preparation and cures as its proprietors claim it does," writes S. B. Mills, No. 5 Union Market, Boston, Mass.

Lieut. E. H. Gheen is ordered to the naval academy.

Dr. C. W. Benson's Celery and chamomile Pills are prepared expressly to cure and will cure Headache of all kinds, neuralgia, nervousness and dyspepsia. Proved and endorsed by physicians.

Lieut. Henry Merrill has been detached from the Speedwell, and ordered to the Alert.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

The Vandalia arrived at Boston Sept. 27th, from Halifax.

Miss Mary F. Willey, Hillsboro Bridge N. H., says "I used Brown's Iron Bitters for dyspepsia and received much benefit.'

The Hartford sailed from Panama Sept. 24th, after a stay of several days at that port, for a cruise northward.

Good health is the greatest of fortunes; no remedy has so often restored this prize to the suffering, as Hood's Sarsaparilla. Try it.

Commander Reed, commanding the Alliance, reports to the navy department under date of Halifax, N. S., Sept. 18th, that the mission of that vessel, so far as communication with American fishermen in the gulf of St. Lawrence is concerned, has not been a success. Although the Alliance visited eleven ports and sailed entirely around the gulf, with the exception of the north shore, she found only four fishing vessels from the United States, and none of these needed protection, as there had been no interference with their fishing, and they had all the privileges of the native fishermen. The Alliance is bound for New York, and is expected to reach that port by Oct. 15th.

Slave or Wife.

[Concluded from last issue]

Meanwhile, Letty in the cream-colored house had not been idle. Tying on a great calico apron in place of the white one, she had quietly washed and but away the dinner dishes and reduced the dining room to order.

Tea was easily arranged, since it was to consist of cold dishes, with glasses of milk for the men. She threw a clean cloth over the whole as soon as it was finished, and went up stairs into the spare chamber to pack her trunk.

Yes, Letty had made up her mind at last. She was going away. Life had degenerated into slavery, unbrightened, as she fancied, by a ray of love.

"And slavery will support one anywhere," thought Letty, as with trembling hands she locked and strapped her trunk, and fastened her few lines to George upon the lid.

At the porch door she paused for one last look around the house that might have been so happy. She did not intend to glance toward the bay field; yet in spite of her resolution her eyes turned that way to single out the tall figure that guided the rattling, clanking mowing machine.

"I wonder if he will miss me a little—just at first?" she mused. "He can get a divorce, I suppose, if I desert him, and then he will marry again. I hope he will be kinder to his next wife than he has been to me."

With tears that rose at the thought of her successor blinding her eyes, Letty failed to see the figure that she sought.

"I am foolish to look at him again. I have never been more than a housekeeper to him from the first," she thought, stumbling blindly on toward the gate, and opening it to find herself in the center of an excited group.

"There, don't ye take on like that!" said Solomon Wyse, who came first and saw the tears upon her cheeks before she could wipe them away. "Were you coming out to meet us? Were in hopes you didn't see anything of it. It's a bad accident, but George is so strong and hearty that he will be up and around again almost before you know it. We've sent Ben Hill off on one of the colts for the doctor, and if you will only tell us where to carry him—"

"Carry him?" repeated Letty.

Solomon stepped aside. She saw behind him a litter roughly made of hay rakes and covered over with coats, and on that litter George was lying, pale and bleeding, with his eyes closed.

"Oh, Mr. Wyse, is he dead?" she asked, turning even paler than George.

"Not a bit of it! Worth twelve dozen dead men yet. Only a bit of a break in one arm and one leg, and a knock on the head when he fell. The horse didn't kick, and he'll be all right as soon as the doctor sees him. Shall we take him up stairs, or where?"

"Bring him in here," said Letty, recovering herself.

She led the way to the bedroom on the ground floor, and helped to shift the maimed figure from the litter to the bed. Her soul was dying within her for fear, yet not a word passed her lips. When the doctor came in he found a capable nurse, dressed in dark print, who listened intelligently to his directions and promised to carry them out fully.

And it so happened that as George Brewster returned to life the first words that fell upon his ear were uttered by the doctor outside the window as he mounted his grip:

"Yes, he will do, Mr. Wyse; he will pull through nice if his wife nurses him. And she can do so nicely, if some of you will send some one to take charge of the house. She is a woman in a thousand. I hope he knows how to value her."

Letty, bending over the bed absorbed in the invalid, had not heard him.

"What is it, dear?"

"The doctor is right. You are a woman in a thousand! I always knew it, Letty, if I never said it. So I tell you of it now, before I die," he added, going off into another faint.

It was all that Letty's sore heart needed. Beside the bed of suffering she spent two of the happiest months of her life. The first act of George Brewster on his recovery was to secure help for his wife, so that she now has plenty of time to get back her lost color and plumpness. They are one in heart, as one in home and name now. And Solomon Wyse has never seen occasion to administer the "talking to."

"Somehow or other," drawls Solomon, "getting run over by that mowing machine was the making of George Brewster."

And Letty and George think so, too.

"I had 'em all," said a rubicund happy faced gentleman. "All what?" asked his friend. "Why all the symptoms of malaria, viz: lame back, aching joints, sleeplessness, indigestion, dizzy fits, cold extremities, rush of blood to the head, constant fatigue, no appetite, pains in the breast after eating, night sweats, alternate chills and fevers, etc etc., but Brown's Iron Bitters cured me and I recommend it as being the only perfect tonic made."

The following letter tells its own story. The signature will be recognized as that of the Physician-in-Chief of the De Quincey Home, and author of "Drugs That Enslave," "The Hypodermic Injection of Morphine," "A Manual of Nursing," and many other popular and valuable special medical works:

191 WEST TENTH STREET, NEW YORK, August 11, 1880.

MESSRS. SEABURY & JOHNSON,

Gentlemen.—Like most of my profession, I am cautious about pinning my faith to any new medicine or curative agent. But your BENSON'S CAPCINE POROUS PLASTER has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mine. Although I was well acquainted with the superior excellence of your other plaster and anti-septic dressing, made especially for the profession, the Benson's was comparatively new to me. I had heard, however, of its merits as a remedy, in cases of Lame Back, Local Rheumatism, Neuralgia, Congestion of the Bronchial Tubes and Lungs, Dyspepsia, Torpid Liver and like affections, and have since begun to experiment with it personally. I find BENSON'S CAPCINE PLASTER an exceptionally cleanly plaster to use, and rapid in its action.

Many tests of its qualities, made in my own family and among my patients, have convinced me that there is no other single article so valuable for popular use, nor so helpful in the diseases I have named.

Should you desire to do so, you may use my name to that effect. Very truly yours.

NATURE'S REMEDY VEGETINE THE GREAT BLOOD PURIFIER

Remarkable Cure of Scrofulous Face.

WESTMINSTER, CONN., June 19, 1882.

MR. H. R. STEVENS—DEAR SIR: I can testify to the good effect of your VEGETINE. My little boy had a SCROFULA sore break out on his head as large as a quarter of a dollar, and it went down his face from one ear to the other, under his neck, and was one solid mass of sores. Two bottles of your valuable VEGETINE completely cured him. Very respectfully,

MRS. G. E. THATCHER.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!
Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of Prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, J. M. Wescout, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to Louisiana State National Bank, S. H. Kennedy, President	128,100

Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	36,000
Paid to Hibernia National Bank, Chas. Matrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	13,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$2,253,650
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,027,410
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

The Concord Fight.

CONCORD, Sept. 27th.

Dear Chronicle: The Brigade Encampment at the old fair grounds is attracting large crowds of civilians to Camp Gov. Hale. Since the rainfall of Wednesday evening the weather has been as favorable as though Old Probs had made it to order.

The National Guard was inspected today by His Excellency Gov. Hale, who was escorted to the camp by a company of cavalry. Upon his arrival a salute of eighteen guns was fired by Capt. Piper's battery. The governor and staff were received at brigade headquarters by the general commanding, who entertained his distinguished guests at a substantial dinner. The inspection and review was witnessed by thousands of people who came to camp in the afternoon. The militia is well uniformed and splendidly equipped.

The necessity for annual musters for regimental and brigade drill was apparent by the length of time it took to form the lines and the awkward movements of several companies in each regiment. The artillery and cavalry, however, were remarkably prompt in responding to the bugle call. The mounted artillery was perfect in drill and equipment, and the horses, most of them, were suitable for their duty, and well instructed. Capt. Coffin's cavalry company was splendidly mounted, and performed their evolutions in their usual creditable manner.

The review was a success upon the whole; but many instances of lax discipline and neglect of important details of drill were noticeable. These defects can be corrected only when the captains bring their several companies up to greater perfection in the tactics. There was but little of the "noble horsemanship" which can witch the world displayed by the mounted officers, many of whom sat all-a-heap in their saddles, and seemed to be trying to elevate their hips to a level with their shoulder straps. And would you believe it? — some of them would attempt to control their restive steeds by violently jerking on their reins, and many would seek to quicken the paces of their chargers by resorting to the market-woman method of *clucking*. The above criticisms apply only to the podgy fellows who have not, and the gawky ones who never can, become good riders.

Some of the officers however were splendidly mounted, and rode with soldierly bearing, conspicuous among whom was Col. Patterson of the 3d Reg't, who rode the old buckskin which bore him bravely through many battles in the late war, and is now thirty years old. Notwithstanding his great age the veteran charger was as full of martial spirit as the proudest steed on the field.

The brigade will break camp Friday P. M., when the boys will go marching home.

A laughable scene transpired during the review, when the state agent of the New Hampshire Society for the Prevention of Cruelty to Animals took a position near a dilapidated old horse harnessed to a top buggy, and began to sketch the team and its occupants. The picture grew rapidly under the swift touches of his facile pencil, and the portraits of the rustic beau and his blushing Dulcinea took form and expression to the evident amusement of a crowd of watching spectators, and the chagrin of the horse owner, who finally broke out with "Say, mister, are ye making yer will?" "Yes," was the cool reply, "and you are mentioned in it." "Well, what yer goin' to leave me?" asked the heir expectant. "I give, devise and bequeath unto you one bushel of oats," said the testator, glancing complacently at the gaunt quadruped before him. The announcement was hailed with such a shout of boisterous laughter by the bystanders that the owner of the forlorn horse backed out and drove off as fast as the feeble creature could trot. It is safe to bet that the old horse will never take that pair to muster again.

A driver who was sitting on a stage in front of one of the leading hotels refused to give his name, or tell the agent of the S. P. C. A. who owned the pair of miserable-looking horses harnessed to his vehicle, and attempted to escape by driving off in haste, but the society man jumped upon the coach and got into it, when, after seating himself comfortably, he asked the driver where he was going. "To hell," was the defiant reply. "All right," said the unperturbed agent, "drive on; I'll bring the horses back." Jehu, like Sinbad the Sailor, soon found he could not shake off or bully his unwelcome passenger, sued for release, and made an unconditional surrender. The jaded horses were taken to a stable, put up for the night and given a supper of oats.

Aside from the muster, Ben Butler on the war-path is the subject of conversation on rail cars and in hotels everywhere, this week. Truly yours, M.

A special agent of the post-office department, who has been looking over certain New England offices, has reported that the postmaster at Portland, Me., while receiving $3000 salary, does not trouble himself much about his post-office, as he is engaged at a much better stipend in revising the statute laws of Maine. Postmaster Gen'l Gresham has some idea that where the government pays a great salary it ought to receive some equivalent from its deputy postmasters; but the latter say if the P. M. G. and other officials abdicate their positions for the summer, and business has to wait their return, why should the appointing power require of subordinate officers a different rule? In some of the departments the replies to important communications have been so long delayed that in all human probability they never will be sent, but the letters received will go on file without answer, as the easiest way out of the dilemma.

An interview alleged to have been had with Senator Bayard by a Chicago *Herald* man, concerning Ben Butler, is repudiated by the senator, who says he declined to be interviewed. The only remark he made about Gov. Butler was that he did not consider him a democrat. He made no allusion to Butler's congressional career, and did not express the hope that he would be re-elected governor of Massachusetts.

Rev. John Parkman of Boston, who has been stopping at a private hospital in East Pepperell, Mass., disapeared Sept. 24th, and had not been found up to the 28th. He was last seen going in the direction of the Nashua river, and a boat belonging to him was afterward found bottom up. The general opinion was that he had been drowned, although a thorough search of the river revealed no clew except the finding of some of his clothes. Mr. Parkman was a Unitarian minister, and had been engaged on some German works. He had occupied the pulpit in that town, and was a nervous invalid. He was seventy years of age, and leaves two daughters. He was a nephew of Dr. George Parkman, the noted millionaire, murdered by Professor John W. Webster of Harvard college, November 23d, 1849.

E. T. Hamor, proprietor of the Grand Central hotel at Bar Harbor, Mt. Desert, has found his daughter Belle, seventeen years old, at Minneapolis, Minn., in company with Lewis H. Conners, a stonemason and boatman of Bar Harbor, with whom she eloped some weeks ago. Conners has a wife and a child six years old, and claims he has not been guilty of bigamy or kidnapping, as the girl went with him of her own accord; he was locked up. The girl says she is eighteen years old, and her own mistress; and if Conners is sent to prison she will wait till he comes out.

The Boston *Traveller* of last Thursday evening said: "Rev. J. Benson Hamilton, H. L. Palmer and F. H. Hull of Providence are on a bicycle tour to Portsmouth, N. H. They made the trip from Providence yesterday to Boston in six hours. They were joined to-day by Rev. I. H. Humphrey, of Edgartown, Mass., and left this morning for Portsmouth."

The house No. 4 Gates street, corner of Washington, was sold by auction on Friday by C. Dwight Hanscom, Mr. A. K. W. Green being the purchaser for $850.

Capt. Pendleton, master of the schooner Tantamount, which arrived at this port on Friday with coal from Hoboken, N. J., reports that when off the Shoals on the previous Wednesday night he saw a three-masted schooner come in collision with a two-master, the latter apparently being struck square amidships by the larger vessel. He thinks the two-master must have gone down, as he saw nothing of her afterward, but if so, she did not sink immediately, so there was time enough for all hands to escape. Nothing was learned as to the identity of either vessel.

Mr. Wm. H. Tarr announces the opening of a new smithy Oct. 1st, on Fleet street, opposite the stone stable, where he will pay particular attention to horse shoeing, with special care in the cases of tender-footed and interfering horses.

An association of the short-hand writers of Boston and vicinity has recently been formed, a constitution adopted, and officers elected, B. C. Stickney being chosen secretary and treasurer. Mr. Stickney is one of the "sons," a graduate of the Portsmouth high school, and a printer; he formerly worked in the office of the Portsmouth *Weekly*, with the late Frank W. Miller, and is now employed on a Boston paper.

MEDICAL.

SCROFULA.

A remedy that can destroy the germs of scrofula, and when once settled has the power to root it out, must be appreciated by those afflicted. The remarkable cures of young children and the more wonderful cures of those of middle age and late in life, as illustrated by our printed testimonials, prove HOOD'S SARSAPARILLA to be a reliable remedy, containing remedial agents which do positively cure scrofula and eradicate it from the blood.

WARNER, N. H., Jan. 21, 1879.

MESSRS. C. I. HOOD & CO., Lowell, Mass.: Gentlemen—For ten years previous to the early part of 1877 I had been a constant sufferer from scrofulous ulcers or sores, which had finally reduced me to a helpless condition, as described in my letter to you in September of that year. The continued excellent health which enables me to keep house for my aged father and to enjoy life, keeps alive my intense personal interest in HOOD'S SARSAPARILLA, and I cannot refrain from expressing my gratitude for the permanent cure this wonderful medicine effected in my case nearly two years ago, while living in Lowell, when all my physicians gave me up as being in an incurable condition. One thing before I close. I have recommended your Sarsaparilla to hundreds, and I think more than a thousand cases, and my faith in its invincibility in curing scrofula has become absolute by the wonderful cures it has effected aside from my own. I trust you will not be slow in making the merits of HOOD'S SARSAPARILLA known everywhere, for it is a duty you owe to mankind. With best wishes I remain very truly yours,

GOSSIPS SAY

That two large seals went up through Portsmouth bridge with the flood tide of Friday morning.

That two boats containing several swell young gunners were following closely in the rear.

That the big machine shop will be roofed in the coming week.

That a partridge was shot in Sparhawk street on Friday.

That Lamprey's dancing school opened in Franklin hall on Friday evening with a large number of scholars, the orchestra being under the leadership of Prof. Fred Hasty.

That one of the most popular barbers in the city is also a mighty hunter.

That he recently hunted a whole week in Auburn, after coons and partridges, and caught nothing.

That he went to the same happy hunting grounds this week, and arrived home Friday night after a splendid week's sport.

That this time he did catch something—a bad cold in the head.

OBSTRUCTING THE STREETS.

Mr. Editor: I see by your report of the doings of the aldermen, that the members of a temperance society have asked the authorities to remove from Market square a large canvas sign which announces that lager beer is on draught in the premises in front of which the sign is displayed. The grounds of the request, as stated in the petition, I am informed are that the trees on which the sign is stretched are the property of the city and on a public street, and that their use for such a purpose is a clearly illegal application of public property and premises for the sole benefit of private interests.

If the committee of the board, to whom the matter was referred, should decide that the points in the petition are well taken, and order the removal of the lager beer sign, (which really incommodes no person,) on the ground that it has no right to be in the place it has so long occupied—after the committee or the board do this, there is another and a much more glaring abuse in the same line to which they would do well to attend. There is an ordinance of the city, passed within a few months, unless my memory is much at fault, prohibiting the obstruction of any street or sidewalk by placing thereon by any trader of any goods for sale; and yet one of the most public streets of the city is every day, and far into the night, obstructed by the display of tin-ware, crockery, vegetables, buckets and brooms, clothing, etc., extending ten or twenty feet into the street, and compelling every team to keep in the middle of the street; and this almost *directly opposite the police station*, and within an easy stone's throw of the same!

Should any accident result from such a flagrant violation of the city ordinances, there can be no possible question of the city's liability, in actual and exemplary damages. I saw a spirited horse, drawing a carriage containing a gentleman, lady and two children, shy half-way across the street from the obstructions referred to, a few days since; had the carriage been overturned and the inmates injured, the plea that the police neglected to enforce the laws, and that the city authorities winked at their neglect, would not have sufficed—and should not—in a court of law, to have protected the city from the payment of a good round bill of damages.

If the ordinances passed by the city councils are intended to be obeyed, there should at least be a pretence made of enforcing them; otherwise they should be repealed. CITIZEN.

The following is a correct copy of the petition presented to the board of mayor and aldermen at their late meeting, in regard to the canvas sign:

PORTSMOUTH, N. H., Sept. 26th, 1883.

To His Honor, the Mayor, John S. Treat, and the Board of Aldermen of the City of Portsmouth, N. H., County of Rockingham:—At a meeting of Strawberry Bank Lodge of Good Templars held in Temperance hall, Congress street, Wednesday evening, Sept. 19th, it was unanimously voted to ask His Honor, the Mayor, and Board of Aldermen, to remove, or cause to be removed a certain sign on city property in front of Mr. Priest's saloon, on Pleasant street or Market Square. Said sign reads as follows: "Eldredge's lager on draught." The sign is suspended in mid air, over the sidewalk, between two trees. The undersigned were appointed a committee to present this matter to your honorable board, we therefore earnestly ask that our petition be granted.

JOHN A. GOSS,
CHARLES H. CLOUGH,
WILLIAM A. PLAISTED.

THE MUSTER FUND.

Mr. Editor: Several articles in reference to the late muster having been in your paper regarding finance, and a desire to contribute to any deficiency having been expressed, the committee desire to say that they devoted an immense amount of time prior to the muster in preparation, and the multiplicity of bills which were presented as soon as it was found the committee had funds to pay them, necessitated a strict scrutiny on the part of the auditor, as well as some controversy in the settlement of exorbitant charges. The committee are attending to this business during their leisure, and expediting matters to a settlement as fast as possible. The small balance on hand which is anticipated, the committee intend shall be placed where it will give general satisfaction, as it will not be possible to return subscriptions pro rata among so many contributors, and the largest subscribers have made suggestions in that respect which the committee are considering. To the person who is so anxious regarding a settlement, or of contributing to defray expenses of public celebrations where there are deficiences existing, the committee can make suggestions, if the name of the party is given to them.

W. J. SAMPSON, *Chm. Com. Arr.*

The ladies of the Portsmouth Humane Society will hold their first meeting at Mrs. Lyman's, No. 2 Austin street, on Monday, Oct. 1st.

The cavalry arrived home from Concord on Friday evening.

There were numerous arrivals of vessels at this port on Friday, the schooners George W. Fennimore, B. W. Morse, Maggie E. Gray, Tantamount, Commander and Mary E. Pearson, with a total of 3856 tons of coal, and the Jachin, with 900 bbls. of cement, all to J. Albert Walker, arriving in the forenoon. In the afternoon the schooner Emerson Rokes, with 705 tons coal to J. Albert Walker; also the schooners Ida Kennedy, J. H. Leeds, Commerce and Lucy D., came in. Three of the coal schooners will discharge at the navy yard.

The U. S. S. Tennessee, Capt. J. N. Miller commanding, which sailed from this port Sept. 24th, carrying the flag of Rear Adm. Cooper, commanding the North Atlantic squadron, arrived at New York on Thursday, the 27th.

Prof. Allen, of Providence, R. I., went up in a balloon at the town fair in Rochester, N. H., Thursday afternoon, and in less than an hour was going out to sea at Wells beach. Reaching an altitude of two miles a current of air took him inland, and he let out gas in order to descend; the valve ropes got foul and would not close the valve, and the balloon came down by the run, landing in a swamp at North Berwick, and striking a tree in its descent. The balloonist had a narrow escape with his life.

The Postmaster,

Winchester, Mass., says: I am personally acquainted with Mr. and Mrs. Carlton, and was astonished at the remarkable effects of your Sulphur Bitters in curing their son, and its large sale is undoubtedly due to the fact that it an honest medicine. I know of many others who have been cured by its use, and I do not think too much can be said in its praise. Yours truly, Geo. P. Brown, Postmaster.

Col. Frank Davidson, editor of a newspaper at Vanburen, Ark., committed suicide because of financial embarrassment.

"Dr. Benson's Skin Cure *eradicated my pimples.* They used to break out continually." Steve T. Harrison, Rochester, N. Y. $1, at druggists.

The orders of Passed Asst. Surgeon A. A. Austin to the naval hospital at New York are revoked, and he is placed on waiting orders.

WASHINGTON, D. C., May 15th, 1880.
GENTLEMEN—Having been a sufferer for a great length of time from nervous prostration and general debility, I was advised to try Hop Bitters. I have taken one bottle, and I have been rapidly getting better ever since, and I think it the best medicine I ever used. I am now gaining strength and appetite, which was all gone, and I was in despair until I tried your Bitters. I am now well, able to go about and do my own work. Before taking it, I was completely prostrated. Mrs. Mary Stuart.

MANHOOD

THE SCIENCE OF LIFE

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

250th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Cuticura

THE GREAT SKIN CURES

TO cleanse the skin, Scalp and Blood of Itching, Scaly Pimply, Scrofulous, Inherited, and Contagious Humors, Blood Poisons, Ulcers, Abscesses, and Infantile Skin Tortures, the CUTICURA REMEDIES are infallible. CUTICURA RESOLVENT, the new Blood Purifier, internally, and Cuticura Aperient, expels disease germs from the blood and perspiration, and thus removes the cause. CUTICURA, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and Scalp, heals Ulcers and Sores, restores the Complexion. CUTICURA SOAP, an exquisite Skin Beautifier and Toilet Requisite, is indispensable in treating skin diseases, and for rough, chapped or greasy skin, blackheads, blotches, and baby humors. CUTICURA REMEDIES are the only infallible blood purifiers and skin beautifiers.

Chas. Houghton, Esq., lawyer, 28 State street, Boston, reports a case of Salt Rheum under his observation for ten years, which covered the patient's body and limbs, and to which all known methods of treatment had been applied without benefit, which was completely cured solely by the CUTICURA REMEDIES, leaving a clean and healthy skin.

Mr. and Mrs. Everett Stebbins, Belchertown, Mass., write: Our little boy was terribly afflicted with scrofula, Salt Rheum and Erysipelas ever since he was born, and nothing we could give him helped him until we tried CUTICURA REMEDIES, which gradually cured him, until he is now as fair as any child.

H. E. Carpenter, Henderson, N. Y., cured of Psoriasis or Leprosy, of twenty years' standing, by CUTICURA REMEDIES. The most wonderful cure on record. A dustpan full of scales fell from him daily. Physicians and his friends thought he must die. Cure sworn to before a justice of the peace and Henderson's most prominent citizens.

Hon. Wm. Taylor, Health Commissioner, Boston, says: After three months' use of the CUTICURA REMEDIES, and twelve years of as constant suffering from Scrofulous Humor of the face, neck and scalp as was ever endured, I can say that I am cured, and pronounce my case the most remarkable on record.

Sold by all druggists. CUTICURA, 50 cents; RESOLVENT, $1; SOAP, 25 cents. POTTER DRUG AND CHEMICAL CO., Boston, Mass.

PURE INDIA TEAS

Absolutely Pure. They contain no Spurious or Exhausted Leaves, No Chemicals or Coloring Matter Used in Their Preparation. Very Valuable for mixing with Weaker and Cheaper China Teas. They contain a very high percentage of Extract. They are cultivated and prepared under the supervision of Foreigners, upon the most approved scientific methods. The leaf is manipulated by machinery, giving uniformity of appearance throughout entire packages. They retain their valuable qualities for an unusual length of time. JOHN E. PHILLIPS & CO., 100 Water St., New York. Agents of the Celestial Tea Syndicate.

At Maryville, Mo., Sept. 26th, at a soldiers' reunion a sham battle was fought, during which Captain Parcher's company charged a battery, supposing that the guns were unloaded. Unfortunately one was loaded, and Private John Small forged ahead of the line just as the gun was discharged. The wad passed through his body, and his right arm and shoulder were torn off. He died in the evening.

Did She Die?

"No; she lingered and suffered along, pining away all the time for years, the doctors doing her no good; and at last was cured by this Hop Bitters the papers say so much about. Indeed! indeed! how thankful we should be for that medicine."

Lieut. Very and Naval Constructor Fernald will soon make an inspection of the different works where steel for the new cruisers is being made.

"Ellis's Spavin Cure is an invaluable preporation and cures as its proprietors claim it does," writes S. B. Mills, No. 5 Union Market, Boston, Mass.

Lieut. Harber, with the bodies of Lieut. DeLong and comrades, of the lost Jeannette, are expected to reach Washington some time in January next.

Dr. C. W. Benson's Celery and chamomile Pills are prepared expressly to cure and will cure Headache of all kinds, neuralgia, nervousness and dyspepsia. Proved and endorsed by physicians.

Naval Constructor Philip Hichborn has been detailed as a member of the board of inspection and survey.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

Civil Engineer J. C. McCollam has been ordered to temporary duty in the bureau of yards and docks.

For Over Three Months

my son suffered night and day with rheumatism; so much so that he was unable to feed himself. Your Sulphur Bitters cured him, and I am thankful to say they are an honest medicine.—Mrs. W. H. Carleton, wife of Deacon Carlton, First Baptist Church, Winchester, Mass.

Lieut. F. A. Wilner has been detached from the coast survey, and ordered to the Alert.

Miss Mary F. Willey, Hillsboro Bridge N. H., says "I used Brown's Iron Bitters for dyspepsia and received much benefit.'

Lieut. Edward M. Hughes has been detached from the Gedney, and placed on waiting orders.

Good health is the greatest of fortunes; no remedy has so often restored this prize to the suffering, as Hood's Sarsaparilla. Try it.

Passed Asst. Surgeon G. C. Lippincott is ordered to the naval hospital at New York.

Reject the Offer

by a dealer of any article claimed to possess properties identical with or similar to teeth-saving Sozodont. Only purchase the real Simon Pure, which defies both imitation and competition. Nothing can vie with it in efficacy, as a donor of dental health and beauty, notwithstanding any representation to the contrary. It causes the teeth to gleam like burnished ivory, contains no hurtful ingredient, and has a most grateful flavor and smell.

The court martial cases against the naval cadets, for hazing, have been concluded. Seven cadets have been dismissed, and five acquitted. Cadets Tisdall and Young are sent to the Santee, for six months, with loss of liberty during that time.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

It is understood that the secretary of the navy has approved the action of the court martial in the cases of Commander F. R. Smith and Lieut. Daniel Davis, both of whom were convicted of gross violations of the navy regulations, and sentenced to dismissal from the service. The cases now await the action of the president.

"I am happy to say," writes W. C. Morrill, 170 Tremont St., Boston, Mass., "that Ellis's Spavin cure is the best in the market. It cured my horse of a large bone spavin, after other liniments, &c., had failed."

Heavy Explosion.

The steamer J. S. Robinson blew up at a dock in Albany, N. Y., at 2:30 o'clock in the morning, Sept. 28th, and immediately sank. The captain and fireman were killed, and the engineer blown overboard and badly hurt; two deck hands were injured, but escaped with their lives. The tug Cora, lying alongside the J. S. Robinson, was wrecked, and the captain's son killed; the steamer Hattie M. Betts was damaged $1000, and her captain blown out of his bed on to the wharf; and the steamer C. P. Grant had her upper works and machinery injured. A piece of the boiler weighing several [illegible] ck the top story of a three-story [illegible] and crushed in the wall; and [illegible] piece knocked off the top of [illegible] t's cabin, close to the heads of the captain and his wife, who were in bed.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

The secretary of the navy is reported as saying that he will take up in a day or two the question of the proposed new uniforms for the officers of the navy, and dispose of it; and that it is probable that the order upon the subject, which was promulgated some time ago and then suspended, will be adopted with certain modifications. The order, however, will not, it is thought, go into effect before January 1st.

WASHINGTON, D. C., May 15th, 1880.

GENTLEMEN—Having been a sufferer for a great length of time from nervous prostration and general debility, I was advised to try Hop Bitters. I have taken one bottle, and I have been rapidly getting better ever since, and I think it the best medicine I ever used. I am now gaining strength and appetite, which was all gone, and I was in despair until I tried your Bitters. I am now well, able to go about and do my own work. Before taking it, I was completely prostrated. Mrs. Mary Stuart.

Many persons who seem to have consumption have perfectly sound lungs, and their distress originates altogether from disordered kidneys and liver. Now there are thousands of remedies that will relieve kidney and liver diseases, but there is only one that can be depended upon for effecting a permanent cure, and that is Brown's Iron Bitters. Its efficacy has been satisfactorily proven in thousands of instances after all other remedies had failed.

Beecher's Bad Head.

For two months in the year Henry Ward Beecher can't preach. In August and September he takes his vacation and endures the onset of the hay fever. And it is, so he says, something terrible and tremendous. A man with hay fever isn't accountable for his actions. He is merely a wild beast—frantic with snuffing, sneezing and headache. His eyes are red and so is his nose. Every nerve in his skull thrills with distress and his head is a fountain of tears. He lives only to fly from seaside to mountain-top in search of relief.

And yet, whether we call this form of catarrh hay fever, rose fever, hay-cold or rose-cold, Ely's Cream Balm will cure it. This remedy is simple, pleasant and easy of application. Placed in the nostrils it penetrates and soothes the affected parts at once, restores the impaired senses and creates healthy secretions in cases of the longest standing. You cannot run away from hay fever, but you can drive it from you by using Ely's Cream Balm.

At Waterbury, Conn., Sept. 26th, John Galvin and wife were arrested for drunkenness. The husband in desperation cut his own throat with a razor, dying from the effects of the wound. His wife was sent to jail for sixty days. The case was a sad one. The husband, having tried in vain to win back his wife from intemperance, finally joined her in a life of dissipation, with the above result.

PROPOSALS FOR PURCHASE OF VESSELS.

NAVY DEPARTMENT,
WASHINGTON, *August* 13, 1883.

In accordance with the provisions of the 5th section of the act of Congress making appropriations to supply deficiencies approved March 3, 1883, sealed proposals will be received at the Navy Department until noon on Tuesday, November 20, 1883, at which time and place they will be opened, for the purchase of certain vessels at the Navy Yard, Mare Island, California, which have been stricken from the Navy Register, under authority of an act of Congress approved March 3, 1883, and which it is deemed for the best interests of the United States to sell.

The vessels offered said their appraised value are, the Active, (old) $11,300; Alaska, $18,300; Benecia, $17,500; Tuscarora, $9,800; Narragansett, $8,800; Nyack, $4,900, and Saco, $5,600.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel should be included within one proposal.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations offering the highest prices therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit in cash (or satisfactory certified check) of not less than ten per cent of the amount of the offer or proposal, and also a bond with a penal sum equal to the whole amount of the offer, with two or more sureties, to be approved by the Secretary of the Navy, conditioned for the payment of the remaining ninety per cent of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining ninety per cent, or any part thereof within that time, said cash deposit of ten per cent shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

On application to the Department, a printed list will be furnished, giving general information concerning the vessels; also terms of sale and bond, which much be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Mare Island Navy Yard.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done for me with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue!

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, J. M. Wescoat, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to Louisiana State National Bank, S. H. Kennedy, President	832,400
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Charlaron, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Palfrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	13,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$3,253,950
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,627,410
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

M. A. DAUPHIN, *President.*

CAPITAL PRIZE, $75,000.

Tickets only $5. Shares in proportion.

A Widow With Nine Children.

May have as much trouble with them as did the old woman who lived in a shoe. The children will all the time be bumping their noses and their heads bruised, their fingers cut, and their stomachs and bowels disordered by unripe fruit. The mother who is wise enough to keep a bottle of Perry Davis's Pain Killer saves her children much suffering, and herself a great deal of trouble.

At Benton, Sept. 27th, the house and barn of Pardon W. Allen, the town clerk's office, post-office and a store, the house and barn of Solomon Hutchins, a sawmill and 20,000 feet of lumber, were burned. Loss about $10,000.

G. O. Taylor Old Bourbon

Is recommended to all desiring a pure stimulant. Chester H. Graves & Sons, bottle it, and Grocers and Druggists all sell it.

A barn in Campton on the summer estate of Timothy Davis of Boston was burned Sept. 28th, with a large lot of hay and grain. The loss was several thousand dollars.

Dr. Theo. West, Marianna, Fla., says: "I consider Brown's Iron Bitters the best tonic that is sold."

John Sanborn attempted to drown himself in a pond at Manchester, Sept. 28th, but was rescued. He is a cripple, fifty-one years old, and has supported himself by selling candy; discouragement led him to attempt suicide. He will be placed on a poor farm.

Driven Away.

FREDERICK, MD.—Hon. Milton G. Urner, M. C. from Maryland, writes: My wife has tested the pain-curing qualities of St. Jacobs Oil, and bears cheerful testimony to its superior virtue; it drives all pain away.

The Reasons For Prince's Nomination.

The Boston *Post*, the organ of whatever respectability there is in the democratic party of Massachusetts, says that Hon. Frederick O. Prince's refusal to run on the ticket with Butler "was not unlooked for by those who understood the reasons for his nomination," and adds:

"Briefly stated, these reasons were that in the interest of Gov. Butler, from a national point of view, it was advisable to take out of the field Mr. Prince, who is considered an available candidate for the vice presidency, and that it was also important to the governor to secure the votes of the old-style democrats and commit them to his support by placing one of their representatives on the ticket. Mr. Prince being absent in Europe, was very quietly placed in this little trap, which, in his case, shuts at both ends. He must commit himself to Butlerism and so give up all hope of recognition from the national convention, or if he refuses to be a candidate and thereby withdraws his support from Gov. Butler's cause, he will not be re-elected to membership on the national committee. In either case Gov. Butler's interests in the way of a national nomination would be subserved.

Just to what extent the members of the state convention endorsed this movement it is not possible to tell. Mr. Prince's name was not spoken of in connection with the nomination until late the night before. Then word was given out that a message had been sent to Mr. Prince to know whether he would accept, and his merits as a strong candidate were brought out to make his nomination appear to be in the interests of the democratic party. The explanation seemed plausible enough, and many delegates accepted it for its face value. Before there had been any opportunity to hear from Mr. Prince, and before any large proportion of the delegates understood what was being done, Mr. Prince was nominated and the convention had adjourned."

Mr. Mullett, of the special navy yard commission, says that the commission is opposed to the continuation of the navy yard at League island in its present unfinished condition, but would favor its continuance provided the original plan were carried out so that it might be made available for the construction of vessels, and the manufacture of heavy iron and steel works.

There has been received in New York a copy of a proclamation issued by Gen. Aquerro in Cuba, calling upon all Cubans to take part in a revolt against Spain. Those who refuse to do so are promised destruction to their property and death to themselves. They are allowed three months in which to make up their minds.

At Blue Lick Springs, Ky., Sept. 27th, Samuel G. Rogers, president of the Farmer's bank of Carlisle, shot William Rogers, a lawyer of St. Louis, Mo., through the head, and Thomas Rogers, a farmer, through the body, killing them both. The three men were brothers, and were quarrelling over their father's will.

The wife of Senator Allison, who lately committed suicide at Dubuque, Ia., was worth $200,000 in her own right at the time of her death. She bequeathed $30,000 in cash and the furniture, pictures, books and stationery of the Allison residences in Washington and Dubuque, to her husband.

The Boston base ball club on Thursday defeated the Clevelands at Boston, settling the result of the championship contest, and making the Boston club the champions. On Friday the Bostons again defeated the Clevelands, six to two; and they won again on Saturday, making their score stand sixty-three games won, to thirty-five lost. The Chicagoes stand second, the Providences third and the Clevelands fourth.

Judge Samuel Hand of Albany, N. Y., referee in the tax suit brought by the state of New York against the Western Union telegraph company, has rendered a decision in favor of the state for $178,397. This sum is for taxes for only one year, but determines the remaining taxes in favor of the state, making the total amount recoverable from the company under the decision about $626,000.

Carrie Welch of Strong, Me., took Paris green last week, and killed herself.

S. S. Montague, chief engineer of the Central Pacific railroad, is dead at Shasta, Cal.

Stephen S. Rice, executor of the estate of Thomas Richardson at Philadelphia, has been indicted for stealing $87,000 from the estate.

Mrs. E. D. Hutchinson, of Colebrook, drowned herself last Friday night, while insane from ill health.

The schooner Mary C. Sproul, Capt. Bryant, a vessel of eighty tons register owned in Damariscotta, Me., and bound to that port from Boston, was run down at midnight last Friday off Boon island by the steamer Katahdin, from Bangor for Boston, and went to the bottom in three minutes, being cut almost in two. The crew of four men escaped with only what they stood in. The schooner was twelve years old, and not insured.

A prominent stockholder in the Maine Central railroad informs a newspaper representative that it is expected the negotiations with the Boston & Maine road regarding consolidation will fail. The terms asked by the Maine Central are more favorable than the Boston & Maine will probably grant. In this case the future condition of the three roads will depend largely upon the action of those who secured the present injunction restraining the accomplishment of the proposed lease of the Eastern to the Boston & Maine, and the decision of the court on the points of law raised by them.

General Manager Tucker of the Eastern and Maine Central railroads says the Flying Yankee train between St. John, N. B., and Portland, Me., will be discontinued after Oct. 14th, for the winter; but will continue to run between Portland and Boston, leaving Portland at six o'clock P. M., a half-hour earlier than under the present arrangement.

The directors of the Eastern railroad company have voted to purchase six new locomotives at a cost of $80,000.

A telegram received at the navy department from the Pensacola navy yard, announced "No new cases or deaths from yellow fever," on Sept. 27th. On the 29th Commandant Welch telegraphed as follows: "Two cases of yellow fever yesterday, one of which died, not having been found until just before death."

The semi-annual meeting of the York County Conference of Congregationalists will be held on October 9th and 10th, at Limington. The Baptist state convention of Maine will be held in South Berwick this week, when Rev. James McWhinnie of Portland will read a paper on the theme "What are the causes of the alarming increase of Sabbath desecration in these times? and is there any remedy for it within the power of Christian people?"

It is reported that Edward S. Marshall, proprietor and landlord of the Marshall house at York harbor, has leased that hotel for a term of years to Horace Mitchell, Jr., of Kittery Point, who for some seasons past has been clerk of the house.

Referring to the election of Mr. O. M. Lord, formerly principal of the Biddeford high school, and now principal of the Hanover street school in this city, to be master of the Butler grammar school in Portland, the Biddeford *Times* says that a committee from Portland "visited Mr. Lord's school in Portsmouth, N. H., and two or three other schools in Massachusetts, but gave the preference to Mr. Lord, and reported favorably to the school board. The board accepted the report, and elected Mr. Lord as above stated. This is a deserved compliment to the worth of Mr. Lord, and we rejoice in his good fortune. As it has proved, his leaving the Biddeford school has resulted in his good. The school board of Portsmouth regret to have him leave their schools, for he has endeared himself to the parents and children of that city as he did to them of this." The *Times* adds: "We learn that Portsmouth has the project on foot to elect Mr. Lord superintendent, at a larger salary than the salary that is tendered him in Portland, to retain him there. It is doubtful if that plan will succeed." It is sometimes necessary to go away from home to learn the news.

At Epping, one night last week, a whirlwind took their positions the rafters of the new Congregational church, broke them to pieces and scattered them around in queer shape.

The schooner Ernst T. Lee, a two-masted schooner hailing from Calais, Me., has been towed into Vineyard Haven with her mainmast and all sails and spars attached gone, her plank sheer and several planks below cut through, and leaking 1000 strokes an hour, she having been run into on Nantucket shoals by the three-masted schooner James W. Drury of Boston, on the night of Sept. 26th, the latter vessel losing her jibboom and head gear. This was no doubt the collision seen by Capt. Pendleton, of the schooner Tantamount, and reported by him on his vessel's arrival at this port on Friday, Sept. 28th.

MEDICAL.

THE WONDER
is becoming universal as to how such an immense sale could be created in Lowell for HOOD'S SARSAPARILLA. But, my friend, if you could stand behind our counter a week and hear what those say who are using it, the reason would appear as clear as the noon-day sun. The real curative power of HOOD'S SARSAPARILLA demonstrates itself in every case where *our directions* are faithfully regarded. We would that we might get before the people a fractional part of the confidence that is expressed to us every day in this medicine by those who have carefully noted (without prejudice) its effects upon the blood and through that upon the whole system, stimulating all the functions of the body to perform the duties nature requires of them. Try a bottle and satisfy yourself.

Cold Hands and Feet.

LOWELL, Feb. 3, 1879.
MESSRS. C. I. HOOD & CO.. Gentlemen—About one year ago my daughter commenced taking your Sarsaparilla. At that time she had very little appetite; could take no long walks, and her face was badly broken out with a humor. She was low-spirited; troubled with cold hands and feet; her blood seemed to be poor, and she was in a condition which caused us great anxiety. After taking one bottle of your Sarsaparilla she began to improve; and she now has a good appetite and can take much longer walks. Her humor is nothing compared with what it was one year ago. She is in better spirits, is not troubled with cold hands and feet as previously. Attribute this improvement in her condition entirely to your Sarsaparilla. She has taken half a dozen bottles, and intends to continue its use. I was inclined to oppose the trial of it at first. I now have great faith in it as a blood purifier. Very truly yours,
A. L. HINCKLEY,

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
October 1, 12:00 A. M.

Probabilities for New England:—Light rains followed by clearing weather, northerly winds becoming variable, stationary or slight rise in temperature and barometer.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 39 degrees above zero.

Cloudy.

GOSSIPS SAY

That the Goodwin cottage at Gerrish's island, and the Wendell cottage at Newcastle, will be occupied by their owners up to about November 1st.

That the weather prognosticators, of the Vennor variety, promise magnificent weather for October and November.

That owing to the lateness of the season, Major Urch will not build his two-storied cottage until spring.

That the family of the late J. Henry Morrill, and Mrs. Evans Ross, will remove to Boston this week.

That First Asst. Engineer Frank B. Randall, of the United States revenue marine, attached to the revenue cutter Alexander Hamilton, is once more on his native heath.

That the Alexander Hamilton has been docked at Newburgh, N. Y., for extensive repairs, and that her officers will be placed on waiting orders.

That a young lady in this city was recently married in her great-aunt's wedding dress.

That the navy yard ferry boat Emerald made the run from the yard to her landing at the foot of Daniel street, Saturday forenoon, in three and one-half minutes.

POLICE COURT--BATCHELDER, J.

SATURDAY, Sept. 29th.

Harriet Davis, who lives on Islington road, was brought before the court on a charge of stealing corn from the field of Joseph Akerman, who lives near her house. The testimony as to her having taken any corn, or as to any having been taken by any person, was very "thin," and as it was acknowledged that she had been given permission to enter the field and take some small pumpkins for her own use, the case was dismissed.

THE PINTA.

The U. S. S. Pinta, Lieut. Uriel Sebree commanding, was on Saturday taking in coal at the navy yard, preparatory to a start for New York this morning. The Pinta is an iron vessel of 306 tons, the same size as the Leyden, Fortune, Mayflower, Nina, Speedwell, Standish and Triana, which are all iron tugs, and were all originally rigged the same, as two-masted schooners, lightly sparred. The Pinta, with several of the other tugs named, was built about the close of the war by Tetlow & Co. of Chelsea, Mass.; she has in her the original engine, but has been lately fitted with a new steel boiler, and has been newly sparred, her masts being heavier than formerly, and the foremast having on it two yards, so that in addition to the former fore-and-aft foresail she now carries a square foresail and foretopsail. She has also been "raised on" one deck above her iron hull, with wood, the work having been done at the Norfolk navy yard, and looking rather ginger-bready to persons accustomed to see the style of work performed at the Portsmouth yard.

The Pinta is intended for service on the coast of Alaska, and her trip from New York to this port was to decide by actual experiment as to what rate of speed she would render the best results under, with regard to the economy of coal; and it was found that while making between six and seven knots she got a greater distance out of a given quantity of coal, than while running at any other rate of speed. It is proposed for her to steam the whole distance to Alaska, coaling every 1400 miles, and using the sails only when the wind is wholly favorable. The bottom of the vessel has been coated in sections with the anti-fouling compositions of several patentees, and when she arrives at San Francisco she will be docked to have the several paints examined and reported upon.

There has been a good deal said about the Pinta since she was first ordered to be fitted for service in Alaska. After a large sum of money,—well up to $200,000, we believe,—had been expended on her at Norfolk, and her officers and crew were on board ready for a start around the Horn, the board of inspection condemned her, and she was ordered out of commission. Then another board was appointed, and approved her, provided certain slight alterations were made; and after a number of other pull-backs she reached New York on a trial trip, and then came here. The big wooden box on top of the original iron hull will supply nice quarters if the vessel ever reaches Alaska, but were we going around the Horn or through the straits of Magellan in her we should rather not have it on board.

A two-cent stamp is all that you need on a single-rate letter now.

Rain commenced falling at a brisk rate between eight and nine o'clock Saturday evening, and kept it up pretty well through the night, and intermittently up to the middle of the afternoon on Sunday. The heaviest thunder shower we have had since early in July prevailed from about eleven o'clock Saturday night to half-past one Sunday morning, the lightning being very vivid, and the thunder making things rattle in good style. The clerk of the weather need not fear to send us two or three dozen more visitations of the same sort; we need at least that number of rainy days before the ground is closed by frost.

Mr. Moses Spear, for a number of years in business in Portsmouth and consequently well known among business people, returned here on Wednesday of last week, unwell, and accompanied by his friend, Mr. Isa Leveen. Mr. Spear is afflicted with hemorrhage of the lungs and stomach, and of course is seriously ill, which is much to be regretted, as he was commencing business in New York city under flattering prospects.

Thirty-five years ago this morning Hon. Marcellus Bufford commenced taking milk from the Hayes farm; the service has been continued up to the present date, and during the whole time there has been but one morning on which the milk has not been delivered, while during the entire service the judge says he has never had a quart of poor milk. The price has been as low as four cents a quart, and as high as ten cents; and the total amount paid has been over $1300. The average price has been a fraction over six cents a quart,—at which price it will be on and after to-day; and when the extreme drouth is considered, and that the cows, instead of luxuriating on "fall feed," are being fed with hay from the barns the same as in the winter months, it will be seen that milk is one of the most reasonable-priced articles of food in the market.

Rev. Charles Noyes, of Clinton, Mass., will preach in the Unitarian church next Sunday, on which day the vesper service will be recommenced.

Lieut. W. A. Marshall has been ordered to duty at the Portsmouth navy yard.

Miss Mollie Mack, late of this city, and long a member of the choir at the Church of the Immaculate Conception, is winning a good position as a soprano in Massachusetts.

The Sunday *Globe* announces the appearance here of "Our Summer Boarders" on the 9th inst., Baird's Minstrels on the 12th, and Herne's "Hearts of Oak" on the 13th of November.

Mr. John Albee, of Newcastle, sailed on Saturday in the Red Star line steamer Rhynland, for Antwerp.

Rev. W. H. Cutler, late pastor of the Congregational church at Hampton, will shortly become rector of the Episcopal church at Goffstown.

In February, 1882, the centennial celebration of Washington's birth took place in this city. The surplus, after paying expenses, amounting to $8.67, was deposited in the Portsmouth Savings bank. The dividends to Jan. 1 brought the $8.67 up to $145.58, and if the accumulations continue through the ensuing fifty years in the same ratio, the sum will amount, in 1932—the next centennial—to $2,300, a good sum toward that celebration.—*Times.*

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodjan3,84.

If you suffer with Sick Headache, Constipation, Sour Stomach, or Bilious attacks, **Emory's Little Cathartic Pills** will relieve you.—15 cts.

Of the many remedies before the public for Nervous Debility and weakness of Nerve Generative System, there is none equal to Allen's Brain Food, which promptly and permanently restores all lost vigor; it never fails. $1 pkg., 6 for $5.—At druggists.

Edward P. Getchell of Sanford has been sent to state prison at Thomaston for feloniously assaulting Lottie Smith of the same town.

Among the freights reported to this port last week is one schooner with 200 tons coal, to discharge at Dover, at $1.10 per ton, towed and discharged.

The grand jury of York county, composed of nine democrats and six republicans, finished their duty early last week, and reported eighty-five indictments, of which seventy-three were for violations of the liquor law; several indictments were found against apothecaries for selling wine and quinine.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."

Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."

Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.42 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE baleful miseries that result from indiscretion, in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work, entitled by the PEABODY MEDICAL INSTITUTE, entitled **THE SCIENCE OF LIFE, OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

23th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and presented medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE, OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—(London Lancet.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Am Star.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

New Hampshire GAZETTE!

Established 1756.

THE GAZETTE IS PUBLISHED EVERY THURSDAY AND SENT TO SUBSCRIBERS AT THE LOW PRICE OF $1.50 PER YEAR, PAID IN ADVANCE, OR $2 AT THE END OF THE YEAR.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or offered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires at their native city, and

CONTAINS MORE ORIGINAL MATTER THAN ANY OTHER PAPER OF ITS SIZE IN THE STATE. THE EDITORS WORKING MORE WITH THEIR PENS THAN WITH THEIR SCISSORS.

— THE —

New Hampshire Gazette!

TO ADVERTISERS

Presents an excellent opportunity for a weekly publication in customers, of a reasonable sum, and all desire to reach parties in Rockingham and York counties will find this economical medium. The Gazette is from its prominence the only paper taken by families, and it is read to a large extent in localities where it is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Official List of Patents

Granted to citizens of New Hampshire, for the week ending Sept. 25th.

[Compiled expressly for this paper.]

George D. Burton, New Ipswich, waiter tray.

James M. Farrington, assignor to J. E. Gage, Concord, sight for fire arms.

"A rolling stone gathers no moss," but it may get an advertisement for Dr. Bulls Cough Syrup painted on it.

Lieut. James M. Heim has been ordered to the Ranger.

"Solid comfort" can be realized by those suffering from all forms of scrofula, if they will take Hood's Sarsaparilla and be cured.

Surgeon D. McMurtrie and Passed Asst. Surgeon M. H. Crawford have been ordered to medical survey duty.

Did She Die?

"No; she lingered and suffered along, pining away all the time for years, the doctors doing her no good; and at last was cured by this Hop Bitters the papers say so much about. Indeed! indeed! how thankful we should be for that medicine."

Capenter J. W. Burnham has been ordered to duty at Chester, Pa.

Lieut. Wm. Wieder is ordered to the Wabash.

Col. A. L. Campbell, Waterboro, S. C. says: "A member of my family used Brown's Iron Bitters with good results."

Medical Director George Peck has been detached from the naval hospital at Mare island, Cal., and placed on waiting orders.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

The commandant of the New York navy yard has notified the department that the Trenton will be ready to leave the yard to take on powder, etc., Oct. 8th, and for inspection Oct. 20th. She is to relieve the Richmond as flagship of the Asiatic squadron.

"Five doctors; no end of Medicine; no relief. Dr. Benson's Skin Cure *has driven away all eruptions* and am nearly well." Ida C. Young, Hamilton, Ills.

Secretary Chandler refuses to pass the vouchers of Commander Pearson, of the U. S. S. Wachusett, and Capt. C. C. Carpenter, commanding the U. S. S. Hartford, for expenses incurred in taking pilots at certain ports on the Pacific station. The navy department requires that no commanding officer shall take a pilot unless the dangers of navigation render it absolutely necessary, and it is said that last year about $30,000 was saved in consequence of this order issued by Secretary Chandler.

"I am happy to say," writes W. C. Morrill, 370 Tremont St., Boston, Mass., "that Ellis's Spavin cure is the best in the market. It cured my horse of a large bone spavin, after other liniments, &c., had failed."

John Merrill, a farmer, was struck by a locomotive near Plymouth, Sept. 28th, and fatally hurt.

Michael J. Starin, who was sent to state prison in 1881 for ten years, for highway robbery, has been pardoned by the governor and council.

"Ellis's Spavin Cure is an invaluable preparation and cures as its proprietors claim it does," writes S. B. Mills, No. 5 Union Market, Boston, Mass.

A complete set of counterfeiter's tools and dies have been found in an old chimney at West Thornton, probably hid there many years ago.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Bile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Fire insurance agents of Strafford county, with twelve special agents as a committee from the New England insurance exchange, met at Dover last Friday to organize a board of underwriters for Strafford county, which was effected, with Daniel H. Wendell of Dover as president.

The limbo of Things Lost

on earth has engulfed many a trumpery tooth wash, paste and powder, since Sozodont was introduced to public notice, but that standard article still retains its place in general estimation and waxes in popularity as the years wane. People whose teeth have been saved by it, speak gratefully in its behalf, and professional endorsements of it multiply fast.

PARKER'S TONIC!

ONCE TESTED ALWAYS PREFERRED!

This great remedy has won its way to the highest place in the esteem of the most intelligent people. There are daily recruits to its host of friends. Its performance is invariably

BETTER THAN ITS PROMISE.

It gives tone and power. For complaints of the Kidneys, Bowels, Stomach, Liver and Lungs, for all the subtle troubles of women and for those bodily disorders induced by anxiety, care and mental strain, its effects will surprise and charm you. It is not an essence of ginger. Delicious to the palate, an antidote to the liquor habit, and exceedingly helpful to the aged and feeble. 50c. and $1.00 sizes. HISCOX & CO., New York.

Mrs. L. D. Conrad, who recently shot and killed her husband, a prominent lawyer of Baltimore, has been adjudged insane, and sent to an asylum. She belongs to an "old family" in Maryland, whose members have so long and so closely intermarried, from motives of family pride and to keep the wealth in the family, that insanity and idiocy have become the rule rather than the exception among them. It was but a few months ago that Mrs. Conrad's cousin butchered his nearest friend in presence of the latter's wife; and a number of others have died in insane asylums, or are now confined in them. A little fresh blood infused into that family, even though not quite so blue as their own, would be an improvement.

Memory is the treasury of reason, the registry of conscience, and the council chamber of thought, but what is memory without reason, and judgment? It is these last that convince us that we can't get safely through the winter without Dr. Bull's Cough Syrup.

WASHINGTON, D. C., May 15th, 1880.

GENTLEMEN—Having been a sufferer for a great length of time from nervous prostration and general debility, I was advised to try Hop Bitters. I have taken one bottle, and I have been rapidly getting better ever since, and I think it the best medicine I ever used. I am now gaining strength and appetite, which was all gone, and I was in dispair until I tried your Bitters. I am now well, able to go about and do my own work. Before taking it, I was completely prostrated. Mrs. Mary Stuart.

Many persons who seem to have consumption have perfectly sound lungs, and their distress originates altogether from disordered kidneys and liver. Now there are thousands of remedies that will relieve kidney and liver diseases, but there is only one that can be depended upon for effecting a permanent cure, and that is Brown's Iron Bitters. Its efficacy has been satisfactorily proven in thousands of instances after all other remedies had failed.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good; her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

Mrs. Diana Colphus, a colored woman born in Danville, Ky., died Sept. 29th in London, Ont., at the age of 115 years.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlicher, of Baltimore.

The coroner's jury in the case of Rose Clark-Ambler, at Bridgeport, Conn., finds that she was murdered by some person unknown, but say the evidence causes suspicion against Lewis, who was her open lover while she was Ambler's wife and after her divorce, and was engaged to marry her in a few weeks at the time she was murdered.

TO cleanse the skin, Scalp and Blood of Itching, Scaly, Pimply, Scrofulous, Inherited, and Contagious Humors, Blood Poisons, Ulcers, Abscesses, and Infantile Skin Tortures, the CUTICURA REMEDIES are infallible. CUTICURA RESOLVENT, the new Blood Purifier, Diuretic and Aperient, expels disease germs from the blood and perspiration, and thus removes the *cause*. CUTICURA, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and Scalp, heals Ulcers and Sores, restores the Complexion. CUTICURA SOAP, an exquisite Skin Beautifier and Toilet Requisite, is indispensable in treating skin diseases, and for rough, chapped or greasy skin, blackheads, blotches, and baby humors. CUTICURA REMEDIES are the only infallible blood purifiers and skin beautifiers.

Chas. Houghton, Esq., lawyer, 28 State street, Boston, reports a case of Salt Rheum under his observation for ten years, which covered the patient's body and limbs, and to which all known methods of treatment had been applied without benefit, which was completely cured solely by the CUTICURA REMEDIES, leaving a clean and healthy skin.

Mr. and Mrs. Everett Stebbins, Belchertown, Mass., write: Our little boy was terribly afflicted with scrofula, Salt-Rheum and Erysipelas ever since he was born, and nothing we could give him helped him until we tried CUTICURA REMEDIES, which gradually cured him, until he is now as fair as any child.

H. E. Carpenter, Henderson, N. Y., cured of Psoriasis or Leprosy, of twenty years' standing, by CUTICURA REMEDIES. The most wonderful cure on record. A Human Skin full of scales fell from him daily. Physicians and his friends thought he must die. Cure sworn to before a Justice of the peace and Henderson's most prominent citizens.

Hon. Wm. Taylor, Health Commissioner, Boston, says: After three months' use of the CUTICURA REMEDIES, and twelve years of a constant suffering from Scrofulous Humor of the face, neck and scalp as was ever endured, I can say that I am cured, and pronounce my case the most remarkable on record.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form, I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, A. M. Wheelock, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to Louisiana State National Bank, S. H. Kennedy, President	125,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550

Paid to Germania National Bank, Jules Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Palfrey, Cashier	37,060
Paid to Canal Bank, Ed. Toby, Cashier	14,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$2,253,650
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,627,410
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

News and Notes.

The "cannon-ball" train on the Atchison, Topeka & Santa Fe railroad was attacked at Cooledge, Kansas, on the morning of Sept. 29th, by a gang of cow-boys. The engineer was killed and the fireman mortally wounded; the conductor was shot at several times, but escaped injury, and the express messenger repulsed the ruffians in an attack by them on his car. The villains fled, with a posse in hot pursuit.

The Syracuse, N. Y., *Times* classifies the American watering places and their specialties of guests as follows: "Newport, English celebrities and their American imitators; Saratoga, politicians, musicians, and sportsmen: Long Branch, actors, actresses, and railroad kings; the Adirondacks, Mount Desert, and the Isles of Shoals, college dignitaries, authors, and authoresses; Coney island, the dear people."

During a family row in New York, Saturday night, a woman named Farley fatally stabbed her husband with a table knife.

John L. Sullivan, the Boston bruiser, has accepted a challenge to fight Jem Mace for $1000 a side.

In Shelbyville, Ind., early in the morning on the 30th ult., a house of ill fame kept by Ida Moore was burned, and two of the inmates, Maggie Wells and Flora Garrett, were burned to death. The girls were sleeping in a room up stairs, which had no windows, and the doors of which were fastened on the outside. Nelson Purdham and Herman Farmelia, citizens of Shelbyville, who were in the house, have been arrested on suspicion of fastening the girls in and setting the house on fire.

The estimated reduction of the public debt for September is $15,000,000.

It is stated that Second Assistant Postmaster-General Elmer contemplates resigning. His private affairs demand exclusive attention.

The three ruffians who attempted to rob a train at Cooledge, Kansas, Sept. 29th, and murdered the engineer and fireman, were captured that night and taken to Dodge City. They give the names of Chambers, Deane and Looney, and will probably be lynched.

WHY IT RAINED.

The Kennebunk (Me.) *Star* of Friday, Sept. 28th, says:

In answer to the earnest prayers offered at the meeting Sunday night, that rain might come, we received a plentiful shower Monday night, refreshing the earth wonderfully.

It is satisfactory to know what made the rain come at last, after the months of dry weather; but it does seem that those Kennebunk people might have petitioned for it a few weeks earlier, in time to have saved the "fall feed," and kept the wells and springs from going dry.

The following item, from the same issue of the *Star*, possibly accounts for the effective earnestness of the Kennebunkers' petitions, and explains what made them move in the matter at last:

The milk dealers are to raise the price of milk on the first of October, from six to seven cents per quart. Possibly this is on account of the scarcity of water.

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
October 2, 12:00 A. M.

Probabilities for New England:—

Fair weather followed by local rains, variable winds, shifting to south, falling barometer, stationary or rising temperature.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 33 degrees above zero.

Cloudy.

GOSSIPS SAY.

That Mr. Jos. H. Gardiner, representative in the legislature from ward two, has been appointed to a clerkship in the naval store at the navy yard, to succeed Mr. John H. Knowlton of this city.

That a hen at the Jenison farm, Gerrish's island, last week brought forth from a nest she had stolen in the haymow, nineteen feet above the barn floor, a brood of seventeen chickens.

That the mother managed to reach the floor easily enough, but to get her brood to follow required a deal of clucking and fowl scolding.

That the first chick to essay the passage was the smallest and weakest one of the brood, which was safely caught on the hen's wings, and gently let down to the floor.

That the others, emboldened, rapidly followed, each in turn being caught by the mother in like manner with the first.

That ten minutes later the whole brood were vigorously scratching in the barnyard, as though the hay-mow racket were an every day occurrence.

That Mr. Porter R. Emery, from whom the above hen story was gleaned, is a respected citizen of Kittery Point, and of unquestioned veracity.

That the same gentleman during the last week of the recent drought missed a valuable year-old heifer, and in the long search for the yearling came upon a dried-up spring, in the bottom of which he was much startled to discover two huge eyes sticking up through the mud.

That upon closer investigation the eyes proved to be those of his pet calf.

That three hour's work with joists and a yoke of cattle brought the nearly exhausted heifer to the surface, and after an hour's rolling over a pork barrel, by which several palisful of muck and water were expelled from the animal, she was pronounced out of danger.

That archery has ceased to be a fashionable pastime for young ladies.

That large quantities of apples are being shipped from the Eastern railroad station in this city.

That a large fleet of mackerel catchers were in the lower harbor Monday, baiting up with herring from the weirs.

That the scene outside the harbor Sunday evening was one of great brilliancy, there being hundreds of small boats with torches at the bow and stern luring the innumerable schools of herring into the meshes of netting set in all directions.

That another stationer's store will be added to the generous number already in this city, about New Years.

That the venture will be made in the Congress block book-store, so called, by two energetic and smart young men of this city, who possess a fair amount of capital and hosts of friends.

BOARD OF INSTRUCTION.

At the regular monthly meeting, Monday evening, the resignation of O. M. Lord as teacher of the Hanover street school was accepted, and the committee of district one authorized to advertise for a teacher to take his place.

The question of change of salaries was indefinitely postponed.

The proposal of Charles H. Hayes for the furnishing of wood was accepted.

RYE ITEMS.

Sportsmen are shooting large numbers of sea birds at Rye ledge.

This is a year when beech nuts are plentiful; the woods are full of them, as well as of boys and girls picking them.

Apples are quite plentiful, and bring fifteen cents a bushel for common windfalls, and forty cents a bushel for baldwins recently blown from the trees. Parties are around offering to buy at the rate of $2 a barrel, the buyers to pick the fruit and provide barrels, but not many of the farmers will sell at that price.

The crop of potatoes in Rye this season is said to be the most abundant one for twenty years. The price, delivered at Greenland depot, was forty-three cents a bushel during last week.

Mr. John O. Berry of Rye on Monday brought in to this city a bushel of potatoes of the "Brownell Beauty" variety, the weight of the bushel being sixty pounds, and the number of potatoes just thirty—two pounds to a potato, on an average. Last year Mr. Berry raised potatoes of the same sort of which sixty filled a bushel basket, and he thought then he was doing well. This season he harvested 101 bushels of potatoes from a half-acre of land.

Thunder, lightning and rain on Saturday night kept lots of people awake, and on Sunday morning it was discovered that a lightning-rod on Mr. John H. Foss' house at Foss' beach was bent over at a right angle, and s supposed that lightning did it, although no further trace of its doings could be seen.

More than one-third of the letters posted in the Rye postoffice on Monday had three-cent stamps on them.

A GOOD SUNDAY PAPER.

The "Young Man About Town" of the Boston *Sunday Globe* remarks:

I was asked lately which was the oldest newspaper in the United States. *The New Hampshire Gazette*, a weekly published at Portsmouth, N. H., by the Chronicle & Gazette Publishing Company, claims that honor, as it was established October 7th, 1756. There are two or three other papers in the country which love to call themselves "the oldest in the business," but I think the member from New Hampshire entitled to the floor.

We have before intimated that the *Sunday Globe* is the best Sunday paper published, and the opinion grows upon us with its every succeeding issue.

PRESENTATION.

At a meeting of the board of instruction, Monday evening, as soon as the board was called to order a number of other gentlemen entered the room, headed by Col. J. Horace Kent and Ex-Judge Page, the former of whom, on behalf of the visiting delegation and others proceeded to present to Secretary Pender, of the board, a fine watch and chain, with Masonic emblems as charms. Col. Kent's brief address was a thoroughly good thing, expressing much in a few well-chosen words. The presentation was a complete surprise to Secretary Pender, who however managed to express his gratitude for the friendship which had prompted the bestowal of the unexpected testimonial, and to assure his friends that he should do his best to merit their continued esteem.

MATTERS IN YORK.

YORK, ME., Sept. 30th.

S. P. Young, Esq., recently shew us a white alder which was a scant half-inch in diameter at the butt, and ran a true taper to the length of fifteen feet.

Mr. Timothy Furbish recently picked up a bottle while getting his marsh hay at the head of York river. The bottle contained a quantity of liquor, and a piece of paper with this inscription: "Atlantic House, Wells Beach, July 29, 1883." If the person who threw it overboard has drifted about as much as the bottle has, we pity him.

Capt. Emerson is now laying the pipe for his aqueduct. It is of one and one-half inch lumber, sawed in staves, in lengths of two, four and six feet, hooped at every two feet with hoops 1 3-4 inches wide and one-seventh of an inch thick. The distance is about 10,000 feet, requiring 5000 hoops, weighing 2 1-2 lbs. each. He estimates to have water running through it in about ten days.

Mr. Oliver Jenness, foreman in Mitchell & Freeman's blacksmith shop, has just returned from a rusticating vacation after the severe labors of the past four months. We hail his return with gladness.

One of the wealthiest men in York county has recently "walked up to the captain's office" at Alfred and paid $100 and costs, for the enormous crime of selling a little cider, the product of his own farm! Verily, this is a land of liberty. P.

Samuel Spinney, Esq., who is verging toward being an octogenarian, retains his vigor in a remarkable degree, and can scale a fence as easily, and move as fast over the ground, as most boys. While waiting and hoping for the success of his party, to which he is sincerely attached and in which he believes as firmly as when he cast his first vote over half a century ago, he has in a measure eschewed politics, and devoted himself to agriculture; and in the rich mould formed by the decay of the chips in what is left of the Raynes ship-yard he has this year succeeded, in spite of the drouth, in raising good crops of vegetables in variety. His corn, potatoes, beans of various kinds, etc., were as fine as any we have seen, and beside what he has placed in his own cellar for winter use, he has had considerable quantities to sell. On one small patch he grew one hundred and twenty fine squashes, weighing within a few pounds of half a ton; and from this lot we acknowledge the receipt of a very handsome turban squash weighing over thirteen and a half pounds—an unusal size for that variety to attain to, though our old friend Capt. Sam has kept a still larger one, for seed next year.

Chaplain James J. Kane, U. S. N., preached in the Middle street Baptist church on Sunday evening, his subject being "Prayer." During his discourse the reverend gentleman remarked that it was thirteen years since he had preached in that pulpit before.

The wreck of the schooner Mary C. Sproul was seen on Saturday and again on Sunday, about twenty miles east of Boon island, floating bottom up. She is a dangerous obstruction to navigation; one vessel came very near running over her on Sunday.

During the heavy thunder shower of Saturday night the house of Theodore Weare, Jr., who lives on the post road between York and Wells, was struck by lightning, and burned. Loss about $1200; insurance $400.

Lewis B. Taylor of North Berwick has been held for the grand jury on a charge of entering the house of Marshall Kimball at Kennebunk, and stealing two coats. Taylor, who formerly worked for Marshall, denied the theft at first, until a search of his house revealed the coats hidden in an old chest, when he confessed.

A salmon weighing seven pounds was caught in the Mousam river at Kennebunk last week—the first fish of the kind taken in that river for several years.

The Next Democratic Funeral.

The Lampton family is in one respect one of the most unfortunate in Austin. They have lost by death five or six children, but the births are pretty much in the ratio of the deaths, so that the family is far from being childless. A few weeks ago there was another death in the family, and the undertaker's assistant called at the house. A small boy met him at the door.

"Is your pa in?"

"What do you want to see him about?"

"I want to ask him when the funeral will take place."

"You needn't see him then at all, if that is all you want. I can tell you that. Pa always buries us at four o'clock in the afternoon."

To make a political application of the foregoing, we may remark that Mr. Dana need not interest himself about the funeral of the next democratic candidate. It is a habit of the democracy to inter a favorite son once every four years, and it may also be said that it is almost impossible for the funeral to come off without the New York *Sun* having a hand in furnishing the corpse. At least that is the way the friends of General Hancock look at the situation.—*Texas Siftings.*

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.* t,th,s,Geo

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse."
CHAS. MASON,
Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office."
EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled, THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—(London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

New Hampshire Gazette!

TO ADVERTISERS

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all desire to reach parties in Rockingham and York counties will find it an economical medium. The Gazette is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

John Roach has presented a bill to the secretary of the navy for $21,000, for taking care of the Roanoke from 1877 to the present time, the charges being made at the rate of $8 per day. The secretary regards the bill as excessive, and will not approve it unless it is considerably reduced. It is altogether probable that when John made out this little bill, he expected to cut off, either the first two, or the last three figures of the charge—but it was well to commence high, in order to get a good sum even with his bill considerably reduced.

The London Truth fears that overdressing is a constitutional defect in America; this may be so, but there is one thing England can not help acknowledging,—that we have the greatest remedy for asthma ever known,—Dr. Bull's Cough Syrup.

An oil tank at the Kings County Oil Works in Brooklyn, N. Y., exploded Sept. 30th, damaging the works $30,000.

A good name at home is a tower of strength abroad. Ten times as much Hood's Sarsaparilla used in Lowell as of any other.

The Texas cotton crop is reported to be a failure in many parts of the state.

Did She Die?

"No; she lingered and suffered along, pining away all the time for years, the doctors doing her no good; and at last was cured by this Hop Bitters the papers say so much about. Indeed! indeed! how thankful we should be for that medicine."

The iron steamship T. F. Oakes, the first built at Ex-Lieut. Commander Goringe's new yard at Port Richmond, Pa., was launched Sept. 30th, in presence of 2500 spectators.

Col. A. L. Campbell, Waterboro, S. C. says: "A member of my family used Brown's Iron Bitters with good results."

Miss Anna Rich, the beautiful and accomplished daughter of the editor of the Mohawk (N. Y.) *Independent*, has eloped with Frank Jacobson of Monticello. Her parents were not aware of the acquaintance until she had gone.

It is said that in a certain negro church in Virginia the members have voted that any member aiding the democrats by his vote will be suspended for at least five years.

"Five doctors; no end of Medicine; no relief. Dr. Benson's Skin Cure *has driven away all eruptions* and am nearly well." Ida C. Young, Hamilton, Ills.

Messrs. Leisure & Weaver, of Cincinnati, proprietors of the *Hawkeye*, a sporting paper of that city, were arrested Saturday charged with publishing obscene literature.

"I am happy to say," writes W. C. Morrill, 170 Tremont St., Boston, Mass., "that Ellis's Spavin cure is the best in the market. It cured my horse of a large bone spavin, after other liniments, &c., had failed."

Miss Mary Goff, a young lady living near Chambersville, Va., committed suicide Saturday. She stood before a mirror and cut her throat, severing the jugular vein.

Don't Despair.

If you are weak and weary from some so-called chronic disease, don't give up. Sulphur Bitters has given hope to many invalids, where hitherto there was nothing but despair. It will build up and renew your whole system.—*Editor Weekly American.*

The starboard boiler of the steamer Colorado exploded while she was about five miles out from Buffalo, N. Y., on Saturday. Four men were killed and seven wounded.

Positive Cure for Piles.

Burglars robbed the post-office at Lee, Mass., of $1,000, Sept. 29th.

A western editor has spent six years writing a book entitled, "How to test glue." An easy subject to stick to; but in the preface he says however he knows no better remedy for coughs and colds produced by sedentary habits, than Dr. Bull's Cough Syrup.

Willie Fox, aged ten years, fell twenty feet from a chestnut tree at North Adams, Mass., Monday, and struck his head on a rock. He died in an hour.

Human Blood.—On the purity and vitality of the blood depend the Vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

Moody and Sankey, the revivalists, sailed for Liverpool on Monday.

For Catarrh the only substantial benefit is obtained through the blood. Vegetine is the great blood purifier.

Gen. Hancock is reported to be seriously ill with kidney troubles.

Beecher's Bad Head.

For two months in the year Henry Ward Beecher can't preach. In August and September he takes his vacation and endures the onset of the hay fever. And it is, so he says, something terrible and tremendous. A man with hay fever isn't accountable for his actions. He is merely a wild beast—frantic with snuffing, sneezing and headache. His eyes are red and so is his nose. Every nerve in his skull thrills with distress and his head is a fountain of tears. He lives only to fly from seaside to mountain-top in search of relief.

And yet, whether we call this form of catarrh hay fever, rose fever, hay-cold or rose-cold, Ely's Cream Balm will cure it. This remedy is simple, pleasant and easy of application. Placed in the nostrils it penetrates and soothes the affected parts at once, restores the impaired senses and creates healthy secretions in cases of the longest standing. You cannot run away from hay fever, but you can drive it from you by using Ely's Cream Balm.

The town elections in Connecticut took place Monday; the republicans carried a large majority of the towns, making gains over their large success of one year ago.

Ladies who possess the finest complexions are among the patrons of Glenn's Sulphur Soap.

Hill's Hair Dye, black or brown, 50c.

Dyspeptic and nervous people, "out of sorts," Colden's Liquid Beef Tonic will cure. Ask for Colden's; no other. Of druggists generally.

E. T. Hamor of Bar Harbor, Me., arrived at Bangor on Monday evening from Minneapolis, accompanied by his daughter, who recently eloped with Louis Conners.

Many persons who seem to have consumption have perfectly sound lungs, and their distress originates altogether from disordered kidneys and liver. Now there are thousands of remedies that will relieve kidney and liver diseases, but there is only one that can be depended upon for effecting a permanent cure, and that is Brown's Iron Bitters. Its efficacy has been satisfactorily proven in thousands of instances after all other remedies had failed.

George Jaques of Portland, Me., was drowned in Presumpscot river while out sailing with a friend, Sunday. He was thirty-four years of age, and leaves a widow.

"Ellis's Spavin Cure is an invaluable preparation and cures as its proprietors claim it does," writes S. B. Mills, No. 5 Union Market, Boston, Mass.

The *Times* of Bath, Me., says there are very few applications for places on the police force of that city. The sad fate of Policeman Lawrence makes the applicants timid.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr. H. H. Schlichser, of Baltimore.

Charles Webster, a young man of West Randolph, Vt., shot himself Sunday evening, and died immediately. Disappointment in love was the alleged cause. Insanity is hereditary in his family.

Mother Swan's Worm Syrup.

Infallible, tasteless, harmless, cathartic; for feverishness, restlessness, worms, constipation. 25c.

About a year ago Elmer F. Culver of New Haven, Conn., and Miss Irwin of Baltimore, Md., were secretly married. Since the marriage it is alleged that Culver abused his wife systematically until she finally left him. In court, Saturday, Culver was put under heavy bonds to treat her properly.

"Buchu-Paiba."

Quick, complete cure, all annoying kidney, bladder and urinary diseases. $1. Druggists.

WASHINGTON, D. C., May 15th, 1880.

GENTLEMEN—Having been a sufferer for a great length of time from nervous prostration and general debility, I was advised to try Hop Bitters. I have taken one bottle, and I have been rapidly getting better ever since, and I think it the best medicine I ever used. I am now gaining strength and appetite, which was all gone, and I was in dispair until I tried your Bitters. I am now well, able to go about and do my own work. Before taking it, I was completely prostrated. Mrs. Mary Stuart.

Fifteen thousand steel and iron workers employed in the counties of Glamorganshire, Wales, and Monmouthshire, England, have struck against a reduction of ten per cent in their wages. The employers urge that in view of American competition they must close their works or reduce wages.

"I am happy to say," writes W. C. Morrill, 170 Tremont St., Boston, Mass., "that Ellis's Spavin cure is the best in the market. It cured my horse of a large bone spavin, after other liniments, &c., had failed."

191 WEST TENTH STREET, NEW YORK, August 11, 1880.

MESSRS. SEABURY & JOHNSON,

Gentlemen:—Like most of my profession, I am cautious about pinning my faith to any new medicine or curative agent. But your BENSON'S CAPCINE POROUS PLASTER has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mine. Although I was well acquainted with the superior excellence of your other plaster and anti-septic dressing, made especially for the profession, the Benson's was comparatively new to me. I had heard, however, of its merits as a remedy, in cases of Lame Back, Local Rheumatism, Neuralgia, Congestion of the Bronchial Tubes and Lungs, Dyspepsia, Torpid Liver and like affections, and have since begun to experiment with it personally. I find BENSON'S CAPCINE PLASTER an exceptionally cleanly plaster to use, and rapid in its action.

Many tests of its qualities, made in my own family and among my patients, have convinced me that there is no other single article so valuable for popular use, nor so helpful in the diseases I have named.

Should you desire to do so, you may use my name to that effect. Very truly yours.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the acute or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:	
Paid to Southern Express Co., New Orleans, L. M. Wescout, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to Louisiana State National Bank, S. H. Kennedy, President	435,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550

Paid to Germania National Bank, Jules Casserly, President	30,000
Paid to Hibernia National Bank, Chas. Palfrey, Cashier	37,000
Paid to Central Bank, Ed. Toby, Cashier	15,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$2,258,650
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,627,410
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

A Widow With Nine Children.

May have as much trouble with them as did the old woman who lived in a shoe. The children will all the time be bumping their noses and their heads bruised, their fingers cut, and their stomachs and bowels disordered by unripe fruit. The mother who is wise enough to keep a bottle of Perry Davis's Pain Killer saves her children much suffering, and herself a great deal of trouble.

We call the attention of our lady readers to the advertisement in our columns of James Pyle's Pearline, for laundry and kitchen purposes. An article so popular and widely circulated, must possess merits that commend it to favor of housekeepers.

Ten millions of legal tenders have been surrendered since November, 1882. The threatened retirement of three per cents is said to be giving some concern to bankers. If the banks are to be compelled to buy the high-priced long-time bonds as substitutes for the three per cents, many may prefer to abandon their circulation.

Gov. Butler's prestige as the boss bully having suffered terribly from the rough handling he received at the hands of Mr. Brown, counsel for Marsh in the Tewksbury investigation, he is now trying for the championship as the boss blackguard, and seems likely to win it. He has written several "open letters" recently to Ex-Gov. Talbot, which are not merely undignified, but are positively scurrilous. Mr. Talbot, being a gentleman, of course cannot reply in kind, and Butler will in consequence win great admiration from the back slums as a "mighty smart fellow." It looks now as though Butler's unscrupulous "smartness" had overreached itself, and defeated him for reelection; but this cannot be positively told until the votes are counted and declared.

The contemplated resignation of Second Asst. Postmaster-General Elmer is very much to be regretted, if the report is true. He is a man of brains and practical ability, and while we have profound respect for the legal reputation of the P. G. M., we incline to believe that such men as Elmer are the kind just now needed in the post-office department.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price **25** cents a bottle. eodfjan2,84

The Buffalo Bill "Wild West" show, which has been exhibiting at the fair grounds in Cleveland, Ohio, for the past week, varied its sham battles with real fighting on Saturday. An Omaha Indian named Walker, who is down in the bills as "Howling Dog," filled up with bad whisky and started on the war path. After he had laid out several fellow-aborigines with the butt of his revolver, he made a charge on Buffalo Bill. The latter successfully dodged two shots, and then knocked down the red man with a shovel. Walker will be laid up about ten days. The other Indians were quite rampant for awhile, and it looked as if there would be a small-sized war, but quiet was finally restored.

There is much excitement in Spain and France over the treatment of King Alfonso in Paris, where he was hooted and hissed by the populace, though the government tried to smooth it over afterward. The Spanish king had been on a visit to the German court, and while there had accepted the colonelcy of a German Uhlan regiment, a corps of the German army that the French people particularly dislike, on account of their acts during the Franco-German war. The several great powers of Europe are making faces at each other, and another readjustment of the map is probable before many years.

A. J. Whitington, sheriff of Amite county, Miss., was stabbed twice in the back at Liberty, Sept. 29th, and killed, by Eugene McElwee. The trouble grew out of politics. After the murder McElwee was surrounded by a crowd, one of whom shot him, from the effects of which he died in ten minutes. Both parties were democrats, and highly connected.

James McCuen and Victor Seymour of Biddeford were on Saturday, in the supreme court at Alfred, found guilty of highway robbery and assault upon James McKenzie.

The English Booley Family; by Horace E. Scudder, author of "the Booley books;" with illustrations. Boston; Houghton, Mifflin & Co.; price $1.50. Sold by M. Goodrich.

Every young person who has been kindly remembered at Christmas and similar occasions, knows all about the Booley books. This is the second number of the new Booley series, wherein is told how the children go to Europe and see the sights of England. These books are always entertaining and instructive. The illustrations are good, and while young folks will find a constant enjoyment in reading them, many an older person will be reminded of scenes abroad as the pages are perused. Mr. Scudder knows how to write these books in a manner which reminds us of the works of Peter Parley in days long gone by.

MEDICAL.

PURE IS THE ABSOLUTE NECESSITY OF HEALTH. **BLOOD**

THE marvellous results of HOOD'S SARSAPARILLA upon all humors and low conditions of the blood can be proven by the cures effected. It is the best BLOOD MEDICINE. Such has been the success of this article at home that nearly every family in the whole neighborhoods have been taking it at the same time. It eradicates scrofula, vitalizes and enriches the blood, thereby restoring and renovating the whole system. Hood's SARSAPARILLA purifies the blood. Hood's SARSAPARILLA cures dyspepsia. Hood's SARSAPARILLA cures biliousness. A peculiar point in Hood's SARSAPARILLA is that it builds up and strengthens the system, while it eradicates disease, and as nature's great assistant proves itself invaluable as a protection from diseases that originate in changes of the seasons, of climate and of life.

HOOD'S SARSAPARILLA

SCROFULA.

125 HOWARD STREET, LOWELL, MASS., Jan. 17.

MESSRS. C. I. HOOD & CO.: Gentlemen—I have used HOOD'S SARSAPARILLA in my family for scrofulous humor with wonderful success, and am happy to tell you that it is the best medicine we ever used. I do sincerely advise any one who is troubled with scrofula to give this valuable remedy a trial, and assure them they will not be disappointed. Very truly yours,

(Coburn Shuttle Co.) C. C. PICKERING.

HOOD'S SARSAPARILLA is sold by all Druggists. Price $1 per bottle; six for $5. Prepared by C. I. HOOD & CO., Lowell, Mass.

AN OLD GRAVE STONE.

Here lies ye body of
Mr. John Foss
son to
Mr. Joshua Foss
Dec. Feb. ye 16th,
1731
in the 24th year of
his age.
With early grace this
Man was blessed
And now we trust he's
Gone to rest.

The above inscription is on a broken slab of slate in the old parsonage burying ground at Rye Center; it was found under the steeple of the old meeting house at the time it was pulled down in 1838, and was taken to the spot where it now lies. No one at the time it was found had any traditional knowledge of any such person, and nothing has been brought to light since to show who he was. In the same church yard was buried Rev. Mr. Parsons, the first minister in Rye, to whom it is proposed to erect a suitable monument by his descendants. Here also lies the body of Rev. Huntington Porter, who was minister here for fifty years, and who died in Lynn in 1844. Also the body of Rev. Mr. Sewell, who was minister at the Shoals years ago.

DEATH OF JOHN R. HOLBROOK.

Mr. John R. Holbrook died on Tuesday evening about five o'clock, after a very brief illness; he was taken sick on the previous Friday evening, but was out on Saturday. He was all his life one of the hardest working of men, and his final sickness we are informed was due to a heavy cold contracted by working on a wet sail. He was a thoroughly good citizen and worthy man, and long an attendant on the services of the Baptist church.

Mr. Holbrook was prominent and active in Masonry, and had held nearly or quite all the offices in the lodge, chapter and commandry; he had been Grand High Priest of the Grand Royal Arch Chapter, Eminent Grand Commander of Knights Templar, and Grand Master of Masons, of New Hampshire; and was a Mason of the 32d degree. He attended the recent Triennial Conclave of Knights Templar of the United States at San Francisco, carrying a fac simile of the banner of De Witt Clinton Commandry of this city.

He leaves a widow; a daughter, the wife of Lieut. Comdr. Wingate, U. S. N.; and a son, who is a clergyman of the Episcopal church.

AROUND THE WORLD.

At Music hall, this evening, Morris' Warblers and specialty artists will appear in a "Trip Around the World," introducing a panorama and minstrelsy in a new form, the whole making a bright and dashing comedy show. Prices, fifty and thirty-five cents.

There was a decided white frost, Tuesday morning.

Tuesday's rain and blow we suppose will have to pass for the equinoctial storm; it is a little late, but better late than never.

A referee hearing in the insurance case of Dennis J. Lynch, late of this city, was commenced in the office of Frink & Batchelder on Monday.

Major George Butler, detached from command of the marine barracks at this navy yard, has been granted sick leave for six months, his orders to command the marine barracks at the Norfolk navy yard having been revoked.

The Tallapoosa will sail to-day from Washington for this naval station, with stores. The successor of Commander Kellogg as commander of the Tallapoosa has not been appointed; in the meantime the steamer is commanded by Lieut. John F. Merry.

Joseph P. Morse, Esq., of the firm of Morse & Hisley, agents for the Travellers Accident Insurance company, though a policy holder in the company for ten years past is now first receiving a benefit therefrom, he having last week sustained a severe injury through striking his right knee on the sharp edge of a board while at work in his strawberry bed.

George W. Plumer, the third son and last surviving child of Ex-Governor William Plumer, died in Epping on Saturday morning, Sept. 29th. He was born in Epping Feb. 4th, 1796. For many years he was a prominent merchant in his native town, and retired from business in 1837. He was an active and intelligent gentleman, and took a lively interest in public affairs. He represented the town in the legislature in 1852 and 1853.

Joshua Fowler of South Seabrook is a sound sleeper. His house was struck by lightning on Saturday night, and he did not become aware of the fact until the smoke of burning clothing in the room aroused him from his slumbers. On waking he found that the lamp was not lighted as he left it when he retired, and he supposed that an explosion had occurred. On investigation he found that the house had been struck, the fluid coming down through the roof near the chimney, passing along the ceiling doing some damage in its course, and setting fire to the clothing. The chamber was occupied by Mr. Fowler and his wife, and two children, and it was a narrow escape for them. A young pig, in a pen about thirty feet from the house, was paralyzed, and it was found necessary to kill him.

It is said the building on Daniel street recently occupied by Jeremiah Sanborn as a tobacco shop is to be removed to the rear of the lot, and a new building erected on its site for the use of the Western Union telegraph company. The shed on the rear of the lot has been torn down.

The directors of the Boston & Maine railroad have flatly refused the request of the Maine Central stockholders for a committee of conference to bring about a business arrangement between the Maine Central, the Eastern and the Boston & Maine roads. The Maine Central people are pretty mad; but in the language of the immortal Tweed, "What are you going to do about it?"

The John B. Doris circus railway train met with an accident near Boonville, Mo., last week, which entailed a loss of over $15,000. A broken rail at the crossing of the Missouri & Kansas and Texas & Versailles branch threw three cars off the track; twelve horses were killed and others wounded, and the two splendid chariots, valued at $5,000, were ruined. Two brothers named Thomas, employes of the circus, who were sleeping in one of the chariots, were badly injured, and one of the men is reported to be fatally hurt. This was the circus which appeared in this city early in the season, and gave the best exhibition of the kind seen here for years.

Mr. William F. Grant, foreman of bridge repairers at Portsmouth bridge, and for twenty-five years in the employ of the Eastern railroad, died at his home on Noble's island, Monday afternoon.

The Bangor express train for Boston, Monday afternoon, comprised three Pullman cars and seventeen ordinary passenger coaches. It was the first day of the consolidation of the White mountain train with the Bangor express.

Mr. Isaac Lord, of Acton, has a horse that is likely to make trouble in his family, unless speedily gotten rid of. This animal recently reached for Mr. Lord with one of his hinder hoofs, and broke one of that gentleman's ribs; and a short time afterward kicked Mr. Lord's son, breaking one of his legs.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

258th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can give much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MEDICAL.

"I owe my Restoration to Health and Beauty to the CUTICURA REMEDIES."
Testimonial of a Boston lady.

DISFIGURING Humors, Humiliating Eruptions, Itching Tortures, Scrofula, Salt Rheum, and Infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the cause.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and Scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from CUTICURA, is indispensable in Nursing Skin Diseases, Baby Humors, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison whatsoever.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA RESOLVENT internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat and usually considered incurable; small patches of tetter and salt rheum on the ears, nose and sides of the face.

Scald Heads with loss of hair without number, heads covered with dandruff and scaly eruptions, especially of children and infants, many of which since birth had been a mass of scabs;

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed as by magic;

Psoriasis, leprosy, and other frightful forms of skin diseases, scrofulous ulcers, cold sores, and discharging wounds, each and all of which have been speedily, permanently and economically cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by a vast number of sworn testimonials in our possession, which we will cheerfully mail to any address.

Sold everywhere. Price: CUTICURA, 50 cents. RESOLVENT, $1. SOAP, 35 cents. POTTER DRUG AND CHEMICAL CO., Boston, Mass.
Send for "How to Cure Skin Diseases."

BEAUTY For Rough, Chapped and Greasy Skin, Black Heads, Pimples and Skin Blemishes use CUTICURA SOAP.

An explosion in the California powder works, situated near Pirole, Cal., on the Central Pacific railroad, on Friday, took place in the mixing room. The immediate cause will never be known, as all those engaged in the room, comprising forty Chinamen and one white overseer, were blown to atoms. Scraps of their bodies were picked up in different directions at a distance of a quarter of a mile from the scene of disaster. The only white man killed was the overseer of the mixing room. This makes the third explosion in these powder works, which are reckoned among the largest on the Pacific coast, employing twenty white men and 125 Chinamen.

"What thing so good?" is the query of a poet somewhat confused: if he has a cold, the only good thing we know of is a bottle of Dr. Bull's Cough Syrup.

During Saturday night snow fell in Piscataquis county, Me., and the ground at Greenville, on the shores of Moosehead lake, was covered Sunday morning to the depth of three inches.

Compare the dose and quantity of Hood's Sarsaparilla and you have conclusive proof of its superior strength and cheapness. Try it.

The 150th anniversary of St. John's lodge of Masons, of Boston, the oldest lodge in the United States, was celebrated in the Masonic Temple in that city on Monday last.

Did She Die?

"No; she lingered and suffered along, pining away all the time for years, the doctors doing her no good; and at last was cured by this Hop Bitters the papers say so much about. Indeed! indeed! how thankful we should be for that medicine."

The town of Pawtucket, R. I., the largest town in the country, on Monday voted for the second time to reject a city charter, by 400 majority.

Col. A. L. Campbell, Waterboro, S. C. says: "A member of my family used Brown's Iron Bitters with good results."

News comes from Mexico that in Tapachula, state of Chiapas, a panic reigns on account of the great mortality caused by black smallpox. The town has a population of 10,000, and 1,200 have died of the disease, decomposition setting in before death in many cases.

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1.

Wolfred Girard of Holden, Mass., was shot and fatally wounded on the highway in that town, Saturday night, by Charles Toushon, a former mill owner. It is claimed the shooting was accidental. Toushon was afraid of robbers, and had his pistol in his hand as he was driving along. His horse shied when it came upon Girard and two companions, causing the revolver to go off, the ball entering Girard's side.

"Five doctors; no end of Medicine; no relief. Dr. Benson's Skin Cure *has driven away all eruptions* and am nearly well." Ida C. Young, Hamilton, Ills.

In Newburyport, on the 1st inst., a woman who was hauling her baby in a carriage was so drunk that she tumbled down on one of the principal streets, capsizing the carriage and throwing the baby out. The mother and child were taken home.

The Limb of Things Lost

on earth has engulfed many a trumpery tooth wash, paste and powder, since Sozodont was introduced to public notice, but that standard article still retains its place in general estimation and WAXES in popularity as the years wane. People whose teeth have been saved by it, speak gratefully in its behalf, and professional endorsements of it multiply fast.

PARKER'S TONIC!

ONCE TESTED ALWAYS PREFERRED!

This great remedy has won its way to the highest place in the esteem of the most intelligent people. There are daily recruits to its host of friends. Its performance is invariably

BETTER THAN ITS PROMISE.

It gives tone and power. For complaints of the Kidneys, Bowels, Stomach, Liver and Lungs, for all the subtle troubles of women and for those bodily disorders induced by anxiety, care and mental strain, its effects will surprise and charm you. It is not an essence of ginger. Delicious to the palate, an antidote to the liquor habit, and exceedingly helpful to the aged and feeble. 50c. and $1.00 sizes. HISCOX & CO., New York.

DISCONTENT.

BY SARAH O. JEWETT.

Down in a field one day in June,
The flowers all bloomed together,
Save one who tried to hide herself
And drooped, that pleasant weather.

A robin, who had soared too high
And felt a little lazy,
Was resting near a buttercup
Who wished she were a daisy.

For daisies grow so trig and tall,
She always had a passion
For wearing frills about her neck,
Just in the daisies' fashion.

And buttercups must always be
The same old tiresome color,
While daisies dress in gold and white
Although the gold is duller.

"Dear robin," said this sad young flower,
"Perhaps you'd not mind trying
To find a nice white frill for me,
Some day when you are flying."

"You silly thing!" the robin said,
"I think you must be crazy;
I'd rather be my honest self
Than any made-up daisy.

"You're nicer in your own bright gown,
The little children love you;
Be the best buttercup you can,
And think no flower above you.

"Though swallows keep me out of sight,
We'd better keep our places;
Perhaps the world would all go wrong
With one too many daisies.

"Look bravely up into the sky,
And be content with knowing
That God wished for a buttercup
Just here where you are growing."

A Kentucky girl glories in a head of hair which is seventy inches long and very thick, but our chief glory is in the number of cures made recently by the use of Dr. Bull's Cough Syrup.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

The ship St. Mark, from Liverpool for New York with coal, has put into Queenstown, Ireland, for men. A seaman fell overboard, and a boat with six men put off to save him, but all were lost.

Dr. Nathan C. Jones of New York, after living thirty-five years with his wife, and bringing up a family of children, has eloped with another woman, who left behind her a husband.

Many persons who seem to have consumption have perfectly sound lungs, and their distress originates altogether from disordered kidneys and liver. Now there are thousands of remedies that will relieve kidney and liver diseases, but there is only one that can be depended upon for effecting a permanent cure, and that is Brown's Iron Bitters. Its efficacy has been satisfactorily proven in thousands of instances after all other remedies had failed.

WASHINGTON, D. C., May 15th, 1880.

GENTLEMEN—Having been a sufferer for a great length of time from nervous prostration and general debility, I was advised to try Hop Bitters. I have taken one bottle, and I have been rapidly getting better ever since, and I think it the best medicine I ever used. I am now gaining strength and appetite, which was all gone, and I was in despair until I tried your Bitters. I am now well, able to go about and do my own work. Before taking it, I was completely prostrated. Mrs. Mary Stuart.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calcinis or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complaint; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy, and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, I. M. Wescoat, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to Louisiana State National Bank, S. H. Kennedy, President	822,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Charlaron, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Palfrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	13,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,300
Total paid as above	$2,953,650
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,927,410
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

A Widow With Nine Children.

May have as much trouble with them as did the old woman who lived in a shoe. The children will all the time be bumping their noses and their heads bruised, their fingers cut, and their stomachs and bowels disordered by unripe fruit. The mother who is wise enough to keep a bottle of Perry Davis's Pain Killer saves her children much suffering, and herself a great deal of trouble.

THE MAINE CENTRAL RAILROAD WILL FIGHT.

The Portland *Argus* gives the following account of the efforts of the stockholders of the Maine Central to secure a modification of the lease of the Eastern to the Boston & Maine:

"It will be remembered that a short time ago the Maine Central committee which met at Waterville formulated and forwarded to George C. Lord, president of the Boston & Maine railroad, a paper asking that company to appoint a committee of conference to bring about a business arrangement between the Maine Central, Eastern and Boston & Maine roads. This paper was received by Mr. Lord and laid by him before the Boston & Maine board of directors, with the advice that the committee asked for be appointed. At the meeting of the directors held last week the request of the Maine Central was carefully considered. As a result of these deliberations a communication was received by the Maine Central committee refusing point blank to appoint the desired committee of conference.

This was a great surprise to the Maine Central. They had expected that the Boston & Maine would adopt a conciliatory course. On the contrary they find themselves snubbed. But the reply said that the Maine Central might make as many propositions to the Boston & Maine as it pleased, and they would be considered. This does not better matters much. It is as much as to say, 'We have got you in our power, and the game is ours. You may present your propositions embodying your wishes, and we will reject or adopt them, as we please.'

Friday evening F. A. Wilson of Bangor passed through Portland on the Flying Yankee, on his way to Boston, where he will call on the Boston & Maine officials and secure a modification, if possible, to their reply to the Maine Central committee. If his mission proves fruitless, a meeting of the Maine Central stockholders will probably be called and the committee discharged. What the Maine Central will do beyond that it is difficult to forecast.

It is very evident that the Boston & Maine regard themselves as secure in their position, and will make no concessions; on the other hand, the Maine Central opposition are determined that the lease shall not be consummated, if at all, unless they have proportional voice in the matter and the interests of their road regarded."

Among the finest of the many addresses made to the Right Honorable Lord Coleridge, Lord Chief Justice of England, was that of Judge Samuel Treat, given at the St. Louis club house on the 28th ult., at the reception tendered the chief justice by the members of the bench and bar, federal and state, resident in St. Louis.

The postoffice at Gloucester, Mass., was burglarized on the night of Oct. 1st, it is supposed by professionals. The safe was forced, and about $1456 in money and $571 in stamps stolen, with valuable stocks, notes, etc., many of which are negotiable.

The disquieting rumors as to Gen. Hancock's health are contradicted by his physician.

While some boys were partridge shooting in the woods at Richford, Vt., on Sunday, the 30th ult., one of them shot at what he thought was a bird, but which proved to be another boy's head. The boy shot at was probably fatally injured.

The British ship Cairus, from London for Astoria, Oregon, has been totally wrecked near the latter port.

Four big eels got into the water wheel of a paper mill at Manchester, Mass., Oct. 1st, and stopped the machinery; one of them was between three and four feet long, but the others were so ground up they could not be measured. The mill was stopped all day, while the wheel was being cleared.

J. M. Haven, late treasurer of the Rutland railroad in Vermont, has been indicted for illegally issuing stock.

Christine Nilsson arrived at New York Oct. 2d, from Europe.

The exposition building at Pittsburg, Pa., with its entire contents, was burned Oct. 3d. Loss about $1,000,000.

The ship Samuel Skolfield, from Calcutta for New York, was wrecked near Bermuda on the 31st of August, in a hurricane; the mate, stewardess and twelve seamen were lost, and possibly others. The captain and his family were rescued by a French steamer after being thirty-two hours in a boat, and taken to Havre.

Hensley and Elmore, two of the four stage robbers who murdered Collins, an express messenger in Arizona, on the 10th of August, were captured Oct. 1st and taken to Florence, Arizona, where their two companions, Redfield and Tuttle, were hanged by the citizens soon after the murder. It is likely the two just captured will share the same fate.

At Monmouth, Ill., Mrs. Bailey, aged forty-five years, wife of a commercial traveller, and her daughter, aged sixteen, were found dead in a cornfield, the mother having evidently killed the girl, who had been demented from birth, and then killed herself, with a razor.

Fire at the Bellevue gardens at Manchester, Eng., destroyed the panorama of the battle of Tel-el-Kebir. Considerable alarm prevailed among the audience, but no person was injured. Loss, £30,000.

It Bears the Closest Scrutiny.

In the many items of news published, or reprinted, in the advertising columns of the newspapers of the day, it is satisfying to the reader to be fully assured that all the names given as winners of capital prizes, at various times of different amounts, in The Louisiana State Lottery are correct and truly stated. In addition to the many who avoid publicity for various reasons. All names and amounts are genuine and will bear the closest scrutiny of investigation. If any one doubts this fact let him seek information of A. Dauphin, New Orleans, La., and he can be fully satisfied of its exact truth.

Senator Sharon has stated in reference to the charge of adultery brought against him by Aggie Hill of San Francisco, who claims to be his wife, that he would take immediate measures to punish his traducers to the full extent of the law. He characterizes the charge as the scheme of a characterless woman and unscrupulous man to extort money, and says that he refuses to be plucked. It is stated by the other side that Gov. Richards of Wisconsin, who attended the wedding of the senator's daughter to Sir Thomas Hesketh, will testify that he heard Mr. Sharon acknowledge that he had been secretly married to Miss Hill.

Henry Moulton, for drunkenness, was requested to hand over the usual $9.90.

Lawrence Mitchell, for drunkenness, was also requested to hand over $9.90; not finding it convenient to comply, he takes a trip to Brentwood.

GOSSIPS SAY

That a young bicyclist of this city disappointed a whist party on Monday evening through fear of a certain big dog, although the canine is toothless from age.

That his friends are inquiring where was Moses when the dog ran out.

That the colonel stood the ordeal of being watched grandly.

That a letter has been received in this city from an officer on board the flagship Tennessee, in which he says that the ship was not damaged to the extent of a farthing by her grounding in Portsmouth harbor.

That she is to be docked for repairs at Brooklyn in accordance with orders from the department issued several weeks ago.

That the editor of the Louisville (Ky.) *Commercial* is creating considerable of a furore in that city by his dextrous maneuvres on a marine bicycle recently purchased in this city.

That Col. Aaron Young, of this city, is on a brief visit to Warren.

OBSTRUCTING THE STREETS.

Mr. Editor: "Citizen," in the Chronicle of the 29th ult., refers to the display of wares by one of our traders, in direct violation of a city ordinance which was passed so little while ago that the ink is hardly dry. I see no reason why Mr. Rider has not as good a right to thus encumber the public street or sidewalk as one member of the city government has to parade his wares in a like way. Let us take a stroll through Market street, and by actual count discover how many of our good citizens are guilty of the same offence; *twenty-two* is the number, several of whom are at present or have been within a few years, members of the board of aldermen or the common council. On reaching the corner of Market street and Market square, your correspondent essayed a tour through Congress street, but judging from the looks of the sidewalks as seen from this corner it became plain that its condition was not any more creditable to the parties whose duty it was to enforce the law than was the street through which he had just travelled, and he gave up his further walk. It is not to be expected that where violation of the law is the general rule among the traders, that any one will be singled out because he goes a little further with his violation than the others.

While on this subject I would simply refer to a fact that has several times been brought before the public in your paper, but the nuisance still exists and seems to increase rather than diminish. It is the freight trains on the Eastern railroad being allow to stand on the track so long at the crossing of Vaughan and Green streets; frequently in the early part of the evening as many as thirty or forty pedestrians, to say nothing of teams, are kept waiting from five to ten minutes, which by them in their hurry can readily be imagined to be much longer. Possibly this abuse may be remedied by the new board of railroad commissioners; if so, hurrah for the new laws! VALKER.

THE "CHOCORUA" WRECKED.

A cable despatch received on the 2d inst. reported the ship Chocorua, Locke master, as wrecked at Bolinao, Philippine islands, previous to the 1st inst., while on the passage from Hong Kong to Iloilo; crew supposed to be saved, nothing being said to the contrary. The last previous report from the Chocorua reported her in dock at Hong Kong on the 15th of August, repairing, she having arrived there on the 7th of that month, having been ashore in Mindora straits on the passage from Hiogo to Iloilo; she was probably in ballast when wrecked. Vessel and freight insured for $50,000, in Boston offices. She registered 1163.17 tons, and was built at this port, on the Raynes shipyard, in 1875, by Wm. F. Fernald; rated A1, and was owned by Charles H. Mendum and others.

BRILLIANT WEDDING.

The most brilliant wedding which has occurred in this city for years took place on Wednesday afternoon at two o'clock, at the residence of Ezra H. Winchester, Esq., "Lawn Farm," on Lafayette road, the contracting parties being Mr. Winchester's only daughter, Miss Abbie Main Winchester, and Wallace Hackett, Esq., only son of Col. William H. Hackett. The marriage ceremony was performed by Rev. James DeNormandie of Boston Highlands. The bridesmaids were Miss Bessie Bell Hackett, sister of the groom, and Miss Mabel Sise, daughter of John Sise, Esq. The ushers were Andrew P. Preston and Arthur W. Walker of this city, Thomas J. Hanlon of Boston and James W. Hitchings of Lynn.

Following the ceremony, which was attended only by the immediate relatives of the bride and groom, was a reception, which was attended by hundreds of prominent residents of this and other cities, the roads in the vicinity of the mansion being lined with carriages for a long distance. A banquet was served under the superintendence of Caterer Dooling, of Boston, and the floral display was elaborate and beautiful.

The presents were almost innumerable and many of them of great cost, yet they were less to be remarked for their number or intrinsic value than for the good taste almost universally evinced in their selection.

The newly-wedded pair took the cars at the Greenland station of the Eastern railroad early in the evening for a wedding tour, on their return from which they will take apartments at the Rockingham house for the winter.

Morris' Warblers did not warble in Music hall on the evening of the 3d inst., as advertised. The company will be called the "Wobblers" in future.

Capt. E. W. Curtis, of the steamer Katahdin, in his report to the supervising inspector of steam vessels at Boston in regard to the running down of the schooner Mary C. Sproul off Boon island, says the night was very dark, the lookout on board the steamer did not see the schooner in time to avert a collision, and the schooner was struck amidships; the steamer lowered a boat, and took off the crew. The damage to the steamer did not amount to $100.

Mr. Editor: Knowing your capacity for administering a mild rebuke to the erring, I wish you would "go for" the miscreant who is mean enough to drop sprightly kittens on others' premises, instead of committing them to the "vasty deep" before their eyes are capable of seeing the light of day, as should be done. Having had a litter of three recently dropped on my premises, I fear I should lose my temper in addressing myself to the mean perpetrator of the cowardly deed. SOUSCRIPTEUR.

James Miller, a moulder, for some years past foreman of foundries in the department of steam engineering on the navy yard, has been superceded by Richard H. Waldron, tin-plater.

Two schooners went on Hicks' rocks in the lower harbor during the gale of Tuesday afternoon, the 2d inst., and failed to get off on the 3d; one of them, the J. Whitehouse, of St. John, was reported to have a hole in her bottom.

A young man named Powers, employed as a brakeman on the Eastern railroad freight trains, was struck on the head early Tuesday morning, the 2d inst., while passing under the Silsbee street overhead bridge in Salem, and was seriously injured.

The gross earnings of the Eastern railroad during August were $428,341, an increase of $29,603 over the earnings of August in the previous year, when the total was $398,738.

Mr. Merrill, of the firm of Foss & Merrill, civil engineers of Concord, N. H., with three assistants, is engaged in surveying the last-proposed route of the projected railroad between Kittery depot and York harbor, by way of the Lower Foreside and Kittery Point. It is stated that the road can be built on this line with but very little cutting and filling, and at an expenditure much less than the inland route would require.

The Universalist Sunday School convention of New Hampshire met in the Pierce Memorial church at Dover at noon on the 2d inst., and organized with Rev. H. K. Fiske of Henniker as chairman, and Rev. Wm. E. Gaskin of this city as secretary. The annual report of the secretary shew an increased number of schools and enlarged attendance.

Wednesday forenoon of this week, while Mr. Wm. P. Titcomb, superintendent of the York town farm, was driving a four-ox team over Sewell's bridge, the structure gave way, letting the team and driver into York river, which was well out at the time. Mr. Titcomb was badly bruised on the rocks, and the team was considerably injured.

Dr. Arnold of Boston, a man about fifty years old, has been staying at "Camp Comfort," Old Orchard, after the departure of the mass of the summer visitors, on account of his health. On Monday of this week he attempted to clean out an old-fashioned horse pistol belonging to his son, supposing it to be unloaded; and putting the ramrod in the barrel, turned the muzzle toward his body and attempted to force the rod down, when the weapon was discharged, and the ramrod and a bullet lodged in his bowels. The rod was extracted by physicians, but the bullet could not be found, and it was supposed his injuries were fatal.

Orrin Sayward of Farmington, recently escaped from the state reform school, was arrested for stealing $50 from Justin Dore, pleaded guilty and was held for trial in the supreme court in default of $1,000 bonds. He has been identified as the party who stole valuables from the residence of Charles B. Gafney of Rochester and also a trunk and valuables from the railroad depot at New Durham.

John Chaquette's house at Littleton was burned Oct. 2d; loss $1200; insured in New Hampshire mutual for $500.

The firemen's muster at Haverhill, Mass., opened Oct. 3d, with a large attendance.

A papal decree, regulating procedure before the civil tribunals of the vatican, is published. The decree ignores Italian law, and ordains that all contracts between any portion of the pope's household and parties outside shall be regulated solely by pontifical law.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.* t,th,s,geo

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt this or assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Much without, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

The English Bodley Family, by Horace E. Scudder, author of "the Bodley books;" with illustrations. Boston; Houghton, Mifflin & Co.; price $1.50. Sold by M. Goodrich.

Every young person who has been kindly remembered at Christmas and similar occasions, knows all about the Bodley books. This is the second number of the new Bodley series, wherein is told how the children go to Europe and see the sights of England. These books are always entertaining and instructive. The illustrations are good, and while young folks will find a constant enjoyment in reading them, many an older person will be reminded of scenes abroad as the pages are perused. Mr. Scudder knows how to write these books in a manner which reminds us of the works of Peter Parley in days long gone by.

The reason why Solomon said, that there was nothing new under the sun, was that he could not buy a good remedy to cure his stubborn cold. Dr. Bull's Cough Syrup had not been compounded then. It has long since proved itself to be the great benefaction of the nineteenth century.

At Hanover, on the 2d inst., the rain storm which prevailed all day wound up with hail and snow in the evening. The same was the case generally in the White mountains region.

Don't Despair.

If you are weak and weary from some so-called chronic disease, don't give up. Sulphur Bitters has given hope to many invalids, where hitherto there was nothing but despair. It will build up and renew your whole system.—*Editor Week's American.*

A man suffering from debility and loss of appetite took two bottles of Hood's Sarsaparilla, gained ten pounds and got well.

Two canal boats broke loose from the steam tug Purcell on the 2d inst., near Penfield reef, Conn., and eleven boats broke from the tug Resolute off Milford the same day, and all sank. They were loaded with between 3000 and 4000 tons of coal, and the loss is about $30,000.

Did She Die?

"No; she lingered and suffered along, pining away all the time for years, the doctors doing her no good; and at last was cured by this Hop Bitters. The papers say so much about. Indeed! indeed! how thankful we should be for that medicine."

An Iowa Junction, Iowa, Oct. 1st, a deaf mute named W. Diver, being rejected as a suitor by his brother's widow, attempted to kill her with an axe, and wounded her badly, though she will recover. He then killed himself with the axe and a knife.

The limbo of Things Lost

on earth has engulfed many a trumpery tooth wash, paste and powder, since Sozodont was introduced to public notice, but that standard article still retains its place in general estimation and waxes in popularity as the years wane. People whose teeth have been saved by it, speak gratefully in its behalf, and professional endorsements of it multiply fast.

Did She Die?

"No!
"She lingered and suffered along, pining away all the time for years,"
"The doctors doing her no good;"
"And at last was cured by this Hop Bitters the papers say so much about."
"Indeed! Indeed!"
"How thankful we should be for that medicine."

A Daughter's Misery.

"Eleven years our daughter suffered on a bed of misery,
"From a complication of kidney, liver, rheumatic troubles and Nervous debility,
"Under the care of the best physicians,
"Who gave her disease various names,
"But no relief.
"And now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had shunned for years before using it."—THE PARENTS.

Father is Getting Well.

"My daughters say:
"How much better father is since he used Hop Bitters."
"He is getting well after his long suffering from a disease declared incurable,"
"And we are so glad that he used your Bitters."

PARKER'S TONIC!

ONCE TESTED ALWAYS PREFERRED!

This great remedy has won its way to the highest place in the esteem of the most intelligent people. There are daily recruits to its host of friends. Its performance is invariably

BETTER THAN ITS PROMISE.

It gives tone and power. For complaints of the Kidneys, Bowels, Stomach, Liver and Lungs, for all the subtle troubles of women and for those bodily disorders induced by anxiety, care and mental strain, its effects will surprise and charm you. It is not an essence of ginger. Delicious to the palate, an antidote to the liquor habit, and exceedingly helpful to the aged and feeble. 50c. and $1.00 sizes. HISCOX & CO., New York.

Louise Talcott of Hartford, Conn., had a pair of solitaire diamond earrings swept into a waste basket the other day and emptied into the range. She found them recently in the ashes, the stones unharmed but the gold settings melted away.

A Bridgeport, Conn., minister is in a fidget because he performed a marriage without looking at the license. After the ceremony he found the document was issued in Massachusetts, and now he don't know where the couple are spending their honeymoon, so as to warn them that they must begin all over again.

Parents must remember that children have more need of friendly monitors than of censorious critics; instructors who would advise them to never be without Dr. Bull's Cough Syrup, the only plain and safe remedy for croup, diphtheria, and sore throat.

Handkerchiefs with lace borders are fashionable. The initials are now embroidered directly in the centre.

Hood's Sarsaparilla

Is designed to meet the wants of those who need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies. No other article takes hold of the system and hits exactly the spot like Hood's Sarsaparilla. It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy. $1 a bottle; six for $5.

Crushed strawberry is no longer fashionable, shot blue and plum color having in a great measure taken its place.

"Dr. Benson's Celery and Chamomile Pills, are worth their weight in gold in nervous and sick headache."—Dr H. H. Schlichser, of Baltimore.

Sleeves on fall dresses are made to fit tightly; most of them require to be padded near the shoulder, unless the wearer has round arms.

WASHINGTON, D. C., May 15th, 1880.

GENTLEMEN—Having been a sufferer for a great length of time from nervous prostration and general debility, I was advised to try Hop Bitters. I have taken one bottle, and I have been rapidly getting better ever since, and I think it the best medicine I ever used. I am now gaining strength and appetite, which was all gone, and I was in distress for want of proper food. I cannot say too much in its favor. I am now well, able to go about and do my own work. Before taking it, I was completely prostrated. Mrs. Mary Stuart.

Ecru lace dresses draped over rose pink is a favorite combination. A lace dress can be utilized to go with half a dozen different costumes.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Sashes are still greatly in favor for the adornment of young girls' dresses, those with chine patterns or flowered centres, with satin edges, being preferred.

For Catarrh the only substantial benefit is obtained through the blood. Vegetine is the great blood purifier.

Checked surah silk dresses are worn extensively this fall. They make up prettily over cashmere skirts matching in color, and can be tastefully trimmed with velvet.

Beecher's Bad Head.

For two months in the year Henry Ward Beecher can't preach. In August and September he takes his vacation and endures the onset of the hay fever. And it is, so he says, something terrible and tremendous. A man with hay fever isn't accountable for his actions. He is merely a wild beast—frantic with snuffing, sneezing and headache. His eyes are red and so is his nose. Every nerve in his skull shrills with distress and his head is a fountain of tears. He lives only to fly from seaside to mountain-top in search of relief.

And yet, whether we call this form of catarrh hay fever, rose fever, hay-cold or rose-cold, Ely's Cream Balm will cure it. This remedy is simple, pleasant and easy of application. Placed in the nostrils it penetrates and soothes the affected parts at once, restores the impaired senses and creates healthy secretions in cases of the longest standing. You cannot run away from hay fever, but you can drive it from you by using Ely's Cream Balm.

White skirts are made quite full, and some of them have whalebones inserted in the back to keep them rather bouffant, instead of putting them into the skirt of the dress.

Daughters, Wives, and Mothers.

We emphatically guarantee Dr. Marchisi's Catholicon a Female Remedy, to cure Female diseases, such as ovarian troubles, inflamation and ulceration, falling and displacement or bearing down feeling. Irregularities and barrenness, change of life, leucorrhœa, besides many weaknesses springing from the above, like headache, bloating, spinal weakness, sleeplessness, nervous debility, palpitation of the heart, &c. For sale by druggists. Prices $1.00 and $1.50 per bottle. Send to Dr. J. B. Marchisi, Utica, N. Y., for Pamphlet, free. For sale by Andrew P. Preston, Druggist.

The taste now seems to incline toward rich material simply made. The most fashionable people wear very little trimming on their street dresses, most of them being tailor made.

Ladies who possess the finest complexions are among the patrons of Glenn's Sulphur Soap.

Hill's Hair Dye, black or brown, 50c.

Dyspeptic and nervous people, "out of sorts," Colden's Liquid Beef Tonic will cure. Ask for Colden's; no other. Of druggists generally.

Dressy French kid boots for girls have from six to nine straps across the front to show the stockings, but plain bronze or black kid boots, with low heels, are preferred by most to more fanciful styles.

Many persons who seem to have consumption have perfectly sound lungs, and their distress originates altogether from disordered kidneys and liver. Now there are thousands of remedies that will relieve kidney and liver diseases, but there is only one that can be depended upon for effecting a permanent cure, and that is Brown's Iron Bitters. Its efficacy has been satisfactorily proven in thousands of instances after all other remedies had failed.

Some of the new jackets are now made of fine stockinette cloth, which has the advantage of fitting the figure very closely. The most popular shape of this jacket is double breasted, and has a small stand-up collar and revers like a man's coat.

"Buchu-Paiba."

Quick, complete cure, all annoying kidney, bladder and urinary diseases. $1. Druggists.

The new black brocades are in three styles. One has a satin ground, with a detached flower in relief, resembling Queen Anne embroidery; another shows a satin twill with graceful seed pods, half in diaper and half in small cord effects. The third style has Muscovite cords in perpendicular lines, with large leaf and flower patterns in satin relief.

Skinny Men.

"Wells' Health Renewer" restores health and vigor, cures dyspepsia, impotence, sexual debility. $1.

Having Admitted the Strength of the Evidence, an Eminent Physician takes Logical Action.

The following letter tells its own story. The signature will be recognised as that of the Physician-in-Chief of the De Quincey Home, and author of "Drugs That Enslave," "The Hypodermic Injection of Morphine," "A Manual of Nursing," and many other popular and valuable special medical works:

191 WEST TENTH STREET,
NEW YORK, August 11, 1880.

MESSRS. SEABURY & JOHNSON,

Gentlemen:—Like most of my profession, I am cautious about pinning my faith to any new medicine or curative agent. But your BENSON'S CAPCINE POROUS PLASTER has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mine. Although I was well acquainted with the superior excellence of your other plaster and anti-septic dressing, made especially for the profession, the Benson's was comparatively new to me. I had heard, however, of its merits as a remedy, in cases of Lame Back, Local Rheumatism, Neuralgia, Congestion of the Bronchial Tubes and Lungs, Dyspepsia, Torpid Liver and like affections, and have since begun to experiment with it personally. I find BENSON'S CAPCINE PLASTER an exceptionally cleanly plaster to use, and rapid in its action.

Many tests of its qualities, made in my own family and among my patients, have convinced me that there is no other single article so valuable for popular use, nor so helpful in the diseases I have named.

Should you desire to do so, you may use my name to that effect. Very truly yours,

H. H. KANE, A. M., M. D.

The genuine have the word CAPCINE cut in the centre. Price 25 cents.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculous or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations; and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it, it is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I know to have suffered from Kidney and Liver complaints; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, J. M. Wescott, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to Louisiana State National Bank, S. H. Kennedy, President	825,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Charlaven, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	30,000
Paid to Merchants' Bank, Chas. Palfrey, Cashier	87,000
Paid to Canal Bank, Ed. Toby, Cashier	13,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,300
Total paid as above	$2,253,650
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,027,410
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State Authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

A Widow With Nine Children.

May have as much trouble with them as did the old woman who lived in a shoe. The children will all the time be bumping their noses and their heads bruised, their fingers cut, and their stomachs and bowels disordered by unripe fruit. New Hampshire Items.

Judge Daniel Clark left Manchester on Thursday for a trip to St. Paul and Minneapolis.

In Dorchester, on the 2d inst., Edward Clement and John Brooks, two young men, had an altercation in a school house. The postmaster, G. F. Colburn, separated them, and took Clement to his house. While Clement was there John W. Brooks, father of the young man mentioned above, called. Some words ensued and, it is alleged, Brooks attacked Colburn senior with a hammer, and threw him head first into a wood-box. This assault excited Eugene Colburn, the postmaster's son, who drew a revolver and shot Brooks, inflicting a mortal wound. Firing again as Brooks was endeavoring to leave the room, Eugene put another bullet into Brooks' arm. A feud has existed between the Brooks and Colburn families for some time.

In Rumney, Oct. 2d, William Weston, while intoxicated, entered the blacksmith shop of a man named Fisher and attempted to eject the proprietor. Fisher struck Weston on the head with a hammer, fracturing his skull and, it is thought, fatally injuring him. Weston had attacked Fisher on several previous occasions.

The grand jury of Merrimack county found bills against Harrold L. Mason, for murdering Ransom S. Tilton at Pittsfield last April; Edwin H. Hackett of Suncook, for setting fire to mortgaged property; Elmer E. Warren of Worcester, Vt., for stealing a team; William Pitts of Bradford, a common seller of liquor; Charles Hendricks, Charles E. Wilson, Fred Drew of Concord, each for aggravated assault; and ten or fifteen bills against parties in Pittsfield, Fisherville and Loudon for violation of the prohibitory law. No indictment was returned against Alvah B. Wentworth, the alleged Fisherville firebug.

Hon. L. P. Cooper of Croydon, once prominent in political circles as a labor-reform candidate for governor, is one of the most successful farmers in Sullivan county. His neighbor, Ruel Durkee, the renowned "speaker of the third house," usually beats him in the production of pork, but Cooper leads all others in that region in raising potatoes, of which he has harvested over 1,500 bushels this year.

Naval Affairs.

The Swatara, Commander Cooper commanding, arrived at Boston Oct. 4th from Bay St. Lawrence.

Rear Admiral Joshua R. Sands, on the retired list of the navy, died at Baltimore, Md., Oct. 2d, at the age of eighty-nine years. He was the senior officer on the list, having entered the navy June 18th, 1812. He served under Commodore Chauncey on Lake Ontario, and in April, 1813, was present at the capture of Toronto. He was promoted to lieutenant in 1818, and to commander in 1840; served in the gulf during the Mexican war, and commanded the steamer Vixen at the capture of Tampico. He was afterwad given command of the flagship Congress on the coast of Brazil, where he remained until the breaking out of the rebellion in 1861. He was commissioned commodore in 1862, and was engaged till 1866 in lighthouse duty on Lakes Erie and Ontario, and in the same year was commissioned a rear admiral; and in 1869 was appointed port admiral at Norfolk, where he was stationed till 1870.

Mary Emerson, wife of Frank B. Emerson, gardener at the Dexter asylum, Providence, R. I., poisoned herself recently on account of family troubles.

A very singular accident occurred on the 2d inst., on the Sag Harbor branch of the Long Island railroad. As a passenger train was approaching Sag Harbor the engineer discovered a telegraph pole leaning across the track. He was unable to check the headway until the train came in collision with the pole, which the locomotive tore from the earth, and as it sped along, pole after pole, to the number of a dozen, were drawn down. The exciting scene was novel and unusual, and the passengers felt relieved when the engine came to a standstill, with the cab badly smashed and the machinery damaged.

Charles H. Lucas, a colored man twenty-seven years of age, quarrelled with his sweetheart, a young colored girl living in Cambridge, Mass., and procuring a thirty-one calibre revolver, aimed the muzzle at his right temple and discharged three bullets at his head. One glanced from the bone upward, and embedded itself in the ceiling. The others flattened themselves out against the skull, and there for the present remain. He will recover.

The cultured circles of Lockport, Ill., are agitated over the sudden postponement of the wedding of the widow Rafferty to a middle-aged swain who recently came wooing. The trouble is that Mr. J. L. Rafferty, whose supposed body was identified in St. Louis and laid away in the family lot in the churchyard there a year ago, has appeared and asserted his authority over the intended bride. He had been out west for two years and is hale and hearty, but in rather bad temper.

The Washington *Republican* publishes an interview with Artificer Moritz of the Seventeenth Infantry, a member of the Greeley relief expedition. Moritz is quoted as saying that the crew of the Proteus were regular pirates, who stole everything they could lay their hands on—valuable articles from the boxes thrown on the ice when the ship was sinking, the soldiers' clothing, buffalo overcoats and robes, and liquor, on which they got roaring drunk within an hour after the Proteus went down. This agrees with Lieut. Garlington's despatch to the effect that the crew of the Proteus were a worthless set of scoundrels.

At Bath, Me., Oct. 3d, Goss & Sawyer launched the three-decked ship John Kelly, 258 feet long, gross tonnage 2360, said to be the largest vessel ever built in Maine.

The schooner Napoleon, from Bangor for New York with lumber, had all three of her masts carried away off Thacher's island on the 2d inst., and worked into Gloucester under a jury rig.

The executive committee of the democratic state committee of Massachusetts have decided to withdraw the name of Hon. Frederick O. Prince from the state ticket.

The Charleston, S. C., *News* strikes Gen. Hancock from its list of possible democratic presidential candidates. "His congratulatory telegram to Gov. Plaisted," it says, "shocked the business sense of the public;" and he was "hopelessly muddled on the tariff question."

In the libel suit in the court of Franklin county, Vermont, of one Tarble, a greenback politician, vs. Tobin, editor of the Swanton *Courier*, the jury on the 2d inst. found for Tarble, with $5 damages, and costs. The case has been in court two years.

A young reprobate named Hay is under arrest at Allegan, Michigan, and will be tried for manslaughter. Quite recently he seduced a beautiful girl by the name of Cummings, and was forced to marry her. His love for her was gone, and his treatment of his young wife so brutal that she took poison and died. It now transpires that Hay bought the poison, and stood by while his wife was in the agonies of death.

The crew of the French barque Marie Gabrielle have been lodged in jail at Dunkirk, for murdering the captain, Louis Lebeque, at sea. The murdered man was noted for his ruffianly brutality to his seamen.

Charles Kline, sixty years old, was killed while crossing a railroad track in Norwich, Conn., Oct 2d. He was carrying a raised umbrella, and did not see the approaching train.

Matthew Arnold, with his wife and daughter, will visit this country shortly.

There was a $20,000 fire among the jewelry manufacturing establishments at Attleboro, Mass., Oct. 3d.

CONCORD & PORTSMOUTH RAILROAD.

The annual meeting of the stockholders of this corporation was held in Manchester on Thursday, when the following-named gentlemen were unanimously re-elected directors:

Stephen Kenrick of Franklin, Benj. F. Martin, Samuel N. Bell, Walter M. Parker of Manchester, Jos. B. Walker of Concord, John J. Bell of Exeter, and John J. Pickering of Portsmouth.

At a meeting of the board of directors Hon. Stephen Kenrick was re-elected president, and William H. Hackett clerk.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, Oct. 4th, Mayor Treat in the chair.

Present the full board, except Ald. Atwell.

The records of the last meeting were read and approved.

An erratic communication from some simpleton signing himself "F. H. Charity" was read, and consigned to the waste basket.

Committee on the sale of horses belonging to the city reported, recommending the sale of three, and the purchase of three others. Accepted and adopted; and Aldermen Caswell, Martin and Sampson, with the mayor added, were appointed a committee to carry out the recommendations.

Bills of Dr. Clark, city physician, were deferred, the quarter not having expired.

Ald Stavers, from the committee to consider what disposition should be made of the Spring market, made a verbal report, but no action was taken.

Adjourned.

GOSSIPS SAY

That the governor's staff is more fully equipped—having full dress and fatigue uniforms, with regulation horse equipments—than that of any previous staff for many years.

That the report that the staff appeared at the late muster in undress uniform is erroneous.

That more than eighty carriages, containing nearly two hundred and fifty ladies and gentlemen in full dress, entered the grand drive way of "Lawn farm" on Wednesday afternoon.

That quite a colony of suburban residents will take up their abode at the Rockingham during the winter months.

That a lovely little miss of eleven summers is wearing an "engagement ring" placed on her finger by a smart young gentleman of the same tender age.

That the contracting parties are residents of Strawberry Bank.

That the Jockey Club of this city manifest a decided "goneness" for brown hats.

That the intelligent dog Carlo, at the Jennison farm, Gerrish's island, has been taught by the sagacious manager, Mr. Emery, to enter the hennery every afternoon and to lift from their nests by their napes a dozen or more broody hens which persist in their determination to *sit*.

That the winged animals have learned to like Carlo, and each afternoon sit with hunched-up backs waiting to be lifted.

That the residents of State street above Mason's hill complain of the half-dozen dead and unsightly trees that have been allowed to stand in the Haliburton lot for some years past.

THE COUNTY FARM.

Ralph Hough, John I. Huckins and William E. Waterhouse, commissioners, and Mr. Wentworth, superintendent of the county farm, of Strafford county, with Alfred G. Fairbanks, Joel C. Annis and George A. Cochrane, commissioners, and Mr. Stiles, superintendent of the county farm, of Hillsborough county, by invitation of the Rockingham county commissioners paid a visit to the county farm at Brentwood on the 3d inst. There were also present three selectmen from Newton, Candia and Auburn—one from each town—and many other persons, as is usual at the regular meetings of the commissioners; things were found in good order, and all expressed their approval of the management in general. A new barn, forty by seventy feet on the ground, and with slated roof, is being built, intended for the storage of vegetables in the cellar, and grain and hay above the floor; the foundation is in, and the frame is being fitted together.

LET THEM COME HERE.

There was a large meeting at Rockport, Mass., Oct. 3d, of New England ship owners and ship masters, naval officers, army and civil engineers, politicians and others interested in the carrying out of the proposed plan for making Rockport harbor a capacious and safe harbor of refuge, with easy access and egress in any condition of wind and tide, by the construction of a breakwater from Avery's ledge to within a mile or less of Andrew's point, at an estimated cost of $5,000,000. From the report of the meeting we take the following:

As the harbors along this part of the coast are now arranged, there is not a place in which a vessel can find shelter between Portland and Gloucester, and when a vessel is caught in a gale off the pitch of Cape Ann they must work several miles up or down the coast before reaching a safe retreat; and, again, all the harbors hereabout are barred at their entrances, making it impossible for vessels of deep draught to enter them, and when it is known that on an average 150 sail vessels daily pass this point, a port of refuge is absolutely demanded in this locality.

No one with any knowledge of this coast and the needs of commerce, will say that such a harbor of refuge as is projected is not needed; but the statement that "there is not a place in which a vessel can find shelter between Gloucester and Portland" we must decidedly object to. Portsmouth harbor is between the places designated, and it is no very rare thing to see four or five hundred vessels take shelter in it; while from fifty two hundred vessels at anchor is a very common sight. And this harbor is not "barred at its entrance," either, as the heaviest ship ever built could enter it with safety at any time of tide.

During the driving rain storm on Tuesday of this week, a yoke of oxen belonging to a person in one of the neighboring towns of York county were left chained to a telegraph pole near Noble's island, without food or shelter, from half-past eleven o'clock in the forenoon to half-past four in the afternoon, when the city marshal went to their relief. One of the poor animals in his attempts to keep warm had tramped enough to have taken him home several times over, and had worn a deep hole in the ground. It is due to the owner of the oxen to say that he treated himself in as niggardly a manner as he did his cattle, for he ate nothing during the day, and failed to provide himself with either overcoat or umbrella, though he is reputed to be worth forty thousand dollars.

The F. C. I. A. did not hold their annual picnic this season, on account of the absence at Portland of one of their leading members; but they propose to hold a festival at an early day.

A young man twenty years of age, belonging in this city and employed in the shoe factory here, took a trip to Boston during the season just past, in one of the Iron Steamboat Co.'s steamers—the first time he was ever ten miles from Market square, so his companions assert. He was greatly astonished in Boston to see railroad cars hauled by horses, having never seen nor heard of anything of the kind before.

Of "Our Summer Boarders," announced to appear at Music hall next Tuesday evening, the Philadelphia *Record* says: "Elliott Barnes' farcical comedy, 'Our Summer Boarders,' drew a crowded house last evening. The company includes a number of good specialty artists, who offer an enjoyable performance, and fully merit the applause with which their efforts are greeted. Madelon Zolo made the hit of the evening as Dorothy, 'a girl who escaped from the circus,' and her dancing was the perfection of grace and beauty. She is destined to become as great a favorite in this country, as she has been for the past two years in Europe." Tickets now on sale at Goodrich's Market street bookstore.

The following-named gentlemen have been drawn to serve at the October term of the Supreme court, from ward two: Grand juror, Edwin A. Tilton; petit jurors, Howard W. Akerman, William H. Sise, Samuel H. Ayers and Charles A. Hazlett.

A running race at the Rockingham trotting park, Wednesday afternoon, was won by Edgar D. Stoddard's "Iolanthe," beating the only other horse that started, Charles H. Hayes' "Flossy Patchen." The winning horse, formerly known as "Kentucky Girl," was originally entered in this race as "Nancy Leo" by R. H. Beacham, who sold her before the race came off, to Stoddard, who put her on the track as "Iolanthe." She won't know who she is nor what her name is, by-and-bye:

The gondola "H. P. Spinney," Capt. Cheney, continues to make trips up the river to South Berwick with coal from J. Albert Walker's, and will keep at it until the river is closed with ice.

Smelts, caught along the wharves, have been sold in the shops and on the streets at fifteen cents per dozen during the last few days.

Over a hundred and fifty vessels, nearly all coasters and mostly lumber laden, were in the lower harbor on Thursday last. Over two hundred fishermen were anchored there during the blow of the previous Tuesday.

On Thursday morning, the 4th inst., Mr. Rufus M. Adams left this city for Florida, where he will spend the winter in the service of the steamboat line under the supervision of Capt. James Fitzgerald, formerly of this city.

The meat, fish and general provision store on the corner of Bow and Penhallow streets, formerly the place of business of C. Sullivan & Co., has been renovated, and will be reopened next week.

Thomas F. Mahoney, nineteen years old, a convicted thief of Lawrence, Mass., who after running away from Lawrence travelled for a time with Barnum's circus and then went to Old Orchard, has been held to answer to a charge of perjury, and is now in jail at Saco. The Voter house at Old Orchard having been robbed of about $300 on the night of Aug. 23d, Mahoney, who was an employe of the house, swore to statements which caused the arrest of George Newcomb and Charles Bradbury of Biddeford for the crime; on examination the young men were discharged, and Mahoney now acknowledges that his story against them was a lie made out of whole cloth.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.
Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

PROPOSALS FOR PURCHASE OF VESSELS.

NAVY DEPARTMENT,
WASHINGTON, *August 15, 1883.*

In accordance with the provisions of the 5th section of the act of Congress making appropriations to supply deficiencies approved March 3, 1883, sealed proposals will be received at the Navy Department until noon on Tuesday, November 26, 1883, at which time and place they will be opened, for the purchase of certain vessels at the Navy Yard, Mare Island, California, which have been stricken from the Navy Register, under authority of an act of Congress approved March 3, 1882, and which it is deemed for the best interests of the United States to sell.

The vessels offered and their appraised value are, the Monadnock, (old), $11,200; Alaska, $18,500; Benecia, $7,900; Tuscarora, $9,900; Narragansett, $8,900; Nyack, $4,900, and Saco, $5,600.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "proposals for the purchase of vessels," so as to distinguish them from other communications. No bid for more than one vessel should be included within one proposal.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations, offering the highest price therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit in cash (or satisfactory certified check) of not less than ten per cent of the amount of the offer or proposal, and also a bond with a penal sum equal to the whole amount of the offer, with two or more sureties, to be approved by the Secretary of the Navy, conditioned for the payment of the remaining ninety per cent of the amount of such offer or proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining ninety per cent, or any part thereof within that time, said cash deposit of ten per cent shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

On application to the Department, a printed list will be furnished, giving general information concerning the vessels; also forms of bids and bonds, which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Mare Island Yard.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department.

ED. T. NICHOLS,
Acting Secretary of the Navy.

MANHOOD

KNOW THYSELF.

A Book for Every Man !

Young, Middle-aged and Old.

THE untold miseries that result from indulgence in sins in early life may be alleviated and cured. Those who doubt should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE, OR, SELF-PRESERVATION.** Ethusiastically praised by the Faculty. Physicians, clergymen of reputation, clergy impaired by the errors of youth, or for close application to business, may be restored and manhood regained.

Ninth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 350 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[Leader, Detroit.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of virtuous beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Advocate.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

C. E. LAIGHTON & SON,

No. 5 Exchange Building.

Five hundred persons, including eight fire companies and four bands, were in the procession at the firemen's muster in Amesbury, Mass., on the 3d inst. Volunteer No. 2, of Salisbury, took the first prize.

"Are you lonely to night, Miss Ada?" "No Sir! I wish I were lonelier." He bade her good night and went home, took a large dose of Dr. Bull's cough Syrup, fearing her icy manner had given him a cold.

The coffee colors are revived.

Felt and velvet bonnets will be worn to the exclusion of plush.

Mother Swan's Worm Syrup.

Infallible, tasteless, harmless, cathartic; for feverishness, restlessness, worms, constipation. 25c.

Cardinal and peach pink are among the popular shades for trimming fall dresses.

"Ellis's Spavin Cure is an invaluable preparation and cures as the proprietors claim it does," writes S. B. Mills, No. 5 Union Market, Boston, Mass.

Fashionable jackets this winter will be made of the finest broadcloth, trimmed with sealskin.

No molasses and water mixture, but a concentrated extract of the active medicinal properties of roots, barks, &c., is Hood's Sarsaparilla.

The new velveteens are so handsomely finished that they are frequently mistaken for real velvet.

Did She Die?

"No; she lingered and suffered along, pining away all the time for years, the doctors doing her no good; and at last was cured by this Hop Bitters the papers say so much about. Indeed! indeed! how thankful we should be for that medicine."

Dark velvet faces nearly all the fall hats, sometimes a narrow gilt braid finishing the upper edge.

Col. A. L. Campbell, Waterboro, S. C. says: "A member of my family used Brown's Iron Bitters with good results."

Narrow pale blue velvet is fashionable to wear about the neck, tied in a small bow on one side.

"Five doctors; no end of Medicine; no relief. Dr. Benson's Skin Cure *has driven away all eruptions* and am nearly well." Ida C. Young, Hamilton, Ills.

The Mollere waistcoat and the blouse waist, worn under cutaway jackets, are favorite fall styles.

The limbo of Things Lost

on earth has engulfed many a trumpery tooth wash, paste and powder, since Sozodont was introduced to public notice, but that standard article still retains its place in general estimation and waxes in popularity as the years wane. People whose teeth have been saved by it, speak gratefully in its behalf, and professional endorsements of it multiply fast.

PARKER'S TONIC !

ONCE TESTED ALWAYS PREFERRED !

This great remedy has won its way to the highest place in the esteem of the most intelligent people. There are daily recruits to its host of friends. Its performance is invariably

BETTER THAN ITS PROMISE.

It gives tone and power. For complaints of the Kidneys, Bowels, Stomach, Liver and Lungs, for all the subtle troubles of women and for those bodily disorders induced by anxiety, care and mental strain, its effects will astonish and charm you. It is not an essence of ginger. Delicious to the palate, an antidote to the liquor habit, and exceedingly helpful to the aged and debile. 50c. and $1.00 sizes. HISCOX & CO., New York.

GENTLEMEN—Having been a sufferer for a great length of time from nervous prostration and general debility, I was advised to try Hop Bitters. I have taken one bottle, and I have been rapidly getting better ever since, and I think it the best medicine I ever used. I am now gaining strength and appetite, which was all gone, and I was in despair until I tried your Bitters. I am now well, able to go about and do my own work. Before taking it, I was completely prostrated. Mrs. Mary Stuart.

It is hinted that much of the talk about the desire of the Canadian Pacific railroad to purchase the city of Portland's controlling interest in the Porland & Ogdensburg railroad is had with a view to bring the owners of the Southeastern railway to terms. We shall we glad if the C. P. buys the P. & O. MESSRS. SEABURY & JOHNSON,

Gentlemen:—Like most of my profession, I am cautious about pinning my faith to any new medicine or curative agent. But your BENSON'S CAPCINE POROUS PLASTER has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mine. Although I was well acquainted with the superior excellence of your other plaster and anti-septic dressing, made especially for the profession, the Benson's was comparatively new to me. I had heard, however, of its merits as a remedy in cases of Lame Back, Local Rheumatism, Neuralgia, Congestion of the Bronchial Tubes and Lungs, Dyspepsia, Torpid Liver and like affections, and have since begun to experiment with it personally. I find BENSON'S CAPCINE PLASTER an exceptionally cleanly plaster to use, and rapid in its action.

Many tests of its qualities, made in my own family and among my patients, have convinced me that there is no other single article so valuable for popular use, nor so helpful in the diseases I have named.

Should you desire to do so, you may use my name to that effect. Very truly yours.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calcinus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disputed enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster-General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, J. M. Wescout, Manager	$1,366,360
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to Louisiana State National Bank, S. H. Kennedy, President	85,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Charlaron, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Casaard, President	30,000
Paid to Hibernia National Bank, Chas. Paltrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	13,150
Paid to Mutual National Bank, Jos. Michel, Cashier	8,200
Total paid as above	$2,253,650
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,627,610
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and fair in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

A Decision in Favor of "Little Rock."

Justice Miller, of the United States Supreme court has decided that the bonds issued by the state of Arkansas in 1869, for the Little Rock & Fort Smith and Little Rock & Mississippi River railroads are not a lien on the roads, which are not responsible for them. The total value of the bonds issued to all the railways under the acts amounted to five and a half million dollars, and comprise nearly half the state bonds.

This legal question had for some time past had the effect to depress the market value of the shares of these roads, although but little stock had come out under the low prices. Those who were posted preferred to hold their investments in the belief that when the question came before the Supreme court or one of its judges, a decision like the above was inevitable.

Our New York Fashion Letter.

WINTER MATERIALS.

Nothing more notable than fine wools, deversified by small, slender leaves of chenille set at short intervals. They are attached only by the stem, and are seen in twos, threes, or groups of four and five together; having space enough between to show them off to advantage. Quiet styles are in unison as to color, but again we see stylish contrasts. Such material, however, as it may readily appear, would not answer for the entire dress, but rather for effective touches, and on the counter beside it are shown plain-surfaced goods that will compose most of the outfit. Bourettes come up again, because of their roughness probably, and there are the Bison cloths, reckoned extremely stylish, loosely twilled and covered with a fleece like Canton flannel. These too are to be made in combination, and together with the solid piece is shown one wrought in some rather conspicuous pattern but clouded by its downy veiling. One of rich forest green with a deep border of crimson stamped in imitation of embroidery is being made up for a young lady *protege* of Mrs. A. T. Stewart, and will be very becoming to her slender figure and dark complexion.

CLOAKS.

We cannot let it go—the fur-lined circular; the ideal of a winter covering, for comfort and convenience. Nor can the elegance of the long cloak, the jauntiness of the short dolman, or the girlish possibillities of the jacket be improved upon. One and all we have them, so nearly like last winter's that last winter's will answer every purpose. Numbers of rich cloaks and combination costumes as well, indeed, are being made up of broche Nonpareil velveteen. Introduced last season, it has proved a great success, not only from its handsome appearance but from the fact that the figures are woven, not stamped, and therefore very lasting, since stamped patterns look common, and soon wear into ridges. The extraordinary demand for velvet has given impetus to the supplying of a substitute, and this year many jackets and costumes are made of "Baveno" velveteen, which from its thickness of surface, closeness and depth of pile and purity of color is mistaken for Genoa velvet. Lovely suits for children are composed of it, and juveniles and mammas have choice among all the new shades: "Mascot," (copper color,) plum, ruby, mouse, brown and gray.

A PLACE FOR EVERYTHING.

The fashionableness of gray leads me to give a word of caution on that subject. It is a color which should be prohibited except to the chosen few who have exceptionally good complexions, and yet it is one that bad-complexioned people are particularly fond of wearing. The forlorn-looking are made ten times more forlorn; the worn-looking ten times more worn. This, doubtless, is from a fear of being too gay. One need not be gay, but one can refrain from being a fright, and what need of that when there is deep brown, green, blue and the like, if one does not wish black? These colors are quiet enough, while at the same time handsome, and as full of safety as gray is of peril. If I were giving advice to Mrs. Langtry I should by all means recommend gray. It would make her exquisite complexion still more exquisite, and she does well to show off her complexion, for it is her special charm. How much it is worth, a bit of gossip goes to show, inasmuch as we are told that the famous English toilet soap house of A. & F. Pears of London, the largest soap manufacturers in the world, recently offered the British government a gratuitous supply of the entire stationery required for the taking of the census—involving an outlay of half a million dollars—provided Mrs. Langtry's commendation of their soap should be printed on the back of each of the fifty million forms. The proposal has been considered at a cabinet council of ministers.

WINGS.

One needs but a glance to notice wings in milliinery. Set about in all sorts of ways and combinations which stylish milliners have made the right ways. They stand stiff and upright like the palings of a fence, are placed flatly and in succession like bands, or peer up singly. And others are grouped from a centre with the look of a great prickly pompon, and small birds with wide-spread pinions do the same. Single feathers too (sometimes gilded) are set in bunches, or even a solitary large one occasionally reminds us of the goose quill of former days. The mixture of wings, birds, etc., with ostrich plumage is moreover a novel feature of the season, and oftentimes a towering wave of ostrich feathers nods above a recumbent songster, or a saucy wing looks out from the midst of equally refined surroundings. It is on poke bonnets, however, or hats, that the most of these eccentricities find room, since the capotes are too small to allow a needful scope. Wings are especially suited to a very

MANNISH-SHAPED HAT,

Which will lose something of its mannishness and become distinguished when properly softened by feminine adjuncts. The brim is medium as to width and perfectly straight around; the crown large and high, rising straight likewise. It is trimmed with a band or bands, and on one side a wing, pompon or bunch of tips. Worn by a lady of fine figure and regular features, this will be a very striking sort of a hat, but should the wrong woman get hold of one, I can imagine nothing more disastrous. It is full of danger and beautiful possibilities as well, and while therefore I would encourage an attempt, I would also say "beware." Capote bonnets are in great ascendency, and come provided with strings about two inches and a half wide. Many of these are of velvet ribbon, and a majority of hats and bonnets are of the same material laid plainly on the frame. Too much indeed cannot be said regarding the fashionableness of velvet in all departments of dress. LUCY CARTER.

HOOD'S SARSAPARILLA

Works through the blood, regulating, toning and invigorating all the functions of the body.

Ringworm Humor and Salt-Rheum.

FAYNHAM, MASS., Aug. 12, 1878.

C. I. HOOD & CO.: Gentlemen— * * * * I have had ringworm humor and salt-rheum so badly that my body was covered with raw sores; so, also, my head and face. I have had any number of doctors in the last seven years, and none of them could cure me. One day my mother was in the city of Taunton, and found one of your cook books, and in reading it I found many people testifying to cures from the use of your Sarsaparilla and Olive Ointment. I felt forced to try it, although I had seen many things advertised that never did me any good. I have now taken two small bottles and one large one of Sarsaparilla, and used three boxes of Ointment. I now call myself cured. Nothing can be seen of the humor but the dim outlines of the sores. I shall take two more bottles, and then the cure will be complete.

I am gratefully yours,
EDGAR F. WHITMAN.

Biliousness, Sick Headache.

FITCHFIELD, MASS.

MESSRS. C. I. HOOD & CO.: Gents—Please send me by express two bottles HOOD'S SARSAPARILLA and a few Cook Books for distribution. Your preparation has worked wonders in the case of my wife, who has been troubled with sick headache and biliousness for years. She only took one-half teaspoonful at a dose, and has not been so well for five years as now. She found that within a week after taking it she felt very much better, and is now entirely free from those severe headaches. She has not taken any of any account since last spring, and what little she had is lent to do some others some good, and we must have it in the house.

Yours truly,
HOMER B. NASH.

Sky clear.

POLICE COURT--BATCHELDER, J.

FRIDAY, Oct. 5th.

Reuban Rand, Jr., for drunkenness, was fined $5, costs $6.90; county farm in default of payment.

James Sullivan, charged with stealing a horse, harness and carriage from D. J. Donovan, had his case continued to ten o'clock A. M. on the 6th, bonds in $300 being required for his appearance at that time.

HORSE RACES.

There were horse races at the Rockingham trotting part two afternoons of this week. On the first day the opening race was for horses that had never beaten 2:40, for a purse of $75, divided into three prizes—$45, $20 and $10. There were three entries, E. D. Stoddard's "Eveline" taking 1st money; "William F.," entered by William F. Libby of Great Falls, 2d; and "Gold Dust," entered by Charles L. Grant of York, 3d.

Second race, for 2:15 horses, purse $30, divided—$15, $10 and $5. "Henry Clay, Jr.," entered by Z. W. Seaton of Great Falls, 1st; "Fearnaught Duke," entered by Al. Goldthwaite of Portsmouth, 2d; E. D. Stoddard's "Unknown," 3d.

Running race, prize $10, E. D. Stoddard's "Iolanthe" 1st, Chas. H. Hayes' "Flossy Patchen" 2d. Only two horses started.

Second day: First race, for 2:50 horses, purse $50, divided. Libby's "William F." 1st, Stoddard's "Billy Bundle" 2d, Grant's "Gold Dust" 3d, C. E. Hodgdon's "Greenland Boy" 4th.

Free-for-all, purse $75. Stoddard's "Eveline" 1st, Dan. Mahaney's "Detective" 2d—only two starters.

For gentlemen's driving horses, mile dash, to road wagons, purse $25. M. Eldredge's "Danville Boy" 1st, John S. Treat's "Nora C." 2d, Stoddard's "Brandy Knox" 3d.

The attendance was moderate both days, but considerable interest was manifested—in fact, only persons who were decidedly interested in racing would have visited a race track at all in such raw weather as prevailed.

THE EASTERN RAILROAD.

The Eastern railroad surplus for the trustees' year, ending August 31st, was $162,000. For the fiscal year, which ended September 30th, it amounted to about $135,000, besides which $52,000 expended during the year for locomotives—an expense not incurred in 1882—may be counted in, making the aggregate surplus for the year not far from $190,000. In 1882 the amount was $216,000, but it is to be remembered that, in that year, the interest rate on $1,324,000 of bonds was 4 1-2 per cent for eleven months, and six per cent for one month, while during the year just ended it has been six per cent for the entire period, or nearly $200,000 more than last year.

The Eastern also pays the Boston & Maine road over fifty thousand dollars annually under the pooling contract heretofore illegally existing, but which under the law recently passed by our legislature can now be legally done.

If the bill in equity of Mr. Phillips should be held to have the effect of preventing the lease of the Eastern to the Boston & Maine, the roads will probably make such contracts for operating at competing points as will be mutually beneficial, though the announcement that the Boston & Maine road is to continue its seven P. M. train to Portland would imply that there was not much determination to diminish the number of trains running at the same hours from Boston to Portland.

The fall and winter time-table on this road takes effect Sunday, Oct. 14th. Trains will leave Boston for Portland at 7:30 and 9:00 A. M., and 12:30 and 7:00 P. M.; Portland for Boston at 2:00 and 8:45 A. M., and 1:00 and 6:00 P. M., From Boston for North Conway at 7:30 A. M.; North Conway for Boston 7:05 A. M. The morning trains to Boston from this city will be the same as now.

WOMAN'S TEMPERANCE LEAGUE.

At the regular weekly meeting of the Woman's Temperance League, held on Thursday afternoon, the following officers were elected for the ensuing term:

President, Mrs. Theodore H. Deverson;
1st Vice Pres., Mrs. James Sanborn;
2nd Vice Pres., Mrs. Alfred W. Haven;
Recording Sec., Mrs. R. D. Smart;
Cor. Sec., Mrs. Samuel Taylor;
Treasurer, Mrs. D. H. Spinney;
Chaplain, Mrs. Joseph T. Pettigrew.

GOSSIPS SAY

That a gentleman from Manchester is in this city endeavoring to organize a new relief association, a branch of the order of the Iron Hall.

That the old stable torn down this week, back of the store recently occupied by Jere. Sanborn, was erected ninety-two years ago, and was once owned and used by Jacob Sheafe as a stable for his carriage horses.

That a confiding youth, formerly employed in the shoe factory, who on Thursday received a note signed with a female name, requesting an interview in the post-office vestibule at 8:30 o'clock that evening, arrived at the trysting place at 8:15, gotten up in gorgeous array.

That at nine o'clock the "fair" charmer had not appeared, though the faithful swain still stuck to his post of duty.

That the number of his young men companions who had business in the post-office that evening was very large, and they all went away in apparent good humor, though not one of them found a letter in his box.

That real good young men would not "hatch" up such a scheme to trifle with the affections of an acquaintance.

GRAND LODGE OF GOOD TEMPLARS.

The Grand Lodge of Good Templars of New Hampshire held their annual session in Keene, Oct. 3d and 4th. The lodge opened at 8:15 P. M., with about seventy-five members in attendance, Grand Worthy Chief Templar George A. Bailey in the chair. Thirty-three candidates took the grand lodge degree. After some encouraging reports had been heard from several of the subordinate lodges, the meeting adjourned until 8:30 A. M. Thursday.

At the second day of the session the lodge was called to order shortly after 8:30 A. M., G. W. C. T. Bailey in the chair. Every lodge in the state was represented, F. E. H. Marden representing Strawberry Bank Lodge of this city. The reports of the officers shew a large increase in the membership of the order, the secretary reporting sixty-five lodges in good standing. The treasurer's report shew a fair sum of money in the treasury. The grand secretary of Massachusetts and the Right Grand Worthy Vice Templar of the Grand Lodge of the World were present at this session. A public meeting was held in the evening, which was addressed by Gov. Hale.

The Philadelphia *Ledger* says of "Our Summer Boarders" that "the comedy is now one long incentive to laughter; indeed, the fun at times was so convulsing that the players had to stop until the laughter ceased. Elliott Barnes, the author, as Dennis Kennedy gave a remarkably fine impersonation of 'a wild Irishman,' and kept the audience in screams of laughter whenever he was on the stage. Mll'e Madelon Zolo, although new to the American public, met a hearty reception, and well merited the applause that was showered upon her during the evening; she has a bright, laughing face, and looks and dances like a fairy. Chas. Frew developed much wit and a capital vein of comedy. The rest of the cast was well taken, while the ladies of the company were quite pretty and well dressed."

At Music hall Tuesday evening. Tickets at Goodrich's, Market street.

Rear Admiral Pierce Crosby, commanding the naval forces on the Asiatic station, has telegraphed to the acting secretary of the navy, asking to be relieved of present duty, and to be placed on the retired list under the provision in relation to forty years of service. Acting Secretary Nichols says no action will be taken in this matter until the return of Secretary Chandler to Washington.

Dr. George J. Arnold of Boston, who accidentally shot himself at Camp Comfort, Old Orchard, on the 1st inst., with a pistol which he supposed was unloaded, died about nine o'clock in the evening on the 3d, from the effects of his wounds. He realized some time before his death that there was no hope of his recovery, and to settle any doubts that might exist as to his death not having been caused accidentally, he had a justice of the peace called in and made a deposition, in which he declared that the shooting was entirely accidental and that he had no thought of suicide at the time the fatal discharge was received by him. His remains were taken to Boston on the 5th inst. His age was forty-eight years and four months, and he leaves a family.

The funeral of the late John R. Holbrook, Esq., will take place this (Saturday) afternoon at two o'clock, from his late residence on Court street, under the conduct of De Witt Clinton Commandry of Knights Templar.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

Testimonials.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion, or early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

258th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of disease, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

"I owe my Restoration to Health and Beauty to the CUTICURA REMEDIES."
Testimonial of a Boston Lady.

DISFIGURING Humors, Humiliating Eruptions, Itching Tortures, Scrofula, Salt Rheum, and Infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the *cause*.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and Scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from CUTICURA, is indispensable in treating Skin Diseases, Baby Humors, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison whatsoever.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA REMEDIES internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat and usually considered incurable; small patches of tetter and salt rheum on the ears, nose and sides of the face.

Scald Heads with loss of hair without number, heads covered with dandruff and scaly eruptions, especially of children and infants, many of which since birth had been a mass of scabs;

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed as by magic;

Psoriasis, leprosy, and other frightful forms of skin diseases, scrofulous ulcers, old sores, and discharging wounds, each and all of which have been specially, permanently and economically cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by a vast number of sworn testimonials in our possession, which we will cheerfully mail to any address.

Sold everywhere. Price: CUTICURA, 50 cents. RESOLVENT, $1. SOAP, 25 cents. POTTER DRUG AND CHEMICAL CO., Boston, Mass.

A London surgeon says, that only one fashionable woman in 500 can draw a full breath with all her clothes on, and that all women should give up tight lacing, and take Dr. Bull's Cough Syrup to strengthen their lungs.

A stable in Brookline, Mass., next to the Metropolitan horse-car stables, was burned on the night of Oct. 3d, with four horses.

Mother Swan's Worm Syrup.

Infallible, tasteless, harmless, cathartic; for feverishness, restlessness, worms, constipation. 25c.

Pesely Benton's farm buildings at Waterville, Me., were burned Oct. 2d, with thirty tons of hay, two cows, and 45,000 dozen eggs. Loss $9000.

Diphtheria poisons the blood. Convalescents should take Hood's Sarsaparilla to neutralize and eradicate the poison matter.

The Cunard steamship Servia made her last trip across the Atlantic in six days and twenty-one hours, the quickest time on record.

"Ellis's Spavin Cure is an invaluable preparation and cures as its proprietors claim it does," writes S. B. Mills, No. 5 Union Market, Boston, Mass.

Talk, a Portland Me., newspaper, says that a runner for a Boston liquor house recently sold $12,000 worth of liquors between Biddeford and Bangor. One wholesale firm in Portland paid a Boston concern $4,800 for beer sold last month.

Did She Die?

"No; she lingered and suffered along, pining away all the time for years, the doctors doing her no good; and at last was cured by this Hop Bitters the papers say so much about. Indeed! indeed! how thankful we should be for that medicine."

The arbitrators in the case of the Dexter, Me., savings bank vs. the estate of the late J. Wilson Barron have made a report to the supreme judicial court. The balance due from the Barron estate to the bank was found by them to be $2011.38, including interest.

Don't Despair.

If you are weak and weary from some so-called chronic disease, don't give up. Sulphur Bitters has given hope to many invalids, where hitherto there was nothing but despair. It will build up and renew your whole system.—*Editor Weekly American.*

Miss Leslie Ayer, daughter of the late James R. Ayer of Lowell, is the latest American target for the aim of impecunious foreign counts. The young woman, with her dot of $5,000,000, receives much attention in the aristocratic circles of Paris.

Col. A. L. Campbell, Waterboro, S. C. says: "A member of my family used Brown's Iron Bitters with good results."

Mrs. Sally Ransted, eighty years old, was burned to death in Sandwich, Mass., Oct. 4th, by her clothes taking fire from an open grate.

"Five doctors; no end of Medicine; no relief. Dr. Benson's Skin Cure *has driven away all eruptions* and am nearly well." Ida C. Young, Hamilton, Ills.

At New Haven, Conn., Oct. 4th, Thomas Landy, a boy twelve years old, was fined $50 and costs for throwing a stone through a car window.

The limb of Things Lost

on earth has engulfed many a trumpery tooth wash, paste and powder, since Sozodont was introduced to public notice, but that standard article still retains its place in general estimation and waxes in popularity as the years wane. People whose teeth have been saved by it, speak gratefully in its behalf, and professional endorsements of it multiply fast.

PARKER'S TONIC!

ONCE TESTED ALWAYS PREFERRED!

This great remedy has won its way to the highest place in the esteem of the most intelligent people. There are daily recruits to its host of friends. Its performance is invariably

BETTER THAN ITS PROMISE.

It gives tone and power. For complaints of the Kidneys, Bowels, Stomach, Liver and Lungs, for all the subtle troubles of women and for those bodily disorders induced by anxiety, care and mental strain, its effects will surprise and charm you. It is not an essence of ginger. Delicious to the palate, an antidote to the liquor habit, and exceedingly helpful to the aged and feeble. 50c. and $1.00 sizes. HISCOX & CO., New York.

In The Sleeping Car From Chicago.

A lady sat with her only child;
The poor little fellow was almost wild.
He was making a noise like a circus band,
For a horrible felon was on his hand.

A quiet old man remarked to the mother;
"I think we can stop this pain and bother.
I've a bottle of Pain Killer here," said he,
"And I think it will cure him; let us see."

He poured some drops on a moistened rag,
And wrapped the felon, as if in a bag,
And soon the suffering child was calm

"A Way They Have in the Army."

The case of First Lieut. James F. Simpson, third cavalry, who was tried by court martial on the charge of conduct unbecoming an officer and a gentleman, in having married a woman who had been his mistress, is now before the secretary of war for transmission to the president for final action. The court found Lieut. Simpson guilty, and sentenced him to dismissal. It is understood that Judge Advocate General Swaim in his review of the case takes exception to the action of the court, and recommends that the sentence be set aside.

A court martial some time ago decided that for an army officer to run up bills without the least prospect of paying them was not "conduct unbecoming an officer and a gentleman," however dishonest and dishonorable such conduct would be in a private citizen. Judged by the army standard, it would seem that Simpson's living with the woman in illicit relations was all right; it was his marrying her which made him "no gentleman."

Unitarian Association Meeting.

The New Hampshire Unitarian Association will hold its twenty-first annual meeting at Charlestown, beginning Tuesday evening, October 16th, and ending Thursday noon, October 18th. A hearty invitation is extended by the Charlestown society to the friends of Unitarian Christianity throughout the state, and free hospitality is offered. All who intend to accept that hospitality are desired to inform Rev. Thomas D. Howard of Charlestown as early as practicable. The association will reorganize under its charter granted by the legislature of 1883. The programme will be substantially as follows:

Tuesday, 7.30 P. M., annual sermon by Rev. S. M. Crothers of Brattleboro'. Wednesday, 9.00 A. M., conference meeting, led by Rev. James B. Morrison of Lancaster: 10.00 A. M., address by the president, Hon. Solon A. Carter; introduction of business; essay by Rev. J. J. Twiss of Wilton, on "Public Worship," with discussion to be opened by Rev. J. Wassal of Francestown: 2.00 P. M., reports of committees, election of officers and other business; consideration of educational interests, and the condition and needs of Proctor academy, with addresses by Hon. J. W. Fellows of Manchester, and others; essay by Rev. H. C. Parker of Nashua, on "The ethics of the Pew," discussion to follow: 7.30 P. M., missionary meeting, with reports of work, and addresses by laymen and ministers. Thursday, 9.30 A. M., essay by Rev. J. E. Wright of Montpelier, on "The Sunday School—what do its teachers chiefly need?"—discussion to be led by Rev. W. H. Walbridge of Peterborough.

Reduced rates on the railroads leading to Charlestown, as follows: Free return checks will be given on application, by conductors on the cars, to all who shall have paid full fare in coming over the Ashuelot, Vermont Valley, Sullivan County, Northern and Concord & Claremont roads. Similar return checks will be given at the meeting to all who shall have come over the Cheshire, Passumpsic, and Boston, Concord & Montreal roads. The Boston & Lowell road will place excursion tickets to Keene at the Nashua, Milford, Wilton and Greenfield stations, at two cents a mile. The Concord road will sell excursion tickets to Concord, at two cents a mile, at the Portsmouth, Newmarket Junction and Manchester stations. All of these tickets and return checks will be good for October 16th, 17th and 18th. Charlestown is a beautiful place to visit at this season, and doubtless many will avail themselves of this opportunity to see the western side of the state and admire the beauties of the Connecticut valley.

The New York *Sun* is "disagreeably surprised" to be informed that Gov. Butler takes free railroad passes, and "rides on them." That isn't the worst of it; he is openly charged with attempting to "beat" a ride on a pretended pass which he never held in his life, and the charge is not denied.

"Warranted," the new farcial comedy at the Boston Museum, is one of the most laughable and entertaining plays presented in Boston for many months. It is by the author of "The Gov'nor," with comic and novel situations. The Museum has been crowded at every performance, and the audiences are convulsed with laughter from its commencement to the close. The plot of the piece deals with "Domestic Felicity," and presents an original method by which that rare condition may be assured. This subject being one in which young and old are deeply interested, "Warranted" is sure of attaining great popular success. It was written expressly for the Museum, and received there its first performance on any stage, Mr. Field controlling the entire American right. The cast is a strong one, and includes nearly all the favorites of this favorite company.

Letters received in San Francisco from Guaymas and other points in Mexico show that half the truth has not been told of the ravages of yellow fever at those unfortunate places. One received from George Treat, the well known pioneer of California, better known as the owner of the famous race-horse Thad Stevens, dated Mazatlan, says: "In order to give some idea of the violence of the scourge in this city, out of an opera company numbering thirty-one members seventeen died, including the prima donna, Peralta, in less than three weeks; at the end of the following two weeks only five of the original troupe were left living. The medical men were all sick, and two of them died. The victims were buried hastily and uncoffined, three hours being the usual interval between death and burial."

"Dio Lewis's Monthly" for October is the best of its three numbers. The articles by Dio Lewis are, "Our Rich Men," "The Shakers," "Open the Cage Door, Treatment of Prisoners and Treatment of the Insane," "Our Brains & Nerves," "Diphtheria" and "About Nursing." Among the communications are, "Our young Women," by Rev. Dr. Howard Crosby; "Idol Worship in India," by Amrita Lal Roy and other interesting and instructive articles by some of our best writers. Published by Frank Seaman, Nos. 68 & 71 Bible House, New York.

Somewhat Mixed.

An Ohio man, who had visited Gotham and got many new ideas, returned home and re-marked most of his goods, so that he could say the price of this and that was so much, with so much off. Everything seemed to work pretty well for a week or so, when one of the clerks said he needed a little more posting.

"For instance," he exclaimed, "we are giving twenty off on all woodenware."

"Yes."

"And pails are twenty cents apiece?"

"Yes."

"Then everytime a man wants a pail he gets it for nothing, and if he takes two I give him twenty cents?"

"James, are you a born fool?" demanded the merchant.

"No, sir!" was the prompt reply. "I've got rid of the eight dozen pails we had stored up stairs in less than a week, and have promised five dozen more. If you have a clerk who pleases customers more than I do, trot him out."—*Wall Street News.*

Miss Mitchell's Rum Bath.

Maggie Mitchell is accustomed, between the acts of her performances, to refresh herself by a prescription of her physician, which it would be well for all hard workers in the profession to take the advantage of. This prescription simply involves her being submitted to a sponge bath of rum. The constituent of the bath is carried with the baggage in a five-gallon demijohn, replenished as occasion demands. This demijohn is sent from the railway to the theatrer, where it remains in charge of the property man.

Toward the end of the last season Miss Mitchell began to notice that her bath did not have the recuperative effect upon her that it was wont to. The circumstance alarmed her very much, as it suggested that the remedy was losing its value through some deterioration of her system. Her physician, however, assured her that this was not the case. The fault, he insisted, must rest with the rum.

But the liquor was of the very best quality, as the bills of the house which supplied it showed. There happened to be a little left in the demijohn just then, and the doctor sampled it. Then he smilled, wrote an order, which he sent to the nearest drug store, and after certain manipulations of the demijohn of fresh liquor, in connection with a package of powder, he said, mysteriously:

"I guess we will know what is the matter with the stuff by to-morrow."

That evening there was weeping and wailing and gnashing of teeth in the property room. Several of the attaches of the theater were very ill indeed, and Miss Mitchell's rum thonceforth resumed its pristine strength. When you ask the doctor for an explanation of the mystery, he replies in words to this effect:

"Well you see, an emetic don't spoil liquor for bathing purposes, as water does; but it hurts it—hurts it pretty badly—for drinking."—*Dramatic News.*

MESSRS. C. I. HOOD & CO.: Gentlemen—It affords me much pleasure to recommend HOOD'S SARSAPARILLA. My health has been such that for some years past I have been obliged to take a tonic of some kind in the spring, and have never found anything that hit my wants as your Sarsaparilla. It tones up my system, purifies my blood, sharpens my appetite, and seems to make me over. Respectfully yours,

J. P. THOMPSON.

One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of HOOD'S SARSAPARILLA in the window, and I got a bottle. After she had been taking it a week she had a rousing appetite, and it did her everything. She took three bottles, and it was the best three dollars I ever invested."

POLICE COURT--BATCHELDER, J.

SATURDAY, Oct. 6th.

The case against James Sullivan, for stealing a team, continued from the previous day, was *nol. pros'd.*

Patrick Freeman, who came in from Hampton and got drunk, was fined $3, with $6.90 costs. County farm in default of payment.

WRECKS.

Wednesday forenoon, 3d inst., the fishing schooner Young Chief, Davis master, a vessel of 21.79 tons, hailing from Damariscotta, Me., while on her way from Wood island, Me., to the Shoals, when northeast of the Nubble was struck by a heavy squall, which capsized and sank her, the crew escaping in their dories. They were shortly picked up by the fishing schooner Exchange, Davis master, of St. George, Me., the captain of the Exchange being father of the Young Chief's captain. This disaster was reported at the Shoals by A. Thompson, of the schooner Garland, of Friendship, Me., all three of the vessels named having at the time been bound for Smuttynose island after herring.

The schooner Hannah D., Reed master, of and from Westport, Me., for Boston with wood, became waterlogged about ten miles off Boon island on the 4th, and was abandoned, her crew of four men being taken off by the schooner A. S. Hooper, from Calais, which carried them into Boston, whence they departed for their homes per steamer Star of the East. The Hannah D. is a small vessel, registering 74.92 tons.

Friday morning, the 5th inst., the fishing schooner Storm King of this port, Capt. Hubley, sighted the abandoned schooner about fifteen miles east-southeast of Boon island, and laid by her from eight o'clock in the morning until eleven at night, the weather being too heavy to take her in tow until the latter hour, when she was hooked on to and towed to the mouth of the harbor, where she arrived on Saturday, the steamer Clara Batemen then taking her for a tow up the river, and berthing her at Herbert's wharf about three o'clock in the afternoon. The derelict craft was on her beam ends when discovered, and the Storm King's crew cut away the mainmast to right her; her anchors and chains were on board, but her sails and rigging were all gone, she having probably been stripped by two large schooners which were seen standing to the eastward from the wreck before the Storm King arrived. The crew of the latter vessel were pretty well used up when they arrived in.

STORER RELIEF CORPS.

Storer Ladies' Relief Corps, No. 6, auxiliary to Storer Post, No. 1, Grand Army of the Republic, was inspected last Friday evening by Mrs. Frank T. Johnson, of Laconia, department relief corps inspector, after which the following officers were installed: President, Mrs. J. Horace Kent; senior vice president, Mrs. James Sanborn; junior vice president, Mrs. Charles N. Osgood; secretary, Mrs. Hosea Q. Mason; treasurer, Mrs. Alfred M. Lang; chaplain, Mrs. Oliver M. Knight; conductor, Mrs. Georgie Goldsmith; guard, Mrs. Thomas J. Mitchell.

INSURANCE DECISION.

Judge Wiggin of Exeter, Mayor Treat and Mr. Charles H. Garrett of this city, the referees in the D. J. Lynch insurance case, rendered a decision Saturday morning. The hearing, which closed Friday night, took place at Frink & Batchelder's office, with Messrs. Frink & Batchelder for Lynch, and Calvin Page, Esq. for the several companies. The claim was for $11,000, and the award by the referees was $9,000. The total amount of insurance, $11,000, was held by nine companies, seven of which, the Niagara, Liverpool, London & Globe, Queen, Commercial Union, Hanover, New Hampshire, and the Phœnix of London, were interested in the case decided, holding $1000 each. Two other companies, the Hartford, and Phœnix of Hartford, Conn., which held $2000 each, have been sued by Lynch. This decision does not, as we understand it, demand the payment of the loss, but only settles the amount of loss.

JOHN R. HOLBROOK'S FUNERAL.

The funeral of the late John R. Holbrook took place at his residence on Court street, at two o'clock on Saturday, and quite a number of our prominent citizens were present. The services at the house were conducted by Rev. W. H. Alden of the Middle Street church; at the cemetery, the Grand Commandery of Knights Templar of the state, assisted by DeWitt Clinton Commandery of this city, took charge of the ceremonies. The Grand Commandery was represented by Grand Commander Andrew Bunton of Manchester, Grand Generalissimo Chas. N. Towle of Concord, Grand Recorder and acting Grand Prelate Geo. P. Cleaves of Concord, and Grand Warden Chas. N. Dorr of Dover, and acting Senior Grand Warden John J. Bell of Exeter.

There were also present Past Grand Commanders John Christie of this city, J. W. Fellows and J. W. Hildreth of Manchester, and B. F. Rackley of Dover. The floral display was composed of a cross from the Grand Commandery, and another from DeWitt Clinton Commandery; also wreaths and other flowers from family friends.

An exchange says: "Good, wholesome mirth is something every one enjoys, and 'Our Summer Boarders' is a comedy which keeps the audience fairly screaming; much of the fun is novel, and, therefore, all the more refreshing. A strong company, including the author, presents this very successful comedy." At Music hall to-morrow evening. Tickets at Goodrich's bookstore, Market street.

Hon. Charles Creighton Hazewell, for twenty-five years an editorial writer on the Boston *Traveller*, died suddenly on Saturday, at the age of sixty-nine years. He has written the *Traveller's* "Review of the week" from the time it was started.

Mrs. Henrietta Miller Hanscom, wife of John Hanscom, editor and proprietor of the Biddeford *Sentinel*, died last week.

Henry Hammond of Eliot, a ship carpenter employed on the navy yard, had one of his ankles so badly wrenched and bruised by the falling upon it of a plank on Saturday, that he will be confined to his house for some days if not weeks. It was at first supposed the ankle was broken, but medical examination showed otherwise; the hurts were dressed on the yard, and Mr. Hammond was assisted to his home.

Quite a large delegation of Odd Fellows, with ladies, will start from this city this morning for Plymouth, to attend the sessions of the Grand Lodge of New Hampshire, I. O. O. F., on Tuesday and Wednesday, Oct. 9th and 10th.

The government sewer on State street is being entered by a drain from the Episcopal rectory, the work requiring a good deal of blasting; the job is under the efficient supervision of Mr. Jos. R. Holmes.

G. F. Thompson, manager of the hotel Wentworth, is fitting bath rooms in which baths in sea water at a warm temperature can be enjoyed by the guests of the house.

Commodore George F. Cutter, pay director United States navy, and late chief of the bureau of provisions and clothing, is in town.

Schooner Edward E. Webster of Gloucester, Mass., has stocked $23,800 in the mackerel fishery since March 17th, her crew of seventeen men stocking $687.75 each.

The Dudley dynograph car, which while being hauled at a good rate of speed over a railroad makes a record of the condition of the roadbed and rails, so that any defect can be at once located, travelled over the Eastern railroad and branches last week.

The canned-corn train from Portland, Me., to Portland, Oregon, arrived at the latter place on the 3d inst., having made the trip from ocean to ocean in just fourteen and a half days.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Athens.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

THE

New Hampshire GAZETTE!

Established 1756.

THE GAZETTE IS PUBLISHED EVERY THURSDAY AND SENT TO SUBSCRIBERS AT THE LOW PRICE OF $1.50 PER YEAR, PAID IN ADVANCE, OR $2 AT THE END OF THE YEAR.

It contains full accounts of all of important interest that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires at their native city, and it

CONTAINS MORE ORIGINAL MATTER THAN ANY OTHER PAPER OF ITS SIZE IN THE STATE. THE EDITORS WORKING MORE WITH THEIR PENS THAN WITH THEIR SCISSORS.

— THE —

New Hampshire Gazette!

TO ADVERTISERS

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all desire to reach patrons in Rockingham and York counties will find it an economical medium. The Gazette is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

At Providence, R. I., one evening last week, as the firemen were taking their weekly exercise with the Skinner truck, the ladders had been thrown up from the carriage to a height of ninety feet, and two firemen were within five feet of the top, when the ladders careened over, and finally broke, one of the men, Alexander S. McDonald, being killed by the fall. The other came down with the wreckage, not seriously hurt. The Skinner truck had once before fallen and collapsed, but had been repaired.

Somewhere in Georgia there is a church, which is called "The Sister's Church;" all the members are women. The chief work of their missionary society is to send Dr. Bull's Cough Syrup to the Indians, who suffer largely with coughs and colds.

A whirlwind at Newport, Me., last week, unroofed a store, and carried a Mrs. Powers thirty rods, injuring her but slightly.

Mother Swan's Worm Syrup.

Infallible, tasteless, harmless, cathartic; for feverishness, restlessness, worms, constipation. 25c.

At Webster, Mass., Oct. 5th, Alonzo Harris was killed by the caving-in of a well.

If you fail to receive benefit from other preparations, try Hood's Sarsaparilla; it's the strongest, the purest, the best, the cheapest.

Edward Marshall of St. John, N. B., who was separated from his wife, met her on Thursday, Oct. 4th, and shot her through the neck. It is thought she is fatally wounded.

"Dr. Benson's Celery and Chamomile Pills cured my wife immediately of *severe neuralgia.*" H. M. Cocklin, Shepherdtown, Pa. 50 cts., at druggists.

By a fall of the roof at the White Oak mines at Scranton, Pa, Oct. 4th, Richard Chapfer, a miner, and Anthony Currier, a driver, were instantly killed.

Mr. Josiah Morse, Henniker, N. H., says: "I received much benefit by using Brown's Iron Bitters for general debility."

Miss Kate Field, who is now in Denver, Col,, took to that city a letter of introduction from Sir Charles Dilke to Judge McCurdy. She sent a note to the Windsor hotel office, asking where the judge could be found. The answer came back: "Don't know; he's been dead eight years."

LONE JACK, MO., Sept. 14, 1879.

I have been using Hop Bitters, and have received great benefit from them for liver complaints and malarial fever. They are superior to all other medicines.
P. M. BARNES.

Mrs. Albert F. Shippee and Miss Alice Wilder of Holliston, Mass., were thrown from a carriage last week. Miss Wilder's elbow was dislocated and she was unconscious several hours. Mrs. Shippee received several flesh wounds and bruises. Miss Wilder is in a critical condition.

"I had a horse hopelessly lame with ringbone," says S. F. Robinson, 150 Blackstone st., Waltham, Mass., "Ellis' Spavin Cure has cured him."

Wm. E. Littell, Paul Jones, Frank Dondero and Arthur Knight, youths from fourteen to seventeen years old, were arrested at Gloucester, Mass., last week, for breaking and entering the stores of Gorham A. Parsons and Augustus Hubbard. A number of the stolen articles were recovered.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

An elegant wedding was that of Albert C. Titcomb of San Francisco, and Miss Hetta Louisa Clement of Plaistow, which took place at Plaistow on Wednesday of last week. The bride's trousseau was rich beyond compare, and her presents costly and almost unlimited in number.

A Brush Well Applied

and previously moistened with Sozodont removes the defacing evidences of neglect from the teeth, and tightens them in their sockets. If the breath has a repellent smell, the article substitutes for that, its own pleasant aroma. Shrunken and inflamed gums are restored to health by its use, and canker of the mouth cured. System in the use of this fine antiseptic, as of other promoters of health, is highly desirable. Apply nothing but the genuine.

BROWN'S IRON BITTERS.

THE BEST TONIC.

Cures Completely Dyspepsia, Indigestion, Malaria, Liver and Kidney Complaints. Druggists and Physicians endorse it.

Use only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

Did She Die?

"No!

"She lingered and suffered along, pining away all the time for years,"

"The doctors doing her no good;"

"And at last was cured by this Hop Bitters the papers say so much about."

"Indeed! Indeed!"

"How thankful we should be for that medicine."

A Daughter's Misery.

"Eleven years our daughter suffered on a bed of misery,

"From a complication of kidney, liver, rheumatic troubles and nervous debility,

"Under the care of the best physicians,

"Who gave her disease various names,

"But no relief,

"And now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had shunned for years before using it."—THE PARENTS.

Father is Getting Well.

"My daughters say:

"How much better father is since he used Hop Bitters."

"He is getting well after his long suffering from a disease declared incurable,"

"And we are so glad that he used your Bitters."

PARKER'S TONIC!

ONCE TESTED ALWAYS PREFERRED!

This great remedy has won its way to the highest place in the esteem of the most intelligent people. There are daily recruits to its host of friends. Its performance is invariably

BETTER THAN ITS PROMISE.

It gives tone and power. For complaints of the Kidneys, Bowels, Stomach, Liver and Lungs, for all the subtle troubles of women and for those bodily disorders induced by anxiety, care and mental strain, its effects will surprise and charm you. It is not an essence of ginger. Delicious to the palate, an antidote to the liquor habit, and exceedingly helpful to the aged and feeble. 50c. and $1.00 sizes. HISCOX & CO., New York.

What will Brown's Iron Bitters cure? It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism and all similar diseases. Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation and by building up the system, drives out all disease. For the peculiar troubles to which ladies are subject it is invaluable. It is the only preparation of iron that does not color the teeth or cause headache.

Ambrose Daggett, a young man working on the farm of David Greely of Liberty, Me., shot through the neck Miss Ella, a young daughter of Mr. Greely, on Sunday evening last causing instant death. Young Daggett immediately went into an orchard near the house, and putting a bullet through his own head, instantly expired. Jealousy was the cause of the murder and suicide. Daggett had been partially deranged at times.

ROME, Ga., May 23, 1883.

Editors Constitution: With the hope that it will reach the eye of other sufferers, I desire to write you a statement of my case and my wonderful rescue from death from malarial blood poison by the use of the great S. S. S. (Swift's Specific).

In 1880 I came from the North to take charge of the gas works in Rome, as superintendant, and after the overflow which occurred in the spring following, I was very much exposed to malarial poison, and in 1882 found my blood so contaminated with the poison that I was forced to give up business. I was treated by the Rome physicians without relief, they advising me to go North, which I did. The doctors North told me that my only hope was to return to the milder climate, and accordingly I came back to Rome, completely broken down and nearly a skeleton. My trouble finally determined in an abscess of the liver, and nearly every one (myself included) thought I was doomed to die within a few days. In this condition I was advised by a friend to take Swift's Specific, and I took it just as a drowning man would catch at a straw; but as soon as my system got under the influence of the remedy, the abscess came to a point and burst, passing off without pain. In fifteen days after this I was up at my work, and have since enjoyed excellent health. Every sufferer from malarial poison should take Swift's Specific. Yours truly, C. G. SPENCER, Sup't Rome Gas Light Co.

Edward Finck committed suicide in San Francisco on Saturday.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

"No Place like Home" says Fox in his song, which he tunes up as follows:

"Oh, how delightful 'tis to see
The happy married man,
In the bosom of his family,
His happy face to scan!"

"He hears the quarter's rent is due,
Which pay somehow he must;
The copper's got its bottom out,
The kitchen boiler's bust!"

The song is one of eight pieces of music sent us for notice by Oliver Ditson & Co., Boston; price, 30 cts. MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, J. M. Wescott, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to Louisiana State National Bank, S. H. Kennedy, President	125,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Charlaron, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Parsons, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	13,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$2,253,650
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,027,416
Total paid by all	$4,881,066

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

In The Sleeping Car From Chicago.

A lady sat with her only child;
The poor little fellow was almost wild.
He was making a noise like a circus band,
For a horrible felon was on his hand.

A quiet old man remarked to the mother:
"I think we can stop this pain and bother.
I've a bottle of Pain Killer here," said he,
"And I think it will cure him; let us see."

He poured some drops on a moistened rag,
And wrapped the felon, as if in a bag,
And soon the suffering child was calm
As the voice of a summer evening psalm.

The Nashua postoffice was entered Friday night by burglars, and robbed of small money and stamps to the value of about $15.

At Dover, on the night of the 6th inst., fire broke out in a Grand Trunk freight car in the Boston & Maine freight house. The car was removed before the flames spread to the building. It contained cotton cloth, shoe heels, fruit and crockery, all of which was damaged or destroyed, and the car was partly burned. The loss is about $1000.

Rev. J. S. Cain, Lewisville, Ind., says: "I used Brown's Iron Bitters for nervous prostration and found it entirely satisfactory."

Portsmouth Chronicle.

TUESDAY, OCTOBER 9, 1883.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

The democratic central committee of Massachusetts, as their principal campaign document are circulating an illustrated copy of Gov. Butler's closing speech in the Tewksbury trial, and other Tewksbury literature, in pamphlet form. The illustrations originally appeared in the *Police Gazette* of New York, a paper which is excluded from several of the southern states as an obscene publication; and it is stated that the pamphlet is printed at the office of that sheet. The Boston *Post* calls the document "Butler's indecent Tewksbury pamphlet," and thinks it will drive away hundreds of votes from Butler, while it will make none for him. No doubt this is about so; for the denizens of the slums, the only persons whose votes the pamphlet is likely to influence in its author's favor, are solid for Butler anyway, and decent people must be disgusted with it and him.

News and Notes.

Geo. Wm. Ballou & Co., of New York, have resumed business, and announce that all unsettled claims will be paid in full.

Rev. Mr. Cutler of Hebron, Conn., has kicked up the dust of three towns by preaching a sermon entitled "A Polygamist in Hebron;" the good man's feeling seem, to have been wrought up to the highest pitch, and although no name was mentioned throughout the discourse, yet everybody recognized a Mr. Fillmore as the individual aimed at. Mr. Cutler spoke of the Mormons as having a plurality of wives, but these, he added, are compelled to take care of them. The Hebron polygamist, however, instead of supporting all his wives, adopted the more economical plan of taking care of one at a time. Mr. Fillmore has been divorced from two wives, and lives with but one now, and with that one legally.

The steamer Cambridge, of the Boston and Bangor line, broke her main shaft close to its bearings on Saturday night, when about seven miles out from Rockland. The disabled steamer was towed to Rockland by the Penobscot, and the Katahdin took her passengers and cargo to Boston.

It is said there is a feeling of disgust pervading Massachusetts at the low publication of the Tewksbury investigation book at the instigation of Gov. Butler. If this feeling will sufficiently intensify itself to bring to the polls in November the men of both parties who despise Butler, he will be overwhelmingly defeated.

Orange and Green.

An Orange procession while returning from a meeting in Belfast, Ireland, on Saturday, at which Sir Stafford Northcote spoke, was attacked by a Catholic mob. A desperate fight ensued, and many persons were wounded. A lady in the convent, the windows of which were smashed by Orangemen on Friday, who was ill at the time of the attack, has since died owing to the shock caused by the affair. While a special train was conveying Lord Northcote and party between Donoughmore and Pomeroy, Sunday, a large stone was thrown through a window. It struck Lady Chrichton on the back, causing her to fall heavily. Lady Chrichton fainted and sustained severe injuries.

New Hampshire Items.

Charles G. Harris of Nashua, a boy, died Sunday of lockjaw, caused by a fall against a shrubbery last week, a splinter entering his forehead.

The state deaf mutes mission, which has been holding its meetings in Nashua, closed its session Sunday evening. There was a large attendance of strangers.

The action pending in the Circuit court of the United States, wherein Eliza S. Freeman of Newton, Mass., sought to recover $10,000 for damages of Dr. Guy H. Gardner of Somersworth, for alleged slanders, has been disposed of by the parties, and the case goes off the docket this week.

The firemen's muster committee report that the receipts were $3200; expenditures $3069.75; leaving a balance of $130.25, which the committee has voted to contribute to the public library, for procuring new books, the same to be procured by Alderman Sampson.—*Journal.*

From this it would appear that it was fortunate the attendance of fire companies was no larger. Had all the organizations expected made their appearance, there must have been either a large deficit or some severe scrimping of expenditures.

Monday, October 8th, was the 88th anniversary of Capt. Nathaniel J. Ham's birth, which event occurred Oct. 8th, 1795. There are but few older persons in the city.

Mr. David Welch, a young man who went from this city to Springfield, Mo., early this year, at the time so many started from Portsmouth for the west, died last week. He was a baker by trade, and went to that city with the intention of starting a bakery.

The supreme judicial court for York county, at Alfred, adjourned Saturday. James McCuen and Victor Seymour were sentenced to the state prison for five and six years respectively, for highway robbery, in Biddeford.

We have expressed our opinion of the character of the governor's [Tewksbury] pamphlet. We can hardly see how it can fail to be the opinion of every person who enjoys an average endowment of good taste, moral acumen and normal sensibilities. It is as offensive as unnecessary, and while we do not see how it can make a single vote, it is easy to see how and where it will drive them away by hundreds. Gov. Butler may yet regret that he persisted in this wantonness, and spurned the advice of his friends.—*Boston Post.*

POLICE COURT--BATCHELDER, J.

MONDAY, Oct. 8th.

Patrick O'Connor, when asked if he was drunk, as a document produced in court alleged him to have been, said he wasn't, notwithstanding which he was fined $3, with $6.90 costs, which he paid.

George W. Davis, a farm laborer from Greenland, when interrogated in the same manner said he *was* drunk; yet he too was assessed $9.90, and paid it.

William Wilson, another drunk, not possessing $9.90 of quick assets will go to the county farm.

Theodore S. Osier, one of the crew of a Gloucester fishing schooner, was held in $500 to answer before the Supreme court on a charge of feloniously assaulting a little girl four years old.

GOSSIPS SAY

That John W. Bickford, foreman at the Portsmouth Shoe factory, has moved with his family from Newcastle to this city, and will take up a permanent residence here.

That residents along the shores of Great bay are luxuriating in the succulent oyster from the beds of bivalves near Nanny's island.

That a well known yachtsman and sportsman of Kittery Point bagged thirty-two black ducks and coots in two mornings off Sea point last week.

That the walls of his gunning cabin at Brave Boat Harbor on Saturday last were literally covered with land and water birds, hung in picturesque groups, making a handsome and appetizing picture.

That a party of gunners from the navy yard and Kittery will occupy Patch's cottage at Sea point for the next two weeks.

That Saturday and Monday last were the most lovely of the autumnal days yet meted out to us.

That Mr. Thomas Pickering of Newington will realize $2000, from apples raised on his farm this year.

That the large number of herring vessels seining off this port during Friday and Saturday of last week, set sails for Gloucester and other ports on Sunday.

That Mr. John Yeaton, an old and respected citizen living on Richards avenue, was down town on Monday the first time for six months, having been laid up from a paralytic shock.

That the Marine Bicycle company will ship to-day two of their boats to Oakland, California, having received an order for the same on Monday.

That a well known barber of this city, desiring to become acquainted with the frisky roller-skate, made a trial thereof one afternoon last week in his tonsorial parlors on Congress street.

That when the back of his head and the floor came in contact, the concussion was so great that a large part of the plastering fell from the ceiling of the room below.

That he has no wish for any further acquaintance with any such treacherous machine, being desirous of keeping his head all in once piece, and retaining it in its present shape as nearly as possible.

NOTES FROM THE SHOALS.

SMUTTYNOSE ISLAND, Oct. 6th.

The storm of Tuesday came near proving a disastrous one to the fishermen who prosecute their venturesome avocation from the Isles of Shoals. It was preceded by a starlight night, an early dawn, and a clear-rising sun, which when about an hour high was covered with a heavy cloud. The wind suddenly commenced blowing, and the sea, which before was calm, rapidly arose; the waves seemed actually to be battling among themselves, tearing each other to pieces, while now and then a heavy comber would thunder in among the smaller seas, throwing disorder into still worse confusion.

The fishermen were all out, and serious anxiety for their safety was felt by the persons remaining on the islands, whose eyes were strained to watch the little dark spots that would occasionally be seen on the top of some huge wave. The first arrivals reported having shipped several seas, and were obliged to leave part of their trawls and fish for fear of swamping. One of the wherries which was fishing to the eastward of Duck island had a narrow escape from swamping, and from being blown off; and her occupant was obliged to throw over a quantity of fish in order to keep afloat. Assistance was sent to him and he came in all right, with only the further loss of some trawls.

Emil Ingerbretsen of Appledore was not so fortunate, and had a narrow escape from drowning. He had hauled his trawls, and was coming home with a boat load of fish; but when about a mile off Smuttynose point he went forward to clear something, and at that moment a heavy sea broke under the wherry, which tripped and turned him over, the boat sinking under him. He fortunately caught a floating oar, and afterward secured a trawl tub, which he placed beneath him, holding the oar up for the other boats to see, and then commenced hailing for aid. Two of his brothers, Ingerbret and George, in a boat some distance off, missing the wherry and fearing some accident hastened to the spot where he was last seen, and hearing the voice of some one in the water, knew it was their brother. They were obliged to make several tacks before they reached him, by which time he was unconscious, and it was some hours before he revived; he is badly weakened from his struggles. He was in the water from fifteen to twenty minutes. The wherry and gear were new, and are a total loss.

The rest of the boats, including those fishing from Londoner and Cedar islands, met with no serious loss.

Mackerel have been scarce and small this season, as a rule, and also very shy; and it is now certain that however successful the mackerel fleet may be with the fall catch, the prices will be high this winter. The catch of herring has been larger this season than for several years past, but owing to the scarcity of mackerel the prices of herring will rule high.

There are ten boats now fishing regularly from the several islands at the Shoals, besides a number of others which ordinarily sell their fish at Smuttynose or Londoner. Fall fishing commenced a week earlier this season than usual, but the heavy northwesters which have prevailed since it began have kept the catch down, so that though the fish have been fairly plentiful the total catch now foots up only about the usual amount at this time. G

SUDDEN DEATHS.

Mr. Edward Flynn, aged about seventy years, formerly of this city, was found dead in his bed at Boston on Friday night. The remains were interred in this city on Monday.

Mrs. Leonard Evans, residing on Middle road, died suddenly of heart disease on Monday afternoon. She had appeared in unusually good health for several days, and was remarkably cheerful and bright up to the moment of death.

CIRCUIT COURT OF THE UNITED STATES.

The October term of this court began at Concord on Monday. On account of the absence of Judge Lowell, the court was by his order adjourned by the marshal to Tuesday, the time assigned for the jurors to report.

Six actions against shareholders in the Pacific National bank of Boston, brought by L. M. Price, the receiver, were entered upon the docket.

Case Pratt vs. Cole is to be continued.

The first case in order for trial is Dearborn vs. Post.

The Misses Foster, of Richards avenue, who have been abroad in Europe for some time, reached home on Monday evening.

The plank walk on Daniel street, near the navy yard landing, is very much travelled during the day and often until late at night, and is in a bad condition. It had better be fixed before an accident occurs.

The frame building on Daniel street occupied as a tobacco store for so many years by Jere. Sanborn was last week moved to the rear of the lot, taking up part of the site of the old stable previously torn down. A more commodious building will be at once put up on the front of the lot.

Mrs. Tuttle, who was for nine years a devoted worker among the wild Modocs, will visit this city by the invitation of the Indian Association, and will give some account of the work at the annual meeting of the Woman's Board of Missions, at the North Parish chapel on Middle street. All members of the association, and all ladies interested in mission work, are invited to attend, on Tuesday, Oct. 9th, at 3:30 P. M.

This evening, at Music hall, Elliot Barnes' farcical comedy "Our Summer Boarders" will be presented by a company of specialty performers, including the author and Mlle. Madelon Zolo, a singer and dancer. Judging from the press notices, we should say there is lots of fun in the piece. Tickets at Goodrich's bookstore, Market street.

Mr. Ezra Winchester, mail agent on the Concord & Portsmouth railroad, has been obliged to suspend his duties on account of illness.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

ATLANTA, Ga., May 19, 1883.

I have known and watched the use of the remedy known as Swift's Specific for twenty years, and have seen more wonderful results from it than any remedy inside or outside of the Pharmacopœia. I know its composition, and do not hesitate to say that it is the safest and mostefficient antidote to all blood poison that is known to science. For diseases incident to spring, it has no equal in assisting nature to throw off the impurities of the blood brought on by the sluggish circulation in the winter months. I know it to be entirely vegetable, being prepared from the roots and herbs of our Georgia forests. As a tonic and alternative for children, it is superior to everything, as it cleanses the system, tones up the digestive organs, and gives the little ones a chance to grow and fatten. A few bottles of this remedy will benefit every man, woman and child in the land, and especially in the spring.

Yours truly,
J. DICKSON SMITH, M. D.

Gov. Butler it is said has detailed two state detectives to work up the defense in the Amero case. Attorney-General Sherman is very indignant and says the governor's action is without precedent and in violation of the constitution. The attorney general has written a sharp letter to the governor, in which he requests him to withdraw his officers, and leave the department of justice and prisoner's counsel to manage the case.

Beecher's Bad Head.

For two months in the year Henry Ward Beecher can't preach. In August and September he takes his vacation and endures the onset of the hay fever. And it is, so he says, something terrible and tremendous. A man with hay fever isn't accountable for his actions. He is merely a wild beast—frantic with snuffing, sneezing and headache. His eyes are red and so is his nose. Every nerve in his skull thrills with distress and his head is a fountain of tears. He lives only to fly from seaside to mountain-top in search of relief.

And yet, whether we call this form of catarrh hay fever, rose fever, hay-cold or rose-cold, Ely's Cream Balm will cure it. This remedy is simple, pleasant and easy of application. Placed in the nostrils it penetrates and soothes the affected parts at once, restores the impaired senses and creates healthy secretions in cases of the longest standing. You cannot run away from hay fever, but you can drive it from you by using Ely's Cream Balm.

News and Notes.

An exhibition game of base ball was played at Lowell, Mass., Saturday, by female nines from Philadelphia. There was a very large attendance, mostly men, and some unruliness was shown, but nothing to require interference by the police. A good game was played, and the brunettes defeated the blondes by a score of nine to seven.

In a difficulty last Friday between J. W. May (coolred), a stable boy, and Wesley McDaniels, a farm hand, at the fair grounds, Fort Scott, Kan., McDaniels shot May twice, wounding him slightly. May then closed with McDaniels, got possession of his pistol and shot and killed him. One of the shots fired by McDaniels, after passing through one of May's hands, entered the back of Judge Brinkerhoff, a prominent lawyer of Fort Scott, who was standing a few yards away, inflicting a probably mortal wound. May was arrested, but his act was clearly in self defence.

Can't Cook as Mother Did.

How many a young wife's heart is saddened and happiness scattered because she cannot "cook as mother did." It is strange, sadly strange, and yet we all know it is true. How many a time has the tender-hearted reporter felt his soul bursting with grief as he told the harrowing story of some poor suffering woman, whose cheerful sunshine had turned to dismal darkness just because she could not "cook as mother did." And how it delights the heart of the reporter when he chances to hear of one devoted young wife who is rescued from the gloomy fate of so many, in a manner so simple and easy that the only wonder is that all are not saved. This one to whom he now refers was led a blushing, blooming bride, but a few weeks ago, to the altar by one of our most promising and and prominent young men. He promised to do everything in his power to make her happy, but in an evil hour he made the dangerous discovery that she could not "cook as mother did." He told her so, and from that hour the life-light of happiness began to die out of her once radiant eyes. The bloom that put to shame the fancied perfection of the rose departed from her cheek, the voice that welcomed him to a happy heart and home grew silent as the grave, and the young husband saw that something must be done soon; he asked the sorrowful wife why she was so sad, and she told him because she could not "cook as his mother did," but if she had Royal Baking Powder he could go on molasses. Like a sensible fellow, he ordered a dozen boxes at once, and now he says he's afraid that his wife will raise the roof off the house some day, but he don't care for she is happy.

Mr. Edmund Coleman has been appointed foreman of the carpenters employed on the Eastern railroad bridges in this vicinity, vice William F. Grant, deceased. The Noble's island bridge is being strengthened by the driving of piles.

The Eastern railroad has received two of the six new locomotives contracted for; one of them, No. 107, came down from Boston with a freight train on Sunday, and returned.

The freight yard of the Eastern railroad at Portland is crowded, and three freight trains were run each way on Sunday between Portland and Boston. One of the east-bound trains consisted of twenty cars of steel rails, and a dozen empty Grand Trunk cars. Seventy car loads of hay and potatoes went to the westward from Portland.

The Boston & Maine railroad managers have just added a fine new passenger car to the rolling stock of the Kennebunk & Kennebunkport railroad. This car is a passenger and baggage car combined, and will seat forty persons. It is fitted up with all the latest conveniences, and is heated by steam.

Eastern railroad engine No. 98 came in at half-past eleven o'clock on Tuesday forenoon from North Conway and way stations, with nineteen loaded passenger cars. An extra train from Boston, with passenger cars, arrived here about two hours earlier.

The locomotive Andover, on the Boston & Maine railroad, was on Monday afternoon employed on a gravel train about two and one half miles from Lowell, Mass., when a freight train ran into it, and the fireman and engineer jumped off. The engine ran wild into Lowell, passed through the station, and crushed through the platform at the end of the building into the express office, falling into the cellar of the office. The clerk of Lovejoy's express was within a few feet of being struck by the cowcatcher, but escaped; Miss Mary Nutter was struck, and died in the hospital about eight o'clock.

Eight gangs of men are at work on the Eastern railroad wharf, discharging three large schooners loaded with coal. One of the cargoes is bound for Sawyer's mills at Dover.

No Storm Can Shake its Secure Foundation.

It matters not what political revolutions occur, or what opinions govern public men, with unwavering regularity the Monthly Drawings of The Louisiana State Lottery occur. The 163d drawing we chronicle as follows: It happened, as usual, at New Orleans, on the second Tuesday in September, 1883. Ticket No. 69,919 (sold in fifths at $1 each) won the first capital prize of $75,000, one-fifth of which was collected by Mr. Martin Crokter, a well-known merchant of Morgan City, La., for his neighbor, Mrs. Charles Livingston, an estimable colored woman; another fifth by Mr. J. W. Rabe, a sailor bold, of Marigny and Claiborne sts., New Orleans. Ticket No. 18,870 drew the second capital prize of $25,000, the name of the holder of which is withheld. Ticket No. 77,826 drew the third capital prize of $10,000—sold in fifths—one to W. C. Correll, of Albert Lea, Minn.; one to A. Miller, No. 721 Tremont st., Boston, Mass. Tickets 3,496 and 11,587 drew the fourth capital prizes of $5,000 each, and were sold in fifths to various holders scattered here and there—among others Charles L. Mayer, care of Hirsh, Mayer & Co., No. 160 Market st., Chicago, Ill., and to parties in Boston, Mass., on the East, and Spearfish, D. C., Dakota, on the West, and so from Dan to Beersheba the good work of enriching the poor goes on. The next (the 163d Monthly) event will be November 13th, 1883, and M. A. Dauphin, New Orleans, La., will freely give any information on application.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodjan9,94.

For seven years Allen's Brain Food has stood the strongest tests as to its merits in curing Nervousness, Nervous Debility and restoring lost powers to the weakened Generative System, and, in no instance, has it ever failed; test it. $1; 6 for $5.—At druggists.

Prevent sickness by taking occasionally one of Emory's Little Cathartic Pills, a wonderful appetizer, an absolute cure of Biliousness.—15 cents.

The Kennebunk *Star* reports that a young man from the neighborhood of Wells went to Kennebunk last week with a load of hay for sale, and before getting it weighed stowed two boys out of sight beneath the hay, making the load weigh about a hundred and fifty pounds above its honest quantity.

It has been stated that the ship John R. Kelly, launched at Bath, Me., a few days since, is the largest vessel ever built in the state of Maine. This is incorrect, as the ship Ocean King, built at Kennebunk in 1874, was 2,510 gross tons, and 2,385 net tons, while the John R. Kelly is but 2,364 gross tons and 2,254 net tons. It will thus be seen that the Ocean King, a four-masted ship, is 131 tons larger than the John R. Kelly, by the new measurement.

MEDICAL.

PROBABLY NEVER

In the history of proprietary medicines has any article met success at home equal to that which has been poured upon HOOD'S SARSAPARILLA. Why, such has been the success of this article, that nearly every family in whole neighborhoods have been taking it at the same time. Every week brings new evidence of the wonderful curative properties of this medicine.

Hood's Sarsaparilla Combines the BEST Remedies of the vegetable kingdom, and in such proportion as to derive their greatest medicinal effects with the least disturbance to the whole system. In fact this preparation is so well balanced in its action upon the alimentary canal, the liver, the kidneys, the stomach, the bowels and the circulation of the blood, that it brings about a healthy action of the entire human organism, that can hardly be credited by those who have not seen the remarkable results that have followed its use. If the Sarsaparilla does not prove sufficiently laxative, take a few doses of HOOD'S VEGETABLE PILLS. It is well in all cases of biliousness to take these pills in connection with the Sarsaparilla for the first ten days. That dull, sleepy, sick feeling can be wholly overcome by the use of these remedies. Will you give them a trial and be yourself again?

An ex-alderman of this city says of Hood's Sarsaparilla, "It is the strongest Sarsaparilla I ever saw."

Each dollar bottle contains one hundred (averages) doses. Sold by all druggists.

Price one dollar, or six for five dollars.

Hood's Sarsaparilla, prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

☞ Use HOOD'S TOOTH-POWDER.

CATARRH

ELY'S CREAM BALM has gained an enviable reputation wherever known, displacing all other preparations. An article of undoubted merit.

CURES COLD in the HEAD, IS NOT A LIQUID OR SNUFF. Apply by the finger into the nostrils.

When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

DEATH OF CHAS. W. GARDNER.

Charles W. Gardner passed on at half-past seven o'clock Tuesday evening, after a long and painful illness which had reduced the once strong man to a mere shadow of his former self. He was one of the many useful men who commenced their business life in this office; and while we can but regret the departure of our old schoolmate and office-mate, and always valued friend, at an age when he should have had many years of activity before him, we do not forget that his weary suffering is at an end. We shall refer to his life in a later issue.

MARKET RE-OPENED.

The store corner of Bow and Penhallow streets, recently occupied by C. Sullivan & Co., has been re-opened by John O. Downs & Co., who will keep, as has been the custom there in times past, a well selected supply of meats of all kinds, game in its season, and fish. The former customers are invited to again bestow their patronage at the old stand, where Downs & Co. promise to serve them with the best provisions and fish to be found in any market, at the lowest prices that first-class goods can be sold for.

BAIRD'S MINSTRELS.

The first minstrel show of the season, at Music hall, will be given on Friday evening of this week by I. W. Baird's Minstrels, a company which has always played to large audiences here, and always presented a fresh and sparkling programme. Among the performers is Lew Benedict, once a great favorite with Portsmouth audiences, but who has not appeared here for several years past. Of the entertainment offered by the troupe this season the Boston *Herald* of the 2d inst. says:

The first part, more than an hour in length, introduced a good vocal sextet—some old favorites, Theo. Jackson, Harry Nelson, J. J. Kelly and J. H. Tower appearing—and eight end men, with an excellent orchestra. Lew Benedict and Joe Hart won the comedy honors on the extreme end. A lively operatic finale introduced the noted burlesque prima donna, Harry Pierson, and he contributed the chief features of the drollery which concluded the bill. The star of the olio was Lew Benedict, whose stump speech kept the audience in continual merriment. Always one of the funniest of the funny, Lew like good wine improves with age. Joe Hart's banjo solos met with enthusiastic approval. Prince Pharoah's contortions were simply wonderful. Taken as a whole, Manager Baird has brought an entertainment refined, original and brilliant throughout, which suffers nothing by comparison with others.

The Whalesback foghorn was sounding all day Tuesday.

Lieut. Comdr. C. M. Anthony, U. S. N., appeared on the street on Tuesday for the first time in several months, having been confined to his residence on State street by illness.

"Our Summer Boarders," at Music hall on Tuesday evening, seemed to please the gallery more than the down-stairs audience; many of the latter retired before the close of the performance.

Elder C. R. Crossett, of Manchester, having accepted the call extended him by the Advent church in this city, will enter upon his duties as pastor next Sabbath.

The Woman's Temperance League has removed from Grange hall, Congress street, to the room over the drug store of David Kimball & Co., No. 36 Market street. They will meet on the afternoon of Thursday, from three to four o'clock, when a full attendance is earnestly requested; and any friends who are interested in the cause will be cordially welcomed.

Messrs. Stephen Yeaton and James Hooper, railroad men living on Noble's island, both of whom have been confined to their homes for some days by illness, were well enough to walk out on Tuesday.

It is well known that Dr. Goodall of this city has an extended reputation as a skillful surgeon in his specialty. For more than fifteen years he has used forceps which he especially adapted to the teeth and hand,—using curved handles in all cases, which cannot slip from the hand, and curved beaks which lock themselves firmly to the teeth. A catalogue just issued by a large business house in Boston contains two pages of cuts illustrating these perfected forceps, which are catalogued "Goodall forceps," in honor of their inventor.

Mr. Melvin Dixon, foreman of the blacksmith shop of Ira C. Seymour on Bow street, is enjoying his vacation by gathering in the crops he has raised on a farm leased by him in the rear of "Franksfort," on the banks of the Piscataqua above Eliot neck.

A portrait of the favorite young actress, Miss Norah Bartlett, done in oil colors by Miss Mary E. B. Miller, is on exhibition in the window of Goodrich's bookstore.

Smelts are being caught in considerable numbers from the second and third Newcastle bridges. A gentleman of this city caught a half-bushel of them last Friday, and has consumed three hours a day eating the little fishes ever since.

Mate John L. Vennard took six seamen from this navy yard to the naval hospital at Chelsea, Mass., on Monday, for medical treatment.

KITTERY, Me., Oct. 8th.

Mr. Chase Goodwin, clerk in steam engineering receiving store at the navy yard, has a very fine Fearnaught colt which was raised by Mr. Daniel Moody of Wells. The colt is a son of Emery Fearnaught, a noted stallion of Biddeford and was four years old last May; his color is a dark chesnut; he shows very fine action, and with careful handling will no doubt be speedy. We think he is the most promising colt that has been in this vicinity lately.

Mr. Geo. A. Pierce has moved onto Mr. Shadrach Littlefield's farm on Pullet hill, North Kittery, and will conduct it during Mr. Littlefield's absence in Dover.

Quilting parties are raging on Pullet hill.

There seems to be quite a large crop of apples in this vacinity, most of which are of extra large size, and free from worms.

We are informed that there is to be considerable of an exodus from the neighborhood of Pullet hill. The "elite" are gone, or about to go, to the city or village to spend the winter. The "society man" will go soon. We hope that they will take their pet cats with them, and not leave them to wander about in the neighborhood "seeking what they might devour," to the annoyance of quiet neighbors who have enough of their own.

Mr. Jefferson T. Lewis has raised this season nearly 1200 bushels of potatoes, and Mr. John Gunnison has raised 800 bushels, both of extra quality.

Morrill Lodge, I. O. G. T., contemplate visiting Harmony Lodge of South Berwick on Monday evening, Oct. 15th; they will probably go in Cottle's barge.

SUB ROSA.

YORK CORNER, ME., Oct. 8th.

Postmaster Junkins informs us that over one-half of the letters mailed on Monday last had three-cent stamps on them, and those received from other places on Tuesday were in about the same proportion, showing that the verdant ones are not confined to York Corner.

The funeral of Mr. William F. Grant, at the first Christian church on Thursday, was largely attended. The floral display was most magnificent. Sermon by Eld. Goss of your city.

On Wednesday, 3d inst., Mr. William P. Titcomb, almshouse superintendent attempted to pass over Sewall's bridge with four oxen and an empty cart; when nearly two-thirds across, the three stringers, (each about ten by twelve inches,) being completely rotten, gave way, and Mr. Titcomb and the team were precipitated into the river below. Mr. Titcomb was severely, though it is hoped not fatally, injured. How he should escape instant death is one of the miracles of our age.

Intending no personalities, it appears to the writer that the town, by its municipal officers, for years has been, and now is, committing little short of manslaughter, by neglecting, thereby refusing to rectify defects in our bridges, ostensibly to save money to the treasury,—at the expense of endangering the lives of persons, as well as the destruction of property. The condition of our bridges should be ascertained annually by careful personal inspection by the officers, accompanied by a thoroughly-competent bridge constuctor. Such culpable neglect is certainly very wrong, and must be set right, if life is valued.

This affair is likely to remain a terrible stigma upon the town! The idea that a bridge over which large stage-loads of humanity pass should not be sufficiently strong to bear up four common-sized oxen and an empty cart!

The present board of selectmen had been notified that the bridge was unsafe; their predecessors knew the fact; and how far back it has been known to the officers is a question which will forever remain untold. The gauzy reason has been offered, "no appropriation." Forsooth, because of no appropriation, shall the lives of our people be jeopardized?

If the officers have not power to make absolutely necessary repairs, let them put the warning signal in plain English, "Bridge Impassable." But we contend they not only have power but it is their imperative duty, to look after the safety of travellers, by making necessary repairs at the town's expense, and draw their orders therefor; and the town must pay the bills.

The upper (or Rice's) bridge will soon be (if it not already is) unsafe for heavy-loaded teams, and unless immediate attention is given to the repairing of that, some accident will occur which will make our people think they have got another $50,000 war debt to pay. It looks to us outsiders to be a sort of spigot economy, to run the town with such rigid regard for dollar and cents, or is it *"so that we could be re-elected?"*

P.

Hon. Caleb R. Ayer, whose death occurred in Cornish on the 5th inst., was born in Newfield in 1813. He was graduated at Dartmouth college, and read law in the office of his brother-in-law, the late Judge Nathan Clifford, at that time one of the leading practitioners at the York county bar. He was admitted to the bar in 1838, soon after which he formed a partnership with Mr. Clifford in the practice of his profession, which continued until 1846, the time of Mr. Clifford's appointment as a member of President Polk's cabinet. Mr. Ayer, who for many years ranked as one of the ablest members of the York bar, was a man of great intellectual power, and when fully aroused his arguments before a jury and his speeches on the stump were of great power and eloquence. He was a strong democrat; was president of the Maine senate in 1848, and secretary of the state in 1856; served several terms as attorney of York county, and was for many years town attorney of Cornish, besides filling other town offices.

Frank L. Watson, late editor of the *Eastern Star*, of Kennebunk, has severed his connection with that paper, and goes to Boston as an assistant upon one of the dailies in that city.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

238th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

MEDICAL.

"I owe my Restoration to Health and Beauty to the CUTICURA REMEDIES."

Testimonial of a Boston Lady.

DISFIGURING Humors, Humiliating Eruptions, Itching Tortures, Scrofula, Salt Rheum, and infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the cause.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, cleans the Skin and scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from CUTICURA, is indispensable in treating Skin Diseases, Baby Humors, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison whatsoever.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA RESOLVENT internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat, and generally considered incurable; small patches of tetter and salt rheum on the ears, nose and sides of the face.

Scald Heads with loss of hair without number, beads covered with dandruff and scaly eruptions, especially of children and infants, many of which since birth had been a mass of scabs;

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed as by magic;

Psoriasis, leprosy, and other frightful forms of skin diseases, scrofulous ulcers, old sores, and discharging wounds, each and all of which have been speedily, permanently and economically cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by a vast number of sworn testimonials in our possession, which we will cheerfully mail to any address.

Sold everywhere. Price: CUTICURA, 50 cents. RESOLVENT, $1. SOAP, 25 cents. POTTER DRUG AND CHEMICAL CO., Boston, Mass.

Send for "How to Cure Skin Diseases."

An Old Soldier's

EXPERIENCE.

"Calvert, Texas,
May 3, 1882.

"I wish to express my appreciation of the valuable qualities of

Ayer's Cherry Pectoral

as a cough remedy.

"While with Churchill's army, just before the battle of Vicksburg, I contracted a severe cold, which terminated in a dangerous cough. I found no relief till on our march we came to a country store, where, on asking for some remedy, I was urged to try AYER'S CHERRY PECTORAL.

"I did so, and was rapidly cured. Since then I have kept the PECTORAL constantly by me, for family use, and I have found it to be an invaluable remedy for throat and lung diseases. J. W. WHITLEY."

Thousands of testimonials certify to the prompt cure of all bronchial and lung affections, by the use of AYER'S CHERRY PECTORAL. Being very palatable, the youngest children take it readily.

At Northboro, Mass., Sunday morning, a man named Taylor, hailing from Brockton, but on a visit with his wife to the home of Richard Eylward, shot his wife and then blew out his own brains. The woman was induced to go into a field to see a woodchuck, and while there the shots were fired. The woman is expected to recover, the ball having entered her throat and coming out through the roof of her mouth. The man died instantly.

"How can I become a poet" wrote a conceited youth to the singer Longfellow? "Eat fish, my dear sir." But we doubt the advice; no man however has ever doubted the fact that Dr. Bull's Cough Syrup is the greatest cough remedy now in the market.

At Salem, N. Y., Father O'Sullivan refused to give the key of the Catholic cemetery to William Connor, who wished to bury his brother, so Connor burst open the gate with a hammer. The deceased is said to have been a Catholic of good standing.

Mrs Cole of Windham, N. H., declares that her life was saved by Hood's Sarsaparilla. She had 37 terrible scrofulous sores.

The body of Alfred T. Kendrick was found Oct. 7th in West Roxbury park, Mass. He had been missing since Sept. 25th, and no doubt shot himself to death.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

August Eisterman beat his wife to death in a Milwaukee hotel, on the night of Oct. 5th.

A peculiar virtue in Ayer's Sarsaparilla is that while it cleanses and purges the blood from all corruptions and impurities, and thereby roots out disease, it builds up and invigorates the whole system, and makes one young again.

Charles E. Peck, collector for a large paper company of Cincinnati, is under arrest for stealing a large sum of the company's funds, which he spent in gambling and supporting fast women.

"Dr. Benson's Celery and Chamomile Pills cured my wife immediately of *severe neuralgia*." H. M. Cocklin, Shepherdtown, Pa. 50 cts., at druggists.

Earl Mount Cashel, ninety-two years old, is about to marry a girl of nineteen, daughter of Joe Kennedy of the British 18th Hussars.

Mr. Josiah Morse, Henniker, N. H., says: "I received much benefit by using Brown's Iron Bitters for general debility."

At Springfield, Mass., Oct. 6th, a highly respected citizen of Holyoke, Mass., named George W. Philbrick, blew out his brains in the street.

LONE JACK, Mo., Sept. 14, 1879.
I have been using Hop Bitters, and have received great benefit from them for liver complaints and malarial fever. They are superior to all other medicines.

The Point Barrow scientific party under Lieut. Ray, and Lieut. Schwatka and party from St. Michael's, have arrived at San Francisco, the scientific stations at those points having been abandoned.

"I had a horse hopelessly lame with ringbone," says S. F. Robinson, 150 Blackstone st., Waltham, Mass., "Ellis' Spavin Cure has cured him."

Queen Victoria has ordered a statue of John Brown to be put in the garden at Balmoral, a monument in the prince consort's mausoleum, and a plaque extolling his virtues in the nave of St. George's chapel at Windsor.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Bishop Hendricken dedicated two Catholic churches at Fall River, Mass., Sunday, the Immaculate Conception and Sacred Heart.

A Brush Well Applied

and previously moistened with Sozodont removes the disfiguring evidences of neglect from the teeth, and tightens them in their sockets. If the breath has a repellent smell, the article substitutes for that, its own pleasant aroma. Shrunken and inflamed gums are restored to health by its use, and canker of the mouth cured. System in the use of this fine antiseptic, as of other promoters of health, is highly desirable. Apply nothing but the genuine.

SULPHUR BITTERS

THE BEST AND GREATEST MEDICINE

It will drive the Humor from your system, and make your skin clear and smooth. Those *Pimples and Blotches* which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier.

SULPHUR BITTERS. Why suffer with that terrible Headache? Why have that dull feeling, with indigestion? Why let that Kidney Pain go on? Why let your Liver remain torpid? Why let your blood become impure, and your whole system be in a state of disease? Why let your Nerves be unstrung, and your Nights be sleepless? Why let your Bowels remain in a state of derangement? Why let your Appetite be gone? Why let your Food distress you? Why let your Spirits be low? Why let your Blood be impure? Why let your Skin be covered with Pimples? Why let your Breath be offensive? Why let your Tongue be coated? Why let your Sleep be disturbed? Why let your Nerves be unstrung? Why let your Nights be sleepless

In The Sleeping Car From Chicago.

A lady sat with her only child;
The poor little fellow was almost wild.
He was making a noise like a circus band,
For a horrible felon was on his hand.

A quiet old man remarked to the mother:
"I think we can stop this pain and bother.
I've a bottle of Pain Killer here," said he,
"And I think it will cure him; let us see."

He poured some drops on a moistened rag,
And wrapped the felon, as if in a bag,
And soon the suffering child was calm
As the voice of a summer evening psalm.

A gravel train on the Sullivan railroad ran over a man Saturday afternoon, the 6th inst., near Charlestown, injuring him so he died in a few hours.

The Elections.

Elections in Ohio and Iowa took place on Tuesday. Both parties claimed a victory in each state, beforehand. In Ohio, the democrats were going to elect Headly by 10,500 majority, and have a democratic majority of twelve in the legislature on joint ballot; the republicans were going to elect Foraker by 15,600 majority, and have a legislative majority of sixteen.

The returns from both states came in very slowly, and up to Wednesday night nothing decisive had been heard from either, though what advices were received favored the belief that the democrats had carried Ohio—legislature and governor—by a small majority, and the republicans had carried Iowa by a less majority than last year.

Guarding the Ballot-Box.

Much dissatisfaction exists among the republican of Massachusetts over the action of Mayor Palmer in appointing the inspectors of elections in Boston. The law is that the inspectors shall be appointed equally from the several political parties, and that they shall be reputable citizens; the custom has hitherto been for the authorized committees of the two great parties to furnish lists of the men they wished appointed, and these men have been appointed, and unless shown to be improper persons, have been confirmed by the aldermen. This year Mayor Palmer, acting it is supposed under the orders of Gov. Butler, delayed submitting the lists of appointments to the aldermen until late in the day on the very last day the appointments could be confirmed, so as to leave no time for a scrutiny of the lists or for weeding out improper persons. And the lists made out by the committees were disregarded by Palmer, to the extent that in many of the strongest democratic precincts, in some of which the democratic factions have been very ready in times past to charge fraud against each other, the republicans proposed were displaced by so-called "Butler republicans," many of whom never voted a republican ticket in their lives, and some of whom are anything but "reputable citizens," taking democratic evidence for it. The republicans believe, and with good reason, that this action of Palmer's means deliberately planned fraud in counting and declaring the vote of the city, in Butler's favor; but it is thought that the indignation aroused at this attempt to introduce the methods of the late lamented Tweed into Massachusetts politics will defeat the object of the attempt, by increasing the anti-Butler vote outside of Boston to a greater extent than fraud in the city can possibly help him. As a sample of the "Butler republicans" appointed to count the votes of Boston, it is stated that Arthur McIntyre, appointed inspector in precinct one of ward seven, was once sentenced to nine months in the house of correction, and subsequently to two and a half years in prison, for breaking and entering. And it is intimated that Lawyer Butler was counsel for this man when he was convicted! Mayor Palmer's action in this matter is condemned by many of the better class of democrats, who regard the preservation of the purity of the ballot as of more consequence than Benjamin F. Butler's re-election as governor of Massachusetts.

The judges of the Supreme court have appointed Hon. Wm. S. Ladd of Lancaster reporter of decisions. Judge Ladd's ability for the proper discharge of the duties of this office is of course acknowledged by the legal profession, and the state is fortunate in having a gentleman of his extensive legal attainments accept the position.

News and Notes.

John F. Maxwell, claiming to hail from Millersburg, Ohio, was brought before United States Commissioner Shields in New York, charged with having in his possession several finely-finished photographs of United States treasury notes from $1 up to $20, of which he was endeavoring to have plates engraved. In his room was an unfinished letter to his wife saying he had contracted for part of the work, and that it would cost him $1,600. He said he would send her some of the "good," and gave her instructions how to get rid of the counterfeits he would send her. He promised to send some immediately for her to practice with, and then he would send her more. "Keep things going," he wrote, "and when I get my hand in it will go merry." Maxwell was sent to jail.

At Dodge City, Kansas, Oct. 8th, Bill Smith, a negro who kept a low whiskey den, quarrelled with Hanson Hillman, also colored, and shot him, the ball entering his stomach and passing through his body. As Hillman fell he grappled Smith, wrenched his pistol from him, and fired, blowing Smith's brains out. He then reloaded the pistol and fired two more balls into Smith's body, after which he fell back dead.

Police Sergeant P. M. Jenks of St. Louis, Mo., who was fatally shot recently by a dissolute colored woman he was about to arrest, was a man of rare qualities and many attainments. He was a college graduate, and was remarkably familiar with history, law and medicine. He was originally from Boston, where he was educated, and for many years was connected with an insane institution of Massachusetts.

At Chester, Mass., Oct. 9th, Wm. H. Haley of Chester fired two shots at Mrs. Maxon Haley, his brother's wife, going to her house and pointing the revolver at her head. The third time he hit her in the arm, but not seriously. She fled to the neighbors, and he was arrested. He declines to tell why he did it.

At the time of the death of Litta, the prima donna, her valuable diamonds and other jewels were placed in the post-office vault at Bloomington, Iowa, for safe keeping. A Bloomington paper publishes an article which places a young man named Rotherwell, who is a post-office clerk, in a rather bad light. He is something of a lady's man, and the paper says that a number of his women friends have for some weeks past been decorating their persons with the precious gems of the dead songstress, which Rotherwell kindly loaned in a rather promiscuous manner. The relatives of Litta are collecting the jewels from parties to whom they were loaned.

Isaac Chandler has severed his connection with the Great Falls Manufacturing company, after forty years of service.

The conditions upon which Hon. E. A. Rollins promised Dartmouth college $20,000 for a new chapel having been complied with, it is understood that its erection will be begun next spring.

By the winter arrangement of the Boston & Maine railroad, beginning on Monday next, a train will leave Dover for Portland at eight o'clock A. M. Their will be a source of much convenience to persons desirous of reaching Saco, Biddeford or Portland at an earlier hour than can be done by the long standing arrangement of former times.

Judge Lowell is engaged in Portland on the trial of a case against the Grand Trunk railway, for damages occasioned by the death of Capt. N. Fitzgerald, who was run over by a freight train on Browne's wharf in August, 1882. The case will probably occupy in its trial several days.

The railroad commissioners of Maine, accompanied by President Jackson, General Manager Tucker and other officials of the Maine Central railroad, made their annual inspection trip over the road on the 9th inst.

Daniel Cousins, nine years old, son of Nathaniel Cousins of Biddeford, left his home on Sunday morning, the 7th inst., to visit friends in Saco, and has not since been heard from. It is feared he was drowned in the Saco river.

The trustees of the Thornton academy fund, in conjunction with the city of Saco, are to erect a school building in Saco to cost not less than $40,000.

NEW FISH MARKET.

Mr. B. F. Mugridge, who since reopening the old and well reputed stand No, 31 Market street as a meat and provision store, has been steadily enlarging his business, will here-after offer for sale in addition to a large and well chosen stock of meats, vegetables, groceries, ect., as heretofore, a good supply of all kinds of fish in their season. Mr. Mugridge knows how to keep, and has kept. an excellent meat and general provision store; and this addition of fish to his stock will be of great convenience to housekeepers, who now will be able to sel ect a fish in person, if desired, without going near the wharves.

CHARLES W. GARDNER.

Charles W. Gardner, whose death has been briefly chronicled, was a man of many sterling qualities; honest, upright, earnest and sincere in his beliefs, kind hearted and forgiving, humane and generous, of strongly social disposition, a good conversationalist, with a keen appreciation of the ludicrous and without a particle of meanness in his composition, he was a trusty and devoted friend, a pleasant acquaintance, and neither an unjust nor a bitter enemy to those whom he could not like. Realizing that human nature is weak, he carried with him a large mantle of that Christian charity which covers the faults of others; and he will be most kindly remembered by those who knew him best.

He was one of the earlier apprentices in the CHRONICLE office, and as journeyman, foreman, reporter and associate editor, was many years connected with this paper; and after his business relations with it were severed, up to within a year or two, he was a frequent contributor to its columns. About ten years since he purchased the Chronicle & Gazette job printing office, and conducted it until failing health compelled him to dispose of it about two years ago. He then took the travelling agency of a printing-press, but was shortly obliged to relinquish it, and from that time to the end of his life was in active business no more.

Mr. Gardner was a member of many societies, honorarry and beneficiary—the Freemasons, Odd Fellows, Knights of Pythias, Knights of Honor, and others; and was Past Eminent Commander of De Witt Clinton Commandry of Knights Templar. He was a charter member of the local tribe of the Improved Order of Red Men, and a member of the Mechanics' Association. He was an active and efficient worker in the Reform Club movement when it was first started here, but withdrew from the organization after a time on account of disapproval of the management, though he upheld the principles of the movement to the end of his life. He was a great lover of children, and easily won their confidence; was the prime mover in organizing the Portsmouth Society for the Prevention of Cruelty to Children, and was its first president, and we believe held that position at the time of his death.

He was much interested in educational affairs, and was for several years an active member of the Board of Instruction. He served several terms as a member of the Common Council, many years ago, but we are not aware that he ever held any other elective office.

Early in life he married Miss Clara Stackpole, who with one daughter survives him. Within a few years he lost three beautiful children, and the fond father never fully recovered from the terrible blow.

His funeral takes place on Friday afternoon at half-past one o'clock, from the Unitarian church, Rev. James DeNormandie officiating.

IMPROVED TIME.

The Concord & Portsmouth railroad trains are now run on the time of the 75th meridian, and all the clocks and watches on the line are set to that time, which is very nearly seventeen minutes behind the mean solar time at this city. Hope the new time will be adopted; just think how nice it will be to get up seventeen minutes later every morning.

POLICE COURT--BATCHELDER, J.

WEDNESDAY, Oct. 10th.

Margaret Haley, for drunkenness, was fined $3, costs $6.90. County farm in default of payment.

GOSSIPS SAY

That the Piscataqua river was so transparent on Tuesday of this week that the bed of the river at the second Newcastle bridge was plainly discernible at low tide through thirty-eight feet of water.

That the display of anemones adhering to the piles of the bridge was, in the language of a fair spectator, "bewilderingly beautiful."

That Frank Nault, spare conductor on the Concord & Portsmouth railroad, brought home on a recent evening, as result of one day's shooting, sixteen gray squirrels.

That the Portsmouth aqueduct has been a better paying investment on the money originally invested than any mining property in America.

That Mr. C. M. Gignoux will shortly change his apartments in National block for more commodious quarters in the same building.

That when Gammon the frescoer gets through with the decoration of these rooms, there will be none handsomer in New England.

That Harry W. French, in his illustrated lecture entitled "The wild New England coast," throws on the canvas some beautiful pictures of forts McClary and Constitution, the hotel Wentworth, views in Newcastle, and the archipelago of the Shoals.

That the can-can is not regarded as the "high art" of dancing, by a Portsmouth audience.

That while there are plenty of men willing to pay to see such a dance, they would rather it would be in a beer garden or "chain locker," where it was expected, than in a public entertainment to which they had taken their wives and daughters under the impression that nothing indelicate would be produced.

A GOOD TIME COMING.

The next great celebration to take place in Portsmouth will probably occur in 1886, the 150th anniversary of St. John's Lodge of Free and Accepted Masons. The best informed members of this lodge believe it to be the oldest in the United States; in it sat at various times Washington, McClary, Stark and a host of other worthies; and the lodge was held twice, it is supposed, on board the frigate "America" while she was lying in this harbor under command of Capt. John Paul Jones. As there is ample time to make preparations, it is proposed that this shall be the most magnificent celebration ever held here, and masonic delegations will be invited from the whole country. Facts are being collected in regard to the history of the lodge, which will be published in due time.

The former United States storeship Guard, recently sold by the government after having been moored for several years in "rotten row" at the navy yard, was on Wednesday of this week towed from the yard to this side of the river by the tug Clara Batemen, and moored at the wharf in the rear of the Eldredge Brewing Co.'s office. It is said she is to be razeed and put in seaworthy condition, by Mr. Daniel Littlefield.

Mr. Alexander L. Rand will again operate the old north mill the coming winter, running two sets of stones, and will grind oats, barley, wheat and rye, as well as Indian corn. This will be a great convenience to farmers, who have had to take corn and grain to Greenland to have it ground since the north mill shut down, and will be of some advantage to the city, by inducing the farmers to come here. The mill will be ready for grinding in a few days.

The long evenings are approaching, and persons in want of a good lamp to read or sew by will find a great variety to choose from at M. M. Collis' 99-cent store, Market street, where also is kept a large assortment of crockery and glass ware, cutlery, plated goods, toys, etc.

The principal part of the brick fleet sailed from Portsmouth for Boston in the forenoon, yesterday.

The schooner Mary Willey, Williams master, sailed for the eastward on the 10th inst., after having discharged a cargo of 50,000 feet of lumber and 500,000 shingles for John H. Broughton.

The Free Baptist church at Newmarket, having been remodelled, enlarged, frescoed and otherwise improved, at an expense of over $2000, was rededicated on Sunday afternoon, the 7th inst. The pastor, Rev. Mr. Jefferson, preached a sermon from the text, "The glory of this latter house shall be greater than of the former." Prayer was offered by Rev. Mr. Woodward, pastor of the Methodist church; and Rev. Isaac C. White, pastor of the Congregational church, read the Scriptures and offered the dedicatory prayer. The church was filled to its utmost capacity, and the services were deeply interesting and impressive.

A brick addition is being built to the rear of Mr. L. E. Staples' dry good store on Market street, the extension being made necessary by the rapidly increasing dimensions of his business.

W. H. Russell, former principal of the high school in Nantucket, Mass., has been appointed principal of Hampton academy.

Monday forenoon of this week the city marshal of Dover made a search of the Piscataqua house at Dover point, kept by Horace W. Hill, and seized jugs of whiskey, rum and gin, several bottles of liquor, and tumblers and other implements of sale. On Tuesday Hill was held in $200 for his appearance before the supreme court in February, to answer to a charge of selling liquor. He was also fined $15 and costs, the total being about $24, for assaulting a man named Josiah Burleigh, who worked for him. The evidence in this case was to the effect that Hill and Burleigh on the previous Saturday night attended a husking at Aaron Pinkham's, at Dover point, where they drank from four to eight glasses of liquor each, and when they got home Hill knocked Burleigh down and kicked him, and then locked him in the cellar, from which he broke out in the morning. Hill denied the assault, and swore that Burleigh's hurts were caused by his being so drunk when he left Pinkham's husking that he fell out of the wagon several times. Hill appealed, and gave bonds in $100 to appear.

Mr. Gardner J. Greenleaf has to-day turned out of his carriage and blacksmith shop, near the post-office, a very neat and substantial new farm wagon for Mr. Charles Main of the firm of Main & Winchester. Its weight with all its attachments is 1760 pounds. It is built in the most faithful manner, and of the best materials, and will no doubt prove a strong and serviceable one.—*Times.*

—"You told me, Arthur, that your doctor advised you to drink whiskey. Has it done you any good?" "Well, I should say so. I got a keg of it two weeks ago and I could hardly lift it; and now I can carry it about the room."

—A Newport physician whom everybody supposed to be almost a pauper, left $400,000 behind him when he died the other day. You have no idea how much money a doctor makes until you have occasion to hire one some time.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOYE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt their manhood should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE, OR, SELF-PRESERVATION.** Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

23th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—(Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

THE

New Hampshire GAZETTE!

Established 1756.

THE GAZETTE IS PUBLISHED EVERY THURSDAY AND SENT TO SUBSCRIBERS AT THE LOW PRICE OF $1.50 PER YEAR, PAID IN ADVANCE, OR $2 AT THE END OF THE YEAR.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires at their native city, and it

CONTAINS MORE ORIGINAL MATTER THAN ANY OTHER PAPER OF ITS SIZE IN THE STATE. THE EDITORS WORKING MORE WITH THEIR PENS THAN WITH THEIR SCISSORS.

I have known much of the manufacture and use of Swift's Specific. There are men in this community, well known citizens, who were victims in their early life, and who have taken S. S S., and are now, to all appearances, and in their own belief, as free from taint of disease as the first man, fresh from his Maker. Delicacy forbids their public recommendations, but I am allowed to refer the skeptic privately to those who endorse everything that can be said in its favor. Being professionally much opposed to endorsing secret remedies, it is with hesitation I attach my name to this article; but I know whereof I speak when I say that our science has not yet made public a combination equal to S. S. S. for the purpose indicated. T. L. Massenburg, Ph. G., Macon, Ga.

In The Sleeping Car From Chicago.

A lady sat with her only child;
The poor little fellow was almost wild.
He was making a noise like a circus band,
For a horrible felon was on his hand.

A quiet old man remarked to the mother:
"I think we can stop this pain and bother.
I've a bottle of Pain Killer here," said he,
"And I think it will cure him; let us see."

He poured some drops on a moistened rag,
And wrapped the felon, as if in a bag,
And soon the suffering child was calm
As the voice of a summer evening psalm.

At Fayetteville, Ark., two United States deputy marshals had a pistol fight over a game of cards, and both were killed.

Don't complain but use St., Jacobs Oil and be cured of pain.

The triennial meeting of the national council of Congregational churches of the United States commenced in the South church at Concord at eleven o'clock in the forenoon on the 11th inst.

Rev. J. S. Cain, Lewisville, Ind., says; "I used Brown's Iron Bitters for nervous prostration and found it entirely satisfactory."

The name of the unknown man who attempted suicide at Cape Elizabeth, Me., on the 7th inst., by cutting his throat, was Hatch. He was from Wells.

G. O. Taylor Old Bourbon has had its purity verified and excellence certified recently by Dr. H. L. Bowker, state assayer of Massachusetts. Druggists and grocers sell it.

A Brahma missionary to England gives this description of John Bright: "John eats his breakfast like a lion, and digests it too, but he doesn't drink. He is a broad, middle-sized man, with great soft hands and an enormous appetite. I have seen him finish off the plentiful morning meal with half a jug of milk and a good lump of sugar, which he puts into his mouth somewhat surreptitiously."

Mercurial Rheumatism made me a cripple. After taxing the Springs two years, and the Mercury and Potash treatment until I was a skeleton and unable to do anything, I was prevailed upon to take a course of S. S. S. After taking three bottles my appetite began to improve, and I gained flesh rapidly. When I had taken twelve bottles I felt as well as I ever did. It is now twelve months since I took S. S. S. My health and appetite are good, and I am able to attend to all the business I can get.

The Elections.

The returns from the Ohio and Iowa elections, which came in so slowly that up to the evening of the 10th inst. there was no certainty as to how the voting had resulted, it turns out came in quite fast enough for republican satisfaction, the democrats having carried Ohio again, though by a reduced majority from last year. The republican state committee on the morning of the 11th conceded the election of Hoadley, democrat, for governor, by a majority of 10,000 or 15,000, and a good working majority for the democrats in the legislature, insuring the return of a democrat to the United States senate to succeed Pendleton.

In Iowa the republicans elected Sherman, republican, for governor, by 15,000 to 20,000 majority, and have a legislative majority of from twenty-five to forty on joint ballot.

New Hampshire Odd Fellows.

The thirty-ninth annual grand encampment of New Hampshire opened in Normal hall, Plymouth, Oct. 9th, Grand Patriarch William H. Plummer presiding. Sixteen new members were admitted. The report of the grand patriarch reed as follows: Number of encampments, twenty-two; number of members June 30, 1883, 2,418; net gain during the proceding year, six; patriarchs relieved, 235; number of weeks' sickness, 2,044; increase of sickness, 608; paid for relief, $1,820.52; funeral benefits, $205; other charities $43; total, $2,068.52; gross receipts, $6,458.89; total cash and investments June 30, 1883, $1,515.01.

The following officers were elected and installed: John Gillis, Manchester, G. P.; C. A. Downs, Lebanon, H. P.; W. W. Cotton, Portsmouth, S. W.; H. Hill, Manchester, J. W.; Joseph Kidder, Manchester, G. S.; L. K. Peacock, Concord, G. T.; J. H. Albion, Henniker, grand representative for two years. Grand representatives S. C. Gould and J. E. Colcord made a full report of the legislation at recent sessions. Various reports were made and considered both at the afternoon and evening sessions. Secret work was exemplified before closing. About 100 persons were present.

The Grand lodge I. O. O. F. of New Hampshire opened at Plymouth on the 10th inst., Grand Master John Odlin of Exeter in the chair. Fifty-one new members were admitted. The grand secretary, Joseph Kidder, read his annual report. There are now sixty-eight subordinate lodges in the jurisdiction; increase of members the past year, 461; total number of members, 8,605; total relief, $2,613; cash and investments, $214,859; total weeks' sickness, 7,582. Rebekah degree lodges, fourteen; membership, 1,795; receipts, $1,529; total assets, $3,893.

In the evening the following officers were elected and installed: G. M., H. A. Brown of Concord; D. G. M., Lewis Malvern of Laconia; G. W., C. A. Jewell of Plymouth; G. S., Joseph Kidder of Manchester; G. T., L. C. Fernald of Salmon Falls; G. C., M. M. Burbank of Franklin; G. M., W. O. Folsom of Henniker; grand representative, two years, L. F. McKinney of Manchester. Grand Representative G. A. Robie made a complete report of the last session of the sovereign grand lodge. There are sixty-eight lodges in the state, of which all were represented but three. Over 200 persons were present. The usual reports were acted upon.

Benjamin Tallman, "the father of trap fishing in New England waters," and a well-known character, died at his residence in Portsmouth, R. I., Oct. 9th, aged seventy-five years. He was a prominent Freemason and Odd Fellow.

Nathan F. Hart, in the Maine state prison under a life sentence for the murder of Sarah E. Meservey at St. George in 1877, died Oct. 9th. He maintained his innocence of the crime to the last.

The depot building at White Rock, Me., including the post office and a store, was burned Oct. 10th. Loss $2000.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. [illegible] cod1ans3,8i.

For seven years Allen's Brain Food has stood the strongest tests as to its merits in curing Nervousness, Nervous Debility and restoring lost powers to the enfeebled Generative System, and, in no instance, has it ever failed; test it. $1; 6 for $5.—At druggists.

Prevent sickness by taking occasionally one of **Emory's Little Cathartic Pills**, a wonderful appetizer, an absolute cure of Biliousness.—15 cents.

NEW ADVERTISEMENTS.

TO THE READERS OF THE CHRONICLE.

The extraordinary statements of Mr. B. F. Larrabee, Rev. E. D. Hopkins, Dr. Dio Lewis, Dr. R. A. Gunn, Seth Green and other prominent men that have appeared in these columns in the past, have not only attracted much attention but awakened doubts in the minds of some as to their genuineness. They were, however, correct in every particular as the following local statements amply confirm:

PORTSMOUTH, N. H.—For twenty-four years I was conductor on the Northern New Hampshire Railroad, and there contracted kidney and liver disease, resulting in non-retention of urine. I was often compelled to arise in the night five or ten times to void urine and my back pained me greatly. After taking a few bottles of Warner's SAFE CURE I felt like a new man, as my urinary organs performed their natural functions.
[Signed] GEORGE F. BEAN, 27 Cabot St.

PORTSMOUTH, N. H.—I have taken 7 bottles of Warner's SAFE CURE for sciatic rheumatism and kidney complaint. When I first began taking Warner's SAFE CURE I could, with difficulty, raise my right leg. I could not lie on either side in bed, but had to lie flat on my back. I can now lie on either side and can walk without limping. I consider Warner's SAFE CURE an unsurpassed remedy, and am willing everyone should know what it has done for me.
[Signed] N. P. BRYANT, 13 Hanover St.

POLICE COURT--BATCHELDER, J.

THURSDAY, Oct. 11th.

Artemesia Barney, usually called Artie "for short," with an occasional change of her last name for variety's sake, was fined $5, costs $6.90, on a complaint for drunkenness. Brentwood in default of payment. Shortly after being locked up in the station house on the previous evening she hung herself to the bars of a window-grating, but the police interfered with this performance, and spoiled the experiment by cutting her down.

John Foley, for drunkenness, was fined $3, costs $6.90. Brentwood.

MUNICIPAL AFFAIRS.

In Board of Mayor and Aldermen, Thursday evening, Oct. 11th, Mayor Treat in the chair.

Present the full board, except Ald. Hackett.

The records of the last meeting were read and approved.

City marshal's quarterly report was received and referred.

Communication was received from Dr. J. W. Parsons relative to a petition sent in to the late board, in regard to the widening of sidewalk on Chestnut street adjoining his premises. Referred to the com. on streets.

Bills from the several departments of the city, amounting to $2135.80, approved by the com. on accounts, were ordered paid.

Bill of George A. Trafton, $6.60, for blacksmith work, was ordered paid. Also Stephen T. Raitt's bill of $5; and bill of Peter W. Neal, $6, for whitewashing.

Bill of Dr. D. W. Jones, $2, for services to a person injured at Eastern railroad station, on call by police, was referred to com. on claims.

Bill of Hett Brothers, $25, for work done at ruins of Vaughan street fire by direction of health committee, was referred to com. on claims.

Bill of $86.25 for extra police service was ordered paid.

James W. Goodwin's bill, $29, for refreshments furnished fire department at Vaughan street fire, was ordered paid. Also bill of same, $7.50, for refreshments furnished police.

Bill of H. R. Stoddard, $75, for damages done to a carriage by its being run into by a city team, was referred to com. on claims.

Ald. Anderson, Martin and Sampson were appointed a special committee on north pond.

Authority was voted to purchase a safe for use of the treasurer, at a cost of $150.

Room formerly occupied by city treasurer was granted to the board of inspectors of checklists, except when otherwise required by the city government.

Adjourned for two weeks.

THE EUREKA POOL ROOMS.

The pool tournament at the Eureka pool rooms, No. 31 Congress street, up stairs, closed Wednesday evening of this week, when Mr. Fred Green of this city and Mr. Markham of Providence, R. I., played off a tie to decide who should receive the prize, a choice box of cigars, they each having a record of thirteen balls. The best two games in three were to decide, and Green won in two straight games.

The player who shall pocket the largest number of balls in any one game on this board between now and Thanksgiving will receive a fine combination pocket book of large size, the ownership to be decided Thanksgiving night. A lunch-case has been added to the fittings of the rooms, containing lambs' tongues, cakes, tarts and other light articles of food for the refreshment of hungry players or spectators. The popularity of the rooms as a place of amusement free from objectionable accessories is fully maintained.

GET OUT OF THE WAY.

A despatch of the 10th inst., from Washington, is as follows:

The United States steamer Pinta, on her recent trial cruise from Portsmouth to New York, collided with an unknown brig, and damaged her to such an extent that she had to be abandoned. No particulars are given.

The brig Tally-Ho, of Machias, Me., was sunk off Nantucket shoals by an unknown steamer about the time the Pinta was on her way from this port to New York. The captain and crew of the brig were landed in Boston by a schooner, and reported having been fourteen hours in their boat after abandoning the brig, before being picked up. If the Pinta was the steamer which sank the Tally-Ho, it might not be impertinent to enquire why, if the steamer's officers knew at the time of the collision that the brig was so badly damaged as to compel her abandonment, no aid was rendered to the distressed crew.

About eight o'clock Saturday evening, the 6th inst., the United States steamer Myrtle, lighthouse tender, ran down the sloop Lottie off Cape Cod, and sent her to the bottom. There were four persons on board the sloop, who were rescued and taken to Boston by the steamer.

ROCKINGHAM CHRISTIAN CONFERENCE.

The 51st annual session of the Rockingham Christian Conference was held with the 1st Christian Church at Kittery Point, Maine, commencing Tuesday, October 9th. The report from the churches was good, showing an increase of interest and strength. The annual sermon by Rev. N. Day of Newton, Tuesday evening, was to young men, and the church was largely filled with that class of hearers. The text was: "The Glory of a Young Man is his Strength." The business of the conference was promptly attended to, allowing much time for social and religious worship. Rev. D. P. Pike of Newburyport preached Wednesday evening. The officers elected were as follows:—President, Rev. C. P. Smith of Wolfeboro; Vice President, Rev. Joel Wilson of Kittery; Secretary, Rev. John A. Goss of Portsmouth.

WHAT RUINED THEM?

One of the three gray horses owned by the city was sold Wednesday, to J. L. O. Coleman, for something less than a hundred dollars. The other two will be killed, although Mr. Coleman offered to buy them. Horse flesh is a pretty expensive luxury for the city.—*Times, 11th inst.*

How the pair of splendid-looking gray horses purchased by the city three or four years ago at a price rising $1100, if we remember aright, should be so used up in the short time since their purchase as to be now worthless, is a mystery; it cannot be old age that is the matter, for neither of them is over ten years old yet.

GOSSIPS SAY

That the south millpond smelled worse than Limburger cheese one evening this week.

That tough as the story may seem, it is nevertheless true.

That when the United States navy goes to sea, it is time for merchant vessels to make for the nearest shelter port, or get behind a fence somewhere.

That a freight brakeman on the Concord & Portsmouth railroad a few days since shot a woodchuck from the train while it was in motion, just above Raymond, and the train was stopped to enable the gunner to secure his game.

That Mr. George A. Jackson, living at No. 5 Dearborn street, Christian Shore, lost 150 fish from his fresh-water aquarium between the 6th and 10th insts., through having them killed by bad water.

That the new street commissioner keeps a sharp lookout after the Aqueduct Co.'s workmen, when they are digging up the streets to examine logs or pipes.

That the aqueduct gangs will hereafter be required to leave the streets in as good a condition at the end of their labors, as they found them in when they commenced.

That the captain of the brig James Miller, lying at Sise's wharf on the 10th inst., being unable to procure stone as ballast purchased forty tons of coal to give stability to his vessel.

THE MINSTREL SHOW.

At Music hall, this evening, Baird's Mammoth Minstrels will give the first minstrel entertainment of the season. If Baird has not got a first-class company with him this year, it is the first time; and if there are any objectionable features in his show, it is a change from previous years. He will have a large audience.

The U. S. S. Alliance, Comdr. Allen V. Reed commanding, arrived at the navy yard on Thursday morning from Portland. Lieut. George R. Durand, formerly attached to the yard, is executive officer of the Alliance.

The acts and resolves passed by the New Hampshire legislature at the session of 1883 have been published in a supplement to the NEW HAMPSHIRE GAZETTE of Thursday, Oct. 11th. The paper is on sale at Moses Brothers' news depot, and at this office.

An important auction sale is advertised to take place on Saturday forenoon, when Mr. H. F. Wendell will sell, in front of his store on Congress street, several valuable horses, carriages, etc. Those in want of any of these will do well to attend the sale.

The tug boat L. A. Belknap, of Portland, was lying alongside the schooner Emerson Rokes, of Rockland, Me., at the Concord railroad wharf on Thursday, ready to tow her to Portland. All the colliers at the north end were discharged on Thursday, and ready to proceed to sea.

It is reported that Capt. Edward D. Coffin, of the Portsmouth cavalry, has resigned the position, on account of its interference with his business. In consequence there may be other vacancies occurring in the list of the company's officers.

The schooner J. Whitehouse, which went on Hicks' rocks in the lower harbor during a blow some time ago, came off on the 10th inst.

Moses Smith, the Boston & Maine railroad engineer who jumped from the locomotive Andover during the collision near Lowell, Mass., on the 8th inst., leaving the engine to "run wild" into the station, has been discharged from his position. He was doubly culpable in backing down on the track when he should have known that the passenger train was due, and also for reversing the engine and leaving it to run its course without an attendant.

Mr. James C. Ricker, of Limerick, has been commissioned by the governor of Maine as one of the special officers to enforce the anti-cruelty law passed by the legislature last winter. The badges for the anti-cruelty officers have been received at the state house; they are circular, an inch and a quarter in diameter, and made of solid silver, the design being the Maine coat of arms with the words "Prevention of cruelty" above and "Act of 1883" beneath.

A fire in the picker room of the Laconia company at Biddeford, on the morning of the 10th inst., caused a loss of $500 to $800.

DAMON LODGE, NO. 9, K. OF P. FUNERAL NOTICE.

BROS.—You are requested to meet at Pythian hall, one o'clock Friday afternoon, to attend the funeral of our late Brother C. W. Gardner. Dark clothes, white gloves. PER ORDER C. C.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quantity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

236th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either receive or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MEDICAL.

"I owe my Restoration to Health and Beauty to the CUTICURA REMEDIES."
Testimonial of a Boston Lady.

DISFIGURING Humors, Humiliating Erup tions, Painful Itching, Burning, Scaly Scrofula, Rheum, and Infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the cause.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from CUTICURA, is indispensable in treating Skin Diseases, Baby Humors, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison whatsoever.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA RESOLVENT internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat and usually considered incurable; small patches of tetter and salt rheum on the ears, nose and sides of the face.

Scald Heads with loss of hair without number, heads covered with dandruff and scaly eruptions, especially of children and infants, many of which since birth had been a mass of scabs;

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed as by magic;

Psoriasis, leprosy, and other frightful forms of skin diseases, scrofulous ulcers, old sores, and discharging wounds, each and all of which have been speedily, permanently and economically cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by a vast number of sworn testimonials in our possession, which we will cheerfully mail to any address.

Sold everywhere. Price: CUTICURA, 50 cents. RESOLVENT, $1.00. Prepared by the POTTER DRUG AND CHEMICAL CO., Boston, Mass.
Send for "How to Cure Skin Diseases."

BEAUTY For Rough, Chapped and Greasy Skin, Black Heads, Pimples and Skin Blemishes use CUTICURA SOAP.

A Pair of Brutes.

Dennis Delaney of Biddeford, Me., and Denny Cannon of Dover, fought a prize fight in a pasture at Farmington, near the Milton line, at daylight on the 11th inst., which was witnessed by about 200 persons who paid $2 each to see the brutal exhibition. Forty-nine rounds were fought, in an hour and forty minutes, when the fight was ended by a shout that the police were coming; both combatants were severely battered. Ted Timony, formerly of Biddeford, was Delaney's second, and John Scanlon of Dover was Cannon's.

The man to succeeds nowaday is the live man, who is up to the times; and no better evidence of this is needed than the fact that every go-ahead housekeeper is never without Dr. Bull's Cough Syrup.

—"I am the power behind the throne," soliloquized the mule, as he pitched his rider heels over head to the ground.

—The woollen and worsted industry in Germany employs about 200,000 persons, that of England and Ireland over 300,000, and that of the United States about 160,000.

Much distress and sickness attributed to dyspepsia and chronic diarrhœa is occasioned by humor in the stomach. Hood's Sarsaparilla is the remedy.

—A printer out west, whose house is half a mile from any other building, and who hangs his sign on the limb of a tree, advertises for an apprentice. He says, "A boy from the country would be preferred."

"Dr. Benson's Celery and Chamomile Pills cured my wife immediately of *severe neuralgia.*" H. M. Cocklin, Shepherdtown, Pa. 50 cts., at druggists.

—"Don't forget to purchase a return ticket when you go on your vacation. It may come handy to get back with.

Mr. Josiah Morse, Henniker, N. H., says: "I received much benefit by using Brown's Iron Bitters for general debility."

—Adam is said to be the only man who never tantalized his wife about "the way his mother used to cook."

LONE JACK, Mo., Sept. 14, 1879.

I have been using Hop Bitters, and have received great benefit from them for liver complaints and malarial fever. They are superior to all other medicines.

"I had a horse hopelessly lame with ringbone," says S. F. Robinson, 150 Blackstone st., Waltham, Mass., "Ellis' Spavin Cure has cured him."

—"Why don't you ask a blessing?" said the boarding-house keeper to the boarder. He looked all over the table, and gloomily answered: "I'd like to know what for!"

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

—"Yes," said Mr. Barbour, "I've had an awful time of it over my marriage to Miss Russ. All the papers in the country seemed to feel incumbent on them to refer to it as a barbarous affair. I'm not sure that journalism isn't a curse to the country."

A Brush Well Applied

and previously moistened with Sozodont removes the defacing evidences of neglect from the teeth, and tightens them in their sockets. If the breath has a repellent smell, the article substitutes for that, its own pleasant aroma. Shrunken and inflamed gums are restored to health by its use, and canker of the mouth cured. System in the use of this fine antiseptic, as of other promoters of health, is highly desirable. Apply nothing but the genuine.

PROPOSALS FOR PURCHASE OF VESSELS.

NAVY DEPARTMENT,
WASHINGTON, *August 15, 1883.*

In accordance with the provisions of the 5th section of the act of Congress making appropriations to supply deficiencies approved March 3, 1883, sealed proposals will be received at the Navy Department until noon on Tuesday, November 20, 1883, at which time and place they will be opened, for the purchase of certain vessels at the Navy Yard, Mare Island, California, which have been stricken from the Navy Register, under authority of an act of Congress approved March 5, 1883, and which it is deemed for the best interests of the United States to sell.

The vessels offered and their appraised value are, the Monadnock, (old), $11,300; Alaska, $18,300; Benecia, $17,600; Tuscarora, $9,900; Narragansett, $6,900; Nyack, $4,900, and Saco, $5,600.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel should be included within one proposal.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations, offering the highest price therefor above the appraised value thereof. Each bid or proposal must be accompanied by a deposit in cash (or satisfactory certificate check) of not less than ten per cent of the amount of the offer or proposal, and also a bond with a penal sum equal to the whole amount of the offer, with two or more sureties, to be approved by the Secretary of the Navy, conditioned for the payment of the remaining ninety per cent of the amount of such offer of proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining ninety per cent, or any part thereof within that time, said cash deposit of ten per cent shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

On application to the Department, a printed list will be furnished, giving general information concerning the vessels; also forms of bids and bonds, which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Mare Island Yard.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department.
ED. T. NICHOLS,
Acting Secretary of the Navy.

Rev. Father Wilds' EXPERIENCE.

The Rev. Z. P. Wilds, well-known city missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts Supreme Court, writes as follows:

"*78 E. 54th St., New York, May* 16, 1882.

MESSRS. J. C. AYER & Co., Gentlemen:

Last winter I was troubled with a most uncomfortable itching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely bear any clothing over them. I was also a sufferer from a severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of AYER'S SARSAPARILLA, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After a short time the fever and itching were allayed, and all signs of irritation of the skin disappeared. My catarrh and cough were also cured by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred per cent stronger, and I attribute these results to the use of the SARSAPARILLA, which I recommend with all confidence as the best blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good.

Yours respectfully, Z. P. WILDS."

The above instance is but one of the many constantly coming to our notice, which prove the perfect adaptability of AYER'S SARSAPARILLA to the cure of all diseases arising from impure or impoverished blood, and a weakened vitality.

Ayer's Sarsaparilla

cleanses, enriches, and strengthens the blood, stimulates the action of the stomach and bowels, and thereby enables the system to resist and overcome the attacks of all *Scrofulous Diseases, Eruptions of the Skin, Rheumatism, Catarrh, General Debility,* and all disorders resulting from poor or corrupted blood and a low state of the system.

What will Brown's Iron Bitters cure? It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism and all similar diseases. Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation and by building up the system, drives out all disease. For the peculiar troubles to which ladies are subject it is invaluable. It is the only preparation of iron that does not color the teeth or cause headache.

191 WEST TENTH STREET, NEW YORK, August 11, 1880.

MESSRS. SEABURY & JOHNSON,

Gentlemen:—Like most of my profession, I am cautious about planing my faith to any new medicine or curative agent. But your BENSON'S CAPCINE POROUS PLASTER has broken through the barriers and won its way to my good opinion. My attention was first called to it some eight months ago by a patient of mine. Although I was well acquainted with the superior excellence of your other plaster and anti-septic dressing, made especially for the profession, the Benson's was comparatively new to me. I had heard, however, of its merits as a remedy, in cases of Lame Back, Local Rheumatism, Neuralgia, Congestion of the Bronchial Tubes and Lungs, Dyspepsia, Torpid Liver and like affections, and have since begun to experiment with it personally. I find BENSON'S CAPCINE PLASTER an exceptionally cleanly plaster to use, and rapid in its action.

Many tests of its qualities, made in my own family and among my patients, have convinced me that there is no other single article so valuable for popular use, nor so helpful in the diseases I have named.

Should you desire to do so, you may use my name to that effect. Very truly yours,

H. H. KANE, A. M., M. D.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complaints; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the distressing derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fulness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster-General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, T. M. Wescout, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to State National Bank, S. H. Kennedy, President	125,100

Paid to Germania National Bank, Julius Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Palfrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	13,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$2,253,650
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,627,410
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

The poor little fellow was almost wild.
He was making a noise like a circus band,
For a horrible felon was on his hand.

A quiet old man remarked to the mother:
"I think we can stop this pain and bother.
I've a bottle of Pain Killer here," said he,
"And I think it will cure him; let us see."

He poured some drops on a moistened rag,
And wrapped the felon, as if in a bag,
And soon the suffering child was calm

Judge W. H. H. Allen, referee in the case of George M. Wooster vs. the town of Plymouth, an action for damages on account of injuries received in consequence of an alleged defective highway, has awarded the plaintiff $500 and costs. This was on the third trial of the case.

Tempora Mutantur.

One of the most important conventions of railroad men ever held in this country convened in Chicago Oct. 11th, its object being to effect a radical change of the time-standard throughout the country; and present appearances indicate that the movement will succeed. The intention is to do away with the present unsatisfactory method of running the various railway systems of the country by as many local standards of time, and to substitute for it a uniform standard, the benefit of which is clearly obvious.

The continent is, under the proposed plan, to be divided into five broad belts, running north and south, the time for each of which is to be an hour slower than that of the next division to the eastward, and one hour faster than that of the next division to the westward. By this plan the minute hand of the traveller's watch will never have to be changed, however far or in whatever direction he travels. His watch will be just one hour slow when he crosses the imaginary line into the next division to the west. The managers of railroads having an aggregate mileage of 80,000 have already signified their willingness to adopt this standard, and it is very probable that every line in the country will very soon use it.

It is not only to be used by the railroad companies, but promises to become the general standard for public use. Prof. E. C. Pickering, who is in charge of the time service at the Harvard observatory, has announced that he is in favor of the system suggested, and will furnish the telegraphic signals conforming to the minute and second of the proposed standards. The fire commissioners of Boston have prepared a letter to be sent to Prof. Pickering, in which they say that they consider the time furnished by the Harvard observatory as the standard time for Boston, and that if the time be changed by the observatory the change will be accepted by the commission, and that they will have the meridian bells struck and the city clocks, in schools, etc., set to correspond. The adoption of the same standard in New York and other cities within this time-division will probably soon follow. The Western union telegraph company in New York has already asked the naval observatory to drop the time-ball by the new standard, and if the principal cities thus adopt it, the smaller cities and towns will speedily conform to the new rule.

George D. Prescott of Boston, committed for larceny for two months, escaped from jail in Portland, Me., last Thursday afternoon. He managed to get on his own suit of clothes, and sauntering to the engine room told the engineer that he was a runner who had been up to sell stock to the superintendent of the workshop. The engineer let him out, and nothing has been seen of him since.

Hon. W. J. Hines of Chicago has received a cablegram from A. M. Sullivan, member of the British parliament, saying that O'Donnell, the slayer of Carey, is an American citizen, and that his trial will not take place until American counsel has had time to reach England.

Jack McCabe, an escaped convict from the Kingston, Ont., penitentiary, was on the night of Oct. 10th shot dead by Constable Rankin, who attempted to effect his arrest. McCabe drew a revolver, but the policeman was prepared for him, and fired first.

At Oshkosh, Wisconsin, Oct. 10th, as Mr. Trougert, section boss on the Milwaukee & St. Paul road, was riding on a hand-car, with his wife and baby, his daughter-in-law, her husband and child, the hat of the elder Mrs. Trougert blew off, and in attempting to grasp it her baby slipped out of her hands in front of the car. The child was caught in the wheels, and instantly killed; the car was thrown from the track, and hurled some distance. Both women and the other child were fatally hurt.

Mr. Guy, solicitor for O'Donnell, the murderer of Carey, says that he has received only £300 so far for the defence of his client, which has been spent in bringing witnesses from the Cape of Good Hope. O'Donnell has interviews with Mr. Guy. He complains of the severity of the prison rules. It is stated that proof of O'Donnell's American citizenship have been given.

Brussels has forbidden the management of theatres to introduce fire or explosives in scenes without permission of the authorities, and then only under prescribed conditions. When firearms are used, the firing shall not be in the direction of the spectators.

—A young lady entered one of our music stores yesterday, and, tripping lightly up to the handsome clerk, pertly asked, "Have you 'Happy Dreams?'" She was nonplussed when he replied, "No, ma'am; I'm nearly pestered to death with mosquitoes."

A Queer Story.

A dispatch to Reuter's Telegram company, London, from St. Petersburg, says that a dispatch from Vladivastock announces that the steamer Kamtschatka arrived there Oct. 10th. She reports that eleven trading schooners, whose nationalty is unknown, after driving off the American guard ship Leone, belonging to the Alaska Commercial company and stationed at the island of Tjulentij, landed sixty armed men, including some Japanese, and took possession of the island. The Leone immediately proceded to Korssakowaky, a station on the island of Saghallen, and demanded assistance. Owing to the small number of the garrison stationed there, no assistance was available. When the Kamtschatka passed Tjulentji, her captain saw eight schooners lying off the island. The war ship "Pinta," U. S. N., is evidently needed up that way.

Manchester, Eng., runs its own gas works. Last year the city's profits from the sale of gas were $500,000, and after paying from them the interest on loans and the cost of lighting the city streets there was $150,000 left, which was turned in toward the cost of public improvements.

On the night of the 9th inst., while fourteen members of a threshing crew at Northruff's farm, eight miles from Moorehead, Minn., were asleep in the lower story of the granary, the upper floor gave way under the pressure of 1400 bushels of oats, burying the men below. The latter were soon taken out, but four of them were dead, and two others were badly injured.

MEDICAL.

If it were possible

to get the testimony of the multitude who have used HOOD'S SARSAPARILLA for debility, languor, lassitude, and that general feeling of stupidity, weariness and exhaustion which every one feels during this season, we should be able to present to our readers such an overwhelming mass of commendatory messages, that the few who have not tried it would do so at once. It is a positive fact, and has been so effectually demonstrated that no one to-day denies it, that Hood's Sarsaparilla contains more real medicinal value than any article before the people.

What a Man Did with Kidney Complaint

DRACUT, MASS.
MESSRS. C. I. HOOD & CO., Lowell, Mass.:
Dear Sirs—I have suffered from kidney complaint and biliousness for fifteen years. Have tried everything and never got any good. Last January, before I commenced taking HOOD'S SARSAPARILLA, everything I ate bloated me all up, pain in my chest and arms, headache and dizzy. I could not get up without feeling weary and all fagged out. Many mornings I was obliged to lie down on the lounge. To do any work seemed almost impossible. Have taken two bottles. The backache, dizziness, pain in my chest and arms, and that feeling of intense weariness are all gone. I can eat anything and it does not press me at all. Feel just like work; in fact, like a new man. Can heartily recommend HOOD'S SARSAPARILLA, and hope all who desire to know anything about it will come to me and ask what I think of it. Very truly yours,
JONATHAN J. COBURN.

MR. GARDNER'S FUNERAL.

The funeral of the late Charles W. Gardner, in the Unitarian church Friday afternoon, was attended by a large number of persons, including most of the public school teachers, many members of the press, DeWitt Clinton Commandry of Knights Templar, Osgood Lodge of Odd Fellows, Damon Lodge, Knights of Pythias, a delegation from St. Andrew's Lodge of Freemasons, Newichewannock Tribe of Red Men, and many prominent citizens. Rev. James DeNormandie, of Boston Highlands, officiated, the singing being by a quartette choir. At the close of the distinctively religious services, the beautiful ceremonial of the Knights Templar was given by DeWitt Clinton Commandry, and was followed by the Odd Fellows' service conducted by Osgood Lodge, the whole being fittingly solemn and impressive. The four brothers of the deceased were the bearers. The floral tokens of regard were numerous and beautiful, but among them all the most touching tribute was an exquisite floral lyre, the gift of the children of the Manning and Haven schools, who contributed in dimes and nickels and pennies quite a goodly sum to procure this mark of their appreciation of one who, loving them, had won largely of their love. The body was interred in Harmony Grove cemetery.

LETTER TO THE BOARD OF ALDERMEN.

[From the Portsmouth *Times*.]

The following, presented at the previous meeting of the city government, which, according to the *Chronicle*, is an "erratic communication of a simpleton, (though not) consigned to the waste basket," we publish by request of the outside public.

PORTSMOUTH, OCT. 2, 1883.

To the Hon. Mayor and Aldermen of the City of Portsmouth:—I notice a request for the removal of Mr. Priest's sign. Perhaps this has a significance to my mind different from that to other people, who I must acknowledge to be very sincere in their efforts on account of temperance, although I must differ as to the importance of a more comprehensive view—for instance, I believe that all evil drinks are *only* evil, that the profits from them gathered into our coffers, in the end eat like a "canker worm," and burn with a "fire unquenchable." Nevertheless rum and beer have a plea of real necessity, and just as long as mankind pervert grain by the flouring mills and use too sparingly of coarse grain, this necessity will remain. But for the cure. It will not do for people who approve of iced soda water; who at religious fairs incite people to eat and drink, not for the glory of God but to swell the funds! And then *cold* ice cream!! (detrimental to temperance as I believe lager to be; I consider it far less harmful). I say it will avail but little for such persons "to put their hands to steady the ark."

To the church of the living God mankind have a right to look for the right method of subduing this worse than petroleum fire which rages over our land, and until the church shall bring forward the right weapons and ammunition, I do not know but that it is just as well for such "signs" to remain with all their obnoxious features as a rebuke to the ignorance and imbecility of the church.

This attack upon Mr. Priest's sign looks to me to be irritating rather than healing, or like adding fuel to a raging conflagration, for we all know that even water thrown upon an oil fire has the effect to spread and make more destructive. It cannot be denied that there is much in the show of the countenances and in the ways and manners of many of our young people, to incite the inquiry if the world must be abandoned to its destruction? I rather believe that it is waiting for the right word to get currency and the right measures to be adopted for a better race of mankind to appear than that which now peoples some parts at least of the Globe. As in duty in duty bound, &c.

F. H. CHARITY.

CIRCUIT COURT--LOWELL J.

The grand jury reported, on Thursday, six indictments vs. John S. Gamble, for fraudlently obtaining money by representing that he was entitled to a pension.

R. J. P. Goodwin was called, and defaulted.

On Friday the case New Hampshire Land Co. vs. Tilton was assigned for trial Nov. 20th.

Albert S. Waite of Newport, Chas. H. Burns of Wilton, and Elbert C. Stevens and Albert S. Batchellor of Littleton, were severally admitted to practice in this court.

Cases Frieburg v. Prescott and Goff vs. Prescott were postponed to Nov. 20th, on account of the absence of the plaintiff's counsel.

In case Mercantile Trust Co. vs. Portland & Ogdensburg railroad, the defts. were allowed ninety days in which to take their testimony after the complainants had completed their evidence.

Baird's Mammoth Minstrels had a good audience, Friday evening, and gave an excellent variety entertainment.

A millinery opening is advertised to take place in the former Ten Cents savings bank building, Market street, Tuesday and Wednesday of next week.

Says the Portsmouth *Journal*: "Mrs. Eunice H. Goodwin, widow of the late Capt. James W. Goodwin, a former well-known pilot at this port, died at her home on Charles street on Thursday afternoon, at the ripe age of eighty-two years. Mrs. Goodwin will be remembered as Eunice Hoyt, who in the palmy days of the old Spring market was a constant attendant there, and who was familiarly known for forty years, as 'queen of the market.' She leaves two sons."

The residence of Theodore Weare, Jr., at York, was burglarized Tuesday night, the 9th inst., and about $240 stolen. On Wednesday night the house of A. B. Littlefield, at Ogunquit, was entered through a kitchen window, and $50 or more stolen.

The barque Harvard, commanded by Capt. Pray of this city, arrived at Boston on Friday from Iloilo with a cargo of sugar; on the passage she lost overboard a Scotch seaman named John Adams, and lost and split several sails. J. W. Pray of this city, and J. E. Barnard of Franklin, are passengers by the Harvard.

F. W. Swett, principal of a grammar school at Ware, Mass., has been appointed principal of the Walker grammar school in this city.

Capt. Hodgdon, of the schooner Spartan, which has just finished discharging a cargo of coal at the Concord railroad wharf, returned to this city on Thursday from a visit to his friends in New Haven. The captain has made so many trips to this port that he is looked upon as almost a Portsmouth man, and he has at times given some good jobs to Portsmouth mechanics.

Col. James S. Peirce of this city, late landlord of the Imperial hotel at Washington, D. C., who since relinquishing that position has been sojourning in this city, where he has been perfecting his invention of an artificial stone, will shortly leave for Panama to open a new hotel.

The product of the Rockingham county farm this season comprises 2,500 bushels of potatoes, 300 of corn, 500 of oats, and 100 tons of hay, while many vegetables have been grown. A large number of cows are kept, and 180 swine.

Hampton academy opened on Sept. 18th, under very flattering prospects, with W. H. Russell, A. B., of Boston, as teacher. He proves to be a man of rare culture, combined with a dignity of bearing and a gentlemanly courtesy of manner which cannot fail of commanding the respect of those under his charge, while his care and painstaking for their rapid advance in their studies has already won their love and esteem.

The real estate of the late John J. Leavitt of Hampton was sold at public auction on the 11th inst. There were many bidders for the property, and the different lots sold at prices very satisfactory to the heirs. The homestead was bought by Mr. Lee, of the publishing house of Lee & Shepard, of Boston.

A young man giving the name of Charles Emery, and calling himself a sailor, recently applied to A. E. Chick of South Newmarket for lodgings, on a Saturday evening, and was hospitably entertained by Mr. Chick until Monday morning, when he departed, leaving his blessing, and taking away with him $60 in money, a silver watch and a five-barrelled revolver belonging to his benefactor. This probably "lets out" all tramps who may hereafter apply to Mr. Chick for aid.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE, OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

236th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25, by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE, OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can solve much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MEDICAL.

"I owe my Restoration to Health and Beauty to the CUTICURA REMEDIES." Testimonial of a Boston Lady.

DISFIGURING Humors, Humiliating Eruptions, Itching Tortures, Scrofula, Salt Rheum, and Infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the cause.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and Scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from CUTICURA, is indispensable in treating Skin Diseases, Baby Humors, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison whatsoever.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA REMEDIES internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat and usually considered incurable; small patches of tetter and salt rheum on the ears, nose and sides of the face.

Scald Heads with loss of hair without number, heads covered with dandruff and scaly eruptions, especially of children and infants, many of which since birth had been a mass of scabs;

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed as by magic;

Psoriasis, leprosy, and other frightful forms of skin diseases, scrofulous ulcers, old sores, and discharging wounds, each and all of which have been specially, permanently and scientifically cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by a vast number of sworn testimonials in our possession, which we will cheerfully mail to any address.

Sold everywhere. Price: CUTICURA, 50 cents. RESOLVENT, $1. SOAP, 35 cents. POTTER DRUG AND CHEMICAL CO., Boston, Mass.

An Old Soldier's

EXPERIENCE.

"Calvert, Texas,
May 3, 1882.

"I wish to express my appreciation of the valuable qualities of

Ayer's Cherry Pectoral

as a cough remedy.

"While with Churchill's army, just before the battle of Vicksburg, I contracted a severe **cold**, which terminated in a dangerous **cough**. I found no relief till on our march we came to a country store, where, on asking for some remedy, I was urged to try AYER'S CHERRY PECTORAL.

"I did so, and was rapidly cured. Since then I have kept the PECTORAL constantly by me, for family use, and I have found it to be an invaluable remedy for **throat and lung diseases**. J. W. WHITLEY."

Thousands of testimonials certify to the prompt cure of all **bronchial and lung affections**, by the use of AYER'S CHERRY PECTORAL. Being very palatable, the youngest children take it readily.

PREPARED BY

The latest freak in the way of masquerades, is a costume that is intended to represent an oyster. What next? Why the future masqueraders will have a bottle of Dr. Bull's Cough Syrup moving among them.

Paulina S. Hartman, aged nine years, died in Cincinnati Oct. 8th from hydrophobia caused by the bite of a black-and-tan dog.

A peculiar virtue in Ayer's Sarsaparilla is that while it cleanses and purges the blood from all corruptions and impurities, and thereby roots out disease, it builds up and invigorates the whole system, and makes one young again.

In Virginia, a few days ago, three men were killed in a fight which arose from the pulling of a dog's tail.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

One of the two negro thieves who murdered Policeman Stroot of Huntsville, Ala., was hung by a mob. His confederate is still at large.

Hood's Sarsaparilla is made of roots, herbs, and barks. It gives tone to the stomach and makes the weak strong. Sold by druggists.

A well-dressed woman, aged about twenty-one years and wearing diamonds, entered a stable in New York, engaged a fast horse and valuable buggy for a drive, and has not since been heard from.

Don't Despair.

If you are weak and weary from some so-called chronic disease, don't give up. Sulphur Bitters has given hope to many invalids, where hitherto there was nothing but despair. It will build up and renew your whole system.—*Editor Weekly American.*

Father Besing, a Catholic priest, was killed at Lancaster, N. Y., Oct. 10th, by an excursion train.

"Dr. Benson's Celery and Chamomile Pills cured my wife immediately of *severe neuralgia*." H. M. Cocklin, Shepherdtown, Pa. 50 cts., at druggists.

George Brereton, a boy twelve years of age, is supposed to have been kidnapped in New York, and taken on board a vessel bound for China.

Mr. Josiah Morse, Henniker, N. H., says: "I received much benefit by using Brown's Iron Bitters for general debility."

At Lancaster, Pa., Oct. 10th, a carpenter fell between the rafters of a new building, and his head being caught, was strangled to death.

LONE JACK, Mo., Sept. 14, 1879.
I have been using Hop Bitters, and have received great benefit from them for liver complaints and malarial fever. They are superior to all other medicines.
P. M. BARNES.

Stephen Moore, third earl of Mount Cashel, is dead at the age of ninety-two years. He never was heard of, by most people, until a few days ago, when it was announced that he was to marry a girl of nineteen.

"I had a horse hopelessly lame with ringbone," says S. F. Robinson, 150 Blackstone st., Waltham, Mass., "Ellis' Spavin Cure has cured him."

The treasurer of the Cape Cod Ship Canal company has deposited with the state treasurer of Massachusetts $200,000 in United States bonds, which is the amount of the guarantee required by the terms of the company's charter as a pledge of good faith.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. A cure, no pay. For sale by Andrew P. Preston, Druggist.

Four men and a woman have been arrested at Stillwater, Minn., for stealing a trunk belonging to Secretary Teller from the Villard excursion train. The trunk contained some $12,000 worth of jewelry.

A Brush Well Applied

and previously moistened with Sozodont removes the defacing evidences of neglect from the teeth, and tightens them in their sockets. If the breath has a repellent smell, the article substitutes for that, its own pleasant aroma. Shrunken and inflamed gums are restored to health by its use, and canker of the mouth cured. System in the use of this fine antiseptic, as of other promoters of health, is highly desirable. Apply nothing but the genuine.

Rev. Father Wilds' EXPERIENCE.

The Rev. Z. P. Wilds, well-known city missionary in New York, and brother of the late eminent Judge Wilds, of the Massachusetts Supreme Court, writes as follows:

"*78 E. 54th St., New York, May* 16, 1882.

MESSRS. J. C. AYER & CO., Gentlemen:

Last winter I was troubled with a most uncomfortable itching humor affecting more especially my limbs, which itched so intolerably at night, and burned so intensely, that I could scarcely bear any clothing over them. I was also a sufferer from a severe catarrh and catarrhal cough; my appetite was poor, and my system a good deal run down. Knowing the value of AYER'S SARSAPARILLA, by observation of many other cases, and from personal use in former years, I began taking it for the above-named disorders. My appetite improved almost from the first dose. After a short time the fever and itching were allayed, and all signs of irritation of the skin disappeared. My catarrh and cough were also cured by the same means, and my general health greatly improved, until it is now excellent. I feel a hundred per cent stronger, and I attribute these results to the use of the SARSAPARILLA, which I recommend with all confidence as the best blood medicine ever devised. I took it in small doses three times a day, and used, in all, less than two bottles. I place these facts at your service, hoping their publication may do good.

Yours respectfully, Z. P. WILDS."

The above instance is but one of the many constantly coming to our notice, which prove the perfect adaptability of AYER'S SARSAPARILLA to the cure of all diseases arising from impoverished blood, and a weakened vitality.

Ayer's Sarsaparilla

cleanses, enriches, and strengthens the blood, stimulates the action of the stomach and bowels, and thereby enables the system to resist and overcome the attacks of all *Scrofulous Diseases, Eruptions of the Skin, Rheumatism, Catarrh, General Debility*, and all disorders resulting from poor or corrupted blood and a low state of the system.

Why is it that the girl with the biggest feet always wants to play Cinderella? "We don't know;" but we do know that the best remedy for coughs and colds is the far-famed Dr. Bull's Cough Syrup.

Ellis Craft, one of the Ashland murderers, was baptized in the river at Grayson, Ky., last Thursday, by a minister of the Christian church. The utmost precautions were taken by the guards against lynchers.

Many forget that the hair and scalp need cleansing as well as the hands and feet. Extensive use of Ayer's Hair Vigor has proven that it is the best cleansing for the hair—that it prevents as well as removes dandruff, cools and soothes the scalp, and stimulates the hair to renewed growth and beauty.

Lorenzo Davis and another man, teamsters from Lyman, were robbed of $50 on Alfred street, Biddeford, last Friday night, by unknown thieves.

Herbert W. Eaton, the high-toned murderer of Calais, Me., has paid to the family of Kelly, the man he assassinated, and to the county, about $11,000 in all.

What will Brown's Iron Bitters cure? It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism and all similar diseases. Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation and by building up the system, drives out all disease. For the peculiar troubles to which ladies are subject it is invaluable. It is the only preparation of iron that does not color the teeth or cause headache.

Jack Radford was hanged at Tremont, Ohio, Oct. 12th, for the murder of his wife a year ago.

"I have used Ellis' Spavin Cure for thrush and stocked legs," says George R. Henderson, 268 Tremont avenue, Cambridge, Mass. "Its a perfect success." True.

Thomas L. Shields was hanged at Charlotte, N. C., Oct. 12th, for the murder of a mine superintendent in June last.

The first real skin cure ever discovered was Dr. Benson's Skin Cure. It cures all rough and scaly skin diseases and makes the skin smooth and healthy. It is an ornament to any lady's toilet.

William Johnson was hanged at Monticello, Ark., Oct. 12th, for the murder of Calvin William—both colored.

At Russellville, Ky., Oct. 10th, Dick Winlock, a white man, was killed in a drunken row with two negroes, who were hanged by a mob next day.

One voice all over the land goes up from mothers, that say, "My daughters are so feeble and sad, with no strength, all out of breath and life at the least exertion. What can we do for them?" The answer is simple and full of hope. One to four weeks' use of Hop Bitters will make them healthy, rosy, sprightly, and cheerful.

Ellis Craft, one of the three wretches who outraged and murdered two girls at Ashland, Ky., two years ago, and also murdered a little brother of one of the girls and then burned the house, was hanged Oct. 12th at Grayson, Ky., in presence of 2000 people.

To the readers of the Chronicle.

The extraordinary statements of Mr. B. F. Larrabee, Rev. E. D. Hopkins, Dr. Dio Lewis, Dr. R. A. Gunn, Seth Green and other prominent men that have appeared in these columns in the past, have not only attracted much attention but awakened doubts in the minds of some as to their genuineness. They were, however, correct in every particular as the following local statements amply confirm:

PORTSMOUTH, N. H.—For twenty-four years I was conductor on the Northern New Hampshire Railroad, and there contracted kidney and liver disease, resulting in non-retention of urine. I was often compelled to arise in the night five or ten times to void urine and my back pained me greatly. After taking a few bottles of Warner's SAFE CURE I felt like a new man, as my urinary organs performed their natural functions.

[Signed] GEORGE F. BEAN, 27 Cabot St.

PORTSMOUTH, N. H.—I have taken 7 bottles of Warner's SAFE CURE for sciatic rheumatism and kidney complaint. When I first began taking Warner's SAFE CURE I could, with difficulty, raise my right leg. I could not lie on either side in bed, but had to lie flat on my back. I can now lie on either side and can walk without limping. I consider Warner's SAFE CURE an unsurpassed remedy, and am willing everyone should know what it has done for me.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complaint; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate [for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and unjust:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, T. M. Wescout, Manager	$1,366,200
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to State National Bank, S. H. Kennedy, President	125,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Chararon, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Palfrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	14,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	3,200
Total paid as above	$2,253,550
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,627,410
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

The Breakfast Bell.

The breakfast bell salutes my ear:
Its cheerful tones ring loud and clear.
For me it used to sound in vain,
So great was my dyspeptic pain.
Pain Killer came to my relief
And banished my dyspeptic grief.
Pain Killer made me strong and well
And now I'm glad to hear the breakfast bell.

The Point Barrow Scientific Station.

Lieutenant Ray, who recently returned from Point Barrow, Arctic ocean, to San Francisco, on the schooner Leo, gives the following details of his sojourn in the north:

He left San Francisco, July 18th, 1881, under instructions to establish a station at Point Barrow and remain there until the summer of 1884, unless otherwise ordered. The order for the party to return this year created great surprise, as the work was being successfully carried out. They had accomplished all that portion respecting international work, corresponding with that of similar stations established by Russia, Sweden, Denmark and Austria. Details of the work will be made the subject of an official report.

Lieutenant Ray states that apart from the scientific importance of the station, it is a necessity as a refuge for the crews of whaling vessels. Every year in the Arctic ocean there are an average of forty vessels, with cargoes worth $4,000,000, and employing 1,000 men. Out of eighty-seven vessels, fifty had been lost within 100 miles of Point Barrow in one year alone. In 1877, twelve were lost with all on board; the crews would not abandon their vessels, knowing that there was nothing on shore. Had a station then existed it is probable that all of their lives would have been saved. Since the station was established two years ago, over fifty lives have been saved.

Lieutenant Ray states that all the party lived comfortably and enjoyed good health, the climate being particularly beneficial to those suffering from malaria. Besides their regular provisions the party had seal, walrus and white-whale meat, the last being best, as it was sweeter and more nutritious. The buildings they erected were left to the Indians. Lieutenant Ray expresses regret at his recall.

Information from other sources attributes the recall of the party to Secretary Lincoln, who wants to discourage Arctic explorations owing to the loss of life they have entailed; but Lieutenant Ray's statement goes to show that a station at Point Barrow would be the means of saving many lives.

The Mosquito at Close Quarters.

The *Forest and Stream* says; "Viewed through the microscope the mosquito presents a picture of mechanical ingenuity as marvellous in execution as it is devilish in design. In the bill alone, which seems so fragile to the unaided sight, there is a combination of five distinct surgical instruments. These are a lance, two meat saws and a suction pump. The fifth instrument I have forgotten, but labor under the impression that it is a portable Corliss engine to run the rest of the factory with. I know that the hum of the mosquitoes in the cottonwood thickets along the lower Mississippi reminded me constantly of the hum of a manufacturing village, and I have walked back several times looking for a town before I could could convince myself that the buzzing I heard was made by mosquitoes with their engines running to sharpen their saws. When the insects operate on a man, the lance is first pushed into the flesh, then the two saws, placed back to back, begin to work up and down to enlarge the hole. Then the pump is inserted, and the victim's blood is syphoned up into the reservoir carried behind, and finally, to complete the cruelty of the performance, the wretch drops a quantity of poison into the wound to keep it irritated."

An instant Remedy for Poisoning.

If a person swallows any poison whatever, or has fallen into convulsions from having overloaded his stomach, an instantaneous remedy is a heaping teaspoonful of common salt and as much ground mustard, stirred rapidly in a teacup of water, warm or cold, and swallowed instantly. It is scarcely down before it begins to come up, bringing with it the remaining contents of the stomach; lest there be any remnant of poison, however, let the white of an egg or a teacup of strong coffee be swallowed as soon as the stomach is quiet, because these very common articles nullify a large number of virulent poisons.

C. J. Dewey, the Englishman who came to Montreal from Liverpool and obtained $25,000 from Molson's Bank, and large sums from banking houses in Boston and other places, was arested in San Francisco on the 11th inst. on the steamer Coptic, just as that vessel had started for Hong Kong. It is believed there that the man arrested at San Antonio, Tex., is Dewey's brother, who was trying to put the detectives off the track. On purchasing his steamer ticket Dewey gave the name of Halpert.

A man who gave his name as Rev. Jas. Young of Philadelphia was arrested at London, Ont., Friday, for passing bogus checks on two city merchants. A number of other checks were found on his person in favor of Rev. F. Hughes and Rev. James Young, also three on the city bank of Minneapolis, in favor of Rev. James Young. He was remanded to jail.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eod(jan3,84.

The prominent moving spirit in the triennial convention of Congregational clergymen at Concord last week was Rev. Dr. Quint of Dover, who for several months past has combined politics with preaching. Some of the lawyers present in attendance upon court, and who had either as legislators or lobbyists watched the good doctor while as chairman of the committee on railroads he had endeavored to stand between the people and the encroachments of the railway power, and keep the lobby at bay, suggested that at the convention there would be a fine opportunity for him to report a bill for the incorporation of the "Celestial railroad," as the experience of the member from Dover might enable him to eliminate some of the defective features shown in Mr. Hawthorne's dreamy description, made thirty years ago when railroad commissioners were unknown, Colby bills unheard of, and the Southern Pacific scheme had not reached out to grasp on the immaculate members.

"Butler's Dutch Gap Canal," on the James river, made historically famous during the late war, is in a fair way at last to be converted to the use of commercial navigation. The canal cuts through the river at the widening base of a horseshoe bend, and if made practicable will save vessels several miles of travel. General Wright, chief of engineers, has issued proposals for widening and deepening the gap. The work is located fourteen and a half miles below Richmond, Va., and consists of widening and deepening the cut. The depth to be obtained is to be not less than nineteen feet at mean low tide.

Isaac Langa, recently sentenced in Burlington, Vt., to state prison for burning a portion of the Mary Fletcher hospital buildings, was taken to prison Friday by Sheriff Barton. When about two miles from Northfield he asked to go into the saloon, and was allowed to do so with handcuffs on. When inside he slipped the shackles, and jumped through a window with the train running about forty miles per hour, landed safely on his feet, and ran. Sheriff Barton stopped the train, and with a posse soon recaptured him. Langa seems nowise injured by his reckless jump.

The body of Charles R. Turner of St. Alban's, Vermont, an elderly man, who disappeared about two weeks ago, was found on the 12th inst. with the neck fastened into the fork of a tree near the ground, he having been dead some days. No doubt he committed suicide while temporarily insane.

HOOD'S SARSAPARILLA

Has "decided" claims upon the public. This is positively proven by the immense good it has done to those who have been cured of diseases from which they have suffered intensely for years, as verified by the published testimonials, every one of which is a positive fact.

CHELSEA, VT., Feb. 24, 1882.
Messrs. C. I. Hood & Co., Lowell, Mass.:
The 6th day of last June I was taken sick with a swelling on my right foot, and with an awful pain. The swelling went all over me. My face was swelled so that I could with difficulty see out of my eyes, and I broke out over the whole surface of my body; my right foot up to my knee was one raw, itching mass, and my ankle and foot so lame and sore I could not step on it, and it would run so as to wet a bandage through in an hour. In this condition Mr. W. F. Hood (of the firm of A. H. Hood & Son, druggists, of this town), handed me a bottle of HOOD'S SARSAPARILLA, and told me to take it. I did so, and by the time I had taken one bottle I found that it was doing me good. I have since taken five bottles more. After I had taken three bottles my soreness began to leave me, and I have been growing better every day, so that to-day I can walk without going lame. I have no soreness in my ankle and it has healed all up, and does not run at all. I owe my recovery to your Sarsaparilla. I write this to let you know that I think it deserves the confidence of the public, especially those who are troubled with humors.
Yours most truly,
JOSIAH PITKIN.

P. S. Every person that saw me said that I never would get over my lameness without having a running sore on my ankle; but thank God I have. J. P.

No other Sarsaparilla has such a sharpening effect upon the appetite. No other preparation tones and strengthens the digestive organs like HOOD'S SARSAPARILLA.

POLICE COURT--BATCHELDER, J.

SATURDAY, Oct. 13th.

Frank LaFlave, for an assault on Mary LaFlave, his wife, was sent to jail for twenty days, costs being taxed at $6.90.

CIRCUIT COURT--LOWELL J.

SATURDAY, Oct. 13th.

Horne vs. Boston & Maine railroad. The pliff. lives in Rockingham county, and brought his action to recover damages incurred at the station of the deft. at Lawrence, Mass. The action was entered in the Supreme court for Rockingham county. The defendant sought to remove it to the Circuit court. The motion was denied. The case was carried to the full bench on defendant's exceptions, and the state court has since decided, Judge Allen giving the opinion, that the action is not removable. On a motion made in this court by the pliff. to remand the action to the state court, Judge Lowell, after considering the brief of the counsel, holds that upon numerous authorities cited in the opinion filed, the action was not properly removable to this court, and grants the pliff.'s motion to remand to the state court. Marston & Eastman for pliff.; Copeland for deft.

Cases Dennis J. Lynch vs. two fire insurance companies, and Hutchinson vs. Centennial Life Ins. Co., have been continued.

Mr. H. F. Wendell on Saturday sold at auction, in front of his auction rooms on Congress street, the horses and carriages of Major George Butler, U. S. M. C., recently detached from command of the barracks at this navy yard. The span of black horses were knocked down to Mr. C. M. Gignoux for $265, and a colt to Mr. James R. Connell for $110. It was reported that the span were purchased on account of Ald. John W. Caswell.

The October term of the Supreme court begins in this city to-morrow.

A sermon delivered in the Congregational church at Kittery Point, by Rev. W. W. Dow, subject "The Evening of Life," has been published by request of many who heard it.

The Portland, Saco & Portsmouth railroad company have petitioned the county commissioners of York county for authority to reconstruct the railroad bridge at the foot of Great hill in North Berwick, so that the abutements of that bridge may be parallel; as the bridge is now constructed the span on one side is considerably longer than on the other. It will be remembered that the cause of the terrible accident at Cole's Corner in Wells, on the Boston & Maine railroad, a year ago last winter, was attributed to the faulty construction of the bridge, which was similar to that of the "red bridge," to alter which permission is asked. The commissioners have appointed November 12th, at two o'clock in the afternoon, as the time, and the bridge as the place, when and where they will give a hearing upon the petition.

The youngest stevedore at the north end is Joseph Hutton, who is only nineteen years old, but a young giant in form. He is said to be, in spite of his youth, one of the most skillful workmen in expediting business.

Saturday was the last day for the "Flying Yankee" train to run over the Maine Central railroad, for this season. It will run from Portland to Boston during the winter, on the Portland, Saco & Portsmouth and Eastern railroads.

Hon. Josiah Minot of Concord has been agreed upon as provisional trustee of the Concord railroad under the recent decision of the supreme court. It is understood that two directors of the road—one a director in the Northern road and the other a director in the Boston, Concord & Montreal road—will resign, and their places will be filled by two non-directors of those roads.

Mr. E. Sands has closed his management season for the Eastern railroad at the White mountains, and resumed his regular duties as travelling advertising agent for the Eastern road, with headquarters at Saco, Me.

NEW YORK, Oct. 12th.

Few people in a community no greater than Portsmouth achieve so much good as did Charles W. Gardner. He was foremost in benevolent works; ready, alert and enthusiastic in whatever he undertook. He cherished no animosities, and his life overflowed with generous deeds. His efforts to contribute to the happiness of his friends were untiring, and he was the genial spirit of many an association which will bear the impress of his former labors long after his work has ended. To say that he will be sadly missed is but a feeble expression, and many hearts will go out in deepest sympathy to the family bereft of a kind and most indulgent husband and father. G.

A petition is in the hands of the grand officers of the New Hampshire Odd Fellows, for the establishment of a Rebekah Degree lodge at Newmarket.

At Saco, on the evening of the 12th inst., Joseph Hobsen's storehouse on Hobson's wharf was burned by an incendiary fire, with three small yachts owned respectively by Dr. S. P. Graves, Mr. Underwood, and Littlefield & Cleaves. Loss about $1800; partial insurance.

Two cottages at Old Orchard, owned by Mrs. Isaac C. Bosworth, and one owned by Wm. R. Goodwin of Bethel, were burned about midnight on the night of the 11th inst. The larger Bosworth cottage was one of the finest at Old Orchard, and cost $5000; insured $2000. The other two were worth about $1000 each. George Hasty lost a horse valued at $250. Cause of the fire, a defective chimney.

"Peterson's Magazine" for November is already on our table, a splendid number, with a perfect galaxy of steel-engravings, colored fashion-plates, colored patterns for the work-table, tales, poetry, etc., etc. We do not see how any lady can get along without this charming monthly. With this number appears the prospectus for 1884. It promises better things than ever; and "Peterson" always keeps his promises. There will be nearly 1200 printed pages, not less than fourteen steel-engravings; twelve double-size colored steel fashion-plates; from 800 to 900 wood-cuts; six copyright novelets, one hundred smaller stories, etc., etc. In short, the magazine will continue to be, as heretofore, *the cheapest and best for ladies.* The terms are only two dollars a year. To clubs, it is cheaper still, viz: four copies for six dollars and a half, with an extra copy of the magazine, as a premium, to the person getting up the club. Or five copies for eight dollars, with both an extra copy of the magazine for getting up the club, and also a superb illustrated gift-book, "The Golden Gift," or a large-size steel-engraving, for framing, "Tired Out." No other magazine gives such premiums. For larger clubs, the price is still lower, while even more premiums are given. Subscribe to no magazine until you have seen a copy of "Peterson." Specimens are sent gratis, if written for, to persons wishing to get up clubs. Address either "Charles J. Peterson," or "Peterson's Magazine, 306 Chesnut street," Philadelphia, Pa.

The London *Truth* reports that the queen has issued a private memorandum enjoining the occupants of a certain royal palace to a correction of morals and reformation of manners. Recent events have brought to her knowledge the fact that in one of her palaces gambling is regularly going on to an almost incredible extent. Enormous sums are lost and won. The ardent players are wont to continue their amusement well into the mornings of Sundays.

There has been much comment over the fact that S. M. Waite, confined in the house of correction at Rutland, Vt., for his transactions in connection with the Brattleboro bank, has been allowed to appear in the village and at the railroad station without a keeper. Judge Wheeler, at the recent session of the United States court at Rutland, had Superintendent Eayres before him, and read him a sharp lecture upon the impropriety of such performances.

The Bangor, (Me.) *Commercial* says that a man who owns land that is overflowed by the waters of Pushaw river in the spring of the year has made out a bill against the state for the damage black bass and white perch have done him by eating the roots of the grass. He will present this bill to the legislature, he says, and claims it on the ground that so long as the fish are protected by law it is responsible for the damage they do.

A ripple of excitement was caused among fashionable people at Newport by the appearance of Freddie Gebhardt during the performance of the symphony orchestra at the Opera house, last Thursday night. He entered very late, accompanied by his sister, Mrs. Fred Neilson, attracting much attention, and being very rudely stared at. He will return to New York before the arrival of Mrs. Langtry.

During one of the days of the fair at Bradford, an attempt was made to abduct a little daughter of George W. S. Dow, of Henniker, and but for the efforts of the mother would have been successful.

Samuel Marston of Brentwood recently took a dose of liniment containing aconite and chloroform, by mistake for Jamaica ginger. An antidote prevented serious, if not fatal, results.

Stark Post, G. A. R., of Hopkinton, proposes to have a series of entertainments this fall and winter.

Frank Martin, of South Wentworth, has trapped two large bears within a fortnight.

—A Presbyterian meeting house in Minnesota became so infested with bedbugs that the congregation had to take a vacation while the sexton burned up the carpets, cushions and pulpit. This shows the evil effect of sleeping in church.

—It was at the close of the wedding breakfast. One of the guests arose, and, glass in hand, said, "I drink to the health of the bridegroom. May he see many days like this!" The intention was good, but the bride looked up as if something displeased her.

—"Are you a member of the church?" asked a Fulton street man of a friend who had been extolling, in glowing language, the eloquence of a certain pastor. "Not exactly," he replied, "but I am on such good terms with the deacons that the trustees now shake hands with me every time I attend services there."

—"What did you get out of that case?" asked the old lawyer. "I got my client out of it," replied the young one. "And what did he get out of it?" "Satisfaction, I reckon. I didn't leave anything else for him to get." "Young man," said the senior, proudly, "you'll never be a judge. There is not enough money on the bench for you."

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

THE SCIENCE OF LIFE

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, nervous and physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

238th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

MEDICAL.

"I owe my Restoration to Health and Beauty to the CUTICURA REMEDIES."

Testimonial of a Boston Lady.

DISFIGURING Humors, Humiliating Eruptions, Itching Tortures, Scrofula, Salt Rheum, and infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the cause.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from CUTICURA, is indispensable in treating Skin Diseases, Baby Humors, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison whatsoever.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA RESOLVENT internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat and usually considered incurable; small patches of tetter and salt rheum on the bars, nose and sides of the face.

Scald Heads with loss of hair without number, heads covered with dandruff and scaly eruptions, especially of children and infants, many of which since birth had been a mass of scabs;

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed as by magic;

Psoriasis, leprosy, and other frightful forms of skin diseases, scrofulous ulcers, old sores, and discharging wounds, each and all of which have been speedily, permanently and economically cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by a vast number of sworn testimonials in our possession, which we will cheerfully mail to any address.

Sold everywhere. Price: CUTICURA, 50 cents. RESOLVENT, $1. SOAP, 35 cents. POTTER DRUG AND CHEMICAL CO., Boston, Mass.

An Old Soldier's EXPERIENCE.

"Calvert, Texas, May 4, 1882.

"I wish to express my appreciation of the valuable qualities of

Ayer's Cherry Pectoral

as a cough remedy.

"While with Churchill's army, just before the battle of Vicksburg, I contracted a severe cold, which terminated in a dangerous cough. I found no relief till on coming to my home to a country store, where, on asking for some remedy, I was urged to try AYER'S CHERRY PECTORAL.

"I did so, and was rapidly cured. Since then I have kept the PECTORAL constantly by me, for family use, and I have found it to be an invaluable remedy for throat and lung diseases.

J. W. WRITLEY."

Thousands of testimonials certify to the prompt cure of all bronchial and lung affections, by the use of AYER'S CHERRY PECTORAL. Being very palatable, the youngest children take it readily.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists.

Pay Director G. E. Thornton has been detached as pay agent at Boston, and ordered to settle accounts and wait orders.

Oscar Wilde's new book, "Impressions of America," will be eagerly read by all who assisted to make the poet's trip so decidedly pleasant. His impression of Dr. Bull's Cough Syrup is a matter of little consequence, as the public have already pronounced it the remed for coughs and colds par excellence.

Passed Assistant Engineer J. F. Bingham is detached from the Ranger, and placed on sick leave.

A peculiar virtue in Ayer's Sarsaparilla is that while it cleanses and purges the blood from all corruptions and impurities, and thereby roots out disease, it builds up and invigorates the whole system, and makes one young again.

Surgeon Thomas Hiland has been granted leave of absence for one year, with permission to go abroad.

That Husband of Mine

Is three times the man he was before he began using "Wells' Health Renewer." $1. Druggists.

Lieutenant J. B. Collins has been ordered to the Tennessee.

Hood's Sarsaparilla is made of roots, herbs, and barks. It gives tone to the stomach and makes the weak strong. Sold by druggists.

Captain Henry Wilson has reported his return home, having been detached from command of the Lackawanna, and has been placed on waiting orders.

Don't Despair.

If you are weak and weary from some so-called chronic disease, don't give up. Sulphur Bitters has given hope to many invalids, where hitherto there was nothing but despair. It will build up and renew your whole system.—*Editor Weekly American.*

Lieutenant F. S. Carter has been ordered to the New Hampshire.

"Dr. Benson's Celery and Chamomile Pills cured my wife immediately of *severe neuralgia.*" H. M. Cocklin, Shepherdtown, Pa. 50 cts., at druggists.

Pay Director C. W. Abbott is ordered as pay agent at Boston.

Mr. Josiah Morse, Henniker, N. H., says: "I received much benefit by using Brown's Iron Bitters for general debility."

Captain John H. Russell has been ordered to the command of the navy yard at Mare island, Cal., Nov. 1st, by which time he will have been promoted to the grade of commodore.

LONE JACK, Mo., Sept. 14, 1879.

I have been using Hop Bitters, and have received great benefit from them for liver complaints and malarial fever. They are superior to all other medicines.
P. M. BARNES.

Lieut. Charles O. Allibone has been ordered to duty at the Portsmouth navy yard.

"I had a horse hopelessly lame with ringbone," says S. F. Robinson, 150 Blackstone st., Waltham, Mass., "Ellis' Spavin Cure has cured him."

Lieutenants Perry Garst, E. M. Hughes and William E. Whitfield, Surgeon W. J. Simon, Passed Assistant Surgeon M. H. Crawford, Paymaster E. Bellows, Chief Engineer A. H. Able, Passed Assistant Engineers Ralph Aston and H. E. Frick, and Assistant Engineers C. E. Manning and William L. Cathcart, are ordered to the Shenandoah at Boston on the 1st of November.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Pay Director Thomas H. Looker has been ordered to duty at the navy pay office, Washington, D. C., vice Pay Inspector Richard Washington, who has been detached and placed on waiting orders.

A Brush Well Applied

and previously moisted with Sozodont removes the defacing evidences of neglect from the teeth, and tightens them in their sockets. If the breath has a repellent smell, the article substitutes for that, its own pleasant aroma. Shrunken and inflamed gums are restored to health by its use, and canker of the mouth cured. System in the use of this fine antiseptic, as of other promoters of health, is highly desirable. Apply nothing but the genuine.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

Rev. Thomas Chickering Williams, late pastor of the Unitarian church at Winchester, Mass., will be installed as Dr. Bellows' successor in New York this week.

What will Brown's Iron Bitters cure? It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism and all similar diseases. Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease. For the peculiar troubles to which ladies are subject it is invaluable. It is the only preparation of iron that does not color the teeth or cause headache.

The New Hampshire State Teachers' Association will hold its annual meeting at Concord, Oct. 26th and 27th. Among the topics to be considered and discussed at the this session are, United States history; Methods in Geography; the Ranking System; the Greek question; and the Needs of our Schools. Reduced rates on railroads and at the Concord hotels will be given to teachers and others attending the meeting.

The Head and Eye.

Since last October I have suffered from accute inflammation in my nose and head—often in the night having to get up and inhale salt and water for relief. My eye has been twice, for a week at a time, so I could not see. I have used no end of remedies, also employed a doctor, who said it was impure blood—but I got no help. I used Ely's Cream Balm on the recommendation of a friend. I was faithless, but in a few days was cured. My nose now, and also my eye, is well. It is wonderful how quick it helped me. Mrs. GEORGE S. JUDSON, Hartford, Conn.

It is not a liquid or snuff, and is easily applied. Only 50 cents a package.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which more business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, L. M. Wescott, Manager	$1,366,306
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,000
Paid to State National Bank, S. H. Kennedy, President	125,700
Paid to New Orleans National Bank, A. Baldwin, President	86,550
Paid to Union National Bank, S. Charlaron, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Palmer, President	37,000
Paid to Canal Bank, Ed. Toby, Cashier	13,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$2,253,356
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,027,410
Total paid by all	$4,281,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

The Breakfast Bell.

The breakfast bell salutes my ear:
Its cheerful tones ring loud and clear.
For me it used to sound in vain,
So great was my dyspeptic pain.
Pain Killer came to my relief
And banished my dyspeptic grief.
Pain Killer made me strong and well
And now I'm glad to hear the breakfast bell.

D. K. Foster has resigned the principalship of the Pittsfield high school, and Forest L. Keay of Rochester is his successor.

Mr. Josiah Morse, HENNIKER, N. H., says: "I received much benefit by using Brown's Iron bitters for general debility."

A driver of a stage at Jefferson flourished his whip so that the lash caught in the hair of a young lady and threw her to the ground, dragging her some distance.

The Rockingham County Temperance Association will hold the next session at the Methodist Episcopal church in Epping on Nov. 15th, and the programme promises to be one of unusual interest. "Early temperance training" and "The law of love demands for us total abstinence," will be among the subjects discussed.

The address to the graduating class of Dartmouth medical college, delivered by Dr. D. W. Jones of this city, senior delegate from the New Hampshire Medical society, has been reprinted in pamphlet form from the transactions of the society. It contains much good advice, some of it as applicable to others as to the young graduates.

The schooner Chilion is discharging a large cargo of lumber and shingles at Messrs. Thomas E. Call & Son's wharf, inside the Noble's island bridge. By the way, one of the largest draugh-thorses in this city is owned by this firm, and weighs fourteen hundred and eighty-two pounds. He shows good keeping under the supervision of Mr. Cornelius Quinn, who last year was the most ponderous member of the democratic committee of ward one, himself tipping the scales at two hundred and forty-two pounds. Mr. Quinn expresses himself now as being disgusted with politics, and prefers to look after the interests of the equine race.

The schooner "Hannah D.," which was picked up off Boon island, derelict, and towed into this port by the schooner Storm King, in the early part of this month, was stripped of her sails and rigging by fishermen of Ogunquit, Me. They saw the vessel off the beach, evidently in serious trouble, with another schooner lying-to not far off, the latter soon keeping away on her course, having taken off the crew of the disabled vessel, it was supposed. The fishermen pulled in their small boats to the abandoned schooner, and afterward procuring from a wharf in Ogunquit the fishing schooner "Fanny T.," stripped the wreck of her sails and rigging, and everything else they could handily reach, and took it all ashore.

Moses Wells, seventy years old, was run over by a freight car in the Maine Central railroad yard in Augusta, Me., Saturday, and one leg was crushed below the knee. He died shortly afterward.

Daniel Soule of Waterville, Me., formerly an engineer on the Eastern road, but who for the past year has suffered intensely from sickness, committed suicide by shooting himself at the home of his parents on Saturday.

Much has been said, and with a great deal of reason, in regard to the obstruction caused by the shifting of freight trains at the Vaughan street crossing. The citizens are exceedingly annoyed, and there appears to be no remedy; gates have been ordered by the courts to be erected there, yet there is not a gate; and when the railroads can defy the courts in the matter of gates ordered to be put up, they can of course with equal impunity defy the law against the obstruction of highways. But it must be admitted that the railroad officials have selected a most suitable flagman for the Vaughan street crossing, in the person of Mr. Moses Laighton, who makes himself especially agreeable to the travelling public.
PEDESTRIAN.

In regard to the statement that Harry Watson's feat of making five successive trips to Portsmouth and return in a gondola in five days was never beaten, Mr. John Brackett informs us that he thinks he beat that record a good many years ago. With a crew of only two men besides himself he loaded a gondola with wood, carried it to Newcastle, returned to Portsmouth and loaded with coal for Newmarket, and unloaded the coal by hand at the wharves here, all this work being done without the aid of steam in any way. Mr. Brackett says he made five round trips like the above in six days, and if anyone can beat this record, he is ready to hear from them.—*Newmarket Advertiser.*

C. A. Hooper, of Eliot, took the first premium for Jersey cows at the York county fair in Biddeford last week.

The Biddeford *Journal* says of a man at Ogunquit, "Not long ago he was smart enough to marry his father's widow, and recently he dug over a hundred bushels of potatoes in one day."

Mr. William P. Titcomb, superintendent of the York town farm, who was badly injured not long ago by the breaking down of Sewall's bridge while he was driving an ox-team across it, is improving.

Samuel Littlefield of Wells has been married three times, and has been the father of twenty-one children.

Edward Bradley and Joseph Canniff, each aged twenty-two years, were killed Oct. 13th while attempting to jump on a train near Scranton, Pa. Bradley was fearfully mangled, and died instantly. Canniff was unconscious when found, and died soon after. Thursday night the two men knocked down and robbed a railroad man of $44 and a watch, and it is supposed that in trying to elude the officers they attempted to jump on the train when happily both were killed.

Mr. Edwin G. Walker, the colored lawyer of the Charlestown, Mass., district, Gov. Butler's nominee for the vacant judgeship, has brought a suit for libel against the Boston *Post*. The cause of grievance was the publication in the *Post* of an alleged court record in the case of the arrest of Mr. Edwin G. Walker for drunkenness and disturbing the peace and of other statements which Mr. Walker considers reflect upon his character and injure his reputation.

Dennis Sullivan, while driving a wagon heavily loaded, in Ashland, Mass., Saturday night, felt the wheels run over something, and at the same time heard the word "Oh." He ran back and found a man lying in the road evidently dying. He took the man into the station house, where he soon died. His name was James Doyle, of Boston, wher che has a wife and child.

A despatch of Oct. 14th from Grand Junction, Col., says: A year ago the wife of H. A. Herrick, a well-to-do ranchman of this county, left him. Herrick afterward obtained a divorce, and married Margaret Thompson. Mrs. Herrick No. 1 returned a short time ago, and meeting Herrick and his wife, shot and instantly killed the woman. The murderess was admitted to bail, and commenced proceedings to recover some of Herrick's property. Yesterday afternoon, while the sheriff and Mrs. Herrick were at the ranche looking up cattle, Herrick shot and killed Mrs. Herrick, and then gave himself up to the sheriff.

A London despatch says the queen is providing a large dowry for her granddaughter, Princess Victoria of Hesse, who is about to marry Prince Louis of Battenburg, who has no fortune. She gives them rooms at Kensington palace. She has also appointed Louis captain of the royal yacht Victoria Albert, which is a sinecure. The radical members will protest in parliament against the appointment, as a scandalous waste of public money.

BRIGHTON CATTLE MARKET.

For week ending Tuesday, Oct. 9, 1883.

[Reported for the Boston Journal.]

Amount of stock at market—Cattle 997; Sheep and Lambs 6920; swine 16,947; Veals 65; Horses 60; number of Western Cattle 997.

Prices of Beef Cattle ℔ 100 lbs, live weight—Extra quality $6 50 @7 00; first quality $6 00 @ 6 37½; second quality $5 37½ @5 87½; third quality $4 50 @ 5 25; poorest grades coarse oxen, bulls, etc. $3 00 @ 4 00.

Brighton hides 7½c ℔ lb.
Brighton tallow 7c ℔ lb.
Country hides, heavy ones, 7c ℔ lb; light ones, 6c ℔ lb.
Country tallow 4 @ 4½c ℔ lb.
Calf skins 31c ℔ lb.
Lamb skins 70 @ $1 each.
Sheep skins 50 @ 75c each.

The supply of cattle in market from the west has been light the past week, most of which were intended for the butchers' trade, only a few being taken for the export trade. Cattle came higher at the west than those which were in market one week since. The trade for them has been very dull and prices realized no better than those obtained for the same grades one week since, ranging, in most instances, from $5 25 @ $6 75 ℔ 100 lbs, live weight.

Western sheep and lambs were taken direct from the cars to the slaughtered. Sheep costing from 5½ @ 6c, lambs 6 @ 6½c ℔ lb, live weight. Those from Canada were all consigned at a commission, none being offered on the market for sale.

Swine—Western fat hogs are costing the same as they have been costing for several weeks past, prices ranging from 5½ @ 5¾c ℔ lb, live weight.

The fishing schooner M. O. Andrews, of Georgetown, Me., sailed from Jonesport Aug. 26th, and arrived at La Have bank Aug. 29th. Not having since been heard from, she is supposed to have gone down with all hands in the hurricane which swept the banks Aug. 29th and 30th. She carried a crew of seven men, six of whom were unmarried, the other leaving a wife and five children.

The steam saw mill owned by the Medford (Mass.,) Lumber Co., situated at the base of Mount Monadnock, was totally destroyed by fire Saturday morning; loss about $6000; no insurance. The fire was probably caused by sparks from the chimney. This enterprise was started last May. The mill will not be rebuilt.

Capt. Robert Beckwith, a veteran of the war of 1812, died at the residence of his son in Norwich, Conn., Oct. 14th, aged ninety years. He enlisted in the navy in 1812, and was captured by the British and confined in Halifax jail eighteen months, until the close of the war.

George C. Richards, a prominent Boston fish-dealer, who camps upon the shores of Essex river every year in gunning season, is missing. He left camp on Tuesday morning, the 9th inst., to go gunning at the head of Ipswich bay, and and has not been heard from since. It is feared that he was capsized on Ipswich bar and drowned.

The occasion of Queen Victoria's recent interdict against excessive card playing in the royal palaces was her learning that during the residence of the Duke of Teck at Kensington palace this season, the games were often continued all night, on Sunday and other days. Enormous sums were frequently lost.

POLICE COURT--BATCHELDER, J.

MONDAY, Oct. 15th.

Curtis Merriman, for drunkenness, was assessed $9.90, fine and costs, and will work it out at the county farm.

GOSSIPS SAY

That thermometers indicated a heat of eighty-four degrees in the shade in some portions of the city, just previous to the shower on Sunday last.

That Miss Carrie Gilmore, a little damsel of fourteen summers, gave an exhibition of fancy roller-skating, the best ever seen in Franklin hall, on Thursday evening of last week.

That the north grist mill was running on Monday afternoon, the first time for many months.

That the mill will not be in operation long, as the mayor has given orders that the gates be taken off November 1st, so that the pond may be flooded and drawn off at every tide.

That the help at the Portsmouth Shoe factory were not paid off last Saturday, as is the custom, the clerk at the Boston office having mailed the check without prepaying pastage, causing the post-office officials to hold on to the needful until the regulations were complied with.

That the matter was straightened out and the help paid off on Monday.

That Mr. E. A. Tilton, the music teacher who gave up his large class two years ago to engage in other business, has been strongly urged by many citizens to re-open his school of music and cultivation of the voice.

That the Dover *Enquirer* makes ten "guesses" about an opera house which that city has not, and is not likely to get in a hurry.

That Portsmouth has two, and can afford to loan the up-river village one.

That Exeter has a student who boards himself at a cost of fourteen cents a day.

That that boy, if he lives long enough, will one day be heard of as a capitalist.

That the pair of gray horses which the city authorities decided to kill were purchased by the city for $600, instead of $1100 as reported.

That the refusal of the city to sell these horses, with the not unlikely contingency of their being abused after having rendered such faithful service to the city, is praiseworthy.

That an extension of twenty-five feet is to be made on the rear of E. S. Fay's clothing house, work for which commenced on Saturday last.

That when completed the doctor will have the largest salesroom in his line of business of any store in the state.

That the "cotton house" on the Kearsarge mill lot is a bonded warehouse no longer, the wool, fourteen loads, having been removed from it last Sunday.

That the alteration of the building into a foundry will immediately commence, an extension of fifty feet on the western end, and a new roof on the old part being among the improvements to be made.

That an enterprising pedler last week purchased two bars of Welcome soap from a North street grocery store, cut them into eight pieces each, nicely wrapped them in scented tissue paper, and sold them to the confiding housewives of Christian shore as the "Eureka cleansing soap," price ten cents a package.

That the pedler's stock in trade, not including tissue paper and check, cost fourteen cents, and his recipts were one dollar and sixty cents.

"DRAPER & TAILOR."

Visitors to our ancient city frequently notice over a store door on Market square a sign bearing the words "William P. Walker, Draper & Tailor." The present generation hardly remembers the word draper, although it is a word that years ago adorned many a sign throughout this vicinity, and means a dealer in cloths. With the advent of ready-made clothing, the old style of purchasing cloth, having it cut by a tailor and then taken home and made, has passed away. Still the draper will furnish you cloth, although he is a tailor; and, after selling you the cloth, may cut, trim, and manufacture it for you under his personal supervision in a neat and tasty manner. The sublime feeling of being well-dressed can only come to those parties for whom garments are made to order, for no one can feel well-dressed in a suit that he knows might have been worn by a hundred others, as well as by himself. The ready-made-clothing manufacturers usually cut their clothing upon the plan that a large man is of necessity tall, and that a long-legged individual is naturally large waisted, and their goods are cut accordingly. Mr. Walker manufactures garments to order, and he will give you perfect fits on coat, vest and pantaloons, and without giving you fits on your wallet. For thirty-five years he has fitted the fathers and sons of this section, and has built up a large and reputable connection, besides having much of the better class of transient trade. His stock of cloths, as well as his trimmings, are always first-class, and contain as choice and carefully-selected an assortment as can be found in any city; and as his work is always of a superior order, those who wish for first-class garments at reasonable prices cannot find any place where they can be better suited than at Wm. P. Walker's, No. 8 Market square.

OLD JUNK "RINGS."

The following statement was made public in Washington the latter part of last week:

The recent sales of condemned material at the various navy yards, closing with that at Norfolk, have been remarkable for the low prices obtained for the marketable junk. An affidavit filed with Secretary Chandler by a Washington dealer a few days since, will, if found to be based on facts, throw considerable light upon the mystery. Upon the allegations therein made, the secretary has ordered the delivery of the junk purchased at Norfolk to be stopped, pending the result of an investigation which has been ordered into all the facts. The charges made are, in substance, that "a ring" was formed at the first of the series of sales in Massachusetts for the purpose of purchasing, through the paid assistance of various auctioneers, all the available material sold. This material was to be afterwards resold among the "ring," and the difference between what it was obtained for and what the individual members were willing to give for it, divided pro rata. It is charged that the result of the Norfolk divide was $5600.

There was some talk, at the time of the sale of condemned material at the Portsmouth navy yard, of the bidding having been controlled by a "ring" of Portsmouth men, and the following in relation to the matter was handed us a day or two after the sale, and has been held down on our desk by a paper-weight ever since:

On dit, that the ring (reported to be 134 persons) of Portsmouth parties who bought up all the articles offered for sale at the navy yard here, refused an offer of a bonus of $2800 from Boston parties; and at a subsequent sale to Philadelphia men, at the Rockingham house they were enabled to make a dividend of $22 each. A wealthy coal dealer of Water street refused to receive a dividend which was allotted to him, declining to have anything to do with any such "speculation." An ex-alderman of ward four, who was invited to go into it, also refused, as he wished to avoid all rings.

It was also stated that "the Portsmouth ring went to Boston to attend the sale of condemned material in the yard there, but returned very much dissatisfied with the result of their trip, a larger and more powerful ring having been formed by junk dealers from other places, and the Portsmouth ring crowded out."

NAVY YARD ITEMS.

Mr. Tobias E. Burke, foreman boilermaker in the department of steam engineering at the navy yard, has been removed, and Mr. James M. Knapp, formerly foreman blacksmith in the same dement, has been appointed to the position.

Lieut. William A. Marshall is detached from this navy yard, and ordered take charge of the branch of the hydrographic office at Boston.

Mr. John A. Peterson of this city, employed in the caulkers' gang at the navy yard, was accidentally struck in the month, Monday, by the backward swing of a beetle in the hands of a fellow workman, and had his lips badly cut and three teeth knocked out.

A schooner loaded with old junk from the navy yard, and with her decks piled high with old gigs, launches, etc., was on Monday afternoon lying at anchor off the yard, waiting the arrival of a tug from Boston to tow her to that city.

The first division of the Walker school will re-open Thursday morning, Oct. 18th, under the director of Mr. Sweet, late of Ware, Mass.

Mr. Elbridge G. Peirce and wife, both over eighty years old, went to Washington last week to spend the winter with relatives in that city.

The span of black horses belonging to Major George Butler, sold at auction on Saturday, were not purchased by Mr. C. M. Gignoux for the account of Alderman Caswell, but on his own individual acount. Ald. Caswell afterward purchased them of Mr. Gignoux at private sale.

The "Rentz-Santley Novelty Company," of whom everybody has heard, will appear at Music hall next Friday evening, for the first time in this city.

The attention of the ladies is invited to the millinery advertisement of J. M. Tebbetts.

Mr. Alfred Stavers invites inspection of his new stock of hats, caps, umbrellas, trunks, carriage robes, horse blankets, etc.

The U. S. S. Alliance, which arrived at this navy yard last week for coal, and sailed again the same day, arrived at New York on Sunday.

[*For other local matter see second page.*]

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled, **THE SCIENCE OF LIFE, OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION,

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or consulting with the author, who may be consulted on all diseases requiring skill and experience. Address

THE

New Hampshire GAZETTE!

Established 1756.

THE GAZETTE IS PUBLISHED EVERY THURSDAY AND SENT TO SUBSCRIBERS AT THE LOW PRICE OF $1.50 PER YEAR, PAID IN ADVANCE, OR $2 AT THE END OF THE YEAR.

It contains full accounts of all of important news that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or offered by them from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires at their native city, and it

CONTAINS MORE ORIGINAL MATTER THAN ANY OTHER PAPER OF ITS SIZE IN THE STATE. THE EDITORS WORKING MORE WITH THEIR PENS THAN WITH THEIR SCISSORS.

New Hampshire Gazette!

TO ADVERTISERS

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all desire to reach patrons in Rockingham and York counties will find it an economical medium. The Gazette is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

Stephen D. Scriggins,

CARRIAGE PAINTER!

No. 16 Vaughan Street, Portsmouth, N. H.

Having spacious and good accommodations and long and large experience, he solicits patronage in his line.

A short time ago a family named Lucas, consisting of father, and mother, and two children, came to Fall River, Mass., from England. The man almost immediately deserted his family. The wife became disheartened about a month ago, and wandered away. Friday evening the police were informed that a strange-acting woman was seen in the eastern part of the city. She proved to be Mrs. Lucas. She had subsisted on berries, cabbages, etc., and was reduced from over 200 pounds to a mere skeleton. She is completely broken down, and will probably not recover.

—An Illinois snake charmer gave a public exhibition with a copperhead. The charm didn't work, but the snake did, and weeks elapsed before the showman knew he could recover.

—One evening, at a well-known actress' performance in the Hunchback, when she said: "Clifford, why don't you speak to me?" One of the spectators replied, in an audible voice, "Do, Clifford; I would if she'd talk to me in that way."

Three handed people are becoming quite numerous, they have a right hand, a left hand, and are alway behind hand in taking Dr. Bull's Cough Syrup when they catch a cold.

William Scanlan, a well known actor, died in the city hospital at Boston last week. He was a member of the "Lights o' London" company.

Did you read how Josiah Pitkin of Chelsea, Vt., was cured of a terrible sore leg, by Hood's Sarsaparilla, the blood purifier?

The Lyceum theatre at Chicago was burned on the night of Oct. 12th, and two men lost their lives.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

LONE JACK, Mo., Sept. 14, 1879.

I have been using Hop Bitters, and have received great benefit from them for liver complaints and malarial fever. They are superior to all other medicines.
P. H. BARNES.

Henry Cole, aged nineteen years, was drowned off Burlington, Vt., Sunday, while bosting on lake Champlain. A companion was rescued.

"I had a horse hopelessly lame with ringbone," says S. F. Robinson, 150 Blackstone st., Waltham, Mass., "Ellis' Spavin Cure has cured him."

Henry Kyle, a colored boy eighteen years old, was put to death by a mob of masked men at Bainsbridge, Ga., last week, for assaulting a white girl five years old.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

S. R. Niles, Esq., of Boston, sails for Europe on Wednesday, to personally superintend the American advertising for an extensive Paris house.

"Five Dr.'s: no end of medicine: no relief. Dr. Benson's Skin Cure has *driven away all eruptions* and I am nearly well." Ida C. Young, Hamilton, Ill. Druggists keep it, $1 per package.

Mrs. Wm. Wiley of Warren, Me., committed suicide last week by taking chloral.

Rev. J. S. Cain, LEWISVILLE, Ind., says: "I used Brown's Iron Bitters for nervous prostration and found it entirely satisfactory."

William Harrison of Denver, Col., shot his sixteen-year-old wife and then himself on the 13th inst., both dying almost instantly. The cause assigned for the act is jealousy, and interference with his domestic affairs on the part of his mother-in-law. The couple were married at Shawnee, Kan., last March, and had been in Denver for about a month

Why Incur Torture?

By disregarding cleanliness of the teeth, and thus encouraging their decay, when *Sozodont*, which is delightful to use, prevents the possibility of toothache, by keeping the teeth in health. No one who has not used this popular article, can form an adequate idea of how much improvement defective teeth are susceptible. *Sozodont* is infinitely to be preferred to abrading tooth powders. It preserves, not scratches the enamel.

"No!

"She lingered and suffered along, pining away all the time for years,"

"The doctors doing her no good;"

"And at last was cured by this Hop Bitters the papers say so much about."

"Indeed! Indeed!"

"How thankful we should be for that medicine."

A Daughter's Misery.

"Eleven years our daughter suffered on a bed of misery,

"From a complication of kidney, liver, rheumatic troubles and Nervous debility,

"Under the care of the best physicians,

"Who gave her disease various names

"But no relief,

"And now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had shunned for years before using it."—THE PARENTS.

Father is Getting Well.

"My daughters say:

"How much better father is since he used Hop Bitters."

"He is getting well after his long suffering from a disease declared incurable."

"And we are so glad that he used your Bitters."

FOR THE BLOOD

Cures Blood Poison, the greatest of all blood diseases.

Cures Cancer, Scrofula, Tumors, Ulcers, Swellings, Rheumatism, Old Sores, Eruptions, Pimples, Blotches, Boils, Tetter, Salt Rheum, Scaly Skin, Blood Diseases of every kind.

To those who are afflicted with any form of Blood Disease we say:

I was suffering from Blood Poisoning and Mercurial Rheumatism, and had spent $500 for treatment with no benefit, and it seemed that I was doomed to die. Using at last Swift's Specific as a drowning man would at a straw, and it has saved me from a horrible death, and cured me sound and well. It is the greatest medicine in the world.
C. H. SMILEY, Quincy, Ill.

HEREDITARY.—Swift's Specific cured me sound and well of a Scrofulous taint inherited from my ancestors.
J. A. MAY, Macon, Ga.

I am sure that Swift's Specific saved my life. I was terribly poisoned with Malaria, and was given up to die. Swift's Specific relieved me promptly and entirely. I think it is the greatest remedy of the age.
C. G. SPENCER,
Sup't Gas Works, Rome, Ga.

AYER'S Cherry Pectoral.

No other complaints are so insidious in their attacks as those affecting the throat and lungs: none so neglected with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung disease, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 61 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me. HORACE FAIRBROTHER."

Rockingham, Vt., July 15, 1882.

Croup.—A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours, MRS. EMMA GEDNEY."

128 West 128th St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried. A. J. CRANE."

Lake Crystal, Minn., March 13, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL. JOSEPH WALDEN."

Byhalia, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles. F. BRAGDON."

Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will *always cure* when the disease is not already beyond the control of medicine.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

—In Mexico nearly every one is a smoker. The school children who have done well in their studies are rewarded by being allowed to smoke a cigar as they stand or sit at their lessons. The schoolmaster is seldom without a cigar in his mouth. In the law courts all persons commonly enjoy their tobacco freely, and even the accused in a criminal trial is not denied this indulgence, but is allowed, if his cigarette goes out in the heat of the argument, to light it again by borrowing that of the officer who stands at his side to guard him.

What will Brown's Iron Bitters cure? It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism and all similar diseases. Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease. For the peculiar troubles to which ladies are subject it is invaluable. It is the only preparation of iron that does not color the teeth or cause headache.

—It was at the close of the wedding breakfast. One of the guests arose, and, glass in hand, said, "I drink to the health of the bridegroom. May he see many days like this!" The intention was good, but the bride looked up as if something displeased her.

—"Are you a member of the church?" asked a Fulton street man of a friend who had been extolling, in glowing language, the eloquence of a certain pastor. "Not exactly," he replied, "but I am on such good terms with the deacons that the trustees never shake hands with me every time I attend services there."

—"What did you get out of that case?" asked the old lawyer. "I got my client out of it," replied the young one. "And what did he get out of it?" "Satisfaction, I reckon. I didn't leave anything else for him to get." "Young man," said the senior, proudly, "you'll never be a judge. There is not enough money on the bench for you."

To the readers of the Chronicle.

The extraordinary statements of Mr. B. F. Larrabee, Rev. E. D. Hopkins, Dr. Dio Lewis, Dr. R. A. Gunn, Seth Green and other prominent men that have appeared in these columns in the past, have not only attracted much attention but awakened doubts in the minds of some as to their genuineness. They were, however, correct in every particular as the following local statements amply confirm:

PORTSMOUTH, N. H.—For twenty-four years I was conductor on the Northern New Hampshire Railroad, and there contracted kidney and liver disease, resulting in non-retention of urine. I was often compelled to arise in the night five or ten times to void urine and my back pained me greatly. After taking a few bottles of Warner's SAFE CURE I felt like a new man, as my urinary organs performed their natural functions. [Signed] GEORGE F. BEAN, 27 Cabot St.

PORTSMOUTH, N. H.—I have taken 7 bottles of Warner's SAFE CURE for chronic rheumatism and kidney complaint. When first began taking Warner's SAFE CURE I could, with difficulty, raise my right leg. I could not lie on either side in bed, but had to lie flat on my back. I can now lie on either side and can walk without limping. I consider Warner's SAFE CURE an unsurpassed remedy, and am willing everyone should know what it has done for me. [Signed] N. P. BYANT, 13 Hanover St.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complaint; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, L. M. Wescott, Manager	$1,366,500
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to State National Bank, S. H. Kennedy, President	125,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550

Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Palfrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	13,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$2,253,650
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	3,627,410
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and most respected citizens.

During the services in a Jewish synagogue at Ziwouka, in the government of Padolla, Russia, on Saturday, a false alarm of fire was raised in the woman's gallery, which caused a panic. The people rushed for the door, where there was a terrible crush, by which forty women were killed and thirty others injured.

I have been using Swift's Specific for blood and skin diseases, and find it to be and excellent remedy, as it has given entire satisfaction. I believe it to be just the medicine needed in this low and malarious district. S. S. Alderman, Iola, Fla.

Ex-Sergeant-at-Arms of the Senate French has begun to deliver his lecture "Ten years among the Senators." For an inside history of ten years among the boys, we should prefer to hear what Christie knows in this relation, if he would consent to tell it. Perhaps Jim, like Senator Blaine, after he is done with the ambitions of political life will write a book; if so, we subscribe in advance for a copy, payable in cash, with a bang-up notice thrown in.

There is a lively contest going on in Massachusetts between Benj. F. Butler and the republican party, the former being desirous of being re-elected governor. The curious part of the contest is that the democratic party are not even a nominal quantity in the fight, and at the proper time will wash their hands of Butler. The democratic leaders have no idea that Butler shall capture the party outside of Massachusetts. Senator Bayard, on being asked recently whether he regarded Butler as a true democrat, replied, "No, I do not. How could I so regard the man who was formerly one of our most bitter and violent opponents, and who now crawls back into the party only that he may secure emoluments and honors? The democratic party cannot trust the man who applied the knife of treachery in 1861. He might do so again. The local and provincial issues of Massachusetts may demand such a leader, but the national interests and issues do not and never will."

Mexico and the Mexicans; or, notes of travel in the winter and spring of 1883, by Howard Conkling; with illustrations. New York: Taintor Brothers, Merrill & Co.; price $1.50.

Mr Conkling writes a book concerning his journey from New York to Mexico, in which he informs us of the country, giving many facts heretofore patent, and with here and there a new suggestion. The book has the fault of having too much space given to information of what every one already knows. Still there is much that may be learned with interest concerning our neighbor, into whose heart we are entering with our railways. There are two chapters devoted to the Mexican railways, and perhaps if ancient Mexico may not attract the attention of a certain class of persons, the railway projects of to-day may enlist their regard, though the general reader will take no more interest in the lament over the high rate of carriage charged for a box, the dimensions and weight of which are given with ridiculous exactness, than will the coming reader of future years should the book survive sufficiently to meet his eye.

"American Statesmen—Albert Gallatin; by John Austin Stevens." Boston; Houghton, Mifflin & Co.; for sale by Goodrich, No. 1 Market street, price $1.25. Uniform with the series edited by John T. Morse, Jr.

Albert Gallatin, whom the biographer regards as the most distinguised of all European-born citizens who have risen to fame in the political service of the United States, was born in January, 1761, at Geneva, Switzerland, came to this country in 1780, and for a while lived in Boston and at Machias, Me. He subsequently bought lands in Virginia, and took a prominent part in the administration of the affairs of the government, being secretary of the treasury under Presidents Jefferson and Madison from May, 1801, until 1814. In these days so noted for the ebullitions of modern finance, it is not only refreshing but healthful to read the biography of such a financier as was Mr. Gallatin. He died in 1849. His biographer gives us accounts of his legislative career, his congressional experience, his efforts as cabinet minister and diplomat, and treats of his position in society, literature and science. Mr. Gallatin was one of the men who contributed by his genius and ability to the success and prosperity of the young republic of America, and to his sound views on finance, which gave proper direction to the administration of our government in its early career, a great debt of gratitude is due. Mr. Gallatin's biography is consequently full of interest, not so much, like some of the statesmen whose lives have been published and are in preparation in this series, because of their political consequence, but by reason of his eminent financial ability, which has ever been the admiration of every American.

We have received the November number of "The Season," which contains the usual amount of charming novelties. This publication already takes a foremost position among fashion magazines, for its profuse illustrations, and its cheapness considering the large amount of matter it contains. Every lady should purchase this number in order to make up her winter costumes in the latest fashions. Published by the International News Co., 31 Beekman street, New York. Price thirty cents per number. For sale by booksellers and newsdealers.

"The Guardian" and "The Churchman," of New York, religious papers of the Protestant Episcopal church, have been consolidated under the title of the latter, which is now the leading religious weekly of that denomination in the country.

At Huntsville, Ala., Nicholas Davis, a fifteen-years-old nephew of the late Congressman Lowe, amused himself at the county fair by stealing apples from the basket of a diminutive negro peddler. Upon being remonstrated with Davis drew a knife, and buried its blade to the hilt in the little negro's side, inflicting a fatal wound. The young thief and murderer was jailed, and will probably receive a severe reprimand before being set at liberty.

At Dayton, Ohio, an electric lamp broke from the cable, and in repairing the damage the superintendent of the Electric Light Co. caught hold of one of the wires, and was instantly killed by an electric shock. Such accidents as this will become common with the extended use of the electric light, unless the wires are buried or insulated.

The Oregonian says that Mrs. Miller, the mother of Joaquin Miller, was married at Portland, Oregon, on the 4th inst., greatly to the disgust of the rest of the family. The bride is about sixty years old, and the groom, named Allison, is barely twenty-two, and was once in her employ as a farm hand.

Bar Harbor, Mt. Desert, Me., which a few years since was a virtuous New England village, is fast adopting metropolitan views of morality. A few weeks ago a school-girl eloped with a married man; and now we are informed that Mrs. Alonzo Atherton, aged thirty years, has departed from her home in company with a man named Smith, leaving behind a husband and three children, the oldest child being ten years of age. Smith, it is said, has a wife and two children living at Columbia Falls.

George C. Richards, the Boston fish dealer who it was feared was drowned in Ipswich bay, turned up all right on an island in Annisquam river.

Fifteen years ago the Californians were shaken up by a somewhat strenuous earthquake, and several among them killed. Buildings were wrenched, cornices and chimney-tops hurled into the streets, and all the defects of architecture visibly exposed. For a time the warning was heeded by builders, and new structures were designed to be earthquake-proof. Gradually, however, the force of the lesson disappeared, and within the past few years there have been erected many buildings in total disregard of the requirements of architecture in an earthquake country. Wednesday night, the 10th inst., occurred the heaviest shocks felt at San Francisco since 1868, and the groaning and cracking of buildings so terrified the people that many rushed half-dressed from houses and hotels, and remained in the streets until morning. This seems to be an earthquake year all over the world, and it will not be surprising if the mistakes of San Francisco builders are painfully demonstrated before long.

The schooner Joseph Hilton, Capt. Rogers, sailed from Fernandina Sept. 4th for Newburyport, and the schooner Earl H. Potter, Capt. Dizer, sailed from Pensacola for New York the same day, both lumber laden. Neither has arrived, and much anxiety exists concerning their safety.

MEDICAL.

HEREDITARY SCROFULA.

ARE you aware that in your blood the taint of scrofula has a prominent place? This is true of every one. It is liable at any time, on the slightest provocation, to develop itself in some insidious disease. Consumption, and many other diseases are outgrowths of this impurity of the blood. HOOD'S SARSAPARILLA has a wonderful power over all scrofulous troubles, as the remarkable testimonials we have received unmistakably prove.

"MESSRS. C. I. HOOD & CO.: Gentlemen— * * * My youngest son has always been troubled with Scrofulous Humor; sores in his head discharging from his ears, and a running sore on the back of his ear for two years; his eyelids would fester and ulcerate, discharging so that I was obliged to wash them open every morning, his eyelashes nearly all coming out; he was exceedingly dainty, most of the time eating but two slight meals a day. We were unable to find anything that had the least effect upon him till last spring, 1878, we gave him two bottles of *Hood's Sarsaparilla*. His appetite improved at once. * * The back of his ear healed up without a scar, and not a sore in his head since. Sincerely yours,
MRS. N. C. SANBORN,
No. 108 Merrimack St., Lowell, Mass.

"We do not as a rule allow ourselves to use our editorial columns to speak of any remedy we advertise, but we feel warranted in saying a word for Hood's Sarsaparilla. Sarsaparilla has been known as a remedial agent for centuries and is recognized by all schools of practice as a valuable blood purifier. It is put up in forms of almost infinite variety, but Messrs. Hood & Co., (Lowell, Mass.) who are thoroughly reliable pharmacists, have hit upon a remedy of unusual value. Certainly they have vouchers of cures which we know to be most extraordinary."—*Editors Lowell Weekly Journal.*

SUPREME COURT.

TUESDAY, Oct. 16, Allen, Judge.

The October term of the Supreme Court commenced this morning at eleven o'clock, Judge Allen of Claremont, presiding. There was a very large attendance of legal gentlemen, and it is said that the term will be quite a long one.

The grand jury was in session, and will not probably finish their work until to-morrow some time. The jurors are as follows:

Foreman, Edwin A. Tilton, Portsmouth; Edward D. Rand, Newcastle; Israel S. Hoyt, Newington; John N. Chapman, New Market: Daniel C. Prescott, Newton; James R. Leavitt, North Hampton; Elbridge G. Boody, Northwood; James H. Kelsey, Nottingham; Joseph D. Harris, Plaistow; John I. Littlefield, Raymond; Otis Goss, Rye; Charles Kimball, Salem; George W. Kent, Sandown; Moses J. Eaton, South Hampton; Rufus Sanborn, South New Market; Law. C. Dixon, Stratham; Albert E. Simpson, Windham; Samuel G. Chandler, Atkinson; Charles C. Grant, Auburn; William H. Glidden, Brentwood; Benj. P. Sanborn, Candia.

The petit jurors for the first two weeks are as follows:

George H. Carlisle, Natl. M. Jewell, Exeter; Wm. H. Sise, Charles A. Hazlett, Samuel H. Ayers, Howard M. Akerman, Ward Two; Theodore Deverson, Mercer Goodrich, Ward Four, Portsmouth; Henry L. Fifield, J. H. Batchelder, Deerfield; Edward L. Jones, George Moore, Derry; Thomas W. Willey, Edwin A. Young, New Market; Charles W. Norris, Levi Thompson, Epping; W. B. Kimball, Matthew H. Taylor, Salem; Thomas E. Marston, North Hampton; Harry Vessey, Northwood; Charles A. Hall, Nottingham; John Noyes, Plaistow.

To-day's session of the court was occupied by the reading of the docket, on which there are 175 civil cases, 53 equity, 11 state, and 10 session. Of this number, 29 have been marked for trial. The court adjourned at one o'clock until nine a. m., Wednesday. There were nine divorce cases, the trial of which was commenced this afternoon.

THE RENTZ-SANLEY COMPANY.

The New York *Star* speaks as follows of the entertainment given in that city by the Rentz-Santley Novelty & Burlesque company, who are to appear in Music hall on Friday evening:

The opening piece was the new musical interlude entitled "Our Social Club," which was very entertaining and amusing. Next Harry Morris in his original Dutch burlesque productions and laughable mimetic characterizations, which kept the audience in a state of mirth during his presence upon the stage. Mr. F. Bennett and Miss Lida Gardiner, in a sketch entitled "Chaff," were pleasing. John C. Harrington was full of fun in his specialities, and was well received. Miss Lottie Elliott was fine in her skipping-rope act, and merited the praise bestowed upon her. Harry F. Dixey and May Leyton gave their original sketch entitled "Tantrums," Mlle. Catherine, the only female prestidigitateur in the world, and her troupe of trained pigeons, doves and rabbits, next engaged the attention of the audience, who were apparently much pleased with the lady's contribution to the entertainment. The Johnsons, Virgie and Arthur, presented their sketch, "All of it," in which they introduced their songs, dances, recitations and medleys. Dutch Daly, the dialect comedian and concertina soloist, gave a very laughable sketch. The entertainment concluded with the new burlesque entitled "Claude J. Duval, or Love and Larceny," introducing the entire company. The programme as a whole was carried out in an unexceptionable manner.

Capt. Perkins of Wells, Me., who took charge of the brick schooner "Ocean Eagle" last spring, in place of Capt. Maxwell, the latter having retired in consequence of old age, is one of a family of nine children, eight of whom are still living; his youngest brother sails with him, and also a cousin, the latter being one of a family of ten children; of whom five are living. Their grandmother, who died three years since, at one time had living ninety-three descendants — children, grand-children and great-grandchildren. Capt. Maxwell, the ancient mariner who gave up the sea when his vessel was hauled up for the winter a year ago, had been so long familiar to the Boston marine reporters as master of the Ocean Eagle that they find it hard to learn that the craft has a new skipper, and the arrival at Boston of the "Ocean Eagle, Maxwell," from this port or some of the ports in York county, is even now often noted in the shipping lists of the Boston papers. We do not marvel greatly at this, as we occasionally get in a similar report.

Recent transfers of real estate in Kittery: Daniel Frisbee (per administrator) to Joseph Langton, land for $10; Lemuel T. Davis of Portsmouth to Charles W. Cottle of Kittery, land in Kittery for $110; Benjamin Durgin of York to Reuben Lewis of Kittery, land in Kittery for $100; Josiah W. Lewis to Chandler Brooks, land and buildings at the Foreside for $400.

Dr. A. M. Dudley, surgeon dentist, formerly of this city, was elected secretary of the New England Dental Association at the session in Providence, R. I., recently.

A harvest supper was given in Brooks' hall, South Eliot, Tuesday evening, by Piscataqua Commandery, U. O. G. C.

Hon. Martin L. Haynes, congressman-elect from this district arrived in town on Tuesday, and met a number of his old army comrades. He will probably attend Storer Post, G. A. R., this evening.

Ella deRochemont was on Tuesday commissioned postmistress at Newington.

Mr. J. O. Spicer advertises for sale, on Spring hill wharf, a lot of old wood taken out of the late U. S. S. Guard,—"one dollar for a one-horse load, $1.50 for a two-horse load—all you can haul!"

The Biddeford *Times* says the report that two men from Lyman were robbed of $50 on Alfred street in that city one evening last week, is untrue.

Real estate transfers in York: Elizabeth A. Bean of Concord, N. H., to Stephen D. Smith of Canaan, N. H., land for $75; George H. Davis of Concord to Ellen N. Ellis of Philadelphia, Pa., land at Union Bluff for $25; Anthony D. Jacobs of Wells to Wm. H. Littlefield of North Berwick, land and buildings for $1; Samuel Norwood of York to Mrs. Jane G. Bullard of New York city, real estate for $1062.50; Ellen N. Ellis of York to Lizzie Ryan of Manchester, N. H., real estate for $200; Portsmouth & York Beach Steamboat Co. to Carlos B. Mosely of Concord, N. H., land at Concordville for $150; Portsmouth & York Beach Steamboat Co. to Carlos B. Mosely, land at Concordville for $200; Portsmouth & York Beach Steamboat Co. to Wm. F. Gammon of Manchester, N. H., land at Concordville for $100; Samuel Norwood of York to Anna Williams of Baltimore, Md., land for $1000; Mary Norwood of York to Joseph May of Philadelphia, part of "Norwood farm" for $28; Frank H. Ellis of York to Elizabeth A. Rix of Portsmouth, N. H., land at Union Bluff for $600; Charles L. Hutchins of Medford, Mass., to Eudora C. Atkinson of Boston, land near York harbor for $4000; Hannah Jacobs of Wells to Ella J. Ramsdell of Wells, real estate for $1; Lyman Staples of York to Harriet R. Brown of Worcester, Mass., land between Bald Head cliff and Ogunquit village for $300.

COMMITTEE MEETING.

The Joint Standing Committee on Claims will meet in the aldermen's room on Thursday evening, 18th inst., at 7:30 o'clock, when persons whose claims have been referred to the committee are invited to be present and be heard in support of their respective claims.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eodtjan9,84.

"Mens sana in corpore sano:" "A sound mind in a sound body" is the trade mark of Allen's Brain Food, and we assure our readers that, if dissatisfied with either weakness of Brain or Body, by powers, this remedy will permanently strengthen both. $1.—At druggists.

The Sailor's Wife the Sailor's Star Shall Be.

"***The boy's pock-marked face showed he had had his share of suffering already. Accompanying him was a robust figure, whose fair complexion was sun burnt, and told of his sailor's life. "My wife," said he, "asked me to take a ticket in the Monthly Drawing for September (the 135th) of The Louisiana State Lottery, of M. A. Naval Constructor Philip Hichborn has been ordered to appear before the Court of Claims concerning the claims of Weed, Dialogue & Co. for work done by them upon the frigate Constitution.

The supreme court of the United States has decided that the section of the civil rights act which provides that colored persons shall be admitted to equal privileges with whites in hotels, railroad cars and theatres, is unconstitutional in the states but is constitutional in the District of Columbia and the territories.

An alarm of fire caused a panic in a school at Waterbury, Conn., on the 15th inst., and six hundred children rushed down stairs. Many were knocked down and trampled on, one girl had her collar bone broken, another had an eye badly cut, and another was injured internally, while many were badly bruised, but none were killed. The fire was easily put out.

At Kansas City, Mo., one night last week, a hack driver named Senter Daniels was shot by John Samuels, and died in a few hours. Samuels is a half-brother of the Missouri heroes, Frank and Jesse James; he had been driven about the city all day and evening by the hackman, who at last asked for his pay, which insufferable insolence was promptly resented with a pistol ball. Samuels will probably be deified by the Missourians, as his precious half-brothers have been.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JANY 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE: OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

Sixth edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE: OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Testimonial of a Lady.

DISFIGURING Humors, Humiliating Eruptions, Itching Tortures, Scrofula, Salt Rheum, and Infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the cause.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and Scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from CUTICURA, is indispensable in treating Skin Diseases, Baby Humors, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison whatsoever.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA RESOLVENT internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat and usually considered incurable; small patches of tetter and salt rheum on the face, nose and sides of the face.

Scald Heads, with loss of hair without number, heads covered with dandruff and scaly eruptions, especially of children and infants, many of which since birth had been a mass of scabs;

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed as by magic;

Psoriasis, leprosy, and other frightful forms of skin disease, scrofulous ulcers, old sores, and discharging wounds, each and all of which have been speedily, permanently and economically cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by a vast number of sworn testimonials in our possession, which we will cheerfully mail to any address.

Sold everywhere. Price: CUTICURA, 50 cents. RESOLVENT, $1. SOAP, 35 cents. POTTER DRUG AND CHEMICAL CO., Boston, Mass.

Send for "How to Cure Skin Diseases."

IT LEADS ALL.

No other blood-purifying medicine is made, or has ever been prepared, which so completely meets the wants of physicians and the general public as

Ayer's Sarsaparilla.

It leads the list as a truly scientific preparation for all blood diseases. If there is a lurking taint of Scrofula about you, AYER'S SARSAPARILLA will dislodge it from your system.

SCROFULA

For constitutional or scrofulous Catarrh, AYER'S SARSAPARILLA is the true remedy. It has cured numberless cases. It will stop the nauseous catarrhal discharges, and remove the offensive odor of the breath, which are indications of scrofulous origin.

CATARRH

"Hutto, Tex., Sept. 29, 1882.

ULCEROUS SORES

"At the age of two years one of my children was terribly afflicted with ulcerous running sores on its face and neck. At the same time its eyes were swollen, much inflamed, and very sore. Physicians told us that a powerful alterative medicine should be employed. They united in recommending AYER'S SARSAPARILLA. A few doses produced a perceptible improvement, which, by an adherence to your directions, was continued to a complete and permanent cure. No evidence has since appeared of the existence of any scrofulous tendencies; and no treatment of any disorder was ever attended by more prompt or effectual results.

WILLIAM CONN.

A despatch from Plymouth, Eng., of Oct. 15th, reports two training-ships of the royal navy on shore in a dangerous position near that port, they having been in collision in a heavy gale.

It was a wise one who said: "Every man is occasionally what he ought to be perpetually." That must be when he is honest enough to acknowledge the merits of Dr. Bull's Cough Syrup, the only cure for coughs and colds.

By the fall of a bridge on the Central Mexican railroad, on the 14th inst., eighteen cars and two engines fell into a ravine, and the two engineers and three Mexican employes were killed.

A Druggist Says.

Marvin C. Brown, Druggist, Meredith Village, N. H., says: I have sold your Sulphur Bitters for years, and, contrary to most medicines, I never sold a bottle to any one who said it did not help them. They cured one of those terrible sick headaches when every remedy failed.

—It's a historical fact that Solomon had seven hundred wives. So the biblical statement that he was the "wisest man" must have been a typographical error on the part of the printer.

Why go about with that aching head? Try Ayer's Pills. They will relieve the stomach, restore the digestive organs to healthy action, remove the obstructions that depress nerves and brain, and thus cure your headache permanently.

—"No," said the eloping woman, "there isn't the least likelihood that my husband will discover our whereabouts. He's a New York detective."

Pure blood helps to make a clear conscience. Hood's Sarsaparilla purifies the blood. Enough said. Send us a big bottle.

—There are seven rum distilleries in the country, which make 8000 gallons a day. Punch, brothers, punch with care.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

—There is a young lady in New York city who makes, it is said, about 360 calls every day. She works in a telephone office.

LONE JACK, Mo., Sept. 14, 1879.

I have been using Hop Bitters, and have received great benefit from them for liver complaints and malarial fever. They are superior to all other medicines.

P. M. BARNES.

—"Lawyers are about the only class of men who successfully oppose a woman's will," says somebody. It will be observed, however, that the lawyers always wait until the woman is dead.

"I had a horse hopelessly lame with ringbone," says S. F. Robinson, 159 Blackstone st., Waltham, Mass., "Ellis' Spavin Cure has cured him."

—She certainly had a pretty foot, but after all it did not have so much impression on him as the old man's.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

—"Oh, for a thousand tongues!" she sang in the church choir. Twohours afterward one tongue was found sufficient to scandalize four fifths of the women in three counties.

"Five Dr.'s: no end of medicine: no relief. Dr. Benson's Skin Cure has *driven away all eruptions* and I am nearly well." Ida C. Young, Hamilton, Ill. Druggists keep it, $1 per package.

—A young man who went to the late war began his first letter to his sweetheart after this fashion: 'My dear Julia: Whenever I am tempted to do wrong, I think of you and I say, 'Get the behind me, Satan!'"

Rev. J. S. Cain, LEWISVILLE, Ind., says: "I used Brown's Iron Bitters for nervous prostration and found it entirely satisfactory."

—Said he, "Melinda, you are my dearest duck." Said she, "Joseph, you are trying to stuff me."

Why Incur Torture?

By disregarding cleanliness of the teeth, and thus encouraging their decay, when *Sozodont*, which is delightful to use, prevents the possibility of toothache, by keeping the teeth in health. No one who has not used this popular article, can form an adequate idea of how much improvement defective teeth are susceptible. *Sozodont* is infinitely to be preferred to abrading tooth powders. It preserves, not scratches the enamel.

"But no relief,

"And now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had shunned for years before using it."—THE PARENTS.

Father is Getting Well.

"My daughters say:

"How much better father is since he used Hop Bitters."

"He is getting well after his long suffering from a disease declared incurable,"

"And we are so glad that he used your Bitters."
—A LADY of Utica, N. Y.

I was suffering from Blood Poisoning and Mercurial Rheumatism, and had spent $500 for treatment with no benefit, and it seemed that I was doomed to die. Caught at Swift's Specific as a drowning man would at a straw, and it has saved me from a horrible death, and cured me sound and well. It is the greatest medicine in the world.

Human Blood.—On the purity and vitality of the blood depend the vigor and health of the whole system. Disease of various kinds is often only the sign that nature is trying to remove the disturbing cause. A remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it as Hood's Sarsaparilla undoubtedly does, must be the means of preventing many diseases that would occur without its use. Sold by dealers.

Willard C. Bray of Garland, Me., was shot in the abdomen Monday evening of this week by his son-in-law, name Decker. Decker married Miss Bray on the previous Saturday against the will of her father; when they met on Monday words arose between them about the matter, and Bray advanced towards Decker, when the latter drew a pistol and fired. The ball glanced, coming out of Bray's back near the spine. The wounded man may recover.

What will Brown's Iron Bitters cure? It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism and all similar diseases. Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease. For the peculiar troubles to which ladies are subject it is invaluable. It is the only preparation of iron that does not color the teeth or cause headache.

A fatal accident occurred on the Baltimore & Ohio railroad a few miles from Connellsville, Pennsylvania. Mary Curran and three children while walking along the track stepped off to get out of the way of a south-bound train, and were struck by a train going in an opposite direction on another track. The two children were killed instantly, and Mrs. Curran and the other child were badly hurt and will die.

The Head and Eye.

Since last October I have suffered from accute inflammation in my nose and head—often in the night having to get up and inhale salt and water for relief. My eye has been twice, for a week at a time, so I could not see. I have used no end of remedies, also employed a doctor, who said it was impure blood—but I got no help. I used Ely's Cream Balm on the recommendation of a friend. I was faithless, but in a few days was cured. My nose now, and also my eye, is well. It is wonderful how quick it helped me. Mrs. GEORGIE S. JUDSON, Hartford, Conn.

ROME, Ga., May 23, 1883.

Editors Constitution: With the hope that it will reach the eye of other sufferers, I desire to write you a statement of my case and my wonderful rescue from death from malarial blood poison by the use of the great S. S. S. (Swift's Specific).

In 1880 I came from the North to take charge of the gas works in Rome, as superintendant, and after the overflow which occurred in the spring following, I was very much exposed to malarial poison, and in 1882 found my blood so contaminated with the poison that I was forced to give up business. I was treated by the Rome physicians without relief, they advising me to go North, which I did. The doctors North told me that my only hope was to return to the milder climate, and accordingly I came back to Rome, completely broken down and nearly a skeleton. My trouble finally determined in an abscess of the liver, and nearly every one (myself included) thought I was doomed to die within a few days. In this condition I was advised by a friend to take Swift's Specific, and I took it just as a drowning man would catch at a straw; but as soon as my system got under the influence of the remedy, the abscess came to a point and burst, passing off without pain. In fifteen days after this I was up at my work, and have since enjoyed excellent health. Every sufferer from malarial poison should take Swift's Specific. Yours truly, C. G. SPENCER, Sup't Rome Gas Light Co.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complaint; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, L. M. Wescott, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. A. Ogleby, President	463,900
Paid to State National Bank, S. H. Kennedy, President	125,700
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Charlaron, President	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Palfrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	14,100
Paid to Mutual National Bank, Jos. Michel, Cashier	8,200
Total paid as above	$2,253,250
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,627,410
Total paid by all	$4,881,000

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

M. A. DAUPHIN, *President.*

The Breakfast Bell.

The breakfast bell salutes my ear:
Its cheerful tones ring loud and clear.
For me it used to sound in vain,
So great was my dyspeptic pain.
Pain Killer came to my relief
And banished my dyspeptic grief.
Pain Killer made me strong and well
And now I'm glad to hear the breakfast bell.

Naval Affairs.

The president has confirmed the sentence of dismissal in the case of Commander Fred R. Smith, tried by court-martial for duplicating his pay accounts, but has mitigated it to suspension from rank and duty for one year, the officer to retain his present number in his grade during that time, and to be reprimanded by the secretary of the navy.

Rear Admiral J. M. B. Clitz has been placed on the retired list of the navy, under the forty-five years service provision.

The secretary of the navy has issued the following circular: "Hereafter, all requests for surveys on the hull, spars, boats, machinery, or equipments of vessels of the navy in commission, lying at navy yards, must be submitted to the appropriate bureau before the survey is ordered; except in cases of emergency, when the survey may be ordered by the commandant."

The End of a "Joke."

Miss Lizzie Belle, daughter of Benjamin F. and Clara A. Stevens, died in Livermore Center, Me., recently, under peculiar circumstances. Her age was thirteen years and nine months. Lizzie was employed in a box factory at Richmond's mills, covering the little boxes turned there. One morning a basket of boxes was turned upon her bench. She put her hands in to sift the sawdust from them, and discovered something which she took hold of and brought to light. To her great horror it was a large spotted snake, which had been killed and placed there by a funny young fellow, as a joke. She was speechless for a while, but at length revived and said, "That awful big snake." She kept about for several weeks after, with the horror of that snake ever before her; she would go to bed, but could not sleep or even remain in her bed; for the snake was always before her. She finally took permanently to her bed, and became delirious; her chief talk was the snake; it seemed ever in her bed, or around her. She did not recognize her father or mother, and her sufferings were heart-rending. She lay in this state ten weeks, and then was stricken with typhoid fever, which terminated fatally.

The British merchant steamer Alps was fired upon by the Haytien rebels at Jeremie, Sept. 20th, as she was taking on board some women and children and an aged man, refugees from the revolt; three shots struck the steamer, one shell exploding in the mail room, doing considerable damage, but fortunately killing no person. The steamer was acting under orders from the British consul at Port au Prince, and the British man-of-war Dido has been ordered to Jeremie to look into the matter. This is likely to be a serious affair for the revolutionists, as John Bull is a much stronger personage than President Saloman.

The *Advertiser*, of Portland, Me., says: "The Maine press, so far as appears, is unanimous in its condemnation of the proceedings in the case of Herbert Eaton of Calais. Eaton, in a drunken frenzy, shot and killed Kelley. Drunkenness is no defence. The only defence would have been insanity. The crime was murder, unless insanity could be proved. Nevertheless the grand jury, as instructed by the county attorney, indicted Eaton for manslaughter. The defendant pleaded guilty. Thereupon the county attorney recommended that he be punished by fine without imprisonment, because a term in prison might "discourage" him in his purpose to lead a better life; and the Judge imposed a fine of $1,000. It would have been an unusual, almost revolutionary proceeding to disregard the recommendation of the prosecuting officer; but the surprising indictment and the singularity of the recommendation would have justified a sentence more suitable to the crime."

Blackstone, Mass., has a firebug, who set four buildings in a blaze on the 13th inst.

Politics are lively in Virginia. A straight republican negro has challenged Flanagan, readjuster candidate for state senator, to fight a duel.

Spare the Swallow.

The milliners now demand the breasts and wings of swallows for decorating ladies' hats. To supply the call, thousands of these birds are killed by agents of millinery taxidermists. The birds that nest under the eaves or fly in at the diamond-shaped swallow-hole ought not to be sacrificed to this new whim of woman. Spare the swallows. Their companionship about the barn is something—it ought to be worth more than the lucre to the fellow who shoots them for gain. If sentiment has no restraining influence there are other considerations; the swallows are insectivorous; their value as destroyers of noxious insects cannot be estimated. The farmer doesn't afford to have his fleet-winged allies destroyed by the shiftless never-do-well who shoots them for gain. The laws forbid the killing of insectivorous birds; let the law be enforced. There are many honest ways in this country to earn a living; shooting barn swallows for millinery shops is not one of them.—*Forest and Stream.*

"I owe my Restoration to Health and Beauty to the CUTICURA REMEDIES."

Testimonial of a Boston lady.

DISFIGURING Humors, Humiliating Eruptions, Itching Tortures, Scrofula, Salt Rheum, and Infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the *cause*.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and Scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from CUTICURA, is indispensable in treating Skin Diseases, Baby Humors, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison whatsoever.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA RESOLVENT internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat and usually considered incurable; small patches of tetter and salt rheum on the ears, nose and sides of the face.

Scald Heads with loss of hair without number, head covered with dandruff and scaly eruptions, especially of children and infants, many of which since birth had been a mass of scabs;

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed as by magic;

Psoriasis, leprosy, and other frightful forms of skin diseases, scrofulous ulcers, old sores, and discharging wounds, each and all of which have been speedily, permanently and economically cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by yearly testimonials in our possession, which we will cheerfully mail to any address.

Sold everywhere. Price: CUTICURA, 50 cents. RESOLVENT, $1. SOAP, 25 cents. POTTER DRUG AND CHEMICAL CORPORATION, Boston, Mass.

SUPREME COURT.

WEDNESDAY, Oct. 17, Allen, Judge.

The grand jury met yesterday, before acting County Solicitor E. G. Eastman, with Attorney General M. W. Tappan of Bradford, in attendance.

The court came in at nine o'clock. Hearings having been had on several divorce cases Tuesday and this morning, divorces were decreed as follows:

Louise E. Foster from Charles Foster; cause, extreme cruelty.

Abbie J. Blye from John Blye; cause, conviction for felony and sentence to state prison.

Charles E. Jones from Nellie F. Jones; cause, extreme cruelty.

Case Ann Mahoney, admx. of James Mahoney, vs. Charles E. Walker, was commenced at eleven o'clock. Suit to recover $10,000 as damages for death of Mahoney, who was killed by the fall of a brow on schooner Yankee Blade while discharging coal at Pier wharf, as was alleged through the negligence of the defendant in furnishing defective gear. After plaintiff's testimony was in, defendant moved for a nonsuit on the ground that no negligence on the part of Walker had been shown, and that if there was any negligence it was on the part of a subcontractor, or a fellow-servant of Mahoney's. The motion for a nonsuit was granted. Emery, and Frink & Batchelder, for pltf.; Page for deft.

POLICE COURT--BATCHELDER, J.

WEDNESDAY, Oct. 17th.

Ernest Gunter, who recently came to this city from Portland, Me., and with his wife has been living on Holmes court, was before the court on two charges—drunkenness and malicious mischief; the first case was placed on file, and he was fined $10, with costs taxed at $9.98, as the other. He will probably work out his assessment on the county farm.

Frank Chase, of Epping, charged with cruelly killing a horse, was fined $20, with $5.62 costs.

ALABAMA CLAIMS DECIDED.

In the Court of Commissioners of Alabama claims, on the 16th inst., the following judgments were announced:

No. 1438. Thomas H. Kensett, surviving partner of the firm of Thomas Kensett & Co., $128, with interest from April 27th, 1864.

No. 977. John Linden, $785, with interest from May 18th, 1864.

No. 664. John J. Pickering and J. Horace Jenness, administrators of the estate of Peter Jenness, $8218.

No. 52. True M. Ball, $8218; J. Albert Walker, administrator of the estate of William Pettigrew, $4109; George T. Sears, administrator of the estate of Jos. J. Nickerson, $4109.

No. 503. Daniel Marcy, $8218; Richard Sullivan, executor of the estate of Supply O. Thwing, $8054; Lyman B. Jewell, trustee of the estate of Washington Williams, $58,218; John Hatch, administrator of the estate of Albert R. Hatch, $4109; with interest from May 12th, 1861.

Judgment was rendered for nearly the entire amount claimed, in the case of Marcy et als., growing out of the loss of the ship Sarah E. Pettigrew, captured by the confederate cruiser Ivy, in May, 1861, and burned by the rebels at New Orleans at the time the Union forces were approaching the city after the capture of the river forts.

SUNDAY EXCURSION TRAINS IN MAINE.

The Maine Baptist Convention, recently in session at South Berwick, took action in condemnation of Sunday excursion trains on railroads. Rev. Henry S. Burrage, recording secretary of the convention, having submitted the action taken by that body to Geo. E. B. Jackson, Esq., president of the Maine Central railroad, promptly received from him the following reply, which gives great satisfaction to those who have interested themselves in the matter, notwithstanding the keen though quiet sarcasm of the second paragraph:

MAINE CENTRAL RAILROAD CO.,
PORTLAND, ME., Oct. 13th, 1883.

Rev. Henry S. Burrage: My Dear Sir—I have received your note of this date, with copy of the action of the Maine Baptist Convention, relative to the desecration of the Lord's Day by the running of excursion trains.

I entirely agree with you as to the evil results of such excursions, and I have reason to know that their recent rapid increase has been largely due to the demands made on railroad managers by those having camp-meetings, temperance gatherings and so-called sacred concerts in charge, and not to any disposition on the part of railroad officials to become violators of law.

I am glad to have one of the largest and most influential of our religious organizations express its views in so kindly a spirit, and I cheerfully accept the suggestions made as to discontinuance of such trains.

There will, accordingly, hereafter, be no excursion trains run on the Maine Central railroad on the Lord's Day so long as the present officers are in charge.

There is a certain amount of train service which it seems impracticable to dispense with on that day, but you may feel sure that there is no disposition on the part of any officer of this road to do any unnecessary work on the Lord's Day.

A REMARKABLE FIRE COMPANY.

The newly-organized town of Old Orchard, over in York county, Maine, has a newly-organized fire company, to run the new steam fire engine belonging to the town. Recently three cottages, including one of the finest in the town, were burned, and though the fire company were on hand with their machine, they did the same as the engine company which arrived at the late Artemas Ward's house the night the twins were born—"kindly refrained from squirtin'." The Dover *Democrat* says it is alleged that "the houses could have been saved had there been any brains and efficiency in the steam fire engine company there. It is reported that when they got the engine out to the fire, ready to work as they thought, there was not a drop of water in the boiler, and not a particle of any sort of fuel with which to build a fire to get up steam, supposing there had been plenty of water. Our informant says that when asked why they did not have water in the boiler the reply was, 'You don't s'pose we're going to keep water in there all the time to rust out our new engine, do you? We can get water enough when we get ready.' And as for the fuel, it was kept in the cellar of a building adjoining the engine house, and they went off to the fire and forgot it! Take this altogether, it is a pretty tough story, but a responsible man reports it. What a very curious fire company that must be down there if the report be true. And now we hear that the owners of the burned buildings propose to sue the town for damages to the amount of the value of their property."

GOSSIPS SAY

That the new postmaster at Washington, D. C., to succeed the late Hon. Thomas L. Tullock, is Frank B. Conger, a son of Senator Conger of Michigan, who is well and favorably known in this city.

That Special Agent T. I. Grimeson of the internal revenue service was in this city for a few hours on Tuesday.

That the large force of men engaged in cutting down the old ship "Guard," lying at Spring Hill wharf, find that vessel to be remarkably sound and well built.

That the copper on her bottom is said to be worth $8000.

That it must be gilt-edged copper.

COMMITTEE MEETING.

The Joint Standing Committee on Claims will meet in the aldermen's room on Thursday evening, 18th inst., at 7:30 o'clock, when persons whose claims have been referred to the committee are invited to be present and be heard in support of their respective claims.

WILLIAM H. HACKETT, *Chairman.*
Oct. 17th, 1883.

Dr. N. Monroe of Philadelphia is again in this city, after an absence of some years, with a beautiful little work of art—a photographic copy of a crayon drawing representing a young mother holding her little girl before a mirror, the original picture being the work of Dr. Monroe, who was so severely wounded at the battle of Ball's Bluff that he has been partially paralyzed ever since, and unable to practice his profession. This is the fifth picture he has thus issued; the previous ones found much favor in this city, and this one possesses so much quiet beauty that it will have many admirers.

Coal freights to this port for the week ending Oct. 16th were $1.45 per ton from Baltimore, $1.10 from New York.

Mr. Tobias E. Burke, recently removed from the position of foreman boiler-maker on the navy yard, it is said has been offered a position as first-class boiler-maker under the new foreman, but declines to accept.

In memory of Daniel R. Soule, late an engineer on the Eastern railroad, the locomotives were draped in mourning on Wednesday.

Carter's "Queen's Own."

A new game of cards, not to be found in Hoyle's manual, has just arrived from Chicago. It was invented by Carter Harrison in England, and dedicated to Queen Victoria under the name of "Queen's Own." Failing to obtain a copyright Mr. Harrison expounded the new combination to the gamblers tried of Chicago, in consideration of their support of him in the last mayoralty contest. The gamblers tried to engraft the game into their repertoire, but finding that "grays" always played the game better than professionals they gave it up as a bad job, and launched it upon the public. Two travelling printers brought the device to New York.

First get your cards. It is not the intention of the informant to tell you where to buy them—any pack will do. Any number of persons less than seven can come in. The cards, after being shuffled and cut, must be dealt evenly all round. If the party indulging represent a number that will not evenly divide fifty-two cards, the surplus cards should be removed at the outset, the deuces being the proper spots for banishment. The player at the left hand of the dealer starts the mill, the participants having arranged their cards in order, from the ace down. He will play a card below the queen—that is, from jack to the deuce; the object being not to take any of the queens. Suits must be followed absolutely. The taker of the trick, in his turn, leads with a card that will not capture a queen. He will play, as a rule, a low card which some other player will be obliged to raise in the suit, in case another player should be out of the suit and unload a queen of another suit. For, be it understood, in case a player should not be able to follow suit he will throw away a queen; or if he has no queen, a king or an ace of another suit. Again, should a player have the last play and there be no queen on the pile already played, he will play an ace or king of the suit in preference to a lower card.

The reason for shunning the queen is that each counts one against the player. The number of points is fifteen, the one receiving that number first being beaten. The player who makes nothing or next to nothing is the winner, each point gained being of a negative quality. The player who takes the last trick in a round also gets one point against him. Hence it will be seen that there are five points in each deal, none of which are desirable to obtain.

Although the game is a simple one, only a variety of "give-away," still, like whist, it has many fine points. The player must remember what cards have been played, so as not to capture a queen of another suit from some short-suited player. He must get rid of the cards of the suit that he has least of in order to unload his queens in other suits on the unwary participant. But he must be careful not to leave a bare ace or king in his hand, lest he be obliged to follow suit with one of them and receive his left-hand neighbor's queen. The player must also retain a small card toward the end in order to transfer the lead and avoid taking the last trick. These and many other fine points become evident as the learner gains proficiency, the further recital of which at the outset will only confuse the beginner.

The game of "Queen's Own" has attained great popularity in Chicago, and will undoubtedly be the leading game of the fireside in New York city this winter. It is a favorite with the fair sex, and will drive casino from the table.—*New York Morning Journal.*

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, OR, SELF-PRESERVATION. Exhausted vitality, Nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 130 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

THE

New Hampshire GAZETTE!

Established 1756.

THE GAZETTE IS PUBLISHED EVERY THURSDAY AND SENT TO SUBSCRIBERS AT THE LOW PRICE OF $2.50 PER YEAR, PAID IN ADVANCE, OR $2 AT THE END OF THE YEAR.

It contains full accounts of all of important importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or officered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires at their native city, and it

CONTAINS MORE ORIGINAL MATTER THAN ANY OTHER PAPER OF ITS SIZE IN THE STATE, THE EDITORS WORKING MORE WITH THEIR PENS THAN WITH THEIR SCISSORS.

— THE —

New Hampshire Gazette!

TO ADVERTISERS

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all desire to reach patrons in Rockingham and York counties will find it an economical medium. The Gazette is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

ALFRED STAVERS.

Charles A. Dewey, the man who swindled a Montreal bank and Boston bankers by forgery, has been indicted by the grand jury in New York for the same crime.

This life is too full of work, of duty and of pleasure to be wasted. But everybody don't think so, or they would not trifle with a cold, or a cough, when Dr. Bull's Cough Syrup, the only reliable remedy, can be procured for 25 cts.

A post-office has been established in Atlantic, Hancock county, Me., and the post-office at South Hodgdon, Aroostook county, in the same state, has been discontinued.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

The office of the starch mills in Sherman, Me., was robbed of $2000 a few nights ago by burglars.

LONE JACK, Mo., Sept. 14, 1879.
I have been using Hop Bitters, and have received great benefit from them for liver complaints and malarial fever. They are superior to all other medicines.
P. M. BARNES.

The papers in the suit by the executor of the estate of the late J. W. Barron against the Dexter, Me., savings bank, to recover $2,000 received and retained by the bank from Barron's life insurance, have been served.

"I had a horse hopelessly lame with ringbone," says S. F. Robinson, 150 Blackstone st., Waltham, Mass., "Ellis' Spavin Cure has cured him."

Philip Hunter, an employe in Balcom's mills at Claremont, fell into the flume on the 15th inst., and was carried through the penstock into the wheel-pit, where he was afterward found dead.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Butler is a live issue in Massachusetts now, whatever he may be after the 6th of November.

Hood's Sarsaparilla is an extract of the best remedies of the vegetable kingdom known as alteratives, and blood-purifiers.

It is stated that John Bright will visit this country in the spring, and lecture in the large cities.

"Five Dr.'s: no end of medicine: no relief. Dr. Benson's Skin Cure has *driven away all eruptions* and I am nearly well." Ida C. Young, Hamilton, Ill. Druggists keep it, $1 per package.

The Panama and the Cape Cod canals are both said to be in a promising state for completion.

Rev. J. S. Cain, LEWISVILLE, Ind., says: "I used Brown's Iron Bitters for nervous prostration and found it entirely satisfactory."

The prohibitory amendment was defeated by some 90,000 in Ohio, although 320,450 persons voted for it.

Why Incur Torture?

By disregarding cleanliness of the teeth, and thus encouraging their decay, when *Sozodont*, which is delightful to use, prevents the possibility of toothache, by keeping the teeth in health. No one who has not used this popular article, can form an adequate idea of how much improvement defective teeth are susceptible. *Sozodont* is infinitely to be preferred to abrading tooth powders. It preserves, not scratches the enamel.

MEDICAL.

BROWN'S IRON BITTERS.

THE BEST TONIC.

Cures Completely Dyspepsia, Indigestion, Malaria, Liver and Kidney Complaints. Druggists and Physicians endorse it.

The only Brown's Iron Bitters made by Brown Chemical Co., Baltimore. Crossed red lines and trade-mark on wrapper.

I was suffering from Blood Poisoning and Mercurial Rheumatism, and had spent $500 for treatment with no benefit, and it seemed that I was doomed to die. Caught at Swift's Specific as a drowning man would at a straw, and it has saved me from a horrible death, and cured me sound and well. It is the greatest medicine in the world.
C. H. SMILEY, Quincy, Ill.

HEREDITARY.—Swift's Specific cured me sound and well of a Scrofulous taint inherited from my ancestors. J. A. MAY, Macon, Ga.

I am sure that Swift's Specific saved my life. I was terribly poisoned with Malaria, and was given up to die. Swift's Specific relieved me promptly and entirely. I think it is the greatest remedy of the age. C. G. SPENCER,
Supt'r Gas Works, Rome, Ga.

$1000 REWARD will be paid to any chemist who will find, on analysis of 100 bottles of S. S. S., one particle of mercury, iodide potassium or any poisonous substance.

Did She Die?

"No!
"She lingered and suffered along, pining away all the time for years,"
"The doctors doing her no good;"
"And at last was cured by this Hop Bitters the papers say so much about."
"Indeed! Indeed!"
"How thankful we should be for that medicine."

A Daughter's Misery.

"Eleven years our daughter suffered on a bed of misery,
"From a complication of kidney, liver, rheumatic troubles and Nervous debility,
"Under the care of the best physicians,
"Who gave her diseases various names,
"But no relief.
"And now she is restored to us in good health by an simple a remedy as Hop Bitters, that we had shunned for years before using it."—THE PARENTS.

Father is Getting Well.

"My daughters say:
"How much better father is since he used Hop Bitters."
"He is getting well after his long suffering from a disease declared incurable,"
"And we are so glad that he used your Bitters."

RUPTURE

Relieved and cured by Dr. J. A. SHERMAN'S method, without regard to age or duration of the affliction, or the injury trusses inflict, or hindrance from labor, and with security from strangulation, of which, according to statistics, 30 out of every 100 died during the past year. No one is safe who has a rupture and depends upon a truss; both are a physical and mental tax; bring on kidney, bladder and other organic diseases, which affect general health more than age or labor, besides affecting manhood and destroying all incentives to social pleasure. Patients from abroad can receive treatment and leave for home same day. Dr. Sherman's Book, with indorsements of Physicians, Merchants, Farmers and others who have been cured mailed for 10c. Pamphlet of photographs of bad cases, 25c. by express. Principal office, 251 Broadway, N. Y.; days of consultation each week, Monday, Tuesdays and Saturdays. One voice all over the land goes up from mothers, that say, "My daughters are so feeble and sad; with no strength, all out of breath and life at the least exertion. What can we do for them?" The answer is simple and full of hope. One to four weeks' use of Hop Bitters will make them healthy, rosy, sprightly, and cheerful.

A bill has been filed in the circuit court at Chicago against the 25,000 stockholders of the defunct Great Western telegraph company to recover so much as may be necessary to pay the debts of the company. Its liabilities are upward of $8,000,000, and are mostly held by parties who have bought them up at a small percentage of their face value.

What will Brown's Iron Bitters cure? It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism and all similar diseases. Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease. For the peculiar troubles to which ladies are subject it is invaluable. It is the only preparation of iron that does not color the teeth or cause headache.

ATLANTA, Ga., May 19, 1883.

I have known and watched the use of the remedy known as Swift's Specific for twenty years, and have seen more wonderful results from it than any remedy inside or outside of the Pharmacopeia. I know its composition, and do not hesitate to say that it is the safest and most efficient antidote to all blood poison that is known to science. For diseases incident to spring, it has no equal in assisting nature to throw off the impurities of the blood brought on by the sluggish circulation in the winter months. I know it to be entirely vegetable, being prepared from the roots and herbs of our Georgia forests. As a tonic and alternative for children, it is superior to everything, as it cleanses the system, tones up the digestive organs, and gives the little ones a chance to grow and fatten. A few bottles of this remedy will benefit every man, woman and child in the land, and especially in the spring.

Yours truly,
J. DICKSON SMITH, M. D.

Catarrh.

The remarkable results in a disease so universal and with such a variety of characteristics as catarrh, prove how effectually Hood's Sarsaparilla, acting through the blood, reaches every part of the human system. A medicine, like anything else, can be fairly judged only by its results. We point with pride to the glorious record Hood's Sarsaparilla has entered upon the hearts of thousands of people it has cured of catarrh.

To the readers of the Chronicle.

The extraordinary statements of Mr. B. F. Larrabee, Rev. E. D. Hopkins, Dr. Dio Lewis, Dr. R. A. Gunn, Seth Green and other prominent men that have appeared in these columns in the past, have not only attracted much attention but awakened doubts in the minds of some as to their genuineness. They were, however, correct in every particular as the following local statements amply confirm:

PORTSMOUTH, N. H.—For twenty-four years I was conductor on the Northern New Hampshire Railroad, and there contracted kidney and liver disease, resulting in non-retention of urine. I was often compelled to arise in the night five or ten times to void urine and my back pained me greatly. After taking a few bottles of Warner's SAFE CURE I felt like a new man, as my urinary organs performed their natural functions.
[Signed] GEORGE F. BEAN, 27 Cabot St.

PORTSMOUTH, N. H.—I have taken 7 bottles of Warner's SAFE CURE for sciatic rheumatism and kidney complaint. When I first began taking Warner's SAFE CURE I could, with difficulty, raise my right leg. I could not lie on either side in bed, but had to lie flat on my back. I can now lie on either side and can walk without limping. I consider Warner's SAFE CURE an unsurpassed remedy, and am willing everyone should know what it has done for me.

PROPOSALS FOR PURCHASE OF VESSELS.

NAVY DEPARTMENT,
WASHINGTON, August 13, 1883.

In accordance with the provisions of the 5th section of the act of Congress making appropriations to supply deficiencies approved March 3, 1883, sealed proposals will be received at the Navy Department until noon on Tuesday, November 20, 1883, at which time and place they will be opened, for the purchase of certain vessels at the Navy Yard, Mare Island, California, which have been stricken from the Navy Register, under authority of an act of Congress approved March 3, 1883, and which it is deemed for the best interests of the United States to sell.

The vessels offered and their appraised value are, the Monadnock, (old), $11,200; Alaska, $18,300; Benecia, $17,000; Tuscarora, $9,000; Narragansett, $8,900; Nyack, $4,900, and Saco, $5,600.

Proposals must be submitted in a sealed envelope, addressed to the Secretary of the Navy, Washington, D. C., and endorsed "proposals for the purchase of vessels," so as to distinguish them from other communications. No offer for more than one vessel should be included within one proposal.

The vessels will be sold, for cash, to the person or persons, or corporation or corporations, offering the highest price in excess of the appraised value thereof. Each bid or proposal must be accompanied by a deposit in cash (or satisfactory certified check) of not less than ten per cent of the amount of the offer or proposal, and also a bond with a penal sum equal to the whole amount of the offer, with two or more sureties, to be approved by the Secretary of the Navy, conditioned for the payment of the remaining ninety per cent of the amount of such offer of proposal within thirty days from the date of its acceptance. In case default is made in the payment of the remaining ninety per cent, or any part thereof within that time, said cash deposit of ten per cent shall be considered as forfeited to the Government, and shall be applied as directed in the act of March 3, 1883. All deposits and bonds of bidders, whose proposals shall not be accepted, will be returned to them within seven days after the opening of the proposals.

On application to the Department, a printed list will be furnished, giving general information concerning the vessels; also forms of bids and bonds, which must be used by bidders. The vessels can be examined at any time by applying to the Commandant of the Mare Island Yard.

The purchasers must remove the vessels purchased from the limits of the Yard within such reasonable time as may be fixed by the Department.
ED. T. NICHOLS,
Acting Secretary of the Navy.

MEDICAL.

MR. E. MARTIN,
In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.
Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complaint, and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."
Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which serve business documents and certificates never possess.

The Breakfast Bell.

The breakfast bell salutes my ear:
Its cheerful tones ring loud and clear.
For me it used to sound in vain,
So great was my dyspeptic pain.
Pain Killer came to my relief
And banished my dyspeptic grief.
Pain Killer made me strong and well
And now I'm glad to hear the breakfast bell.

The elopement of the colored bell-boy at the Eagle hotel, Concord, with a white chamber-girl, on the 16th inst., caused considerable comment. The young man was faithful and industrious, and the young woman is highly spoken of by the managers and guests of the house. It is supposed they have gone to Washington, where the young man informed a friend that he had secured a situation for the girl (whom he intended marrying) and himself in a private family.

The Manchester *Union* says "a lamp post at the corner of Dover and Main streets in 'Squog became broken by some means yesterday, and a considerable quantity of gas gradually escaped. A laboring man, who was passing with a wheelbarrow, stopped to light his pipe close behind the lamp post. No sooner had he struck a match than to his surprise an explosion took place, and he was thrown to the ground with considerable violence, and somewhat burned about the hands and face. The man picked himself up in a bewildered manner and continued upon his way, having decided to postpone his smoke for the time being."

Naval Affairs.

Medical Director A. C. Gorgas is detached from the naval hospital at Chelsea, Mass., and ordered to the naval hospital at Mare island, California.

The flagship Tennessee, the Vandalia, the Alliance, and the sailing ships Saratoga and Portsmouth, arrived at Newburg, N. Y., on the 17th, and dropped anchor, in readiness to participate in the next day's celebration.

The U. S. S. Powhatan arrived at Boston on the 18th inst. from St. Pierre, Miquelon. She towed in the schooner Druid.

Mr. S. R. Niles sailed for Europe on Wednesday, Oct. 17th, the chief object of his visit being to personally superintend some advertising which a large Paris house proposes to do in the United States. Mr. Niles has done more English and French advertising than any other agent in this country, and has done it in so skillful a manner as to have acquired a reputation abroad that has caused a steady growth in this foreign business. Mr. Niles is very careful in his contracts, methodical in his system, and prompt in the prosecution of all business.

A despatch of Oct. 17th from Constantinople says: "Tuesday's earthquake was the most severe in Anatolio, being particularly destructive on that portion of the coast which lies directly east of the island of Chios. All the villages between Chesmeh and Vouris were completely wrecked, and at least 2000 persons have lost their lives by being buried under the falling walls of their dwellings. An immense amount of property has been destroyed."

Two of the most careful engineers on the Baltimore & Ohio railroad, Ephraim Scott and George McCullough, were terribly mutilated on the railroad near the station in Baltimore, early in the morning on the 15th inst. Both men had just come into the city, placed their engines in the roundhouse, and started for their homes. In passing down the track they saw a freight train coming, and stepped on the other track, only to be run over by the New York express. Scott was fatally crushed, and McCullough's leg was broken and his shoulder torn to pieces. He may possibly recover.

The schooner "Florence F.," which arrived at Halifax, N. S., Oct. 16th, from Boston, reported having picked up on the previous Sunday night, forty miles South of Cape Sable, four dories containing four seamen in an exhausted condition, one nearly totally blind, they having lost their vessel, the schooner Vidette of Gloucester, Mass., in a thick fog and strong weather. Their names are Theodore Amero, William Forest, Alexander McNeil and Ernest Goose.

The steamship Hercules, which arrived at Portland on Wednesday, Oct. 17th, from Cow Bay, Cape Breton, reports that on the previous Monday morning, sixty miles off Cape Sable, she picked up Peter McGowan and Stephen Burke from a dory belonging to schooner Sarah H. Prior of Boston, and brought them in. The men left their schooner on Saturday, and were lost in a fog. They were sent to Boston from Portland by steamer.

Dynamiters Arrested.

John Holmes and William Brackett, who arrived at Halifax, N. S., from the United States on Wednesday, the 17th inst., were arrested by the police, who found in their possession infernal machines and 100 pounds of dynamite stowed away in their valises. In their room at the Parker house were also found a lot of burglar's tools, four revolvers and similar articles. Two other men, who called at the station to meet them, were also arrested. It is thought their errand had some connection with the forthcoming arrival of Lord Lansdowne, the new governor general of Canada, whose reputation as a tyrant among his tenantry in Ireland has been very black since the troubles in Ireland commenced.

The centennial of the Harvard Medical School was celebrated in Boston on the 17th inst. Dr. Oliver Wendell Holmes was the principal speaker.

At Hamilton, Ont., Oct. 17th, Judge Morrison sentenced a young girl named Maria McCabe to be hanged December 18th, for drowning her infant child.

"I owe my Restoration to Health and Beauty to the CUTICURA REMEDIES." Testimonial of a Boston lady.

DISFIGURING Humors, Humiliating Eruptions, Itching Tortures, Scrofula, Salt Rheum, and Infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the *cause*.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and Scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from CUTICURA, is indispensable in treating Skin Diseases, Baby Humours, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison whatsoever.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA RESOLVENT internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat and usually considered incurable; small patches of tetter and salt rheum on the ears, nose and sides of the face.

Scald Heads with loss of hair without number, heads covered with dandruff and scaly eruptions, especially of children and infants, many of which since birth had been a mass of scabs;

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed as by magic;

Psoriasis, leprosy, and other frightful forms of skin diseases, scrofulous ulcers, old sores, and discharging wounds, each and all of which have been speedily, economically and permanently cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by a *cloud* of our own testimonials in our possession, which we will cheerfully mail to any address.

Sold everywhere. Price: CUTICURA, 50 cents. RESOLVENT, $1. SOAP, 25 cents. POTTER DRUG AND CHEMICAL CO., Boston, Mass.
Send for "How to Cure Skin Diseases."

BEAUTY For Rough, Chapped and Greasy Skin, Black Heads, Pimples and Skin Blemishes use CUTICURA SOAP.

GOSSIPS SAY

That Storer Post, G. A. R., and Storer Relief Corps, of this city, have responded liberally to the appeals for pecuniary aid made by the two Grand Army posts at Pensacola, Florida, whose ranks have been sadly thinned in the last yellow fever scourge.

That Marcus M. Collis of this city has been appointed Chief Mustering Officer in the Department of New Hampshire, Grand Army of the Republic.

That a Camp of the Sons of Veterans is to be organized in this city, a meeting for which is called in Grand Army hall this (Friday) evening.

That all sons of Union veterans who are eighteen years old are eligible for membership, and are requested to attend the meeting.

That albicores, fishes rarely seen in these waters, have been caught off this harbor recently, and are delicious eating, partaking of qualities of both mackerel and salmon.

That a Chichester man is proud in the possession of a musket 125 years old, and which was carried by a member of the Sandwich company when they marched to the defence of this city in the war of 1812.

That a gentleman of this city has a sponger and a rammer which were in use by the patriot artillerymen in the battle of Bunker Hill.

That these relics ornament a hallway in one of the residences on Middle street.

That Senator Frye of Maine is telling the people of Massachusetts some wholesome truths.

That the Portsmouth branch of the New Hampshire Provident Association numbers 140 members.

THE SHOW TO-NIGHT.

The Rentz-Santley Novelty and Burlesque Co., which will appear in Music hall this evening, played to a good audience in the opera house at Manchester on Wednesday evening, and the *Union* says: "The programme abounded in pleasing diversity, the first part being devoted to songs by the ladies of the company, and jokes *a la* minstrelsy by a couple of burnt-cork artists. The second part comprised the specialties of song, dance, lightning change of costume, and club swinging. The burlesque extravaganza, 'Don Jose, the Spanish Dude,' introducing the whole company, closed the evening's entertainment." Tickets at Goodrich's bookstore; popular prices.

Mr. Amos S. Foster, who for several years has been employed as clerk in the post office in this city, has been obliged to resign his position by reason of ill health. Mr. Foster has ever been obliging and gentlemanly in the discharge of his duties, and we regret that his long confinement in the office has obliged him to consider the question of his health as of far more consequence than the public service.

Some of the best and whitest bread we have seen was shown us yesterday, and was made from "Currier's Fancy" flour, sold by Stewart, Noyes & Co. of Boston, whose travelling agent, Mr. Charles Brown of Haverhill, Mass., was in the city that day, and placed a number of lots with grocers and bakers. With this flour and the Vienna Pressed Yeast, the housewife can place on the table as handsome a loaf as ever was looked at, and one which will tempt the appetite of the most exacting connoisseur.

The Rockingham County Medical society held its regular quarterly meeting at the office of Dr. Burnham of Epping on Wednesday, the 17th inst. There was a good attendance, and several new members were admitted. The next meeting will be held at the office of Dr. Gould in Raymond, Drs. Buswell and Morse being selected to read papers on that occasion.

Hope Division, S. of T., of Newcastle, has elected the following officers for the quarter ending Dec. 31st: W. P., Mrs. Fannie Harding; W. A., Mrs. Abbie S. White; R. S., Miss Ida Locke; Treas., Mrs. Mariam Yeaton; Con., Mrs. Katie Trussel; F. S., Mrs. Lucretia Davidson; A. C., Mrs. Phila Murray; I. S., Mrs. Abbie A. White; O. S., Mrs. Caroline Amazeen; Chaplain, Mr. John Amazeen. Charles E. Campbell, D. G. W. P.

The schooner Storm King, which towed the derelict schooner Hannah D. into this port, accepted $200 as compensation for the service.

A good deal of curiosity was excited on the street this afternoon by the appearance of a man trundling along on a tricycle. He stopped at the corner near Smith's drug store, and proved to be Mr. Harlow of Portsmouth. He rode up on his queer carriage from that city, starting from the Kearsarge house, and accurately measured the distance with a tell-tale affix to his tricycle constructed for that purpose. The distance recorded was just 11 1-4 miles. He says he can ride easily at the rate of seven miles an hour, and yesterday he went thirty miles in a little more than four hours.—*Dover Democrat.*

A dividend of five per cent has been declared by the Concord railroad.

A committee of the town of Essex, Mass., has given notice of intention to petition the legislature for authority to aid the Eastern railroad to the amount of $10,000 in extending its work within the limits of the town.

Charles O. Perkins of Biddeford, Me., was struck by a train of cars in the yard of the Boston & Maine railroad in Boston on the 17th inst., receiving injuries about the head. He was taken to the Massachusetts general hospital.

A heated discussion on Wednesday night of this week, between City Marshal Harmon, of Biddeford, Me., and Elias Clark, a clothing dealer, over a suspension of a police officer by the marshal, resulted in their coming to blows, and the marshal's using Mr. Clark in a violent manner. Mr. Clark has begun a suit for damages, claiming $5000.

Moses Wells, who was recently killed by a Maine Central railroad train at Augusta, was eighty-four years old, and very hard of hearing. He had been in the habit of walking on the track although cautioned against doing so, after the usual fashion of deaf persons, who appear to take special pleasure in using the railroad tracks for highways; and being deaf, did not hear the shouts of the railway men when the train was bearing down upon him. His sons are owners of the largest furniture establishment in Augusta.

Official List of Patents

Granted to citizens of New Hampshire, for the week ending Oct. 18th.

[Compiled expressly for this paper.]

A. Ball, of Claremont, and Robinson Cartmell of Middlebury, Vt., wood pulp machine.

Charles S. Comins of Concord, child's crib.

Rufus Fitzgerald of Nashua, machine for ice cutting.

D. Morrice, a dry goods merchant of Montreal, whose temporary financial embarrassment caused a panic there, maintains that the surplus over his liabilities is $400,000. The amount of discounted notes coming due in that city alone is very near $2,000,000, of which the Bank of Montreal has $1,500,000 and the Merchants' bank $200,000.

Mlle. Nixon, late the prima donna of Grau's French opera company, young, pretty, and a brilliant singer, has left the company. While in New York she received the attentions of a person prominent in social circles, and a man of large wealth. She finally consented to fly with him to Europe. Manager Grau informed her that the only terms upon which he would release her were that the forfeit of 30,000 francs ($6,000) be paid to him in cash. To this the admirer of Nixon readily agreed, and the money was promptly paid.

A despatch from Los Negos, N. M., says a bad state of affairs exists along the advance line of the Mexican railroad. Six men have been murdered during the past two weeks, and life is at a great discount. A party of railroad men recently found the skeletons of three Texas cattle thieves, murdered near Glorieta four years ago. The exact fate of the thieves was unknown until now.

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from Indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE; OR, SELF-PRESERVATION. Exhausted vitality, Nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

250th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

Why Incur Torture?

By disregarding cleanliness of the teeth, and thus encouraging their decay, when *Sozodont*, which is delightful to use, prevents the possibility of toothache, by keeping the teeth in health. No one who has not used this popular article, can form an adequate idea of how much improvement defective teeth are susceptible. *Sozodont* is infinitely to be preferred to abrading tooth powders. It preserves, not scratches the enamel.

LAME BACK HOP PLASTER

AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so treated with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL, a permanent cure was effected. I am now 63 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me.

HORACE FAIRBROTHER."

Rockingham, Vt., July 15, 1882.

Croup.—A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,

MRS. EMMA GEDNEY."

159 West 128th St., New York, May 16, 1882.

"I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most effectual remedy for coughs and colds we have ever tried. A. J. CRANE."

Lake Crystal, Minn., March 12, 1882.

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL. JOSEPH WALDEN."

Byhalia, Miss., April 5, 1882.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles. E. BRAGDON."

Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will *always cure* when the disease is not already beyond the control of medicine.

What will Brown's Iron Bitters cure? It will cure Heart Disease, Paralysis, Dropsy, Kidney Disease, Consumption, Dyspepsia, Rheumatism and all similar diseases. Its wonderful curative power is simply because it purifies and enriches the blood, thus beginning at the foundation, and by building up the system, drives out all disease. For the peculiar troubles to which ladies are subject it is invaluable. It is the only preparation of iron that does not color the teeth or cause headache.

The Head and Eye.

Since last October I have suffered from accute inflammation in my nose and head—often in the night having to get up and inhale salt and water for relief. My eye has been twice, for a week at a time, so I could not see. I have used no end of remedies, also employed a doctor, who said it was impure blood—but I got no help. I used Ely's Cream Balm on the recommendation of a friend. I was faithless, but in a few days was cured. My nose now, and also my eye, is well. It is wonderful how quick it helped me. Mrs. GEORGIE S. MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complaints; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster-General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, J. M. Wescott, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to State National Bank, S. H. Kennedy, President	123,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Charlaron, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Palfrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	13,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$2,253,550
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,627,410
Total paid by all	$4,881,000

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

The Breakfast Bell.

The breakfast bell salutes my ear:
Its cheerful tones ring loud and clear.
For me it used to sound in vain,
So great was my dyspeptic pain.

Pain Killer came to my relief
And banished my dyspeptic grief.
Pain Killer made me strong and well
And now I'm glad to hear the breakfast bell.

In the supreme court at Lancaster one Thomas Madden was sent to jail for thirty days, for obstructing an officer; Fred Legro, to state prison for one year, on an old indictment for horse stealing; Michael Sullivan, to state prison for two years, for indecent assault.

—Sir Henry Thompson, the London surgeon, recognizes in fish a combination of all the elements or food that the human body requires in almost every phase of life, more especially by those who follow sedentary employment. To women he considers fish to be an invaluable article of diet, but he scouts as a complete fallacy the notion that fish eating increases the brain power. The only action fish had on the brain was to put a man's body into proper relations with the work he had to do.

One hundred and fifty Annamite convicts, employed in the work of erecting a lighthouse on the island of Poolo Condor, 120 miles east of Point Cambodia, and belonging to French Cochin China, mutinied and murdered a Frenchman and the native warder, and seriously injured another Frenchman. Sixty of the convicts afterward seized the arms and stores, and escaped in boats. The rest of the mutineers fled to the woods and mountains.

I have known much of the manufacture and use of Swift's Specific. There are men in this community, well known citizens, who were victims in their early life, and who have taken S. S. S., and are now, to all appearances, and in their own belief, as free from taint of disease as the first man, fresh from his Maker. Delicacy forbids their public recommendations, but I am allowed to refer the skeptic privately to those who endorse everything that can be said in its favor. Being professionally much opposed to endorsing secret remedies, it is with hesitation I attach my name to this article; but I know whereof I speak when I say that our science has not yet made public a combination equal to S. S. S. for the purpose indicated. T. L. Massenburg, Ph. G., Macon, Ga.

In Dover, on the 18th inst., Francis Conley was sentenced to thirty days in the county house of correction, to pay $8.79 costs, and to give bonds in $100 to keep the peace for six months, for an assault on Joshua L. Foster in September, 1882. He appealed.

"Dragging Pains."

Dr. R. V. Pierce, Buffalo, N. Y.: *Dear Sir*—My wife had suffered with "female weaknesses" for nearly three years. At times she could hardly move, she had such dragging pains. We often saw your "Favorite Prescription" advertised, but supposed like most patent medicines it did not amount to anything, but at last concluded to try a bottle, which she did. It made her sick at first, but it began to show its effect in a marked improvement, and two bottles cured her. Yours, etc., A. J. HUYCK, Deposit, N. Y. b 33

The Secretary and the President.

There has been a rumor of ill-feeling between the president and Mr. W. E. Chandler. At a recent cabinet meeting Mr. Chandler is said to have urged that all hands should go to Newburg, N. Y., for last Thursday's celebratioe. The president pretty decidedly intimated that it was time to attend to public business; and as a democratic house of representatives will be organized within less than sixty days, the commander-in-chief knew what he was talking about. The head of the navy, nevertheless, departed on his own hook for Newburg. The correspondent of the Boston *Advertiser* says:

The president was considerably annoyed at the sorry figure the administration was made to cut in Mr. Chandler's futile attempt to be elected senator in New Hampshire this summer, and the political influence which induced Mr. Arthur to take Mr. Chandler into the cabinet largely went into obscurity when Congress expired last March. Still there has been no open rupture, and a vacancy in the cabinet is not to be expected.

Well informed persons have commonly understood that Mr. Chandler's appointment was not a political one, but was urged by certain men who hold (and seek to convince the country) that the navy of the United States can be built up better by contractors than in the public navy yards, and that the president yielded to the importunities of these theorists in order to test the experiment and satisfy the country and Congress as to the plan.

Mr. Arthur must not be discouraged if his New England cabinet minister breaks with him now and then. He has always been given to quarrelling with those who do the most for him, but he gets over it. He will come back ere long like the prodigal son, and be willing to be forgiven and have a feast made at his safe return from riotous living.

Naval Courts Martial.

The farce of a naval court martial to try an officer for drunkenness is to be enacted at Panama. The brother officers will testify reluctantly and sparely. The other brother officers will make it as light as possible, and some influential senator will adhere to the president to have the sentence modified, and by the time the officer, if found guilty, comes to receive a sentence it will amount to being allowed to lie by a year, without duty but with pay, etc., or in other words, he will come out far better than those who have not sinned. Such is the nonsense of a naval court martial, which is the last means to be resorted to to reclaim a disloyal servant, or punish a dishonest public servant.

Whipping Girls.

If a Toronto, Canada, corset maker tells the truth, some of the working girls in that city are held in a sort of white slavery. "Alice" of Toronto, haveseen in the New York *Graphic* that "Ada" of New York earns $8 a week as a shop-girl and is greatly discontented therewith, writes to our contemporary that in her opinion a working girl who receives $8 a week ought to be very happy, for in Toronto few girls get more than $3.50 or $4 a week, either behind the counter or in the workroom. "I myself," she adds, "work in a corset factory, and seldom make more than $3.50; and perhaps it will make Ada more contented with her position if she knows that we girls have to submit to corporal punishment. It is nearly a year since when, owing to my father's death I had to go to work. Shortly after getting my place the forewoman told me one day that I had spoiled a pair of corsets by my carelessness, and that she would either have to dismiss me or else I must take a whipping. With such an alternative, I submitted to a whipping, and got a very severe and humiliating punishment; and seldom a day passes but some girl—many of them almost women—gets whipped in the factory where I work, and I believe the same is pretty general." If this story is true, which we are not prepared to believe, then the white working girls of Her Majesty's Dominion of Canada are not vastly better off than were the colored working people of the southern United States before the war of the rebellion.

MEDICAL.

HOOD'S SARSAPARILLA

Is designed to meet the wants of a large portion of our people who are either too poor to employ a physician, or are too far removed to easily call one, and a still larger class who are not sick enough to require medical advice, and yet are out of sorts and need a medicine to build them up, give them an appetite, purify their blood, and oil up the machinery of their bodies so it will do its duty willingly. No other article takes hold of the system and hits exactly the spot like

HOOD'S SARSAPARILLA

It works like magic, reaching every part of the human body through the blood, giving to all renewed life and energy.

My friend, you need not take our word. Ask your neighbor, who has just taken one bottle. He will tell you that "It's the best dollar I ever invested."

LEBANON N. H., Feb. 19, 1879.
MESSRS. C. I. HOOD & CO.: Dear Sirs—Although greatly prejudiced against patent medicines in general, I was induced, from the excellent reports I had heard of your Sarsaparilla, to try a bottle, last December, for dyspepsia and general prostration, and I have received very gratifying results from its use. I am now using the second bottle, and consider it a very valuable remedy for indigestion and its attendant troubles.
Yours truly,
F. C. CHURCHILL,
(Firm of Carter & Churchill.)

SUPREME COURT.

The case of James W. Emery, trustee, vs. Frank H. Butler, was a writ of entry to recover possession of two parcels of land at Nottingham. The plaintiff claimed under title derived by levy on execution against James H. Butler, father of the defendant, who, the plaintiff claimed, was the real owner. The defendant introduced a deed to himself of lands from James H. Butler, dated May 29th, 1876, and this, the plaintiff sought to show, was without consideration and void against creditors.

John H. Frink, East Kingston, selling liquor, fine $50; second complaint, sentence suspended.

Charles Haselton, South Hampton, selling liquor, fine $50; second complaint, sentence suspended.

In the case of James W. Emery vs. Frank H. Butler, the case was given to the jury at about 4 o'clock, and in half an hour they returned a verdict for the defendent Butler.

FRIDAY, Oct. 19th.

A divorce was granted to Cora I. Libbey from Albert S. Libbey.

This morning the cases of Charles H. Tucker and Parker J. Cook vs. the town of Rye, went on trial. These cases is an action to recover damages occasioned by a defect in a bridge over Seavey's creek in that town. Messrs. Tucker and Cook were riding over the bridge last year, and their horse stepped on a plank which they say broke into several pieces, one of which flew into the air and came down, striking them with such force as to inflict serious injuries. Mr. Tucker claims $3,000 and Mr. Cook $900. The trial of these two cases will occupy all of to-day and part of to-morrow.

Notice was given this afternoon that the new docket will be read on Monday, Oct. 22, at 11 o'clock a. m.

POLICE COURT.

FRIDAY, Oct. 19th; *Bufford J.*

Daniel Crowley and Mary Crowley, husband and wife, were accused of having been drunk in their house on Russell street, and disturbing the peace by a brawl. The man was assessed $10.67, and the woman $11.04, fine and costs, which the man paid, and the pair departed for their happy home.

William Lloyd, a boy ten years old, charged with stealing coal from Pier wharf, was dismissed.

Richard Hart, William Morrissey and Henry Reynolds, for drunkenness, were each assessed $9.90, fine and costs. County farm in default of payment.

MORE WATER.

Notwithstanding the recent rains, it continues to occur that water has to be brought up in buckets from the cellars of many houses which are supplied by the aqueduct of this city. An alderman, who is also a practical mechanic, suggests that water in abundance could be brought from Chase's pond in York to this city, the pipe crossing the river at Portsmouth bridge, and clearing the draw by means of syphons reaching to the bottom of the river. This would to a considerable extent obviate the constant tearing up of our streets, and the intermediate country between the pond and the bridge could be supplied if need be. V.

CORPORATION ORGANIZED.

The Water Proof Fabric Co. organized as a corporation under the laws of New Hampshire, in this city on Thursday. The capital stock was fixed at $150,000, and the company are to lease a building for their machinery which is used in connection with certain compounds to render cloths water proof like rubber cloth, but odorless. The directors are Allan C. Goss, Thomas S. Nowell, Nathan P. Lampson, A. M. Lougee and N. D. Whitney. The directors elected Allan C. Goss of Boston president, and N. P. Lampson treasurer.

SONS OF VETERANS.

A well attended meeting of sons of veterans was held in G. A. R. hall on Friday evening, and preliminary steps were taken to form a camp in this city, about twenty young men signing the application for a charter. Others desiring to become charter members will have an opportunity to sign the application at M. M. Collis' store on Market street until next Tuesday evening, at which time another meeting will be held in G. A. R. hall to take final measures for organization.

COMPLIMENTARY CONCERT.

Miss Fannie P. Hoyt of Newington, the young lady violinist, who has for several winters past taken a prominent part in furnishing the musical portion of the entertainment at the sociables of Osgood Lodge of Odd Fellows, has been tendered a complimentary benefit by the officers and members of the lodge, to take place in Music hall on some date of her selection. The young lady accepts the compliment, and has named Wednesday evening, Nov. 14, as the date of the concert.

Stephen W. Clarke, Esq., formerly principal of the Portsmouth high school but now a resident of Manchester, was in this city a few hours on Friday.

The captain of the schooner Arrival, which arrived at Boston on Thursday, the 18th inst., reported that at six o'clock the previous evening, while passing Boon island, he saw signals of distress flying there; he was unable to reach the island, being short handed, and the schooner being leaking 400 strokes an hour.

The St. Mary's Benevolent Association will give a ball in Congress hall on Thanksgiving eve.

The cabalistic figures "7—20—8," posted in several prominent places about the city, attracted considerable attention from pedestrians on Friday. They were at first supposed to refer to the recent removal of certain skilled mechanics at this naval station, but proved to be merely the advertisment of a show company.

The gondola "Frolic," from South Berwick with a load of wood for Rose's brick-yard at Dover point, on a recent trip met with rough weather, and not being decked over, filled and capsized near Somersworth point. Capt. William Nason of the gondola "Sturgeon," rescued from drowning the three men on board the other craft.

We invite attention to the advertisement of the new book-store, No. 37 Congress street. Mr. Knight is entitled to patronage from the public for keeping the latest publications, and judging from appearances he is getting a fair share. He has a neat, pleasant stand, clean and tasty,—but those large Japanese fans he opened this week appear likely to get frost-bitten, though we imagine they are more for show than blow. He says "Anything to raise the wind."

It is reported that the schooner Nautilus, of Boston, will be brought to this port early next spring, and after being thoroughly overhauled by Mr. Warren Keen, will be put in the brick-carrying trade. Also that Mr. Ephraim Anderson, for some twelve years past engaged in the business as mate of the schooner Hattie Lewis, will be appointed captain of the Nautilus, on the united recommendation of the other masters of the brick fleet.

Thrashing an Elephant.

A curious affray is reported by the Charlotte (N. C.) *Observer*. Rufus Reed, a colored man, was arraigned before the mayor charged with assaulting a little elephant that had been exhibited in the place. It appeared that Reed, who is tall and muscular, had been giving the elephant apples, and put one in his vest pocket. While his attention was turned the elephant reached out its trunk, and getting hold of Rufus' pocket, tried to pull the apple out, and ripped the vest nearly off. Reed seized the proboscis and tried to secure his garment, but the elephant disengaged his trunk and gave Reed a severe blow on the side of the head with it. Reed drew back and felled the elephant to the ground with a blow from his fist, delivered over the eye. The elephant's keeper then attacked Reed, and Reed knocked him down. In the meantime the elephant had regained its legs and gave Reed another blow on the side. Reed was now thoroughly exasperated, and actually knocked the elephant over on its back, and then left the tent. He was let off easy by the magistrate, who thought the elephant deserved his punishment.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quantity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Flour.
Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.
Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.
NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled **THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.** Exhausted vitality, nervous and Physical debility, premature decline of manhood, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

126th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

Is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

Is a marvel of art and beauty, warranted to be a better medical book in every respect than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

Testimonial of a Boston lady.

DISFIGURING Humors, Humiliating Eruptions, Itching Tortures, Scrofula, Salt Rheum, and Infantile Humors cured by the CUTICURA Remedies.

Cuticura Resolvent, the new blood purifier, cleanses the blood and perspiration of impurities and poisonous elements, and thus removes the cause.

Cuticura, the great Skin Cure, instantly allays Itching and Inflammation, clears the Skin and scalp, heals Ulcers and Sores, and restores the Hair.

Cuticura Soap, an exquisite Skin Beautifier and Toilet Requisite, prepared from CUTICURA, is indispensable in treating Skin Diseases, Baby Humors, Skin Blemishes, Sunburn, and Rough, Chapped, or Greasy Skin.

Cuticura Remedies are absolutely pure, and the only real Blood Purifiers and Skin Beautifiers, free from mercury, arsenic, lead, zinc, or any other mineral or vegetable poison whatsoever.

It would require this entire paper to do justice to a description of the cures performed by the CUTICURA RESOLVENT internally, and CUTICURA and CUTICURA SOAP externally.

Eczema of the palms of the hands and of the ends of the fingers, very difficult to treat and usually incurable; also, small patches of tetter and salt rheum on the ears, nose and sides of the face.

Scald Heads with loss of hair without number, heads covered with dandruff and scaly eruptions, especially of children and infants, many of which since birth had been a mass of scabs;

Itching, burning and scaly tortures that baffled even relief from ordinary remedies, soothed and healed as by magic;

Psoriasis, leprosy, and other frightful forms of skin diseases, scrofulous ulcers, old sores, and discharging wounds, each and all of which have been specially, permanently and economically cured by the CUTICURA REMEDIES when physicians, hospitals and all other remedies failed, as proven by a vast number of sworn testimonials in our possession, which we will cheerfully mail to any address.

Sold everywhere. Price: CUTICURA, 50 cents. RESOLVENT, $1. SOAP, 25 cents. POTTER DRUG AND CHEMICAL CO., Boston, Mass.

IT LEADS ALL.

No other blood-purifying medicine is made, or has ever been prepared, which so completely meets the wants of physicians and the general public as

Ayer's Sarsaparilla.

It leads the list as a truly scientific preparation for adult diseases. If there is a lurking taint of Scrofula about you, dislodge it and expel it from your system.

SCROFULA AYER'S SARSAPARILLA will

For constitutional or scrofulous Catarrh, AYER'S SARSAPARILLA is the

CATARRH true remedy. It has cured numberless cases. It will stop the nauseous catarrhal discharges, and remove the sickening odor of the breath, which are indications of scrofulous origin.

ULCEROUS "Hutto, Tex., Sept. 28, 1882.

SORES "At the age of two years one of my children was terribly afflicted with ulcerous running sores on its face and neck. At the same time its eyes were swollen, inflamed, and very sore.

SORE EYES Physicians told us that a powerful alterative medicine must be employed. They united in recommending AYER'S SARSAPARILLA. A few doses produced a favorable impression, which by an adherence to your directions, was continued to a complete and permanent cure. No evidence has since appeared of the existence of any scrofulous tendencies; and no treatment of any disorder was ever attended by more prompt or effectual results.

Lieutenants F. E. Greene and E. S. Prime have been detached from the Yantic, and placed on waiting orders.

"I had a horse hopelessly lame with ringbone," says S. F. Robinson, 150 Blackstone st., Waltham, Mass., "Ellis' Spavin Cure has cured him."

Lieutenant C. W. Ruschenberger has been detached from the League Island navy yard, and Lieutenant Henry McCrea from the Colorado, and both ordered to the Yantic.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

Lieutenant W. H. H. Southerland has been detached from the hydrographic office, and ordered to take charge of the branch hydrographic office at Philadelphia.

How can you remain a sufferer from dyspepsia when worse cases than yours are being cured by Hood's Sarsaparilla. Try it.

A naval examining board with Pay Director F. C. Crosby as president, met at the navy yard, Washington, Oct. 18th, for the examination of officers for promotion in the pay corps of the navy.

"Five Dr.'s: no end of medicine: no relief. Dr. Benson's Skin Cure has *driven away all eruptions* and I am nearly well." Ida C. Young, Hamilton, Ill. Druggists keep it, $1 per package.

It is expected that the question of a new uniform for officers of the navy will be settled in a few days. Secretary Chandler has had the subject under consideration for some time, and has about made up his mind on all the important points involved. It is stated that the uniform circular previously agreed upon has been changed and modified in a number of particulars, the most important of which is the retention of shoulder-straps.

Rev. J. S. Cain, LEWISVILLE, Ind., says: "I used Brown's Iron Bitters for nervous prostration and found it entirely satisfactory."

Rear Admiral Baldwin, commanding the European station, reports to the navy department under date of Cadiz, October 4th, that the Lancaster left Cadiz Oct. 3d for Tangier, Gibraltar and Malaga. The Quinnebaug sailed from Port Mahon, October 1st for Leghorn, where she will be repaired. The Kearsarge arrived at Cadiz September 30th. The supernumerary assistant engineers and naval cadet, who went out on the Kearsarge, have been transferred to the Lancaster. The Kearsarge has sailed for a cruise along the coast of Morocco.

Why Incur Torture?

By disregarding cleanliness of the teeth, and thus encouraging their decay, when *Sozodont*, which is delightful to use, prevents the possibility of toothache, by keeping the teeth in health. No one who has not used this popular article, can form an adequate idea of how much improvement defective teeth are susceptible. *Sozodont* is infinitely to be preferred to abrading tooth powders. It preserves, not scratches the enamel.

to thousands afflicted with Blood Diseases of every kind.

I was suffering from Blood Poisoning and Mercurial Rheumatism, and had spent $500 for treatment with no benefit, and it seemed that I was doomed to die. Caught at Swift's Specific as a drowning man would at a straw, and it has saved me from a horrible death, and cured me sound and well. It is the greatest medicine in the world.

C. H. SMILEY, Quincy, Ill.

HEREDITARY—Swift's Specific cured me sound and well of a Scrofulous taint inherited from my ancestors. T. A. MAY, Macon, Ga.

I am sure that Swift's Specific saved my life. I was terribly poisoned with Malaria, and was given up to die. Swift's Specific relieved me promptly and entirely. I think it is the greatest remedy of the age. C. G. SPENCER,

"No!

"She lingered and suffered along, pining away all the time for years,"

"The doctors doing her no good;"

"And at last was cured by this Hop Bitters the papers say so much about."

"Indeed! Indeed!"

"How thankful we should be for that medicine."

A Daughter's Misery.

"Eleven years our daughter suffered on a bed of misery,

"From a complication of kidney, liver, rheumatic troubles and Nervous debility,

"Under the care of the best physicians,

"Who gave her disease various names,

"But no relief,

"And now she is restored to us in good health by as simple a remedy as Hop Bitters, that we had shunned for years before using it."—THE PARENTS.

Father is Getting Well.

"My daughters say:

"How much better father is since he used Hop Bitters."

"He is getting well after his long suffering from a disease claimed incurable."

"And we are so glad that he used your Bitters."—A LADY of Utica, N. Y.

RUPTURE

Relieved and cured by Dr. J. A. SHERMAN's method, without regard to age or duration of the affliction, or the injury trusses inflict, or hindrance from labor, and without the slightest danger, of which, according to statistics, not less than 50,000 died during the past year. No one is safe who has a rupture and depends upon a truss; both are a physical and mental tax; bring on kidney, bladder and other organic diseases, which affect general health more than age or labor, besides affecting manhood and destroying all incentives to social pleasure. Patients from abroad can receive treatment and leave for home same day. Daily Chronicle.

The amount annually expended on Queen Victoria and her family is stated at $4,400,000.

The mysterious origin of man has been partially disclosed by the Indianapolis Citizen, who found an infant in a tin-pail at the top of a tree. It is to be remembered there is nothing mysterious about Dr. Bull's Cough Syrup; a few doses will cure your cough or cold.

The secret service agent at Mobile, Ala., reports that he raided a gang of counterfeiters in that city on Friday, and captured the whole party while they were engaged in manufacturing counterfeit coin. He also captured the outfit of the counterfeiters, together with a quantity of counterfeit coin, partially finished. Thomas and Oliver Bohanan were among the prisoners. The former desperately resisted arrest, and was badly wounded.

When you suffer from dyspepsia, heartburn, malarial affections, kidney disease, liver complaint and other wasting diseases. When you wish to enrich the blood and purify the system generally. When you wish to remove all feeling of weakness, weariness, lack of energy, try a bottle of Brown's Iron Bitters and see how greatly it will benefit you. It surpasses all known remedies as an enricher of the blood and a perfect regulater of the various bodily functions. Ask your druggist.

The officer of the army who injured twenty men while firing a salute at Mystic, Conn., 1st August, has been declared "inexperienced."

A GOOD INVESTMENT. — One of our prominent business men said to us the other day: "In the spring my wife got all run down and could not eat anything; passing your store I saw a pile of Hood's Sarsaparilla in the window, and I got a bottle. After she had taken it a week she had a rousing appetite, and did her everything. She took three bottles, and it was the best three dollars I ever invested." C. L. Hood & Co., Lowell, Mass.

Montana wants to be admitted to the Union as a state.

Catarrh of the Bladder,

Stinging irritation, inflamation, all kidney and urinary complaints, cured by "Buchu-paiba." $1.

Edward Hovey was hanged in the Tombs at New York on Friday, for the murder of his sister-in-law.

A Druggist Says.

Marvin C. Brown, Druggist, Meredith Village, N. H., says: I have sold your Sulphur Bitters for years, and, contrary to most medicines, I never sold a bottle to any one who said it did not help them. They cured me of those terrible sick headaches when every remedy failed.

Margaret Harris, a colored girl eighteen years old, was hanged at Calhoun, Ga., on Friday, for poisoning a little white girl.

Another Waltham citizen, Mr. E. P. Morry, with H. J. Johnson, druggist, says: Ellis's Spavin Cure cured my horse of weak knees, and Stocked Legs.

At Monroe, Ga., Friday, Taylor Bryant, colored, was hanged for outraging a white woman.

A specific, and the only one for *all forms* and types of skin disease, is known the world over as Dr. Benson's Skin Cure. It is not a patent medicine, but a reliable, certain remedy. Druggists.

George W. Johnson, an intemperate farmer, shot himself dead at Suffield, Conn., Friday.

Mr. R. A. Bartt, Hillsboro Bridge, N. H., says: "I took Brown's Iron Bitters for lung difficulty, cough, etc., and received much benefit."

James Stanley, colored, was hanged at Columbus, Texas, Friday, for the murder of Robert Strickland, white.

An Enthusiastic Endorsement.

GORHAM, N. H., July 14, 1879.

GENTS—Whoever you are, I don't know; but I thank the Lord and feel grateful to you to know that in this world of adulterated medicines there is one compound that proves and does all it advertises to do and more. Four years ago I had a slight shock of palsy, which unnerved me to such an extent that the least excitement would make me shake like the ague. Last May I was induced to try Hop Bitters. I used one bottle, but did not see any change; another did so change my nerves that they are now as steady as they ever were. It used to take both hands to write, but now my good right hand writes this. Now, if you continue to manufacture as honest and good an article as you do, you will accumulate an honest fortune, and confer the greatest blessing on your fellow-men that was ever conferred on mankind. The New York *Sun* says: "The filing by Gen. Butler of the $1,000,000 claim [against the city of Washington, D. C.,] in behalf of the Great Falls manufacturing company, of which he is president, suggests the probable nature of his business. Gen. Butler and the Great Falls company are synonymous, he being the owner of the property. The water is being diverted to the use of the city of Washington, where new water works are progressing on a scale that promises to make the city a good customer of Gen. Butler."

A despatch from Tyler, Texas, states that a passenger train on the east line narrow gauge railroad Thursday night was blown from the track by a cyclone near Sulphur Springs, and completely demolished. Many passengers were badly injured, one fatally.

To the readers of the Chronicle.

The extraordinary statements of Mr. B. F. Larrabee, Rev. E. D. Hopkins, Dr. Dio Lewis, Dr. R. A. Gunn, Seth Green and other prominent men that have appeared in these columns in the past, have not only attracted much attention but awakened doubts in the minds of some as to their genuineness. They were, however, correct in every particular as the following local statements amply confirm:

[Signed] GEORGE F. BEAN, 27 Cabot St.

PORTSMOUTH, N. H.—For twenty-four years I was conductor on the Northern New Hampshire Railroad, and there contracted kidney and liver disease, resulting in non-retention of urine. I was often compelled to arise in the night five or ten times to void urine and my back pained me greatly. After taking a few bottles of Warner's SAFE CURE I felt like a new man, as my urinary organs performed their natural functions.

[Signed] GEORGE F. BEAN, 27 Cabot St.

PORTSMOUTH, N. H.—I have taken 7 bottles of Warner's SAFE CURE for sciatic rheumatism and kidney complaint. When I first began taking Warner's SAFE CURE I could, with difficulty, raise my right leg. I could not lie on either side in bed, but had to lie flat on my back. I can now lie on either side and can walk without limping. I consider Warner's SAFE CURE an unsurpassed remedy, and am willing everyone should know what it has done for me.

Remarkable Cure of Scrofulous Face.

WESTBROOKFIELD, CONN., June 19, 1879.

MR. H. R. STEVENS—Dear Sir: I can testify to the good effect of your MEDICINE. My little boy had a SCROFULOUS sore break out on his head as large as a quarter of a dollar, and it went down his face from one ear to the other, under his neck, and was one solid mass of sores. Two bottles of your valuable VEGETINE completely cured him. Very respectfully,

MRS. G. R. THATCHER.

MEDICAL.

MR. E. MARTIN,

In Porter's Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complaints; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, J. M. Wescout, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to State National Bank, S. H. Kennedy, President	125,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Charlaron, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Julius Cassard, President	30,000
Paid to Hibernia National Bank, Chas. Paitrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	11,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,900
Total paid as above	$2,253,050
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,627,410
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

Speed of Naval Vessels.

The New York *Sun* recently published a list of collisions between vessels of our navy and merchant vessels during the past year. To the list is to be added the collision of the Powhatan on the 15th inst. with the British schooner Druid, in clear and fine weather. Of course there is but one reason for these frequent collisions by our naval steamers. It is found in the fact that from the excessively high rate of speed run they are incapable of being stopped in any reasonable distance. The Court of Inquiry upon this case will of course decide that Capt. Matthews was going at an ordinary rate of speed for such a fast steamer as the Powhatan has proved herself to be, and the master of the Druid got in the way of the United States man-of-war; that on board the latter a proper watch was kept, the sail sighted, whistles blown, and helm promptly put the proper way to pass the Druid, but the schooner suddenly came into the jaws of the steamer, and was struck accidentally and without fault of the man-of-war.

We tremble for the fate of some of the great powers of Europe should their frail barks encounter one of our floating battle ships upon the high seas. If the captain should only clap on steam and collide with his adversary there would be a speedy end of hostilities; at least such is the result with the peaceful small craft which attempt to sail the ocean, the owners of which will hereafter have to pay a high insurance, when our new steel cruisers go gallivating about the waters.

Whether in justice to the merchant marine, and the great public who are continually crossing the ocean or travelling in coastwise steamers, it might not be well to establish some great reservoir or body of water in which our naval ships could without damage to the merchant marine cruise *ad libitum*, is a suggestion which we pass over to the honorable Secretary of the Navy to discuss in his next annual report.

During an oyster supper in the Methodist church at Bayville, L. I., on the night of Oct. 18th, John Smith, accompanied by a gang of roughs, entered the building. Smith struck Capt. John Sackett, his brother-in-law, and a fight followed, during which Sackett knocked Smith senseless, with a saw buck. The pastor of the church, Rev. Mr. Taff, was knocked down. Many ladies and children fainted. Nearly everything in the church was broken. There were 300 persons in the building at the time, and many of them were injured in their endeavors to get out, there being only one exit.

Four citizens of Trumbull, Conn., have been arrested, charged with assaulting Chas. H. Hausten last July, when he was tarred and feathered. Their names are Edward Payne, Henry Gilbert, Stephen Parks and Michael McNamara. They gave bonds for their appearance for trial Oct. 27th.

Twelve brigands who were implicated in fourteen murders, committed during the last six years in the Amoros district, province of Benevento, Italy, have been sentenced to death, and eleven others who were convicted of complicity in the same crimes have been condemned to hard labor in prison.

The Paris *Figaro* publishes the narrative of a French officer of the particulars of a massacre of natives at Hue by French sailors. The story relates that after the natives had ceased to resist they were then shot down in piles, the Frenchmen afterward murdering those who had been wounded.

A man named Saunders, tending a hoisting gear at the quarry pit at Brownville, Me., fell 120 feet, striking upon the rocks at the bottom, causing almost instant death.

The racing mare "Idlewild," valued at $4000, was stolen from her stable at Beacon park Oct. 17th.

Publishing the pension list has had a different result from what was intended by those who proposed the measure, and Commissioner Dudley thinks it was an unwise thing to do. He says that he has been informed that the list has been used by pension attorneys to obtain names for the distribution of their circulars, and that they are working their office force day and night mailing them to pensioners; and he believes that such pensioners, drawing less than $30 a month, will each receive from five to fifty circulars from claim agents, urging an application for an increase. On this account a vast increase of applications is expected, and the commissioner warns against such applications, unless the pensioner is *absolutely certain* that he is not receiving his just due, as it will be a waste of time and money probably, and may result in a decrease instead of an increase of pension, from the re-examination which is now required before a board of surgeons, instead of by a single physician, as was formerly done. The object in publishing the list was to call attention of people where the pensioners reside in their vicinity, that in this way frauds might be detected; but only one communication has been received by the bureau, the complainant mentioning the names of three persons whose names are on the list, and who in his belief are not entitled to pensions. The evidence of the person making the complaint is not taken, and his name is kept confidential if he desires; but the case is decided on proper testimony taken in the presence of the complainant, or with his full knowledge. The commissioner says an excellent idea was suggested by a newspaper editorial, that the Grand Army of the Republic, and similar organizations, should go over the lists of names in their districts, and ascertain, so far as is possible, whether any of those names appeared were obtaining pensions under misrepresentation.

Advice to Mothers.

It is stated in Washington dispatches that Secretary Chandler favors the appointment of Chief Engineer Henderson as chief of the bureau of steam engineering. He is on the advisory board, and is a friend of John Roach. The president, who intends to be a candidate for re-election and has due regard for the fitness of things, favors Chief Engr. Charles H. Loring. The president is right; Loring is the best man for the place by all odds.

The arrival at Boston of the U. S. S. Powhatan, Capt. E. O. Matthews commanding, from Halifax, N. S., with the British schooner Druid in tow, Thursday morning of last week, has been already announced. Capt. Smeltzer of the schooner states that they left Lunenburg, Oct. 15th, for Point-a-Pitre, with a cargo of fish. All went well until four o'clock in the afternoon of the same day, "when we were run into by the United States steamer Powhatan. We were steering south by west, and were about twenty-four miles south by west of Cross island. The steamer struck us on the port bow, carrying away our jibboom and foremast, with everything attached. As the steamer came alongside her mainyard became entangled with our mainmast, carrying it away, with everything attached. The hull of the schooner is badly damaged by the falling spars, and her cargo is also considerably damaged. She is leaking badly. At the time of collision the weather was fine. The Powhatan had her starboard wheel somewhat damaged." The schooner was taken in tow after her arrival at Boston by a government tug and towed to the navy yard, where she will be thoroughly repaired at the expense of the United States government.

Samuel M. Bradeen, formerly of Limington, died in Clear Creek, Nebraska, September 24th. Eight years ago he joined the regular army, and was detailed to the 5th Cavalry. He was with Buffalo Bill, (W. F. Cody) at the time the latter was out nineteen days and was obliged to kill his mules for food. Mr. Bradeen was discharged about three years since, and settled in Clear Creek. He leaves a wife and one child. He was the grandson of Jemima Bradeen, the centenarian of Limington, and a brother of Edward C. Bradeen, who recently died at the Soldiers' Home in Togus, Me. His age was about thirty years.

The following letter shows how the restoring and invigorating properties of

Hood's Sarsaparilla

overcome it, and how by vitalizing and enriching the blood it neutralizes and eradicates the poisoned matter from it, bringing to the convalescent the color, life and vigor of robust health.

LOWELL, MASS.

MESSRS. C. I. HOOD & CO.: Gentlemen,—My little girl had the diphtheria last April. The disease left her very weak, blood poor, with no appetite, and she could not seem to rally from its effects. HOOD'S SARSAPARILLA was recommended by a neighbor. After she had been taking it a few days we noticed a change for the better—she began to eat with a relish. It seemed to take out the poison the disease had left in her blood, the change being very noticeable in her face. She took it two months and fully regained her health, much to our delight. We now recommend HOOD'S SARSAPARILLA with a great deal of pleasure. Very truly yours,

ELY'S CREAM BALM

has gained an enviable reputation wherever known, displacing all other preparations. An article of undoubted merit.

CURES COLD in the HEAD, IS NOT A LIQUID OR SNUFF. Apply by the finger into the nostrils.

When absorbed it effectually cleanses the nasal passages of Virus, causing healthy secretions. It allays inflammation, protects the membranal linings of the head from additional colds, completely heals the sores and restores the sense of taste and smell. Beneficial results are realized by a few applications. A thorough treatment will cure. Send for circular. By mail, prepaid, 50c.—stamps received. Sold by all druggists.

THE WEATHER.

U. S. SIGNAL OFFICE,
WASHINGTON, D. C.
October 22, 12:00 A. M.

Probabilities for New England:—

Fair weather in northern portions, partly cloudy weather and local rains in the southern portion, northeast winds, slight rise followed by falling barometer, falling followed by rising temperature.

The Thermometer at the CHRONICLE Office, at 4:00 o'clock this morning, indicated 28 degrees above zero.

Sky clear.

SUPREME COURT.

SATURDAY, Oct. 20th.

Court came in at nine o'clock, and case Tucker and Cook vs. town of Rye was continued. Dr. Johnson took the stand, and testified for Tucker. The case was argued by Marston for plffs. and by Frink for the town, and was given to the jury shortly after noon. The jury failed to agree.

GOSSIPS SAY

That Congressman-elect Haynes, who went from this city to York on Thursday on a gunning expedition, returned on Friday and took the early morning train from this city for Lake Village, his home.

That the Honorable "Mart" while at York beach shot away three dollars' worth of ammunition, and bagged twenty cents' worth of sand peeps.

That his political gunning is expected to be more effective.

That six large flowers opened on a night-blooming cereus plant in the conservatory of Mr. Charles A. Hazlett on Tuesday evening of last week, and that on Wednesday evening four more expanded, a part of which remained open through the following day.

That "Prepare to git onto your horses" is the latest order issued by an unfledged cavalry officer in this state.

That the post office in this city yielded the general government $8000 above expenses for the last fiscal year.

Thatin consequence it is rated higher at the postoffice department than any other office in New Hampshire.

That Wm. Ward, Esq., who by illness has been confined to his house for a week past, is able to resume business this morning.

NAVY YARD ITEMS.

Medical Inspector C. J. Cleborne has been detached from this navy yard, and ordered to duty on board the Hartford at Panama.

Passed Asst Surgeon A. C. Heflinger is ordered to temporary duty at this navy yard.

Second Lieutenants Charles A. Doyen and James E. Mahoney, U. S. M. C., have been detached from the marine barracks at Brooklyn, N. Y., and ordered to the barracks at the Portsmouth navy yard.

A detachment of ten marines arrived at the navy yard on Saturday from Boston, for duty at the barracks here.

First Lieut. Frank D. Webster, U. S. M. C., has been promoted to be captain, to rank from Oct. 8th, vice Capt. N. L. Nokes, deceased.

What will happen next. The northerly windows in the Eastern railroad station were washed last week.

A large shed for the shelter of carriages and teams is being erected at the northerly side of the stone stable on Fleet street.

We had a nice rain on Saturday, two brisk hailstorms Saturday night, and a snow-squall Sunday morning.

Rev. James DeNormandie, of Roxbury, Mass., will preach for the South Parish next Sunday.

The repairs on the new Chase Home for Children, on the corner of Court and Washington streets, being completed, the building will be occupied on Thursday, Nov. 1st, All Saints day.

The schooner Hattie Lewis, which sailed for Boston on Thursday with a load of bricks, after getting nearly over to Cape Ann put back to the lower harbor, and remained till Saturday afternoon. The D. K. Ham, which also sailed on Thursday, made a harbor at the cape.

Knight has it. At his store can be found a mucilage bottle that you can't get your pen into, and a mucilage brush that you can't get into your inkstand. No more hard language required to express your feelings. Ask for the "Perfect" mucilage bottle.

By the list of pensioners just published by act of Congress, it appears that the total number of pensioners in York county is 710, of which seventeen are credited to Kittery, seven to Kittery Depot, twelve to Kittery Point, two to Eliot, five to South Eliot, five to York, four to York Corner, one to Cape Neddick, one to Cape Porpoise, twenty to South Berwick, two to South Berwick junction, eighteen to Berwick, and eighteen to North Berwick. Included in these numbers, in the towns named, are nineteen persons who draw pensions on account of the war of 1812, thirteen of them being the widows of soldiers who served in that war, the male pensioners of 1812 in these towns being Ivory Simpson of York Corner, Jonathan Kimball and Foss Burnham of North Berwick, Andrew Wilkinson of South Berwick Junction, Abraham Bray of Kittery Point, and Stephen Hubbard of Berwick.

At Strafford Centre an academy was established about 1830, with the name Strafford academy. In 1849, by act of the New Hampshire legislature the name was changed to Strafford seminary. In 1866 the name was again changed, to Austin academy, in consideration of the fact that Rev. Daniel Austin, of Kittery, Me., agreed to give, by will, the sum of $5,000 as a fund for the institution. Mr. Austin died Dec. 4th, 1877, and the executors of his will have had the property in charge ever since till Oct. 18th, when J. G. Caverly, Esq., of this city, attorney for the trustees, obtained the money, in Boston, from the executors, Samuel Batcheider and Charles U. Cotting. The sum received is $4367, being eighty per cent of the whole sum, with interest from 1877. The other $1,000 will be received after the death of a certain lady who will receive an annuity of $400 as long as she lives. The delay in paying over the money till this time was caused by certain persons at Strafford who represented to the executors that the present academy is not Austin, but Strafford academy. This made it necessary for the matter to be decided in court whether the executors were bound to pay over the money to the trustees of Austin academy. That decree was issued at the last term of the court in York county, Me., at Alfred, Oct. 8th. This puts the school on a good and substantial foundation, and a prosperous career is before it.—*Dover Republican.*

The Government Chemist Analyzes two of the Leading Baking Powders, and what he finds them made of.

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Flour

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."
Cream of Tartar
Bicarbonate of Soda
Carbonate of Ammonia
Tartaric Acid
Starch

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

Note.—The Tartaric Acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, JAN'Y 17TH, 1881.

The above shows conclusively that "Cleveland's Superior" is a strictly pure Cream of Tartar Baking Powder. It has also been analyzed by Professor Johnson of Yale College; Dr. Genth of the University of Pennsylvania; President Morton of the Stevens Institute; Wm. M. Habirshaw, F. C. S., Analyst for the Chemical Trade of New York, and other eminent chemists, all of whom pronounce it absolutely pure and healthful.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse." CHAS. MASON, Commissioner of Patents.

"Inventors cannot employ a person more trustworthy or more capable of securing for them an early and favorable consideration at the Patent Office." EDMUND BURKE, Late Commissioner of Patents.

BOSTON, October 19, 1870.

R. H. EDDY, Esq.—*Dear Sir:* You procured for me in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. I have occasionally employed the best agencies in New York, Philadelphia and Washington, but I still give you almost the whole of my business, in your line, and advise others to employ you. Your truly, GEORGE DRAPER.

STATE OF NEW HAMPSHIRE, Rockingham, ss.

By the Judge of Probate for said County.

TO the heirs at law and creditors to the estate of BENJAMIN CANNEY, late of Portsmouth, in said County, deceased, intestate, and all persons interested in said estate, GREETING.

YOU are hereby notified that Marcellus Buffard, administrator of the estate of said deceased, had filed his account of administering said estate in the Probate office, for said County, and will present the same at a Court of Probate to be holden at Portsmouth in and for said County, on the second Tuesday of November next, at 10 o'clock, A. M., for examination and allowance.

YOU are therefore hereby cited to appear at said court to be heard thereon, and to make such objections as you may then have. And notice is hereby required to be given by causing this citation to be published three weeks successively in the PORTSMOUTH DAILY CHRONICLE, a newspaper printed at Portsmouth in said County, the last publication whereof to be at least one week prior to said Court. By order of the Judge.

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE, OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too close application to business, may be restored and manhood regained.

35th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings, 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1.25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

It is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION.

Is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author, who may be consulted on all diseases requiring skill and experience. Address

THE

New Hampshire GAZETTE!

Established 1756.

THE GAZETTE IS PUBLISHED EVERY THURSDAY AND SENT TO SUBSCRIBERS AT THE LOW PRICE OF $1.50 PER YEAR, PAID IN ADVANCE, OR $2 AT THE END OF THE YEAR.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or offered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires at their native city, and it

CONTAINS MORE ORIGINAL MATTER THAN ANY OTHER PAPER OF ITS SIZE IN THE STATE. THE EDITORS WORKING MORE WITH THEIR PENS THAN WITH THEIR SCISSORS.

— THE —

New Hampshire Gazette!

TO ADVERTISERS

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and desire to reach patrons in Rockingham and York counties will find it an economical medium. The Gazette is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

WILLIAM CONN.

During a republican demonstration by the colored men at Worcester, Mass., Friday night, the torch bearers were stoned by a crowd of hoodlums who followed them, cheering repeatedly for Butler. One of the torch bearers was quite badly injured, several others were hit, and the police were stoned while dispersing the crowd.

Henry W. Gwinner, president of the Hoole Manfg. Co. and the National Railroad Publication Co. of New York, killed himself in his office on Friday by shooting. His salary was $10,000 a year, and his home was happy. Temporary insanity, caused by overwork, was probably the cause of the act.

The trial of Cummins, one of the murderers of William Myers, took place at the present term of the Bracken, Ky., criminal court, and Thursday night he was sentenced to ninety-nine years in the penitentiary.

Dennis Hickey, a mason, was killed in Lawrence, Mass., by falling from the tower of the Atlantic mills while moving a staging.

"Was Eve the first woman," was the title of a lecture recently delivered down East. Of course we didn't hear the lecture, but we know the first woman that ever used Lt. Bull's Cough Syrup never experienced such a happy cure for her cough and cold.

Lieut. George A. Bicknell has been ordered to the navy yard at League island.

Decline of Man.

Nervous weakness, dyspepsia, impotence, sexual debility, cured by "Wells' Health Renewer." $1.

Lieut. Lucien Flynn has been detached from duty on the coast survey, and ordered to hold himself in readiness for sea service.

That poor bedridden, invalid wife, sister, mother, or daughter, can be made the picture of health by a few bottles of Hop Bitters. Will you let them suffer? when so easily cured!

Lieut. James M. Grimes has been detached from the Powhatan, and placed on waiting orders.

Hood's Sarsaparilla gives an appetite and imparts new life and energy to all the functions of the body. Try a bottle and realize it.

Lieut. J. N. K. Patch has been detached from the Boston navy yard, and ordered to the Powhatan.

Unable to Tell.

Yes, that was so. For years I suffered severely with scrofula; sores broke out all over my body, and I am unable to tell one half that I suffered. I was not able to obtain relief until I used Sulphur Bitters, which completely cured me.—C. B. Aple, 17 Allston street, Boston.

Medical Director A. C. Gorgas is detached from the medical hospital at Chelsea, Mass., and ordered to the naval hospital at Mare island, Cal.

"As two boxes of Dr. Benson's Celery and Chamomile Pills *cured* a friend of *neuralgia*, whom the Drs. here could not help, I'll send for some myself." Clifford Shand, Windsor, Nova Scotia.

Medical Director J. M. Browne has been ordered to duty as a member of the national board of health.

From Groton, Mass., Mr. Wm. S. Carr writes as follows: "Ellis's Spavin Cure has cured my horse. He was very lame with ringbone." Try it.

Passed Asst. Engr. Wm. A. Mintzner is ordered to the Shenandoah.

Positive Cure for Piles.

To the people of this County we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to Cure or money refunded—internal, external, blind, bleeding or itching piles. Price 50c. a Box. No cure, no pay. For sale by Andrew P. Preston, Druggist.

The orders of Passed Asst. Engr. Ralph Aston to the Shenandoah have been revoked, and he is placed on waiting orders.

Begin Early in Life

to cleanse the teeth with *Sozodont*, and you will be repaid in maturer years and very probably in age, by the possession of sound molars and incisors, which will give you a more youthful look than you would otherwise have, and enable you to chew without incurring the penalty of a toothache. And when you have children, use the same fragrant preparation and they will have ample cause to be grateful to you. Don't omit for a single day.

Procter the astronomer has been predicting the world would go to smash this year, but this should not deter people from keeping on hand Dr. Bull's Cough Syrup, the great household remedy for coughs and colds.

William Logan and wife, both over seventy years old, were attacked at their home, twelve miles from Shelby, N. C., by a negro burglar, Friday night. Mrs. Logan was killed, and her husband was choked nearly to death. The negro escaped with $10 booty.

Humor in the Stomach.

Much of the distress and sickness attributed to dyspepsia, chronic diarrhœa and other causes is occasioned by humor in the stomach. Several cases, with all the characteristics of these complaints, have been cured by Hood's Sarsaparilla. Other cures effected by this medicine are so wonderful that the simplest statement of them affords the best proof that it combines rare curative agents and when once used secures the confidence of the people.

L. B. Gardiner of Indianapolis, Ind., is reported to have left for parts unknown. There are thousands of letters addressed to him in the post-office there, presumably in reply to his advertisement to send a combined thermometer and barometer for twenty-eight cents.

When you suffer from dyspepsia, heartburn, malarial affections, kidney disease, liver complaint and other wasting diseases. When you wish to enrich the blood and purify the system generally. When you wish to remove all feeling of weakness, weariness, lack of energy, try a bottle of Brown's Iron Bitters and see how greatly it will benefit you. It surpasses all known remedies as an enricher of the blood and a perfect regulater of the various bodily functions. Ask your druggist.

Mary, the daughter of John McGrath, aged thirteen years, was found drowned in the river at Providence, R. I., Sunday. She probably fell from the wharf.

Mr. R. A. Bartt, Hillsboro Bridge, N. H., says: "I took Brown's Iron Bitters for lung difficulty, cough, etc., and received much benefit."

The supreme court of Pennsylvania last week decided the case of Asa Packer vs. Noble Hammett & Co., of which firm Packer was formerly a member. The litigation was over a partnership account, and involved many millions of dollars; the case had been before the courts over twenty-six years. The decree of the lower court, in favor of the Packer estate, was affirmed.

The Head and Eye.

Since last October I have suffered from acute inflammation in my nose and head—often in the night having to get up and inhale salt and water for relief. My eye has been twice, for a week at a time, so I could not see. I have used no end of remedies, also employed a doctor, who said it was impure blood—but it got no help. I used Ely's Cream Balm on the recommendation of a friend. I was faithless, but in a few days was cured. My nose now, and also my eye, is well. It is wonderful how quick it helped me. Mrs. GEORGIE S. JUDSON, Hartford, Conn.

It is not a liquid or snuff, and is easily applied. Only 50 cents a package.

The railroad commissioners of Maine gave a hearing at Farmington on Friday night to persons interested in the building of the Franklin & Somerset railroad, and a certificate of approval was granted. The survey will probably be made this fall.

William Flynn was shot in the head and killed by the accidental discharge of a gun which his brother Michael was removing from a boat on Stockbridge lake, Mass., last Friday. Michael was badly wounded in the hand and side, but may recover, though he will lose an arm.

Charles A. Higgins was killed at Worcester, Mass., Oct. 20th, by having his neck broken by an elevator.

An Enthusiastic Endorsement.

GORHAM, N. H., July 14, 1879.

GENTS—Whoever you are, I don't know; but I thank the Lord and feel grateful to you to know that in this world of adulterated medicines there is one compound that proves and does all it advertises to do and more. Four years ago I had a slight shock of palsy, which unnerved me to such an extent that the least excitement would make me shake like the ague. Last May I was induced to try Hop Bitters. I used one bottle, but did not see any change; another did so change my nerves that they are now as steady as they ever were. It used to take both hands to write, but now my good right hand writes this. Now, if you continue to manufacture as honest and good an article as you do, you will accumulate an honest fortune, and confer the greatest blessing on your fellow-men that was ever conferred on mankind. TIM BURCH.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others who have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged morial may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate [for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1878, to present date:

Paid to Southern Express Co., New Orleans, T. M. Wescott, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to State National Bank, S. H. Kennedy, President	123,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Charlton, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Cassard, President	30,000
Paid to Hibernia National Bank, Jas. Palfrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	13,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,300
Total paid as above	$2,253,650
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,627,410
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

The Pension Office.

If there is anything which will reconcile the people of the country to a change in the administration in 1884, it is the inefficient manner in which the Pension office is managed since Mr. Bently was ousted to make way for his present inferior successor. Bently was a lawyer of ability and large executive capacity. The present incumbent is a Mr. Dudley, a General we believe, but under his administration the office in point of efficiency has gone back amazingly.

It is charged that Bently was removed at the instigation of the Washington claim agents. Whether these men, unknown to the head of the office, are now better used than formerly, is a matter of inference. At present, with the law prohibiting any but a certain fee prescribed by statute being charged to pensioners, a law which the courts hold to be constitutional, because the pension is a gratuity and not a contract, the Washington agents have it all their own way, and the poor applicants are made to pay as they go; that is, they furnish the evidence, pay the cost of taking affidavits, certificates, etc., and send a goodly sum to reimburse the Washington agent for postage, etc., and a round fee for transmitting the papers. The Washington men claim to have "peculiar facilities" for ascertaining the adjudication of claims. This is supposed to be not an entree at will at the Pension office, where they can examine papers and have defects in proof pointed out, but a social acquaintance with pension clerks, which proves of much value. To suppose every impecunious clerk in the pension office to be "*sans peur et sans reproche*" is of course simply absurd. They have their weak side, and all over the land, men and women are sending their small hard-earned or difficultly-borrowed sums to support the grand array of agents who are entrenched behind their superior facilities at the seat of government.

Take a case in point, which has defied the combined efforts of lawyers and laymen, congressmen and cabinet officers, to get allowed. It is but one of many:

An old lady in York county, Maine, was an applicant for a service pension as the widow of a soldier of the 1812 war. She became entitled under the act of March, 1878, and applied for it in April, 1878. She died pending her application, in August, 1878, and at the time of her death was entitled to nearly five months pension. This, by the laws relating to persons who die after having applied for a pension, in cases where there is no child under sixteen years of age, can be paid to reimburse the person who bore the expense of the last sickness and burial of the applicant, in cases where she did not leave sufficient assets to meet such expenses.

Now, it will be presumed by the general reader that it was a simple thing to show what were the expenses of the last sickness and burial of an old lady, who paid them, and whether she left any estate. Such proceedings before Judge Hobbs of the York county Probate court would have been speedily achieved. Not so, however, with the circumlocution office; a speedy adjustment of a pending claim is as much deplored in this department as would be the settlement of an otherwise interminable chancery suit, in a law office in London. A prompt and business-like inspection and allowance of a claim would tend as far as the clerks and employees of the pension bureau extend, to compel some of the surplus appointees to say to their over-worked colaborers, "Farewell! Othello's occupation 's gone." That would never do, and so General Dudley orders that no correspondence be had with any agent or attorney upon that claim. It is not difficult to see how this makes a success of the "how not to do it" plan. The person who pays these sums may, perhaps, be at sea, or for various reasons more or less absent from his home, where his correspondence cannot reach him, while if sent to a respectable attorney the latter could perhaps supply any needed proof to perfect the required evidence. But that would be too practical and too efficacious. It might have done under Bently, but never would do for Dudley, and so the claim must wait. In the case above referred to the required evidence was finally furnished the pension office more than two years and a half since, some of it in fact over four years ago. It is still on file, and probably will not be reached until some new man is assigned to its consideration.

In another case an allowance was made to a son who paid his mother's funeral expenses; after a patient labor of nearly two years, after no little expenditure of time and money, and frequent correspondence, he was paid a little over eleven dollars, in March last. Judge of his surprise when he received a few days since a letter addressed to the "heirs" of his mother, giving extracts from the law and calling attention to the fact that the sum due to his deceased mother could be collected under the law! A good illustration of the inefficiency of the Pension office is here seen; a claim allowed and paid, and which of course should have been properly docketed and recorded, is invited to be again made, and possibly paid, while a claim existing since 1878 and to which attention is repeatedly called, remains in that state of masterly inactivity for which the business of this office is so notorious. Any change in this department must be for the better.

Zora Burns, a young girl who formerly worked as a domestic in the family of Orrin A. Carpenter, the most wealthy and prominent resident of Lincoln, Ill., was found dead in the outskirts of the city over a week ago, with her throat cut from ear to ear, her skull crushed in, and her arms and body bearing evidence of a desperate struggle. For some days the tragedy was a mystery, but discoveries have been made leading to the arrest of Carpenter as the murderer. The evidence is to the effect that he ruined the girl, and killed her to get her out of the way. He has a wife and two daughters.

The democratic state committee of Massachusetts on Saturday nominated S. A. B. Abbott of Boston as their candidate for lieutenant governor on the Butler ticket. Hon. Frederick O. Prince positively refusing to run.

Concerning the trichinosis attack at Ermslaben, Prussian Saxony, it is said there are about 270 cases, only fifty houses out of 134 being free from it; twenty-three persons have died, and many others are fatally ill.

A construction train on the Terre Aux Boeuf railroad of Texas jumped the track Friday, and ten men were wounded, three fatally.

—"No," said the tramp. "I shan't apply for charity at that house. There's a load of coal outside waiting to be put in."

The body of the boy Daniel Cousens, son of Nathaniel Cousens of Biddeford, who disappeared from his home on Sunday morning, the 7th inst., was found in the canal of the Laconia mill on the 20th. It was supposed when he was first missed that he had fallen into the river.

Herbert Tarbox was born in Hollis in 1862. In 1873, when Herbert was eleven years old, he and a playmate found a turtle near a brook in a meadow at Hollis. On the shell of this turtle Herbert cut in large, clear letters the name of his playfellow, Abe Hodgdon. They then let the turtle go, and the latter soon disappeared in the brook. Last May Herbert died of consumption at his home in Hollis. On the day of the funeral a turtle came into the yard of Capt. Tarbox's house, but attracted little notice until it was found that on the turtle's back, still plainly to be read, was the name Herbert had cut ten years ago—Abe Hodgdon. The turtle stayed about the yard several days, then disappeared, and has not been seen in that locality since.—*Biddeford Times.*

—"Yes," said a fashionable lady, "I think Mary has made a very good match. I hear that her husband is one of the shrewdest and most unprincipled lawyers in the profession, and of course he can afford to gratify her every wish."

—An Australian judge, who could not get a jury to convict a murderer on the plainest evidence that he had sandbagged his victim, upon discharging him, said: "You are discharged. Go and sandbag some of those jurymen; they deserve it."

—A country editor, who hadn't received a letter before for ten days, happened to get two the same day, recently, whereupon he wrote a half column editorial on the great increase of business in the postal department, consequent upon the reduction to two cents.

To the readers of the Chronicle.

The extraordinary statements of Mr. B. F. Larrabee, Rev. E. D. Hopkins, Dr. Dio Lewis, Dr. R. A. Gunn, Seth Green and other prominent men that have appeared in these columns in the past, have not only attracted much attention but awakened doubts in the minds of some as to their genuineness. They were, however, correct in every particular as the following local statements amply confirm:

PORTSMOUTH, N. H.—For twenty-four years I was conductor on the Northern New Hampshire Railroad, and there contracted kidney and liver disease, resulting in non-retention of urine. I was often compelled to arise in the night five or ten times to void urine and my back pained me greatly. After taking a few bottles of Warner's SAFE CURE I felt like a new man, as my urinary organs performed their natural functions.

[Signed] GEORGE F. BEAN, 27 Cabot St.

PORTSMOUTH, N. H.—I have taken 7 bottles of Warner's SAFE CURE for sciatic rheumatism and kidney complaint. When I first began taking Warner's SAFE CURE I could, with difficulty, raise my right leg. I could not lie on either side in bed; but had to lie flat on my back. I can now lie on either side and can walk without limping. I consider Warner's SAFE CURE an unsurpassed remedy, and am willing everyone should know what it has done for me.

Remarkable Cure of Scrofulous Face.

WESTBROOKFIELD, CONN., June 13, 1879.

MR. H. R. STEVENS—Dear Sir: I can testify to the good effect of your MEDICINE. My little boy had a SCROFULOUS SORE break out on his head as large as a quarter of a dollar, and it went down his face from one ear to the other, under his neck, and was one solid mass of sores. Two bottles of your valuable VEGETINE completely cured him. Very respectfully,

MRS. G. R. THATCHER.

SUPREME COURT.

MONDAY, Oct. 22d.

The court came in at 11 o'clock. The forenoon was occupied by the reading of the new docket, on which there are 117 cases, three or four of which were marked for trial by jury, while the most of them will be tried by the court.

Patrick Pier, guilty under tramp law; plea accepted; sentence 6 months in jail and costs.

Theodore F. Ossie, indicted for an assault with intent to commit rape. Plea, guilty of an aggravated assault; plea accepted. Letters from Gloucester as to the previous good character of the defendant were read, also one from the City Marshal of that town, as evidence that he had never been arrested in that town. The Judge, in consideration of the fact that this was his first offence, and the above letters, gave him only a light sentence, 3 months in jail and costs.

The case of State vs. Charles Gilbert for assault on George Laskey, was taken up. Solicitor Eastman for the State, Samuel W. Emery for the defence.

NEW CHURCH ORGAN.

The new organ for the Church of the Immaculate Conception has arrived, and workmen on Monday commenced setting it up; it is said to be one of the largest and finest in the city. On Friday evening, the 26th inst., commencing at 7:30 o'clock, there will be a solemn service, with an address by Rev. Father O'Callaghan, the pastor. Prof. J. L. Gilbert of East Cambridge, Mass., an eminent musical composer and organist, will preside at the organ during the service. Cards of admission at fifty cents each, can be procured of members of the choir previous to Friday evening, and at the church doors on that evening. The proceeds will go to the organ fund.

MARINE DISASTERS.

The schooner William B. Darling, coal laden, in attempting to make this harbor shortly after midnight, Saturday night, struck on the Western Sisters and became a total loss, going entirely to pieces before sunrise. The crew, five men all told, were just able to escape with what they stood in, and pulled to Kittery Point, where they were kindly cared for. The schooner was built at Patchogue, N. Y., in 1851, and was owned by Nathan Hopkins of Bangor, Me.; she registered 114.92 tons, and had on board 190 tons of coal when she struck. She was bound from New York for Bangor.

A heavy northeast squall struck the fishing fleet off Provincetown, Mass., on the night of the 20th inst., and a number of the vessels are reported as having lost seine boats and dories. The W. H. Y. Hacket of this port lost a seine boat, seine and four men; but the men were picked up by the schooner Moro Castle. The schooner Helen M. Crosby, of Gloucester, lost a seine boat, seine and eight men, and up to six o'clock in the evening on the 21st nothing had been heard from them, though it was still hoped they had been picked up by some one of the vessels anchored outside. The schooner Lucy L. Day ran into a fish weir, damaged it about $600 worth, and could not get out until a steamboat went to her aid next morning. It is reported that the schooner Albert Woodbury, of this port, was one of the vessels caught in the squall, but escaped with a split foresail.

A LONG PASTORATE.

Dr. Samuel Spalding, D. D., has resigned the pastorate of the Whitfield Congregational church in Newburyport. Dr. Spalding was graduated at Dartmouth college in 1842, and at Andover Theological seminary in 1846. In October, '46, he was ordained pastor of a church in Salmon Falls, where he remained until he was called to the Whitfield church in June, 1851. He has been pastor of this church ever since, (retaining his pastorate during his service as chaplain in Col. E. F. Stone's 48th Regt. of the Mass. Volunteers in the late war,) though he has received calls to other parishes. Dr. Spalding is to remain in Newburyport and devote his energies to active pursuits, and as the *Herald* remarks, "Newburyport will not lose him as a citizen, or from the society of which Doctor and Mrs. Spalding are centres of attraction to the best intelligence and culture." Mrs. Spalding is a daughter of the late Edmund Toppan of Hampton, and a sister of Hon. Christopher S. Toppan, late of this city.

GOSSIPS SAY

That the schooner Darling which went on the Western Sisters at one o'clock Sunday morning, had entirely broken up and disappeared by daylight of that day, a portion of the wreckage finally lodging on White Island.

That the crew, four in number, barely had time to escape, and as it was, their boat was nearly filled and themselves drenched to the skin by the heavy seas that broke over the vessel.

That the shipwrecked crew were taken in and cared for by Solon Frisbee at Kittery Point.

That nearly three hundred nets are set between Horn and White islands, at the mouth of this harbor, trapping herring in immense quantities.

That during the heavy blow Saturday night the nets became almost inextricably mixed up, and large gangs of men were at work all day Sunday, on the Gerrish island beaches, clearing up the tangled mesh.

That the very heavy easterly weather of the last few days has piled up along the beaches immense piles of kelp, and the neighboring farmers are assiduously removing it to their farms.

That the Children's Home in the Bilbruck house will be shortly given up, the children going into the Chase Home, lately remodelled and refitted.

That there is a movement on foot among the philanthropic and wealthy ladies of the city to establish a seamen's hospital in the Bilbruck house, there being urgent need for such an institution in our city.

That more than fifty sailors required treatment at the hands of the port surgeon last year, and most of them were left here and had to be boarded in private families in this city.

That the beautiful oil painting, a portrait of the son of Ex-Gov. Rice of Massachusetts, on exhibition in Montgomery's art store during the past week, was from the brush of a talented young lady of this city, daughter of a retired sea captain.

That Mr. Michael Crowley leaves the city this morning for a six weeks trip through the southern and western states.

AFFAIRS IN KITTERY.

NORTH KITTERY, Oct. 22d.

John Rogers in two days last week planted fifty-two thousand four hundred tulip bulbs, and two thousand lilies, besides preparing the ground for the same. Mr. Roger's sons are running their cider mill full force; they are using a yoke of steers instead of a horse to grind with, and find that they work to good advantage, although at first they acted a little queer; they have a large amount of apples of their own to grind, which they intend to convert into vinegar. Their farm products have turned out well; they have raised 210 bushels of Clark's No. 1 and Late Rose potatoes, from 5,000 hills; their corn crop was excellent, and they have about twenty-five bushels of improved sweet corn which they intend to dispose of in the spring for seed, and which is about as handsome an article as is generally found.

John Goodsoe has a yoke of three-year-old steers which he raised, that girth over six feet.

Parties from out of town have been buying apples the past week, paying at the rate of three dollars a barrel, delivered at the depot.

Quite an interest is being manifested at the First Methodist Episcopal church; meetings have been held there nightly for the past two weeks. This week they will be held at the Second Methodist church, at the village.

W. W. McIntire of Portsmouth, while returning from a trip in Kittery on Wednesday afternoon, the 17th inst., was thrown from his bicycle by the breaking of the spring under the seat,—the first tumble he has ever got from the machine. He received a severe sprain of the left wrist and some slight bruises, and was obliged to walk home, a distance of about three miles, trundling the bicycle.

SUB ROSA.

Messrs. Bailey & Adams are caulking the ship Guard.

The schooner Clara E. Simpson has been recaulked outside, and had some carpenter work done on her, at Kelly's shipyard in East Boston.

Mr. John W. Johnson left this city Monday morning for Florida, whither he goes on a prospecting tour with a view of settling there with his family, if the country proves sufficiently inviting. His objective point is about forty miles inland from Jacksonville.

The ship Grandee, Capt. Jacobs, has been chartered to load at Manila for New York, 900 tons of sugar at $9 per twenty cwt., and balance of cargo hemp at $7 per four bales.

Dr. L. A. Johnson and family will start Wednesday for Hot Springs, Ark., where they will make an extended stay.

Alderman Janvrin is repairing Charles E. Brackett's house on South street, and a new story is being added.

There must be expectations of some cider being made this season in the neighboring country, for store No. 54 Water street has just received an invoice of fifty empty liquor barrels.

The Best Baking Powder.

The best baking powder is made from pure Cream of Tartar, Bicarbonate of Soda, and a small quanity of flour or starch. Frequently other ingredients are used, and serve a purpose in reducing the cost and increasing the profits of the manufacturer.

We give the Government Chemist's analyses of two of the leading baking powders:

I have examined samples of "Cleveland's Superior Baking Powder," manufactured at Albany, N. Y., and "Royal Baking Powder," both purchased by myself in this city, and I find they contain:

"Cleveland's Superior Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Flour.

Available carbonic acid gas 12.61 per cent, equivalent to 118.2 cubic inches of gas per oz. of Powder.

"Royal Baking Powder."

Cream of Tartar,
Bicarbonate of Soda,
Carbonate of Ammonia,
Tartaric Acid,
Starch.

Available carbonic acid gas 12.40 per cent, equivalent to 116.2 cubic inches of gas per oz. of Powder.

Ammonia gas 0.43 per cent, equivalent to 10.4 cubic inches per oz. of Powder.

NOTE.—The Tartaric acid was doubtless introduced as free acid, but subsequently combined with ammonia, and exists in the Powder as a Tartrate of Ammonia. E. G. LOVE, Ph. D.

NEW YORK, Jan'y 17th, 1881.

The above analyses indicate a preference for "Cleveland's Superior Baking Powder," and our opinion is that it is the better preparation.—*Hall's Journal of Health.*

MANHOOD

KNOW THYSELF.

A Book for Every Man!

Young, Middle-aged and Old.

THE untold miseries that result from indiscretion in early life may be alleviated and cured. Those who doubt these assertions should purchase the new medical work just published by the PEABODY MEDICAL INSTITUTE, Boston, entitled THE SCIENCE OF LIFE OR, SELF-PRESERVATION. Exhausted vitality, nervous and Physical debility, premature decline of man, or vitality impaired by the errors of youth, or too-close application to business, may be restored and manhood regained.

25th edition, revised and enlarged, just published. It is a standard medical work, the best in the English language, written by a physician of great experience, to whom was awarded a gold and jewelled medal by the National Medical Association. It contains beautiful and very expensive engravings. 300 pages, more than 125 valuable prescriptions for all forms of diseases, acute and chronic, the result of many years of extensive and successful practice, either one of which is worth ten times the price of the book. Bound in beautiful French cloth, embossed, full gilt. Price only $1 25; by mail, postpaid, on receipt of price. Illustrated sample six cents. Send now.

THE SCIENCE OF LIFE; OR, SELF-PRESERVATION.

is beyond all comparison the most extraordinary work on Physiology ever published. There is nothing whatever that the married or single can either require or wish to know but what is fully explained.—[London Lancet.

THE SCIENCE OF LIFE; OR SELF-PRESERVATION,

is a marvel of art and beauty, warranted to be a better medical book in every sense than can be obtained elsewhere for double the price, or the money will be refunded in every instance.—[Author.

N. B.—YOUNG and MIDDLE AGED MEN can save much time, suffering and expense by reading the Science of Life, or conferring with the author who may be consulted on all diseases requiring skill and experience. Address

THE

New Hampshire GAZETTE!

Established 1756.

THE GAZETTE IS PUBLISHED EVERY THURSDAY AND SENT TO SUBSCRIBERS AT THE LOW PRICE OF $1.50 PER YEAR, PAID IN ADVANCE, OR $2 AT THE END OF THE YEAR.

It contains full accounts of all of importance that transpires in Portsmouth and its vicinity, and a condensed summary of news, foreign and domestic; editorials upon current topics; New Hampshire items; carefully prepared marine news, containing reports of vessels owned at this port, or offered by men from Portsmouth or its neighborhood; and is just the paper for residents desiring to be posted on all that takes place at home, while to those living in the vicinity of Portsmouth, or to former residents who retain their interest in the "old home by the sea," it is the best means of keeping informed of what transpires at their native city, and it

CONTAINS MORE ORIGINAL MATTER THAN ANY OTHER PAPER OF ITS SIZE IN THE STATE, THE EDITORS WORKING MORE WITH THEIR PENS THAN WITH THEIR SCISSORS.

— THE —

New Hampshire Gazette!

TO ADVERTISERS

Presents an excellent opportunity for a weekly invitation to customers, at a reasonable rate, and all desiring to reach patrons in Rockingham and York counties will find it an economical medium. The Gazette is in many instances the only paper taken by families, and it is read to a large extent in localities whence is derived much of the trade of Portsmouth, a fact which our merchants should not fail to bear in mind.

That poor bedridden, invalid wife, sister, mother, or daughter, can be made the picture of health by a few bottles of Hop Bitters. Will you let them suffer? when so easily cured!

An attempt to wreck the Worcester train was made in Providence, R. I., Saturday evening. A sleeper secured on the track was discovered by a freight train on another track, and the danger signal was given. The train struck the obstruction, but not with sufficient force to cause serious damage.

I have sold at retail in four months over 12 dozen S. S. S. and have watched its effects very closely, and to every one who has used it it has given entire satisfaction. I have seen it used in the primary, in the secondary and in the tertiary stages, and in each with the most wonderful effect. I have seen it stop the hair from falling out in a very short time. I advise all sufferers to take it and be cured. W. H. PATTERSON, Druggist, Dallas, Texas.

RUPTURE

Relieved and cured by Dr. J. A. SHERMAN's method, without regard to age or duration of the affliction, or the injury trusses inflict, or hindrance from labor, and with security from strangulation, of which, according to statistics, not less than 30,000 died during the past year. No one is safe who has a rupture and depends upon a truss; both are a physical and mental tax; bring on kidney, bladder and other organic diseases, which affect general health more than age or labor, besides affecting manhood and destroying all incentives to social pleasure. Patients from abroad can receive treatment and leave for home same day. Dr. Sherman's Book, with indorsements of Physicians, Merchants, Farmers and others who have been cured mailed for 10c. Pamphlet of photographs of bad cases, 25c. by express. Principal office, 251 Broadway, N. Y.; days of consultation each week, Mondays, Tuesdays and Saturdays. SCROFULA

and all scrofulous diseases, Sores, Erysipelas, Eczema, Blotches, Ringworm, Tumors, Carbuncles, Boils, and Eruptions of the Skin, are the direct result of an impure state of the blood.

To cure these diseases the blood must be purified, and restored to a healthy and natural condition. AYER'S SARSAPARILLA has for over forty years been recognized by eminent medical authorities as the most powerful blood purifier in existence. It frees the system from all foul humors, enriches and strengthens the blood, removes all traces of mercurial treatment, and proves itself a complete master of all scrofulous diseases.

A Recent Cure of Scrofulous Sores.

"Some months ago I was troubled with scrofulous sores (ulcers) on my legs. The limbs were badly swollen and inflamed, and the sores discharged large quantities of offensive matter. Every remedy I tried failed, until I used AYER'S SARSAPARILLA, of which I have now taken three bottles, with the result that the sores are healed, and my general health greatly improved. I feel very grateful for the good your medicine has done me.

Yours respectfully, MRS. ANN O'BRIAN."

148 Sullivan St., New York, June 24, 1882.

All persons interested are invited to call on Mrs. O'Brian; also upon the Rev. Z. F. Wilds of 78 East 54th Street, New York City, who will take pleasure in testifying to the wonderful efficacy of Ayer's Sarsaparilla, not only in the cure of this lady, but in his own case and many others within his knowledge.

The well-known *writer on the Boston Herald*, B. W. BALL, of *Rochester, N.H.*, writes, June 7, 1882:

"Having suffered severely for some years with Eczema, and having failed to find relief from other remedies, I have made use, during the past three months, of AYER'S SARSAPARILLA, which has effected a complete cure. I consider it a magnificent remedy for all blood diseases."

Ayer's Sarsaparilla

stimulates and regulates the action of the digestive and assimilative organs, renews and strengthens the vital forces, and speedily cures Rheumatism, Neuralgia, Rheumatic Gout, Catarrh, General Debility, and all diseases arising from an impoverished or corrupted condition of the blood, and a weakened vitality.

It is incomparably the cheapest blood medicine, on account of its concentrated strength, and great power over disease.

Mr. Varnum H. Flagg visited the market at Brighton, Mass., Oct. 17th, and bought seven new milch cows. When you suffer from dyspepsia, heartburn, malarial affections, kidney disease, liver complaint and other wasting diseases. When you wish to enrich the blood and purify the system generally. When you wish to remove all feeling of weakness, weariness, lack of energy, try a bottle of Brown's Iron Bitters and see how greatly it will benefit you. It surpasses all known remedies as an enricher of the blood and a perfect regulater of the various bodily functions. Ask your druggist.

We do not hesitate to say that for a year past we have sold more of Swift's Specific (S. S. S.) than all other blood purifiers combined, and with most astonishing results. Another who has used it for a Scrofulous affection reports a permanent cure from its use.

—"Yes," said a fashionable lady, "I think Mary has made a very good match. I hear that her husband is one of the shrewdest and most unprincipled lawyers in the profession, and of course he can afford to gratify her every wish."

A Druggist Says.

Marvin C. Brown, Druggist, Meredith Village, N. H., says: I have sold your Sulphur Bitters for years, and, contrary to most medicines, I never sold a bottle to any one who said it did him help them. They cured me of those terrible sick headaches when every remedy failed.

Extreme Tired Feeling.

A lady tells us "the first bottle has done my daughter a great deal of good, her food does not distress her now, nor does she suffer from that extreme tired feeling which she did before taking Hood's Sarsaparilla." A second bottle effected a cure. No other preparation contains such a concentration of vitalizing, enriching, purifying and invigorating properties as Hood's Sarsaparilla.

GENTS—Whoever you are, I don't know but I thank the Lord and feel grateful to you to know that in this world of adulterated medicines there is one compound that proves and does all it advertises to do and more. Four years ago I had a slight shock of palsy, which unnerved me to such an extent that the least excitement would make me shake like the ague. Last May I was induced to try Hop Bitters. I used one bottle, but did not see any change; another did so change my nerves that they are now as steady as they ever were. It used to take both hands to write, but now my good right hand writes this. Now, if you continue to manufacture as honest and good an article as you do, you will accumulate an honest fortune, and confer the greatest blessing on your fellow-men that was ever conferred on mankind. TIM BURCH.

—"Now, then, witness," said the cross-examining counsel, sternly, "does the preceding witness enjoy your entire confidence?" "Great Scott, no! Why, that's my wife!"

To the readers of the Chronicle.

The extraordinary statements of Mr. B. F. Larrabee, Rev. E. D. Hopkins, Dr. Dio Lewis, Dr. R. A. Gunn, Seth Green and other prominent men that have appeared in these columns in the past, have not only attracted much attention but awakened doubts in the minds of some as to their genuineness. They were, however, correct in every particular as the following local statements amply confirm:

PORTSMOUTH, N. H.—For twenty-four years I was conductor on the Northern New Hampshire Railroad, and there contracted kidney and liver disease, resulting in non-retention of urine. I was often compelled to arise in the night five or ten times to void urine and my back pained me greatly. After taking a few bottles of Warner's SAFE CURE I felt like a new man, as my urinary organs performed their natural functions.

[Signed] GEORGE F. BEAN, 27 Cabot St.

PORTSMOUTH, N. H.—I have taken 7 bottles of Warner's SAFE CURE for sciatic rheumatism and kidney complaint. When I first began taking Warner's SAFE CURE I could, with difficulty, raise my right leg. I could not lie on either side in bed, but had to lie flat on my back. I can now lie on either side and can walk without limping. I consider Warner's SAFE CURE an unsurpassed remedy, and am willing everyone should know what it has done for me.

MEDICAL.

MR. E. MARTIN,

In Porters' Department of the U. S. Armory, Springfield, Mass.—Interesting Statement of his Suffering.

Here are plain facts from a most reliable source. Your reporter found Mr. Martin in Porter's department of the United States Armory, Springfield, Mass. After being introduced, Mr. Martin said: "I am willing to say what I can for the benefit of those afflicted as I have been. For years I have been a terrible sufferer from kidney and bladder difficulties. Mine being of the calculus or stony form. I have visited all the mineral springs whose waters have been recommended to me by the best medical authorities. I have tried every known remedy, and have submitted to several operations, and have tried everything that money could obtain, in the way of relief, but I find that Dr. Kennedy's FAVORITE REMEDY is the best medicine of all my experience—I have received more benefit from it. It is certainly a wonderful medicine for diseases of this kind. I have recommend FAVORITE REMEDY to others in the city of Springfield whom I knew to have suffered from Kidney and Liver complains; and, I assure the public, that the FAVORITE REMEDY has done its work with a similar completeness in every single instance, and I trust some other sick and discouraged mortal may hear of it and try the 'Favorite Remedy' as I did."

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it can not help, it does not harm. FAVORITE REMEDY is a combination of vegetable alteratives. It does not heat nor inflame the blood, but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements that afflict women, the action of FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business documents and certificates never possess.

MISCELLANEOUS.

NEW ORLEANS, August 1, 1883.

TO THE PUBLIC!

Investigate [for Yourselves!

Postmaster General Gresham having published a grossly unjust statement in regard to the character of The Louisiana State Lottery Company, the following facts are given to the public to prove his statement, that we are engaged in a fraudulent business, to be false and untrue:

Amount of prizes paid by The Louisiana State Lottery Company from January 1, 1879, to present date:

Paid to Southern Express Co., New Orleans, J. M. Wescott, Manager	$1,366,300
Paid to Louisiana National Bank, Jos. H. Oglesby, President	463,900
Paid to State National Bank, S. H. Kennedy, President	125,100
Paid to New Orleans National Bank, A. Baldwin, President	88,550
Paid to Union National Bank, S. Charlaron, Cashier	64,450
Paid to Citizens' Bank, E. L. Carriere, President	57,000
Paid to Germania National Bank, Jules Hyman, President	30,000
Paid to Hibernia National Bank, Chas. Palfrey, Cashier	37,000
Paid to Canal Bank, Ed. Toby, Cashier	11,150
Paid to Mutual National Bank, Jos. Mitchel, Cashier	8,200
Total paid as above	$2,253,650
Paid in sums of under $1,000 at the various offices of the Company throughout the United States	2,627,410
Total paid by all	$4,881,060

For the truth of the above facts we refer the public to the officers of the above-named corporations, and for our legality and standing to the Mayor and Officers of the City of New Orleans, to the State authorities of Louisiana, and also to the U. S. Officials of Louisiana. We claim to be legal, honest and correct in all our transactions, as much so as any business in the country. Our standing is conceded by all who will investigate, and our stock has for years been sold at our Board of Brokers, and owned by many of our best known and respected citizens.

M. A. DAUPHIN, *President.*

CAPITAL PRIZE, $75,000.

Tickets only $5. Shares in proportion.

The Breakfast Bell.

The breakfast bell salutes my ear:
Its cheerful tones ring loud and clear.
For me it used to sound in vain,
So great was my dyspeptic pain.

Pain Killer came to my relief
And banished my dyspeptic grief.
Pain Killer made me strong and well
And now I'm glad to hear the breakfast bell.

Horace Adams of Lake Village died at Mazatlan, Mexico, of yellow fever, recently.

Dr. M. T. Gamble, Farmington, Ill., says: "I prescribe Brown's Iron Bitters in my practice and they give satisfaction."

Katie Parkinson, aged seven years, fell from a wagon containing a heavy load of lumber, in Concord on the 22d inst., and a wheel passed over her head, inflicting fatal injuries.

An elastic step, buoyant spirits, and clear complexion, are among the many desirable results of pure blood. The possessor of healthy blood has his faculties at command, and enjoys a clear and quick perception, which is impossible when the blood is heavy and sluggish with impurities. Ayer's Sarsaparilla is the best blood purifier and vitalizer known.

An Exeter lady recently received a letter which was mailed in Washington, D. C., four years and nine months ago, and which has been that length of time in reaching her.

A Whole Shop Full.

A druggist holding up a bottle of St. Jacobs Oil said: "It holds more pain-cure than all the rest of my shop."

The following good answer to a question in geography is going the rounds of the press: When a Franklin school ma'am asked a pupil "Where does the Merrimack river rise?" the reply was "Down back of Warren Daniell's barn."

A despatch has been received by friends at Franklin announcing that Stephen B. Kenrick of that place, manager of the Wisconsin railroad, had been stricken with paralysis at Green Bay.

G. O. Taylor Old Bourbon.

This favorite brand of pure Whiskey is bottled only by Chester H. Graves & Sons, 35 Hawkins St., Boston, Possessing ample capital, this firm does not put this brand of their best and purest goods until it has become mellowed by age. They control the entire production of this brand, and allow no adulteration whatever. It is a pure Whiskey, and as such can be prescribed by doctors or purchased for domestic use from Druggists and Grocers everywhere.

By the fall of a wall at a fire in Middleville, near Grand Rapids, Mich., Oct. 21st, three men were killed and another fatally injured.

Sweet Bouquet cigarettes eclipse all others in delicacy and purity. Try them and judge for yourself.

Mrs. Carey, the wife of the late James Carey, will receive from the British government a weekly allowance of £4 10s. for herself and family until the conclusion of the trial of O'Donnell. She has been prohibited from confiding in interviewers.

Within the past year we have handled about twenty gross Swift's Specific. It is one of the most popular remedies we have in our house, sells rapidly, and gives general satisfaction. In this section many physicians have endorsed it as a specific for the diseases it proposes to cure. S. MANSFIELD & Co., Druggists, Mansfield, Tenn.

Daniel Lucy, bailiff to Mr. Massey, has been found dangerously wounded on Mushera mountain, in a wild district near Macroom, County Cork, Ireland, This is supposed to be an agrarian outrage.

Lord Chesterfield, the pink of politeness in his day, said that a true gentleman should be always *suaviter in modo, fortiter in re*, which means, mild in manner, strong in action. This is precisely the character of Ayer's Cathartic Pills. Nothing operates so mildly and yet so powerfully in removing disease.

Portsmouth Chronicle.

WEDNESDAY, OCTOBER 24, 1883.

[Entered at the Post-Office at Portsmouth, N. H. as second-class matter.]

☞ Copies of the GAZETTE and of the DAILY CHRONICLE can be had of Moses Brothers, at their Newspaper Store in Congress Block.

In a case against the Boston, Concord & Montreal railroad decided in the Supreme court of Vermont, the plaintiff averred that the railroad received him into its cars to transport safely, for hire, and that by its negligence he was injured. The defendant pleaded in bar that the plaintiff was riding on a free ticket, and assumed all risk of accident; but the court held that this was a bad plea, and could not be sustained.

The supreme court of Wisconsin has decided that when a witness in court uses the word "beer," the court will take judicial notice that it means a malt and intoxicating drink. Such meaning is a presumption of fact. Webster defines beer as "a fermented liquor made from malted grain with hops and other bitter flavoring matter," and it is *prima facie* proof that it is malt or intoxicating liquor that is meant. Witnesses cannot be too careful of its use.

Our Daily Bread.

Heavy and sour bread or biscuit have a vast influence through the digestive organs upon the measure of health we enjoy. How important to our present happiness and future usefulness the blessing of good health and a sound constitution are, we can only realize when we have lost them, and when it is too late to repair the damage. And yet, notwithstanding these facts, thousands of persons in our own city daily jeopardize not only their health, but their lives, and the healths and lives of others, by using articles in the preparation of their food the purity and healthfulness of which they know nothing. Perhaps a few cents may have been saved, or it may have been more convenient to obtain the articles used, and the housekeeper has the responsibility and possibly will never know the mischief that has been wrought. Pater familias may have spells of headache, Johnny may lose his appetite, Susie may look pale; if so, the true cause is rarely suspected. The weather, the lack of out-door air, or some other cause is given, and the unwholesome, poisonous system of adulterated food goes on. Next to the flour, which should be made of good, sound wheat and not ground too fine, the yeast or baking powder, which furnishes the rising properties, is of the greatest importance, and of the two we prefer baking powder, and *always use the Royal*, as we thereby retain the original properties of the wheat, no fermentation taking place. The action of the Royal Baking Powder upon the dough is simply to swell it and form little cells through every part. These cells are filled with carbonic acid gas, which passes off during the process of baking.

The royal is made from pure grape acid, and it is the action of this acid upon highly carbonized bicarbonate of soda that generates the gas alluded to; and these ingredients are so pure and so perfectly fitted, tested and adapted to each other, that the action is mild and permanent, and is continued during the whole time of baking, and no residue of poisonous ingredients remains to undermine the health, as heavy biscuits, no sour bread, but if directions are followed, every article prepared with the Royal Baking Powder will be found sweet and wholesome.

The Works of Ralph Waldo Emerson. Riverside Edition. In eleven volumes, 12mo, price $1.75 a volume.

Messrs. Houghton, Mifflin and Company are publishing an entirely new library edition of the works of Mr. Emerson. It comprises eleven volumes, printed from new electrotype plates, and includes the prose and poetical writings of Mr. Emerson hitherto published in book form, and, in addition, two new volumes of essays, lectures and speeches, prepared for publication, in accordance with the terms of Mr. Emerson's will, by his literary executor, Mr. J. Elliot Cabot.

Of the literary value of these works it is needless to speak. Wherever the English language is known, Mr. Emerson's works are recognized as among the noblest, the most elevated, the most suggestive, and the most helpful books ever written. The depth and purity of his thoughts, his almost unequalled power of lucid expression, and the rare moral tone which pervades all that he wrote, give to his works a value seldom if ever surpassed in the world's literature.

The best readers admire him most: poets find in him a profound poetic insight which compels their admiration; scientists like Mr. Tyndall are kindled into eloquence by the force of his genius, which recognized the laws and processes of nature as divine, illumined them with moral analogies, and deduced from them the sublimest practical truths.

The order of the volumes in this edition will be as follows:

1. Nature, Addresses, and Lectures. (Heretofore known as "Miscellanies.")
2. Essays. First Series.
3. Essays. Second Series.
4. Representative Men.
5. English Traits.
6. Conduct of Life.
7. Society and Solitude.
8. Letters and Social Aims.
9. Poems.
10. Lectures & Biographical Sketches. (A new volume.)
11. Miscellanies. (A new volume.)

Two new portraits of Mr. Emerson will appear in this edition, one of them an etching by Schoff, from an early portrait taken in England, and the other a steel engraving by Wilcox, from a late photograph. No library will be regarded as even begun to be planned without these valuable works.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhœa, regulates the stomach and bowels, cures wind colic softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. eod(jan9,84.

Martha Livingston's Investment.

Mrs. Martha Livingston, a thrifty colored woman, was seen Green before Charles Livingston married her in New Orleans, La., some ten years ago. They went to Morgan City; there he successfully commenced dealing in mules on a small scale, and about three years ago opened a general merchandise establishment. She put her money away, and invested one dollar in one-fifth of ticket No. 69,519, in the September drawing (the 16 th) of The Louisiana State Lottery, by writing to M. A. Dauphin, New Orleans, La., and received $15,000 cash, which she invested in U. S. Registered Bonds.—*N. O. Picayune, Sept. 20th.*

Emory's Little Cathartic is the best and only reliable Liver Pill known, never fails with the most obsdinate cases, purely vegetable—25 cents.

Young Men, Middle Aged Men and All Men who suffer from early indiscretions will find Allen's Brain Food the most powerful Invigorant ever introduced; once restored by it there is no relapse. Try it; it never fails. $1.0 for $5.—At Druggists.

James Riley of Georgetown, Mass., with two companions, went to Haverhill on Saturday, and missing the train started to walk home on the Boston & Maine railroad track in the evening. Two miles from the city Riley fell into a culvert, a distance of fifteen feet, injuring his head. The other two went home, returned Sunday morning, and found Riley dead. It is hardly necessary to add that all three of the men were drunk.

Lord Rossmore, as grand master of the Orangemen of Monaghan, Ireland, has written to the newspapers calling attention to the serious state of affairs in Ulster. He says that henceforth the self restraint of Orangemen cannot be reckoned upon; that only the utmost efforts of himself and leaders prevented the Orangemen from storming the hall at Rosslea during the recent Parnellite meeting. If the government, he says, allows such disloyal meetings to continue in Ulster the result will be bloodshed and perhaps civil war.

COPY'S U. S. SALARY LIST AND CIVIL SERVICE RULES.—Our many readers will welcome the solid information contained in the 160 pages of this recently-issued book. It is prepared by Henry N. Copp, a lawyer of Washington, D. C. All the Government salaries are given from President Arthur's $50,000 to postmasters with $500, officials of the Treasury, Interior, War and Navy Departments, Custom Houses, post offices, and fully 20,000 federal offices arranged by States and Territories. Specimen examination questions for admittance to the Civil Service throughout the country are added. The price of the book is only 35 cents. Every young man and woman who has not decided upon a calling in life needs this publication. The government offers lucrative and honorable employment Every citizen who expects his Senator or Representative to offer him a government position, by possessing this manual can decide at once whether to accept or decline the offer. It may save candidates from declining fat offices through wrong information. Should the Democratic party carry the next presidential election, every democrat in the country would want this book without a doubt. Politicians alone have heretofore held this knowledge. The people now have a chance to learn into whose pockets their money goes, and how the nation's income is expended.

Mr. Horace Whitney died at his home in Cambridge, Mass., on the night of the 19th inst., at the age of seventy-five years. He was in business in Dover, N. H., from 1835 to 1865, and organized the Dover Stamping Co. of Boston, of which he was president at the time of his death. He was a native of Kennebunk.

MEDICAL.

WE DO NOT CLAIM
that HOOD'S SARSAPARILLA will cure everything, but the fact that on the purity and vitality of the blood depend the vigor and health of the whole system, and that disease of various kinds is often only the sign that nature is trying to remove the disturbing cause, we naturally led to the conclusion that a remedy that gives life and vigor to the blood, eradicates scrofula and other impurities from it, as HOOD'S SARSAPARILLA undoubtedly does, must be the means of preventing many diseases that would occur without its use; hence the field of its usefulness is quite an extended one, and we are warranted in recommending it for all derangements of the system which are caused by an unnatural state of the blood.

Why Suffer with Salt-Rheum?

MESSRS. C. I. HOOD & Co., Lowell, Mass.
Gentlemen—I was a great sufferer from Salt-Rheum on my limbs, for a dozen years previous to the summer of 1876, at which time I was cured by Hood's Sarsaparilla. The skin would become dry, chap, crack open, bleed and itch intensely, so that I could not help scratching, which of course made them worse. At the time I commenced taking Hood's Sarsaparilla (in the summer of 1876) they were so bad that they discharged, and I was obliged to keep them bandaged with linen cloths. The skin was drawn so tight by the heat of the disease that if I stooped over they would crack open and actually bring tears into my eyes. The first bottle benefited me so much that I continued taking it till I was cured. I used one box of Hood's Olive Ointment, to relieve the itching. Hoping many others may learn the value of Hood's Sarsaparilla and receive as much benefit as I have, I am,
Very truly yours,

PILGRIM FATHERS' SOCIABLE.

The first sociable of the season, of Langdon Colony, United Order of Pilgrim Fathers, was held in their hall on Daniel street on Monday evening, and was an entire success. After usual business of the evening, the company were invited to the tables, which were spread with a generous supply of goodies prepared by the ladies of the Colony. After the wants of the inner man were satisfied, the assemblage came to order and had the pleasure of hearing a beautiful song by Miss Etta Perry, with organ accompaniment by Miss Reese, which was rendered with fine effect, and was followed by appropriate remarks by Pilgrims H. A. Martin, M. M. Collis and James Janvrin, and readings by a member of the Colony, which received hearty applause. The evening's enjoyment closed with songs in which all present joined, and the company went home satisfied with the entertainment. C.

THE YORK BRIDGES.

Our York correspondent recently gave the selectmen of the town a well-merited "roast" in regard to the disgracefully dangerous condition of Sewall's bridge, as was exemplified by its breaking down under an ox-team only a few days after it had been crossed by a four-horse coach loaded down with sixteen passengers and their luggage! One of our York subscribers on Monday informed us that the workmen who are repairing the bridge find it in a very bad state, forty or fifty of the stringers, many of the cross-caps, and much of the planking, being so rotten that the wonder in the matter is that the whole concern did not tumble through long ago of its own weight. He further says that Rice's bridge, on the post road, though perhaps not in so bad a condition as the lower bridge, still needs a good overhauling to make it thorougly safe; and that the upper (Scotland) bridge is also decidedly in need of attention, if risk of dangerous and perhaps costly accident is to be avoided. There is no economy in thus neglecting the bridges, for a single bad accident would cost the town more than would be "saved" in twenty years by such short-sighted parsimony.

THE "GUARD."

There is a large force of men at work on the old ship Guard. She proves to be in a most satisfactory condition. Her lower masts are being retained, and she will be run between New York and Boston as a three-masted schooner; a full suit of sails is being made for her as such, by Thos. S. Gay & Co. It is estimated that she will carry 2000 tons of coal. She is a very valuable acquisition to her present owner.

Mr. Editor: A few weeks ago a petition was presented to his honor the mayor and the board of aldermen, in regard to having that great canvas "Lager Beer" sign on the parade removed from city property, (I believe the beautiful shade trees are city property,) which was referred to the committee on streets. As the sign continues to swing in a conspicuous place, I should say that that august committee had not attended to their duty. With our new street commissioner and the many improvements being made on our highways, perhaps their labors are too cumbersome to admit of their giving their attention to the matter referred to. Therefore I think it would be in keeping to put the matter into the hands of the committee on city lands and buildings, and so on, until *some one of the committees* is found with vim enough to *execute* duties for which the people of Portsmouth elected them to office. OBSERVER.

The ladies of the Pearl street church will give a harvest supper in the church this (Wednesday) evening; ten cents admission, fifteen cents for supper.

Mr. William H. Gardiner, chief clerk in the bureau of education at Washington, is spending a few days in Portsmouth.

The Kansas, one of the former government ships recently sold, is being caulked preparatory to being towed to an eastern port.

The steamer Knickerbocker, a big tugboat, arrived here from Bath on Tuesday, to tow to Rockland one of the old warships lately disposed of by the government.

The north pond was skimmed with ice around the edges and over the flats, and the south pond was skimmed over near the bridge, Tuesday morning.

A movement has been referred to, having for its aim the employment of the Bilbruck house, owned by the Children's Home, as a marine hospital after it is vacated by the children. The intent is not to establish a marine but a *general* hospital, making it also available for the boarding of sick seamen when required.

Mr. Alexander L. Rand, at the north mill, was on Tuesday grinding barley from the Wentworth farm.
